## Missouri Attorney General

**ERIC S. SCHMITT SERVES AS MISSOURI'S 43RD ATTORNEY GENERAL AND CHIEF LAW ENFORCEMENT AND LEGAL OFFICER.**

Eric Schmitt  
Missouri Attorney General

As the chief lawyer for the State of Missouri, my job is to protect each and every one of our six million citizens from crime, abuse and fraud, a responsibility I take very seriously. Our government, the shared responsibility between the citizens of our state and the elected officials, must be a framework that preserves all citizens' rights to life, liberty and pursuit of happiness.

The office of the Missouri Attorney General is required, by law, to collect data on the demographics of the traffic stops made by law enforcement officers from across the state, and to report these findings to the Governor and the public. Importantly, this data can help government and law enforcement determine any issues with disparities related to stops and searches.

This report aggregates the traffic stops data from 590 law enforcement agencies across the state, breaking down the

data as it relates to race, the number of stops, the search rate, contraband hit rate and arrest rates. In 2019, we identified several changes to questions that officers must answer when making a stop that we believe will make future reports more informative. This includes questions relating to the officer's assignment, the residential zip code of the driver stopped and the reason for issuing a citation or warning. This data will provide more context for the data collected and be fully available in the 2021 report.

As we seek to balance the rights of all citizens of our state with the enforcement of the rule of law, and the brave men and women of law enforcement who put their lives on the line every day to protect us, we will continue to improve this report.

# BACKGROUND

Concerns raised by the citizens of Missouri and the Missouri legislature regarding allegations of bias in traffic enforcement prompted the passage of SB 1053 (2000). SB 1053 created Section 590.650, RSMo, which became effective August 28, 2000. This statute created the Vehicle Stops Report and required that the Attorney General's Office collect and report on traffic stops conducted by law enforcement officers across the state of Missouri.

Under § 590.650, RSMo, all peace officers in the state must report specific information, including a driver's race, for each vehicle stop made in the state. Law enforcement agencies must provide their vehicle stops data to the Attorney General by March 1, and the Attorney General must compile the data and report to the Governor, General Assembly, and each law enforcement agency no later than June 1 of each year. The law allows the Governor to withhold state funds from any agency that does not submit its vehicle stops data to the Attorney General by the statutory deadline.

After reviewing analysis of the Vehicle Stops Report (VSR) and conferring with law enforcement leaders across the state in 2019, the Attorney General's Office (AGO) began implementing comprehensive changes to

the VSR. These changes will improve the information collected for the report while allowing for a fundamental shift in the level of analysis possible through the VSR. Three new questions have been added to the report that collect information on officer assignment during the stop, the residential zip code of the stopped driver, and the cause of citations and/or warnings issued to the driver. In addition, other questions have been adjusted for clarity or to improve the value of the data collected by adding new response options.

The most significant change to the VSR is the shift toward collecting disaggregated data from across the state. Currently, agencies only report the aggregate numbers of stops meeting the criteria for each question broken down only by the race and ethnicity of the individual involved in the stop. This reporting framework prevents incident-level analyses that could take into consideration other factors such as driver age, driver sex, and time of stop. Multi-variate analysis of incident-level data will significantly improve VSR analysis. To allow for collection of incident-level data, the AGO moved to implement an optional data collection framework that collects all variables for each stop an agency made during the year, rather than just totals by race for each agency. These changes became effective January 2020 and

implementation efforts across the state are ongoing.

The benefits of these changes are already manifested in the current VSR, which provides more detail and in-depth analyses than previous reports, while still retaining all information contained in previous versions. The value of improving the VSR's data collection framework can be seen in the results found by simply including drivers' jurisdiction residency status on VSR forms. Analysis of Figure 7 in the appendix reveals that, on average, only 35% of traffic stops conducted by Missouri law enforcement agencies involved residents of their jurisdiction. This reveals a significant weakness in the disparity index, a metric historically central to the VSR, since it uses jurisdictions' resident population as a benchmark for expected traffic stop patterns.

The summary of statewide vehicle stops data has been provided by Dr. Jeffrey Milyo, Professor and Chair of the Department of Economics at the University of Missouri in Columbia; and Dr. Brittany Street, Assistant Professor of Economics at the University of Missouri at Columbia.

# STATEWIDE METRICS

This report summarizes traffic stop data from 590 law enforcement agencies in Missouri that reported data for calendar year 2020. Of these, 22 agencies reported no traffic stops during the year. These agencies often contract out traffic enforcement to another agency covering their jurisdictions and focus on other enforcement activities. In total, this report represent 97.7% of the 604 active law enforcement agencies in the state. The statewide data described in this section are also presented in the same manner for each agency in the attached agency reports.

# STATEWIDE METRICS CONTINUED

In 2020, the agencies filing reports recorded 1,162,905 vehicle stops, resulting in 95,501 searches and 44,762 arrests. Table 1 provides summary data on stops, searches, arrests, and citations, broken out by race and ethnic group; this facilitates comparisons across groups and over time using past reports.<sup>1</sup> More detailed data on vehicle stops and outcomes of stops are listed in Tables 4 and 5, located at the end of this report.<sup>2</sup>

The 2020 VSR should be viewed in the context of the COVID-19 pandemic, for example, it is very likely that COVID-19 led to a reduction in traffic stops during 2020 as law enforcement sought to minimize inter-person contact, with implications for the reasons officers did decide to conduct stops and search-

es. COVID-19 also affected the policy threshold for arrests as agencies sought to reduce jail populations to the greatest extent possible. In addition, with stay at home orders in place in many areas of the state, there were simply fewer drivers on the road. Consequently, these factors must be considered when comparing data for 2020 to prior (or future) years. For example, there were almost 24% fewer vehicle stops by police agencies in 2020 compared to the prior year, so that the stop rate per 100 persons – defined as  $(100 \times \text{stops} / \text{2019 population})$  --- decreased from 32.23 in 2019 to 23.82 in 2020. The stop rate for the White population fell from 29.67 to 22.64, and the stop rate for the Black population fell from 57.7 to 38.77. Further, in 2020, there were 7% fewer searches compared to 2019, but

the search rate per 100 stops increased from 6.74 to 8.21. The search rate for the White population increased from 6.74 to 8.30, while the search rate for the Black population fell slightly from 8.86 to 8.55. The total number of arrests declined 40% over the last year; the arrest rate per 100 stops was 4.89 in 2019 and decreased to 3.85 in 2020. The arrest rate for the White population decreased from 4.55 to 3.70, while the arrest rate for the Black population dropped from 6.21 in 2019 to 4.61 in 2020.

<sup>1</sup> Race and ethnicity are recorded based on officer perception at the time of the vehicle stop.

<sup>2</sup> The analysis in the report is based on the aggregated data reported by each agency. Thus, it relies on the assumption of accuracy in the reported data in terms of the tallying of stops and resulting outcomes, the distinction between resident and non-resident drivers, etc.

# TABLE 1: RATES BY RACE FOR MISSOURI

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>							
2019 Population	4,881,733	3,964,827	539,702	170,858	22,504	99,131	143,442
2019 Population %	100	81.22	11.06	3.5	0.46	2.03	2.94
<b>Totals</b>							
All Stops	1,162,905	897,674	209,222	29,711	1,979	10,349	13,970
Resident stops	589,388	475,184	92,097	12,891	768	4,269	4,179
Searches	95,501	74,478	17,882	2,268	137	304	432
Contraband	28,961	20,275	7,547	798	59	119	163
Arrests	44,762	33,230	9,636	1,427	65	174	230
Citations	548,109	393,395	126,937	16,909	817	5,034	5,017
<b>Rates</b>							
Stop Rate	23.82	22.64	38.77	17.39	8.79	10.44	9.74
Stop Rate, Residents	12.07	11.98	17.06	7.54	3.41	4.31	2.91
Search Rate	8.21	8.3	8.55	7.63	6.92	2.94	3.09
Contraband Hit Rate	30.33	27.22	42.2	35.19	43.07	39.14	37.73
Arrest Rate	3.85	3.7	4.61	4.8	3.28	1.68	1.65
Citation Rate	47.13	43.82	60.67	56.91	41.28	48.64	35.91

Notes: The American Community Survey five-year population estimates for ages 16+ as of 2019 are used for Missouri. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the 2019 race percentages above.

Stop rate = (stops / 2019 population) X 100.

Stop rate, residents only = (stops by residents / 2019 population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

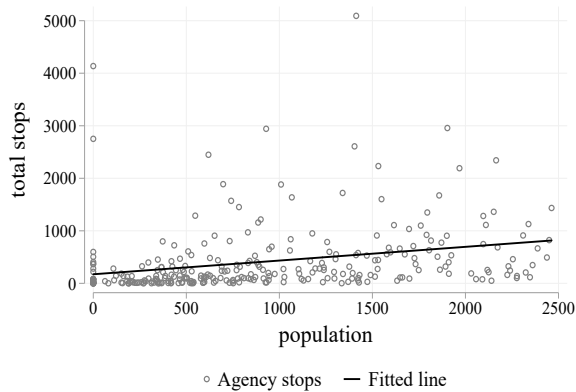

Table 1 also lists the number of traffic stops for residents of the community served by a particular agency. Stop rates are therefore calculated for all stops and for the subset of vehicle stops involving only residents. However, because only aggregate data is required to be reported by agencies, it is not possible to calculate search rates, arrest rates, etc. for residents, nor is it possible to break down the detailed data in Tables 4 and 5 (below) for residents only. In the future, as more agencies report incident-level data, a more detailed breakdown of data by residence will be feasible. For consistency and ease of exposition, all subsequent discussion of these data refers to total vehicle stops by agencies.

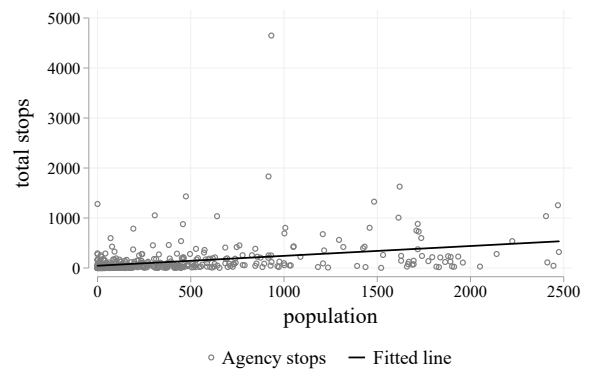

# FIGURE 1:

## TOTAL STOPS ACROSS AGENCIES FOR MISSOURI

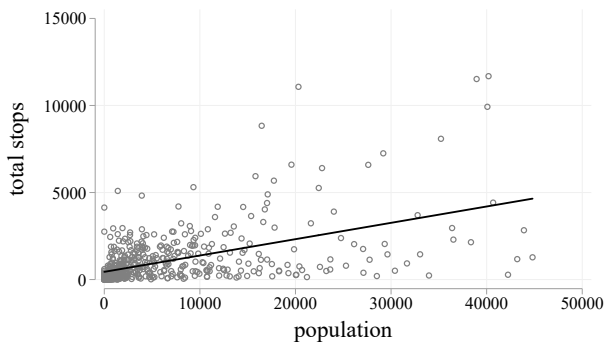

(a) Total stops, pop. below median

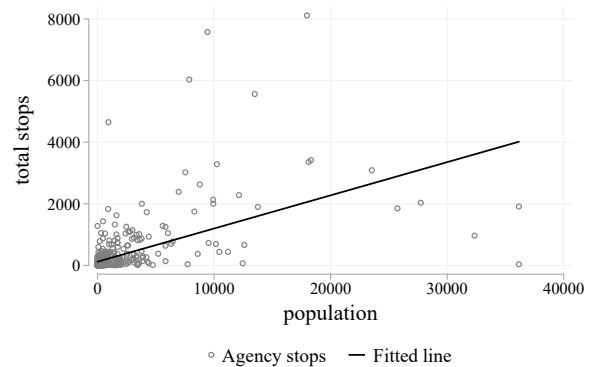

(b) Non-white total stops, pop. below median

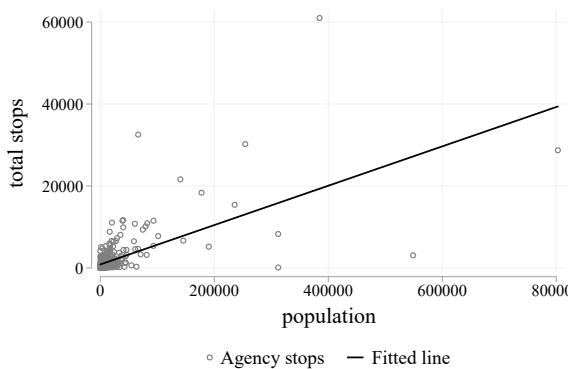

(c) Total stops, pop. below 95th percentile

(d) Non-white total stops, pop. below 95th percentile

(e) Total stops, all

(f) Non-white total stops, all

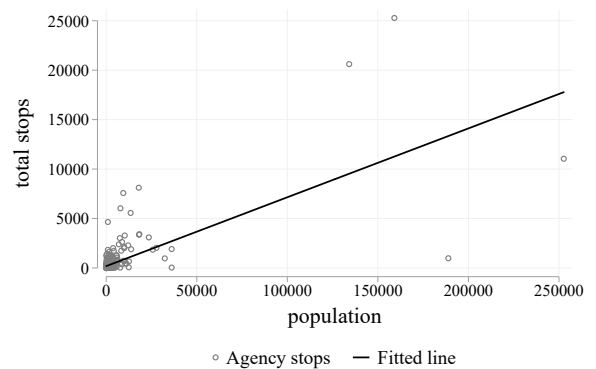

Figure 1 provides more context by comparing traffic stops by agencies to their associated community population for both the total population (left side) and the non-white population (right-side) in each community. For example, the Columbia Police Department is matched to the total and non-white population for the city of Columbia, and so on. Agencies that do not match directly to census geographies, such as university and airport police, are assigned a population of zero.

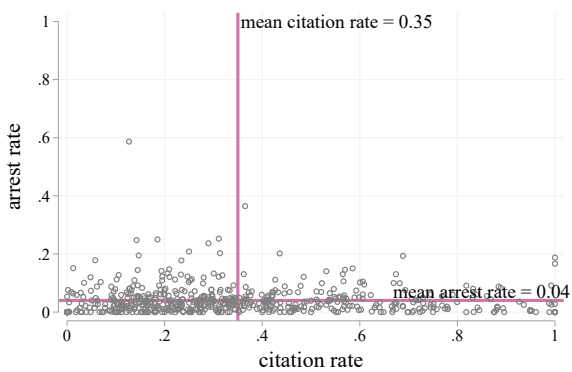

The panels in Figure 1 are split across three rows according to community size; this facilitates comparisons across agencies serving similar-size communities. The panels in the first row focus only on agencies serving smaller communities (less than median population, or 2,475 persons), while the second row of panels covers agencies serving all but the largest 5% of cities (i.e., communities with less than 46,979 persons) and the last row of panels includes all agencies, except the Missouri State Highway Patrol. Each panel in Figure 1 also includes a “best fit” line that indicates the relationship between stops and population (i.e., the stop rate for the agencies and communities listed in each panel). The agency detailed reports replicate Figure 1 and highlight the location of each agency in this figure, which facilitates comparisons to other agencies.

Notes: Figure (a) depicts the total number of stops for all agencies with a total population less than the median population size (2,475 persons) in Missouri plotted against population size. Similarly, Figure (b) shows the total number of non-white stops by the non-white population size for each agency for those same agencies. Figures (c) and (d) follow the same format but for agencies with a total population less than the 95th-percentile (46,979 persons). Finally, graphs (e) and (f) graph all agencies, except the Missouri State Highway Patrol, which covers the entire state. Population is measured using the 2019 American Community Survey 5-year estimates for Missouri. The ACS only provides race-specific Hispanic estimates for Whites. To avoid double counting, we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies without population (e.g., university police) are considered to have a population of zero.

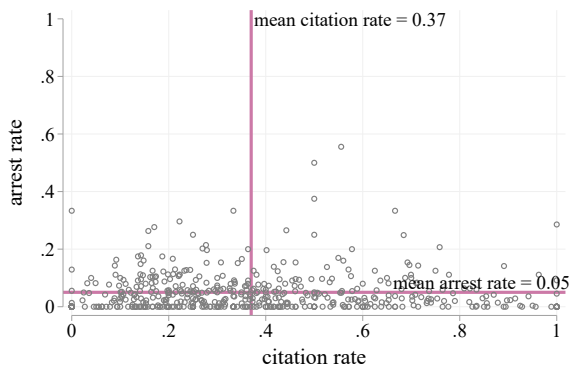

# FIGURE 2: CITATION, ARREST, SEARCH AND HIT RATES ACROSS AGENCIES FOR MISSOURI

Figure 2 describes the other outcomes of interest for vehicle stops (i.e., arrests, citations, searches and the discovery of contraband during a search, or “hits”), by the agency. The data are reported as rates, for all stops (left side) and for only stops involving the non-white population (right side).

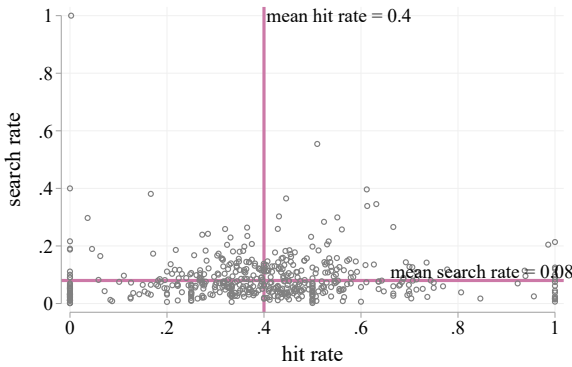

(a) Arrest and citation rate

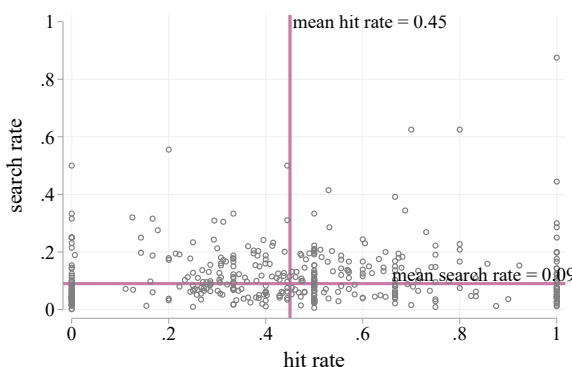

(b) Non-white arrest and citation rate

(c) Search and hit rate

(d) Non-white search and hit rate

Notes: Figure (a) graphs the arrest rate and citation rate for all agencies in Missouri. Similarly, Figure (b) graphs the arrest rate and citation rate for all non-white stops. Figure (c) graphs the search rate and hit rate for all agencies in Missouri. Similarly, Figure (d) graphs the search rate for all non-white stops and hit rate for all non-white searches.

The panels in the first row of Figure 2 show the distribution of agency citation rates and arrest rates per 100 stops compared to the average rates for all agencies. Agencies located in the upper right quadrants of these figures exhibit higher than average arrest and citation rates, while those in the lower left quadrant exhibit lower than average rates for both arrests and citations.<sup>3</sup>

The panels in the second row of Figure 2 describe the search rate per 100 stops and the contraband hit rate per search, as well as the mean for these rates across all agencies. Agencies in the lower right quadrant conduct relatively few searches with higher contraband hit rates. Agencies in the upper left quadrant conduct relatively more searches with fewer contraband hit rates. The agency detail reports replicate Figure 2 and highlight the location of each agency in the figure.

## DATA LIMITATIONS FOR COMPARING DIFFERENCES

When comparing these summary metrics across agencies or different population groups, several caveats must be considered. First, driving patterns and the composition of the driving population vary across communities. Second, traffic enforcement, the frequency of calls to police, and discretionary stops and searches also vary across agencies. Consequently, agencies may exhibit different stop rates or search rates due to the composition of drivers encountered by the agency, the enforcement policies implemented by the agency, or some combination of these and other factors.

For example, traffic stops that are the result of investigative stops or emergency calls may generate higher arrest rates than stops resulting from the enforcement of speed limits. Similarly, an arrest will almost always lead to a search, while searches of motorists during routine traffic stops are likely more rare and highly discretionary. Any comparison of search rates and hit rates must then consider the frequency of discretionary searches. As more agencies report incident-level data, accounting for such distinctions may become possible in subsequent reports.

The same caveats apply when examining disparities in traffic stops and resulting outcomes across racial and ethnic groups. Observed differences may result from differential impacts of policing, differential treatment by police, or some combination of these and other factors. Differential impact refers to sources of disparities that are not a direct result of bias on the part of officers conducting vehicle stops. An example of differential impact would be if one population group has more outstanding warrants on average, then that group would have a higher arrest rate not because officers' actions were different with respect to each group, but because the same enforcement action, arresting drivers with outstanding warrants, disproportionately impacts one group more than another. Similarly, existing patterns of residential concentrations by race may result in a differential impact of policing across racial and ethnic groups if officers more intensively patrol some beats due to more calls for service, higher crime rates, or other factors.

The sources of disparate impacts are themselves of interest and should be considered by policymakers and the public, but they are not the direct result of differential treatment by officers conducting vehicle stops. Consequently, the presence of large or persistent disparities is not necessarily an indication of bias in policing. For these reasons, no single metric is capable of identifying or disproving bias in policing. Instead, these data are presented for the purpose of informing a continuing conversation among the public and policymakers regarding differences in traffic stops and outcomes across agencies, as well as the sources of disparities in these measures across racial and ethnic groups.

## DIFFERENTIAL HIT RATES

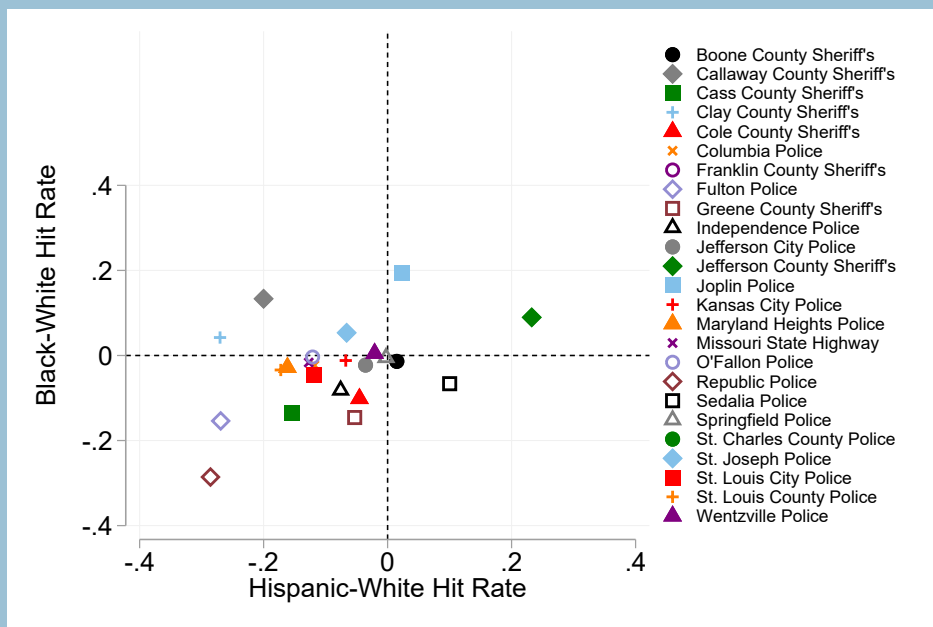

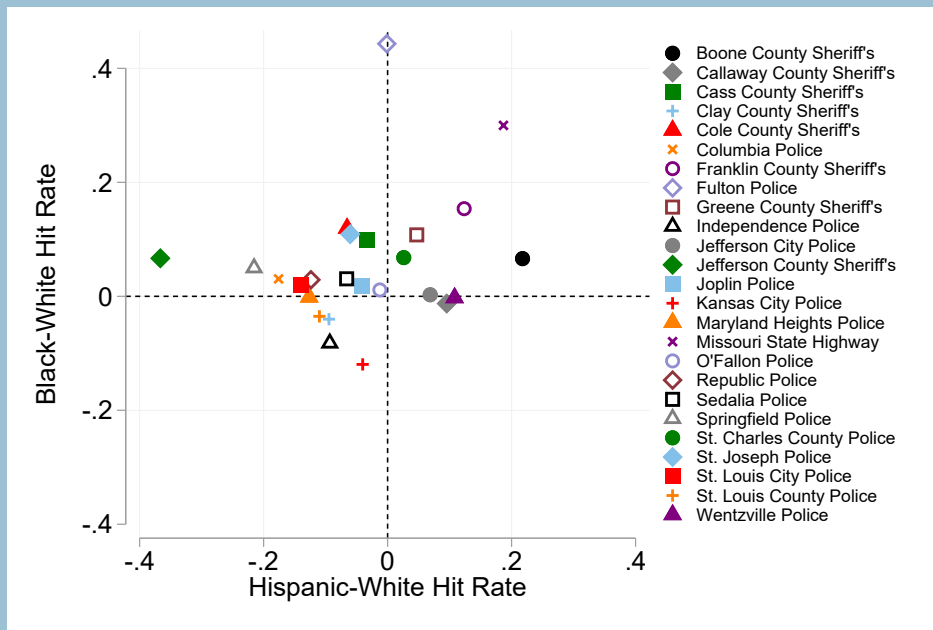

In addition to the metrics described in Table 1 above, a frequently employed proxy for bias in searches is the difference in contraband "hit rates" across groups. The logic of comparing hit rates is as follows: i) if discretionary searches are conducted for the purpose of discovering contraband, and ii) police search motorists only when they estimate that the probability of finding contraband exceeds some threshold (e.g., 30%), then unbiased search behavior will result in a hit rate that is equalized across groups, although search rates may vary across groups. For example, if one group is more likely to possess contraband, then unbiased search behavior will lead to a higher search rate for that group, until the probability of finding contraband is equalized across different groups. Consequently, differences in hit rates are an indicator of differential treatment, while differences in search rates are not necessarily an indicator of differential treatment.

The analytical benefit of differential hit rates is based on the maintained assumption that searches are discretionary. However, this is not always the case. As an example, many agencies have a policy of searching any individual being arrested for obvious reasons of officer safety and investigative integrity. Thus, a high number of arrests might skew the hit rate with non-discretionary searches. The aggregate data reported by most agencies does not allow for any distinction between discretionary and non-discretionary searches, but as more agencies report incident-level data, such a distinction will be feasible. Yet another consideration is that large differences in search rates across groups may be considered problematic even if hit rates are equalized across racial and ethnic groups, since searches are invasive. For this reason, it is useful to consider the frequency of searches alongside hit rates. Finally, because searches are relatively infrequent, a comparison of differential hit rates is not informative unless there are a sufficient number of searches conducted for each population group.

<sup>3</sup>Agencies that conduct very few stops will be more likely to cluster at quotients of small values, such as 0, 0.5, and 1 for the arrest and citation rates.

<sup>4</sup>Agencies that conduct very few searches will be more likely to cluster at quotients of small values, such as 0, 0.5, and 1 for the search and hit rates. This effect is particularly noticeable in the non-White search and hit rate charts due to smaller raw counts of searches for this population.

# FIGURE 3: RELATIVE HIT RATES FOR THE TOP 25 AGENCIES WITH THE MOST SEARCHES

Notes: The race specific hit rate is calculated as the number of searches that find contraband divided by the total number of searches for a specific race. The difference between the Black and White hit rates and the Hispanic and White hit rates are plotted on the y- and x-axis, respectively.

Figure 3 shows the differential hit rates for the 25 largest agencies in the state by the number of searches; the same agencies are shown for two snapshots in time: 2020 (in panel a) and 2010 (in panel b). The data are plotted such that the lower-left quadrant is associated with theoretical “over-searching” the Black and Hispanic population relative to the White population, while the upper-right quadrant is associated with theoretical “over-searching” the White population relative to the Black and Hispanic population. If all searches are discretionary, then unbiased searches would result in all agencies being located at the origin in the figures (0,0). However, deviations from the center are expected, since not all searches are discretionary. Consequently, the location of a given agency in these figures is not necessarily an indication of bias in searches by police, but persistent outliers may warrant further examination.

Looking across the two panels of Figure 3, it is apparent that differential hit rates have drifted over time away from the lower-left quadrant associated with theoretical over-searching of Black and Hispanic motorists, and toward the upper-right quadrant associated with theoretical under-searching of Black and Hispanic motorists. However, this apparent shift is based only on these two snapshots in time, so it may be the result of random variation in the data as opposed to a persistent trend. Future reports will explore patterns in differential hit rates over time and across agencies in more detail. And as more agencies report incident-level data on stops, it will be possible to calculate differential hit rates using only the subset of discretionary searches.

## DISPARITY INDEX

Another measure that has been examined in previous reports is the “Disparity Index,” or the ratio of a particular group’s share of traffic stops divided by that group’s share of the population. For example, if 100% of traffic stops involve Black drivers, but the Black percentage in the associated population is only 10%, then the Disparity index would be 10 for that hypothetical case.

When the Disparity Index is equal to 1, then the reference group is represented equally in both traffic stops and population. For values greater than 1, the reference group is over-represented in traffic stops relative to the population. Consequently, the Disparity Index is a summary measure that captures the same information that can be gleaned by looking at stop rates across groups. However, as a measure of disparities, the Disparity Index is highly problematic because: i) it is sensitive to the choice of the benchmark population; ii) as a ratio, it is affected by changes in both the numerator and denominator; and iii) it is not meaningful to compare the Disparity Index across communities with different percentages of minority populations.

First, the relevant benchmark population for analyzing disparities in traffic stops is the population of motorists in the agency jurisdiction, but such data is not feasible to collect. Instead, the Disparity Index is calculated using the residential population characteristics of the community associated with the agency jurisdiction. Population data of this sort is a rough proxy for the characteristics of motorists, but the correlation between this proxy and the driving population falls if some demographic groups drive more frequently than others, or if large numbers of traffic stops involve drivers from outside the local community. For this reason, agencies are now asked to report whether a traffic stop involves a resident or non-resident and analysis of this year’s responses reveals that on average on 35% of agencies’ traffic stops involve jurisdiction residents. To see how this dynamic affects agencies’ disparity index calculation, a resident-only Disparity Index is calculated alongside a Disparity Index for all stops.

Second, the choice of data source for measuring population characteristics in a community will also affect the calculated Disparity Index. For example, if decennial census data is used for the benchmark population, then changes in the demographic make-up of a community will not be captured for years between census reports. As a result, the numerator of the Disparity Index will be affected by changing demographics over time, but the denominator will not. This is especially problematic for communities with rapid population changes. For this reason, the source of population characteristics used in this report is the most recent five-year estimate of local population from the 2019 American Community Survey. In general, the choice of data source for calculating a Disparity Index is more consequential for relatively small demographic groups (see the Appendix for a more detailed discussion).

Third, because it is a ratio, the Disparity index is also problematic for making comparisons across communities. For example, the maximum value of the Disparity Index varies with the reference group’s share of the population. In other words, the larger the share of population for a given group, the lower the maximum possible Disparity Index is for that group. Reconsider the example above when 100% of traffic stops involve Black drivers, but now the community population is 50% Black (instead of 10%). The Disparity Index will now be 2 (versus 10), even though in both cases, only Black drivers are stopped. For this reason, it is not informative to compare Disparity Indices across communities with very different population shares (or over time in a community with changing population shares).

Finally, as with the other metrics of disparities discussed above, the Disparity Index is not informative regarding the possible existence of bias in policing. Disparities may be generated by many other factors, including:

- Policing strategies and policies: Law enforcement officials make strategic choices on where and when to police that may disproportionately impact various racial/ethnic groups. Strategies such as concentrating patrols in areas within a city with higher crime rates, could lead to a disproportionate impact if that area has a higher concentration of a racial/ethnic group than the jurisdiction as a whole.
- Differences in real rates of offending between racial/ethnic groups: The correlation of dynamics such as economic or social disadvantage with race or ethnicity may lead to differences in rates of real offending. If there are real differences in offending rates, traffic stops should theoretically increase or decrease accordingly.
- Incorrect population benchmark: Estimated population characteristics may not accurately measure the racial and ethnic composition of drivers. Further, changes in population demographics may not be fully captured in population estimates

For these reasons, changes in the value of the Disparity Index over time are not informative about changes in the prevalence of bias in traffic stops. In other words, it is possible for bias in traffic stops to be decreasing even though the Disparity Index is rising due to changing demographics or policing patterns. The converse is also

# TABLE 2:

## DISPARITY INDEX

## FOR MISSOURI

Table 2 shows the Disparity Index for each racial and ethnic group, using both all traffic stops and only stops of residents. The population shares for each group are taken from the most recent American Community Survey conducted by the U.S. Census Bureau. Table 3 shows the Disparity Index for every year that this report has been generated. However, previous versions of this report have employed different sources for population estimates, so caution should be used when comparing Disparity Index values over time (see the notes to Table 3 and the Appendix).

	Total	White	Black	Hispanic	Native American	Asian	Other
Population (16+)							
2019 Population	4,881,733	3,964,827	539,702	170,858	22,504	99,131	143,442
2019 population %	100	81.22	11.06	3.5	0.46	2.03	2.94
2020 Stops							
All stops	1,162,905	897,674	209,222	29,711	1,979	10,349	13,970
Resident stops	589,388	475,184	92,097	12,891	768	4,269	4,179
Disparity index							
All stops	-	0.95	1.627	0.73	0.369	0.438	0.409
Resident stops	-	0.993	1.413	0.625	0.283	0.357	0.241

Notes: 2019 Disparity index is based on 2015-2019 average population estimates from the U.S. Census Bureau's American Community Survey (ACS) for ages 16+ for Missouri. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the 2019 race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over- representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

The Disparity Index for traffic stops and the Black population has been consistently greater than one and has generally been on the rise over time. This pattern is also captured in Figure 4, which plots the values in Table 3 over time (the vertical lines in Figure 4 indicate a change in the source for population used in calculating the Disparity Index). Again, the recent decrease in the value of the Disparity Index for the Black population likely reflects multiple factors, including changing population shares between the 2010 census data employed in last year's report and the 2019 ACS population estimates employed in this report.

# TABLE 3:

## DISPARITY INDEX

### FROM 2000 TO 2020

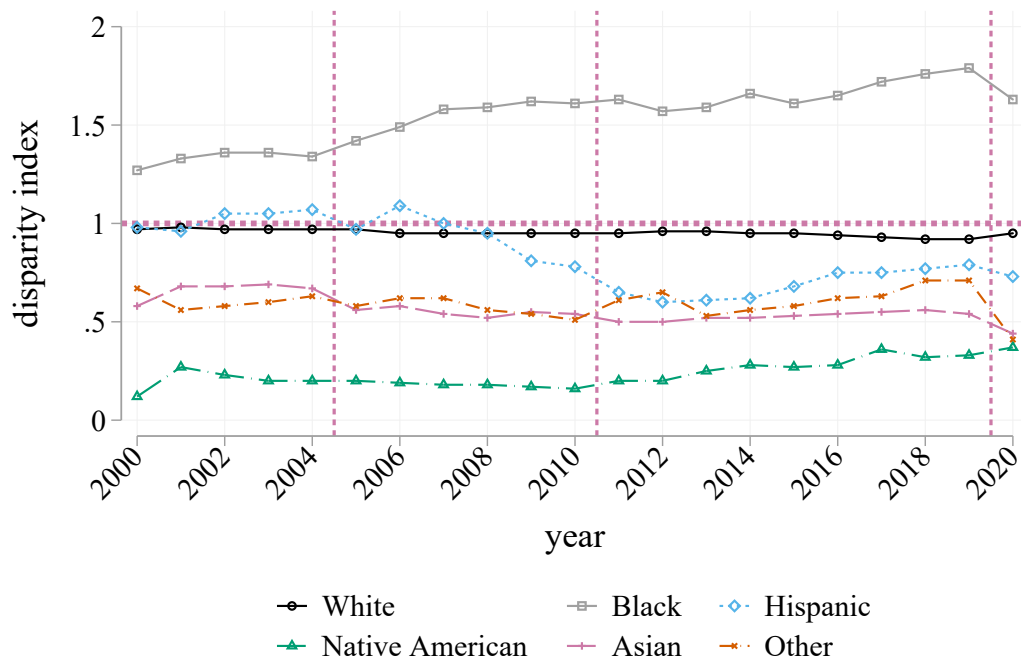

### FOR MISSOURI

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2011 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+) for Missouri.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

# TABLE 4: DISPARITY INDEX FROM 2000 TO 2020 FOR MISSOURI

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 – 2010 uses the annual updates from Geolytics Inc, and 2011 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+) for Missouri. Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Tables 4 and 5 provide more detailed information on traffic stops, also broken down by race and ethnic group. The agency reports follow the same presentation format as shown here, but exclude the figures showing differential hit rates by community.

# APPENDIX

## POPULATION DATA

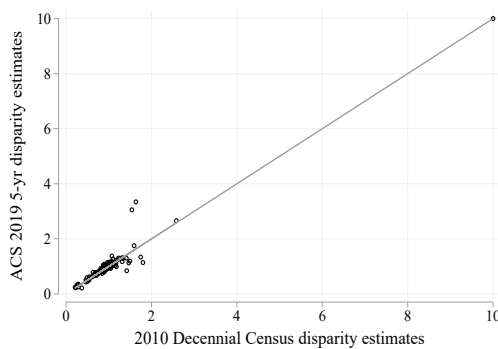

As discussed in the report, population estimates factor into the calculation of the Disparity Index. Thus, it is important to use the most accurate population estimates available. In this report, the 2019 5-year American Community Survey population estimates are used for each agency. However, past reports have used other estimates, which makes year to year comparisons difficult. Specifically, the 2011-2019 reports used population estimates from the 2010 Decennial Census, which were more accurate earlier in the decade and gradually became outdated in later years. It is important to note that some of the changes in the Disparity Index, either positive or negative, are due to both changes in traffic stops and the change in the population estimates.

Figure 5 plots the 2020 Disparity Index calculated using both the 2019 ACS and 2010 Decennial population for each agency by race. The 45-degree line indicates where the two indices are the same. Points above the line are agencies with a higher Disparity Index using the more recent population estimates, while points below the line are agencies with a higher Disparity Index using the 2010 population estimates.<sup>5</sup> The prevalence of agencies below the line for many racial/ethnic groups, particularly Blacks, suggests that many agencies' disparity indices may have been driven higher by increasing diversity in their residential populations since the last decennial census, though this is not the case for all agencies as there are many above the line as well.

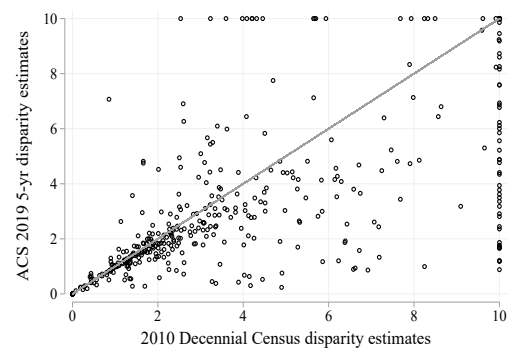

<sup>5</sup> The Disparity Index is truncated at 10 to make the graphs more readable, which creates some of the observed clustering along the perimeter of the figures.

# FIGURE 5: DIFFERENCES BETWEEN DISPARITY INDICES USING DECENNIAL 2010 & AMERICAN COMMUNITY SURVEY 2019

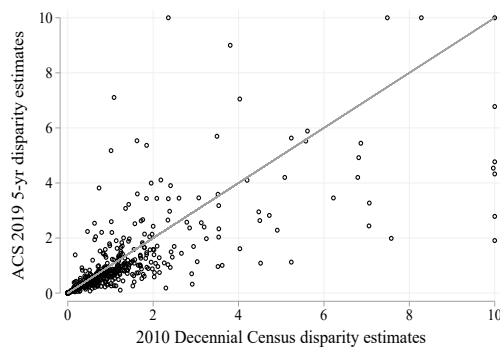

(a) White

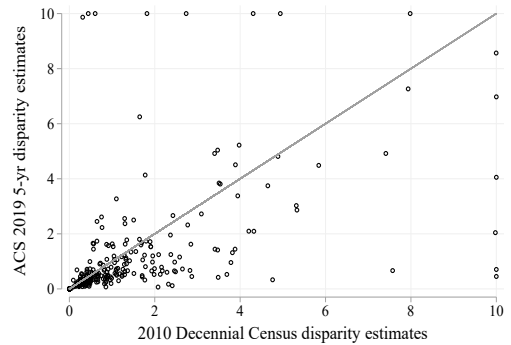

(b) Black

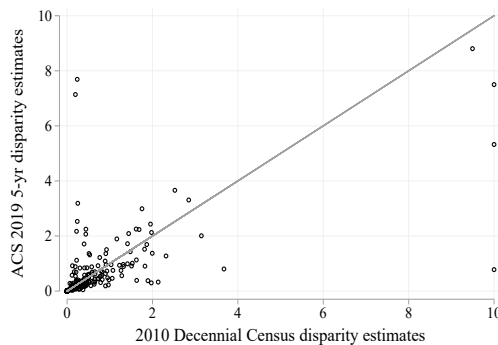

(c) Hispanic

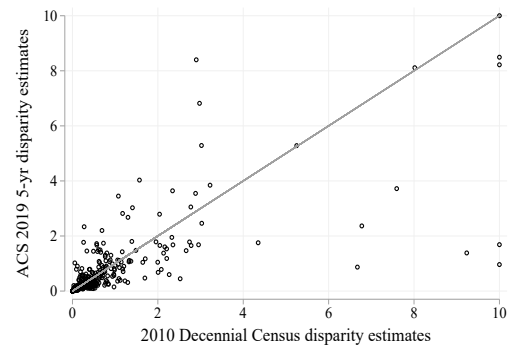

(d) Asian

(e) Native American

(f) Other

Notes: The disparity indices based on the population estimates from the five-year 2019 American Community Survey for ages 16+, used in this report, and the 2010 Decennial Census for ages 15+ are plotted on the y- and x-axis, respectively. A 45-degree line is plotted in each graph depicting the line of equality between the two measures. Each dot represents an agency. The disparity indices are truncated at 10 for visualization purposes.

It is also noted in the report that the ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the 2019 race-specific estimates used. This occurs because Hispanic is an ethnic category; thus, any race (White, Black, Asian, Native American, or Other) may be reported in conjunction with Hispanic. For example, a person identifying as Hispanic and White will be classified only as Hispanic; however, an individual identifying as Hispanic and Black will contribute to both Hispanic and Black population estimates, leading to double counting.

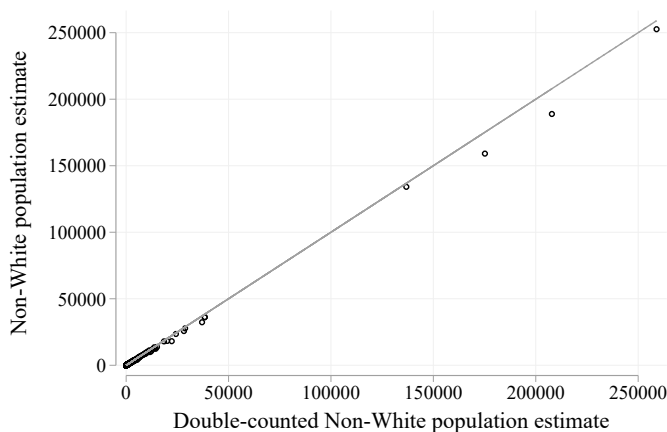

To investigate the extent of this issue, two measures of the Non-White population estimates are compared in Figure 6 Panel A. The first measure, plotted on the y-axis, is calculated as the total population minus the White population, which is not double-counted with Hispanic, providing a total population estimate of the Non-White population that avoids

any double-counting within races. The second measure adds up the population estimates of all non-white groups, including double counting as previously discussed, and is plotted on the x-axis. Points are expected to be on or below the 45-degree line, indicating no double counting or some positive double-counting, respectively.

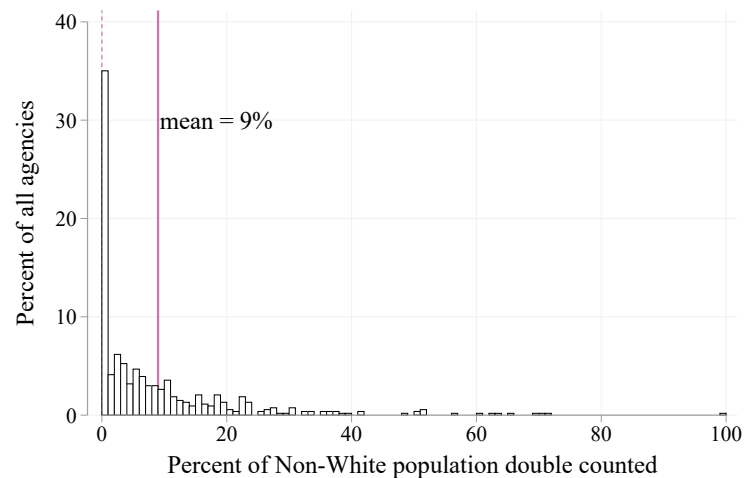

Figure 6 Panel B plots the degree of double counting as the share of the Non-White population for each agency. Roughly 35% of agencies do not have any double counting, as seen in the figure. One agency has an estimated Non-White population of 8 persons, and all are double-counted (indicated by the bar at 100), meaning individuals responding to the American Community Survey identified as both non-white and Hispanic. Figure 6 suggests the non-White Hispanic double counting is limited for the majority of agencies.

## FIGURE 6: DOUBLE COUNTING OF THE NON-WHITE HISPANIC POPULATION IN THE ACS POPULATION ESTIMATES

(a) Degree of double counting within Non-White population

(b) Percent of Non-White population double counted

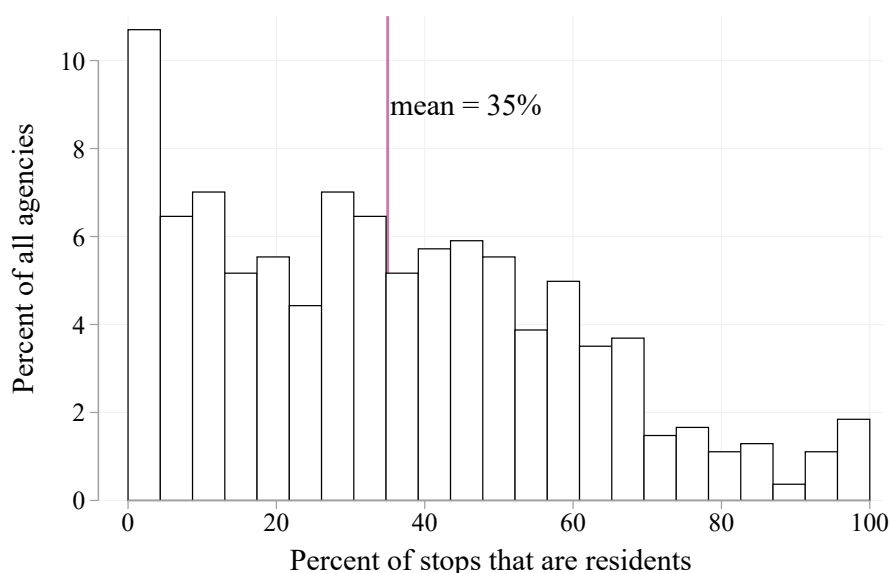

Notes: Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White. To avoid double counting, we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. We then compare this to the sum of the Non-White, race specific population estimates to illustrate the degree of double counting due to non-white and Hispanic races overlapping in the ACS estimates for each agency. Each dot represents an agency, with the Missouri State high way Patrol not included.

## Resident Classification

A distinction is made in the report between resident and non-resident stops. This distinction is also relevant for interpreting the Disparity Index, as stops are compared to the demographic breakdown of the agencies' population. For this reason, a new question was added in 2017, specifying whether the stop was a resident or non-resident stop.

# FIGURE 7: SHARE OF TOTAL AGENCY STOPS THAT ARE RESIDENT STOPS

Notes: This figure depicts the fraction of stops that are categorized as resident stops for each agency, except the Missouri State Highway Patrol and agencies not matched to a local population (e.g. university police).

Figure 7 depicts the percentage of agencies with various shares of resident stops. For many agencies, the majority of stops are non-residents, with residents accounting for 35% of stops for the average agency. A few caveats apply when interpreting this data, particularly for the agencies at the two extremes of the distribution. First, since this is a relatively new question, some agencies have not yet included it on their form. These agencies were instructed to report all stops as resident stops for reporting purposes, i.e., 100% of stops are classified as resident stops. This convention prevents the residential disparity indices from being artificially affected since no stops were filtered from the calculation. Second, to the extent that drivers do not update their driver's license in a timely manner, there may be an undercounting of resident stops.<sup>6</sup> Finally, due to data aggregation, stops where the question is not answered on the form is likely counted as a non-resident stop by default, which may lead to undercounting of resident stops for some agencies.<sup>7</sup>

<sup>6</sup> There is likely variability in how this question is filled out on the form across agencies. Many likely use the address on the driver's license to avoid problematic questioning during the traffic stop; however, that may not be the case for all agencies.

<sup>7</sup> The question is 1 = resident and 0 = non-resident; however, it is common for data to be treated as 1 for yes and 0 otherwise, in which missing data is defaulted as the 0 response, especially when aggregating data.

# 1 Agency Results

## 1.1 Adair County Sheriff's Dept

Table 1: Rates by Race for Adair County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	21202	19290	567	303	29	618	479
2019 population %	100	90.98	2.67	1.43	.14	2.91	2.26
<b>Totals</b>	.	.	.	.	.	.	.
All stops	142	117	17	7	0	1	0
Resident stops	70	61	8	1	0	0	0
Searches	6	4	2	0	0	0	0
Contraband	3	2	1	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	23	18	4	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.67	.61	3	2.31	0	.16	0
Stop rate, residents	.33	.32	1.41	.33	0	0	0
Search rate	4.23	3.42	11.76	0	.	0	.
Contraband hit rate	50	50	50	.	.	.	.
Arrest rate	0	0	0	0	.	0	.
Citation rate	16.2	15.38	23.53	14.29	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

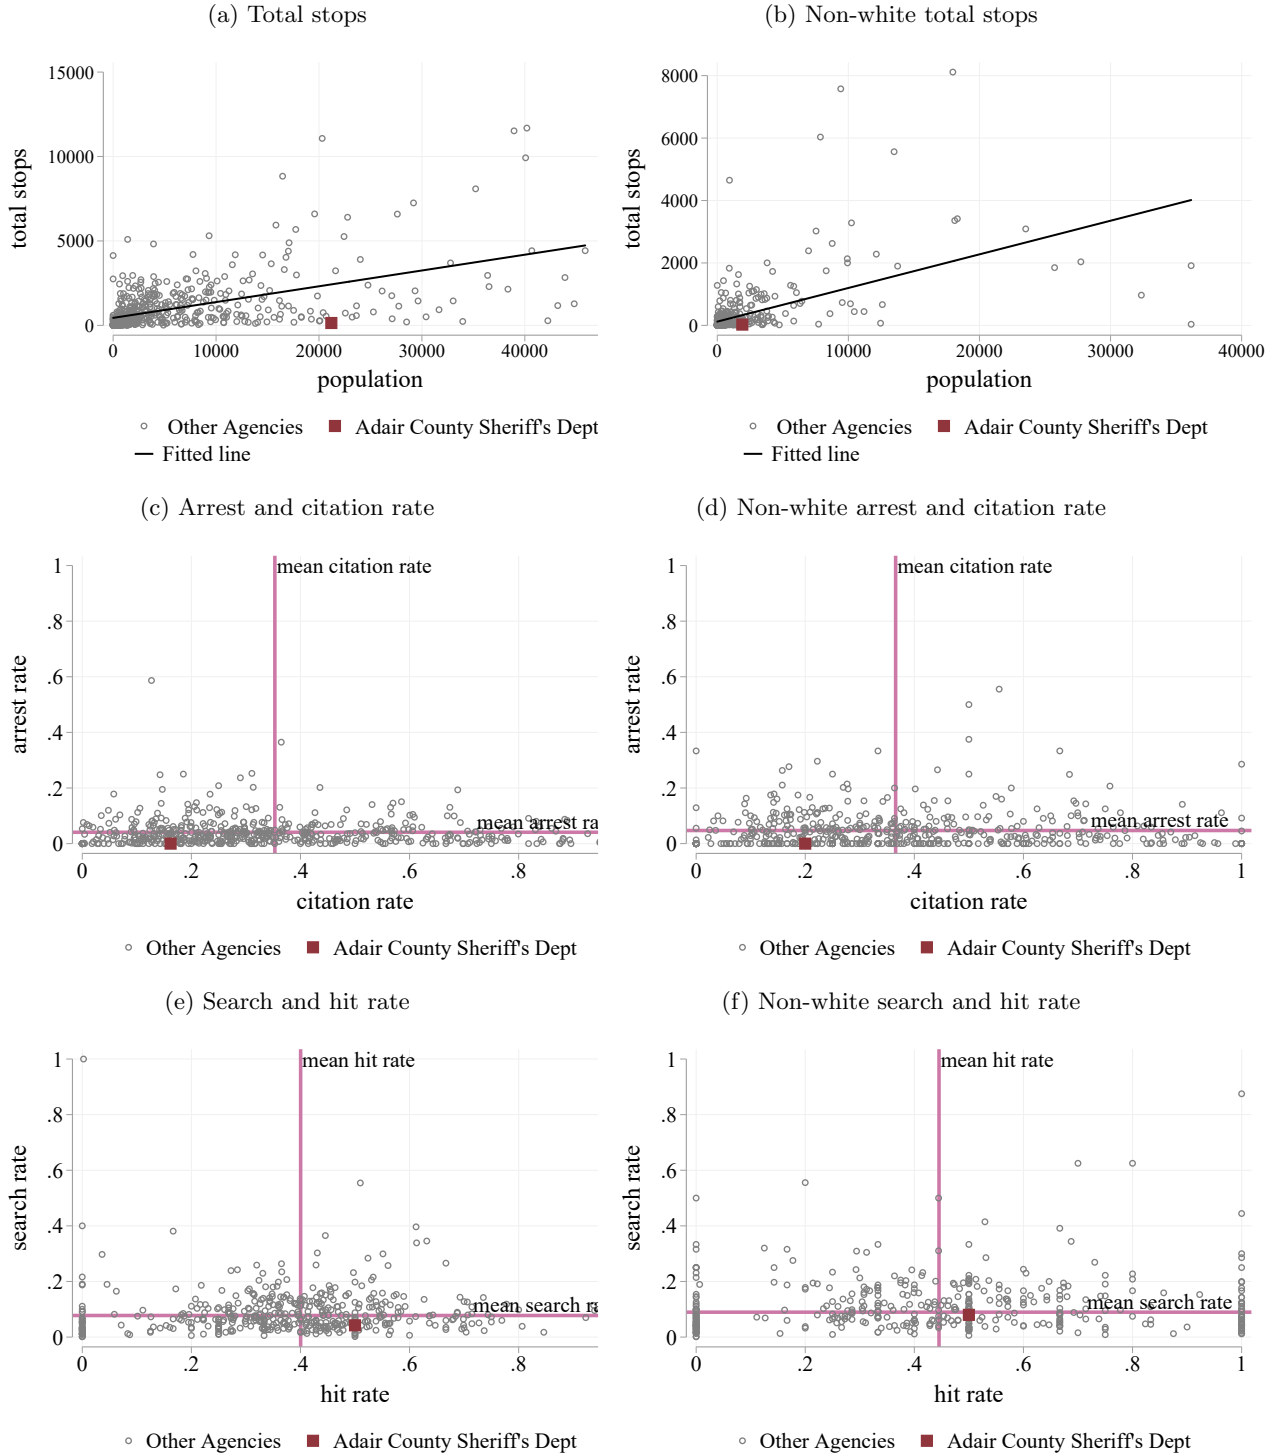

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Adair County has Kraft Foods in their county and Farmland in a nearby county, both recently bringing people to the area.

Figure 1: Comparison to other agencies by population for Adair County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Adair County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	21202	19290	567	303	29	618	479
2019 population %	100	90.98	2.67	1.43	.14	2.91	2.26
<b>Stops</b>	.	.	.	.	.	.	.
All stops	142	117	17	7	0	1	0
Resident stops	70	61	8	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.906	4.477	3.449	0	.242	0
Resident stops	.	.958	4.274	1	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

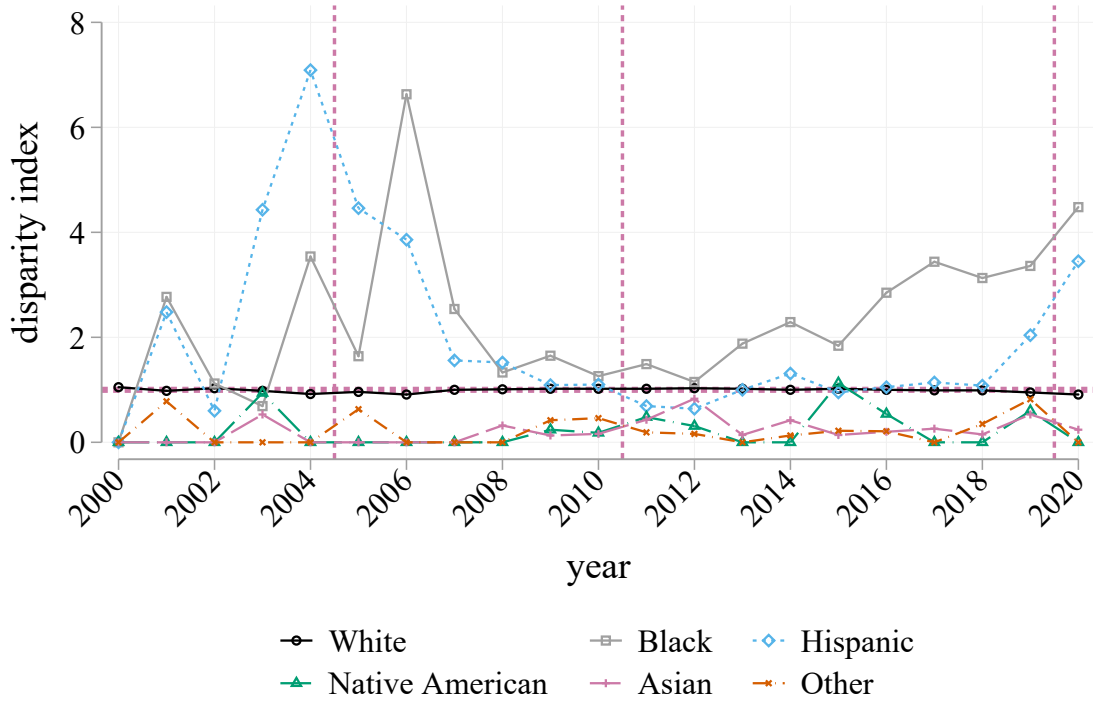

Table 3: Disparity Index from 2000 to 2020 for Adair County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2010</b>	1.02	1.26	1.1	.18	.16	.46
<b>2011</b>	1.02	1.49	.69	.48	.43	.19
<b>2012</b>	1.03	1.15	.64	.31	.83	.16
<b>2013</b>	1.02	1.88	1	0	.14	0
<b>2014</b>	1	2.29	1.31	0	.42	.13
<b>2015</b>	1.02	1.84	.95	1.13	.14	.22
<b>2016</b>	1	2.85	1.05	.54	.2	.21
<b>2017</b>	.99	3.44	1.14	0	.26	0
<b>2018</b>	.99	3.13	1.08	0	.15	.35
<b>2019</b>	.95	3.36	2.04	.6	.53	.82
<b>2020</b>	.91	4.48	3.45	0	.24	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Adair County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2014</b>	.96	22.87	2.86	0	.	0
<b>2015</b>	.99	7.51	0	0	.	2.5
<b>2016</b>	.98	15	1.13	0	.	1
<b>2017</b>	1	2.4	1.2	0	.	.4
<b>2018</b>	.99	4.89	1.22	1.63	.	.82
<b>2019</b>	.96	19.34	3.22	0	.	2.15
<b>2020</b>	1	.3	2.56	.	0	1.65

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Adrian Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.3 Advance Police Dept

Table 1: Rates by Race for Advance Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1178	1140	3	7	0	0	33
2019 population %	100	96.77	.25	.59	0	0	2.8
<b>Totals</b>	.	.	.	.	.	.	.
All stops	208	203	2	3	0	0	0
Resident stops	60	60	0	0	0	0	0
Searches	9	9	0	0	0	0	0
Contraband	5	5	0	0	0	0	0
Arrests	5	5	0	0	0	0	0
Citations	57	56	1	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	17.66	17.81	66.67	42.86	.	.	0
Stop rate, residents	5.09	5.26	0	0	.	.	0
Search rate	4.33	4.43	0	0	.	.	.
Contraband hit rate	55.56	55.56	.	.	.	.	.
Arrest rate	2.4	2.46	0	0	.	.	.
Citation rate	27.4	27.59	50	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

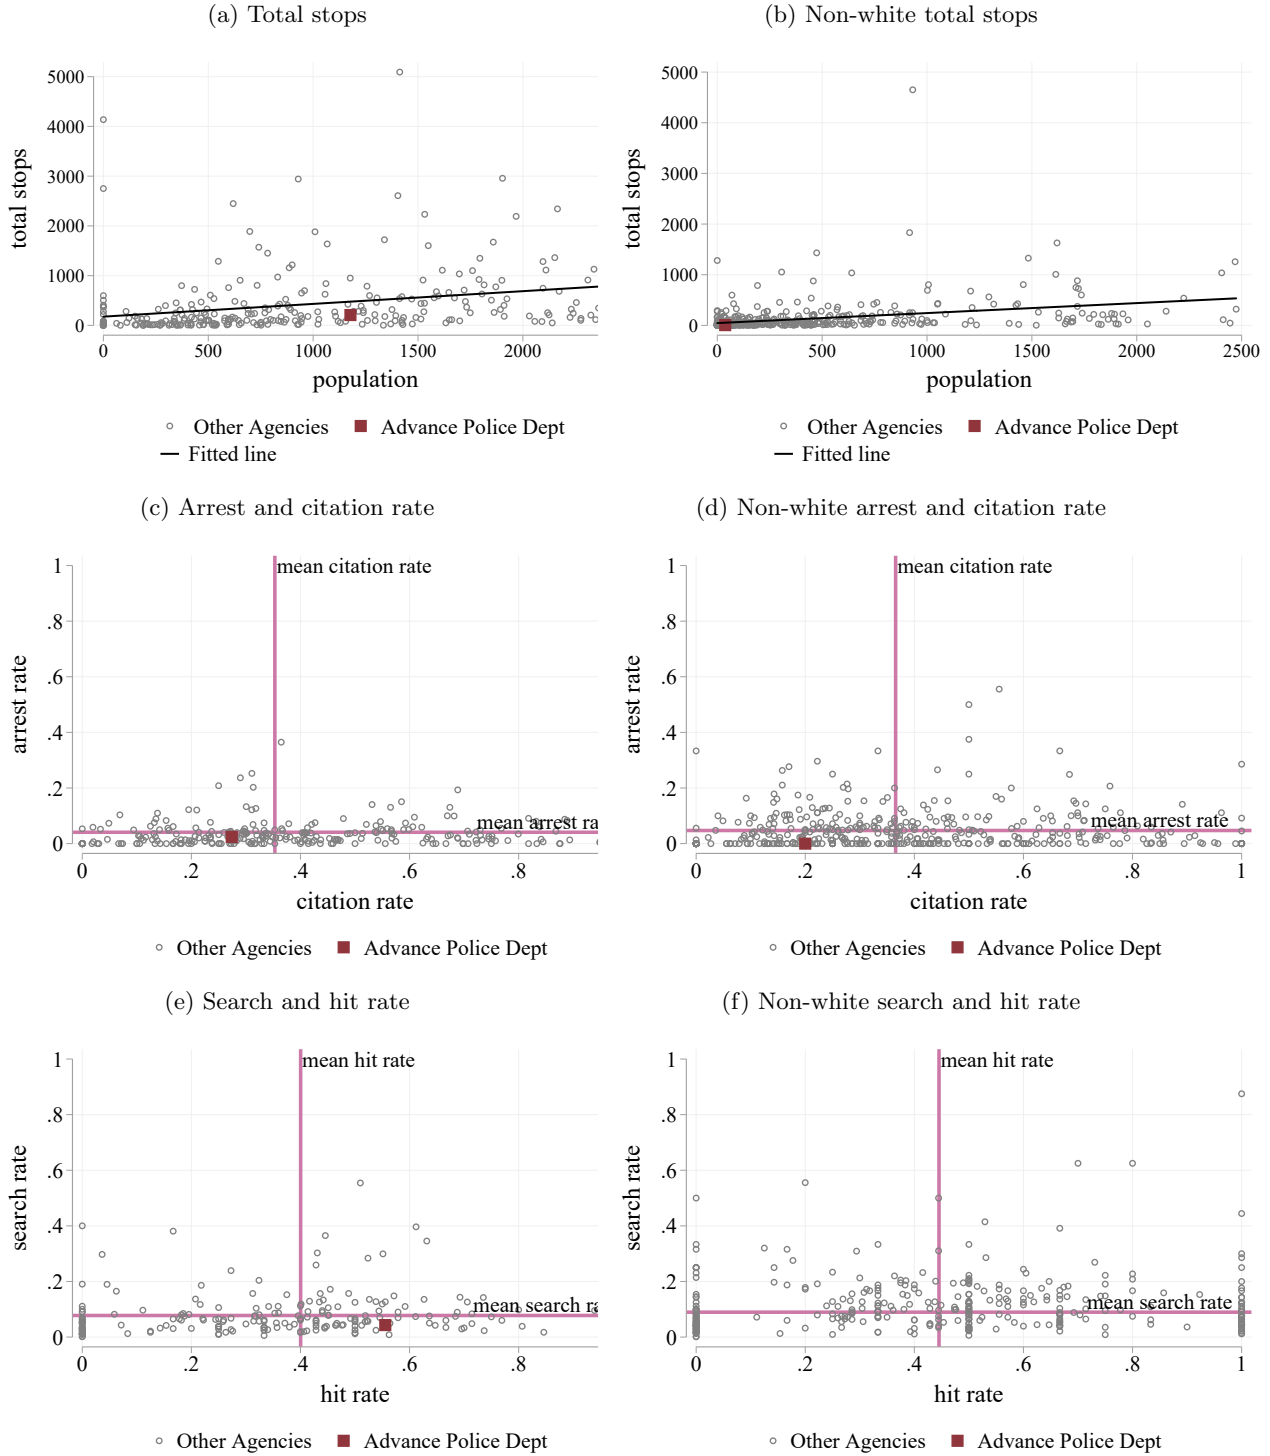

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Advance Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Advance Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.5 Alton Police Dept

Table 1: Rates by Race for Alton Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	490	460	16	0	0	0	14
2019 population %	100	93.88	3.27	0	0	0	2.86
<b>Totals</b>	.	.	.	.	.	.	.
All stops	97	97	0	0	0	0	0
Resident stops	32	32	0	0	0	0	0
Searches	16	16	0	0	0	0	0
Contraband	1	1	0	0	0	0	0
Arrests	4	4	0	0	0	0	0
Citations	26	26	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	19.8	21.09	0	.	.	.	0
Stop rate, residents	6.53	6.96	0	.	.	.	0
Search rate	16.49	16.49	.	.	.	.	.
Contraband hit rate	6.25	6.25	.	.	.	.	.
Arrest rate	4.12	4.12	.	.	.	.	.
Citation rate	26.8	26.8	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

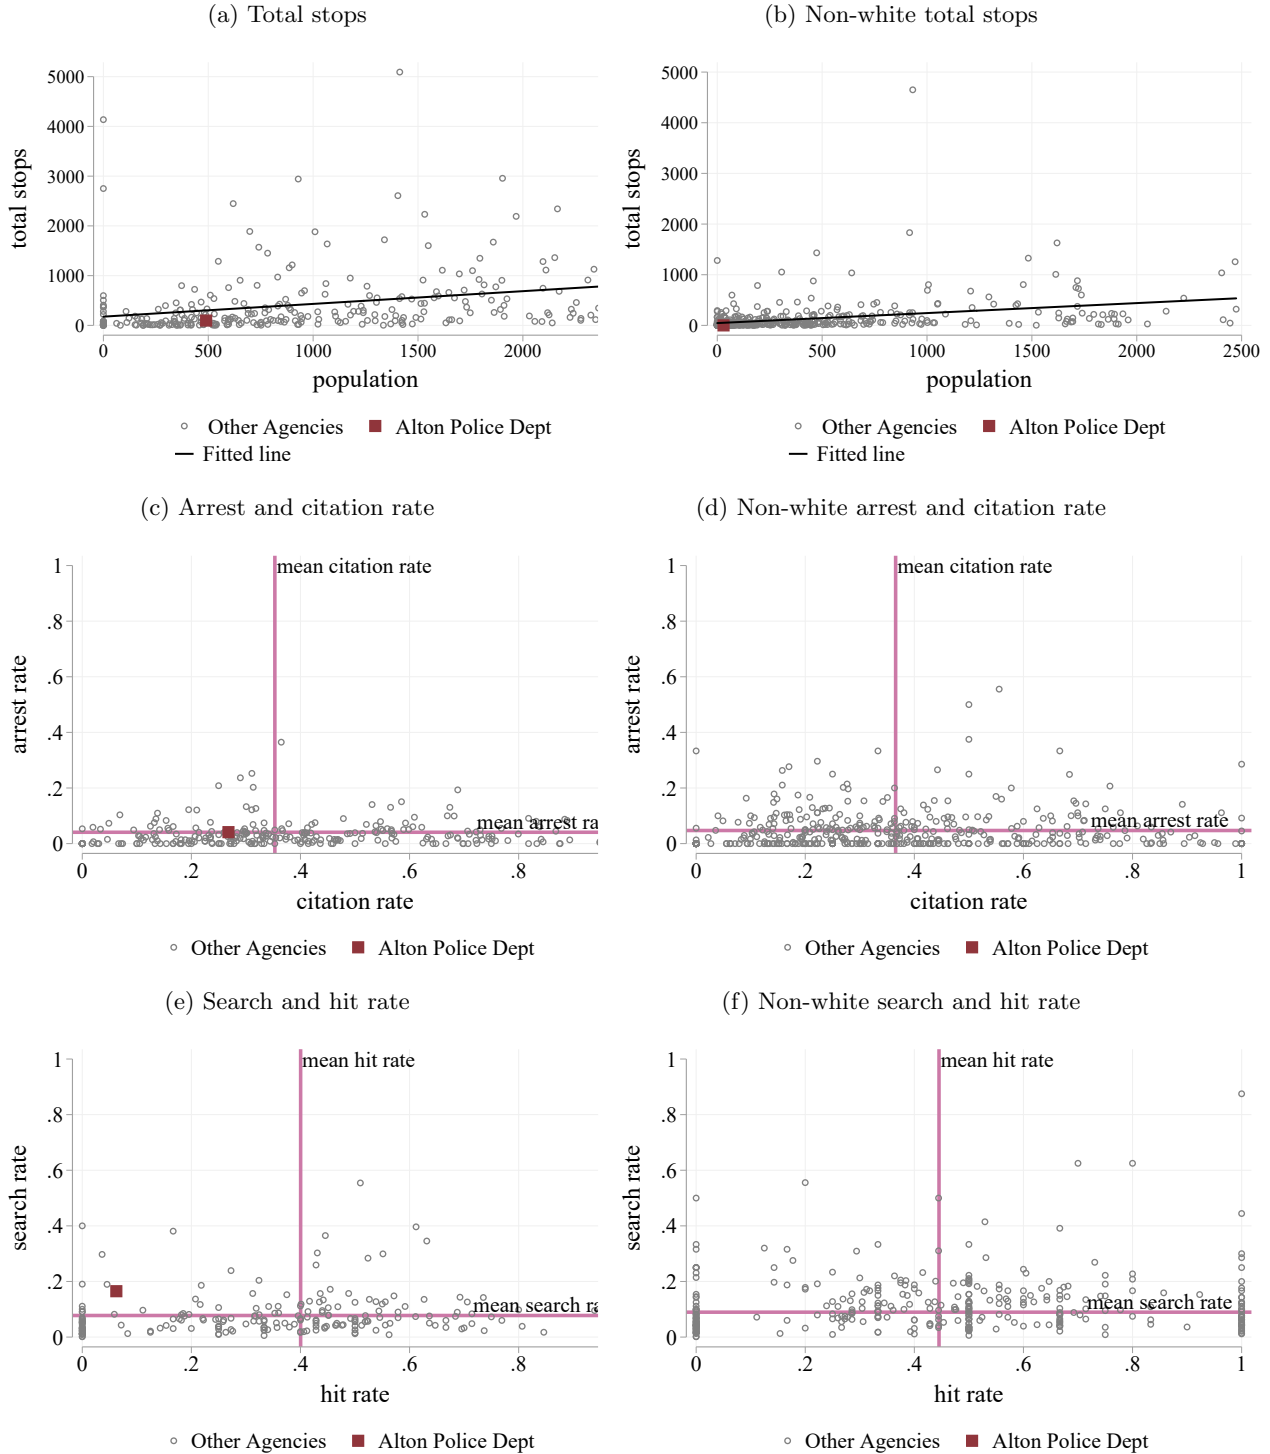

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Alton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Alton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

## 1.7 Andrew County Sheriff's Dept

Table 1: Rates by Race for Andrew County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14088	13382	226	323	45	53	272
2019 population %	100	94.99	1.6	2.29	.32	.38	1.93
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1030	946	39	24	7	9	5
Resident stops	523	487	13	10	6	6	1
Searches	61	55	3	3	0	0	0
Contraband	20	18	0	2	0	0	0
Arrests	30	26	2	2	0	0	0
Citations	31	28	1	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.31	7.07	17.26	7.43	15.56	16.98	1.84
Stop rate, residents	3.71	3.64	5.75	3.1	13.33	11.32	.37
Search rate	5.92	5.81	7.69	12.5	0	0	0
Contraband hit rate	32.79	32.73	0	66.67	.	.	.
Arrest rate	2.91	2.75	5.13	8.33	0	0	0
Citation rate	3.01	2.96	2.56	8.33	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

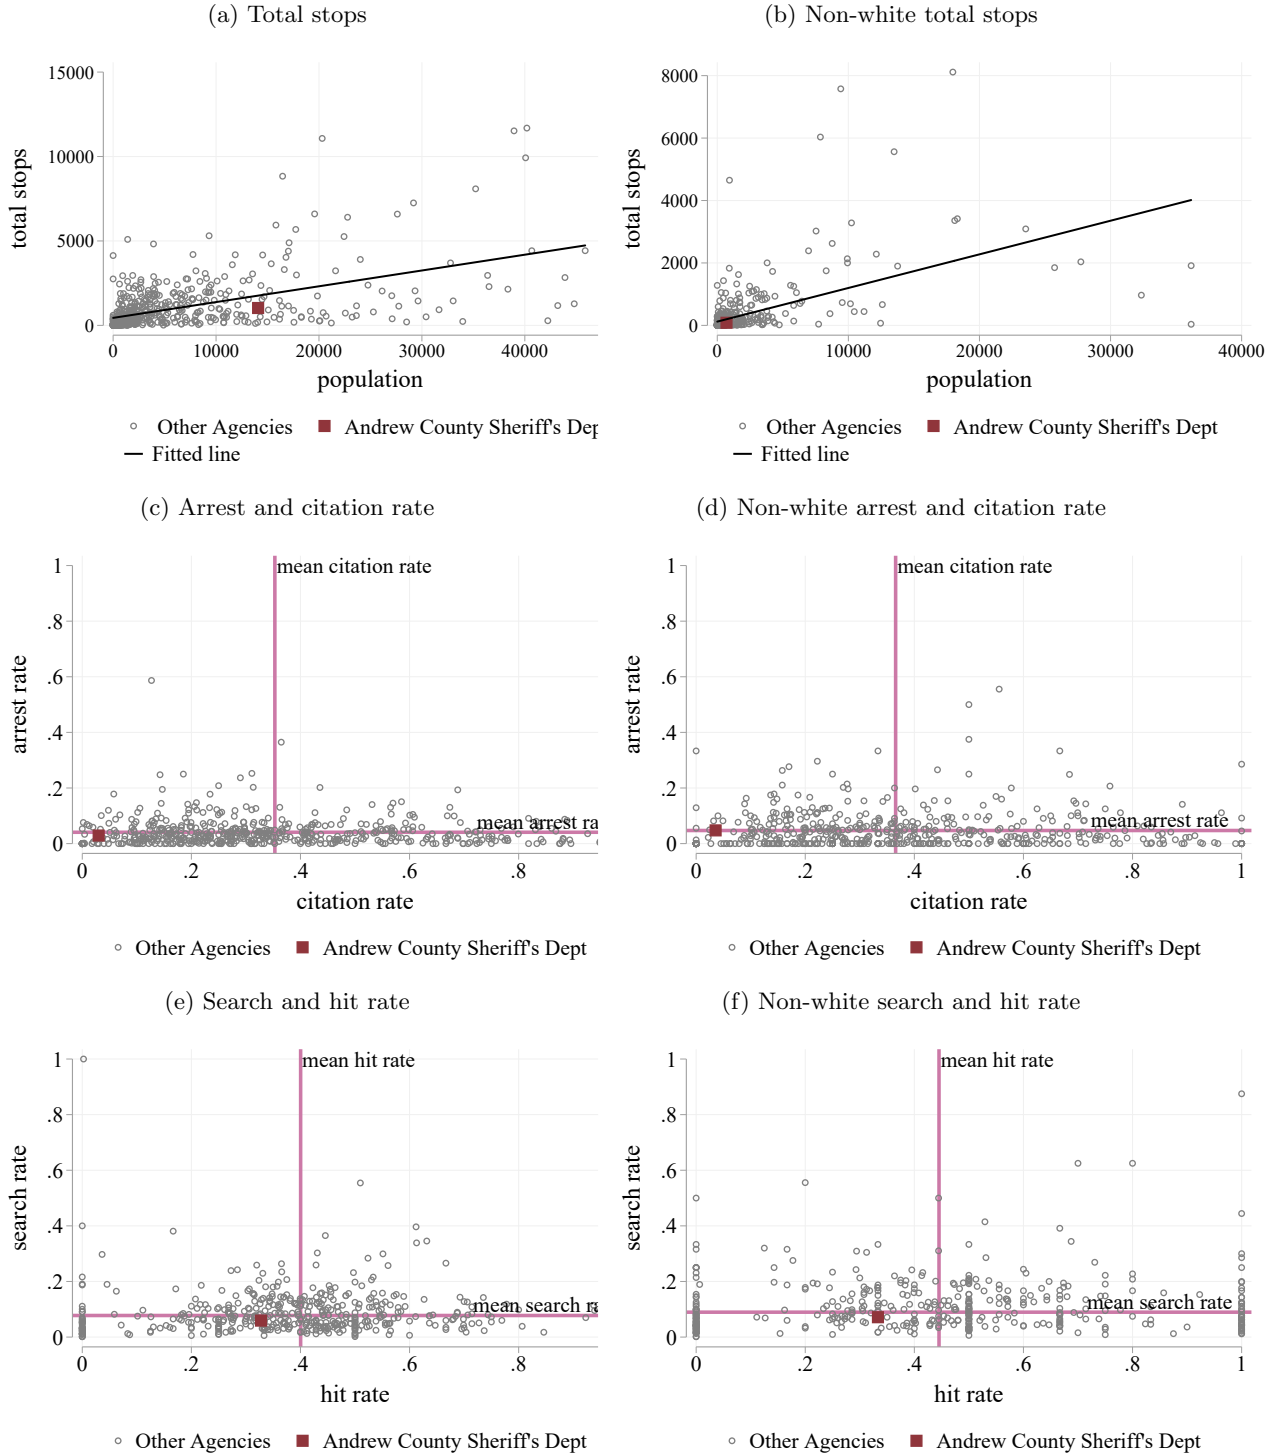

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Andrew County Sheriff's Dept. has experienced an increase in call volume and has a younger police force due to turnover in deputies leading to a more proactive police presence.

Figure 1: Comparison to other agencies by population for Andrew County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Andrew County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14088	13382	226	323	45	53	272
2019 population %	100	94.99	1.6	2.29	.32	.38	1.93
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1030	946	39	24	7	9	5
Resident stops	523	487	13	10	6	6	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.967	2.36	1.016	2.128	2.323	.251
Resident stops	.	.98	1.549	.834	3.592	3.049	.099

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

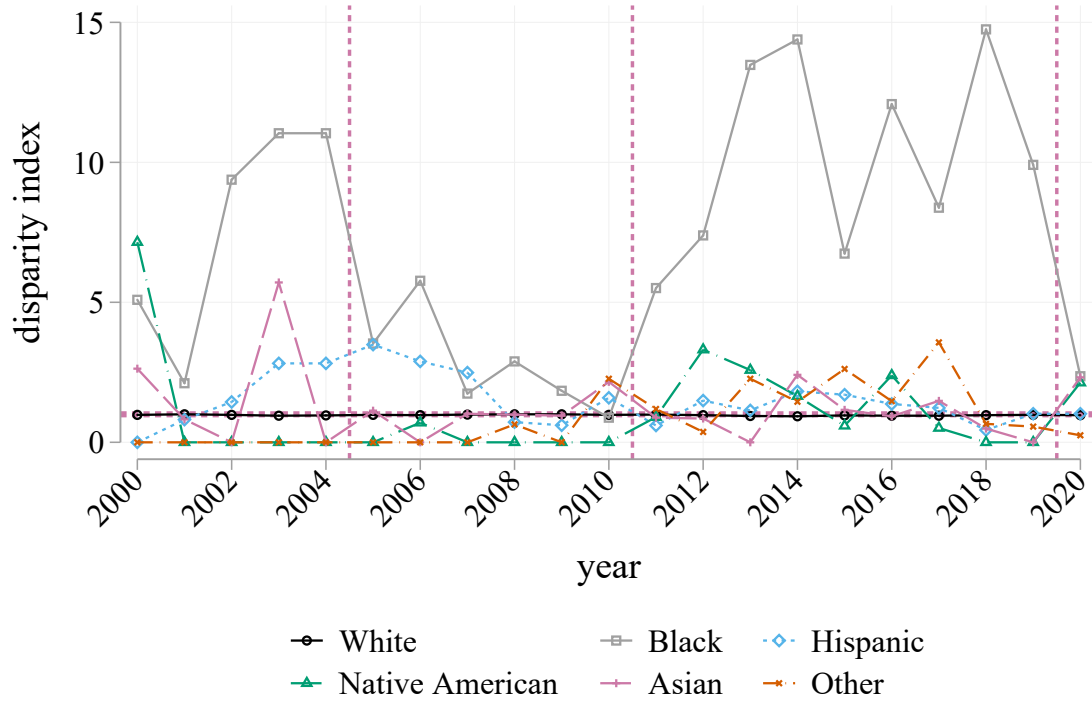

Table 3: Disparity Index from 2000 to 2020 for Andrew County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2004</b>	.96	11.04	2.82	0	0	0
<b>2005</b>	.98	3.53	3.49	0	1.13	0
<b>2006</b>	.97	5.77	2.89	.7	0	0
<b>2007</b>	.99	1.74	2.49	0	1.02	0
<b>2008</b>	1	2.89	.72	0	.99	.64
<b>2009</b>	1	1.84	.61	0	.95	0
<b>2010</b>	.98	.88	1.59	0	2.16	2.27
<b>2011</b>	.99	5.51	.6	.9	.88	1.19
<b>2012</b>	.97	7.39	1.49	3.31	.85	.37
<b>2013</b>	.94	13.48	1.14	2.58	0	2.27
<b>2014</b>	.93	14.39	1.82	1.65	2.41	1.45
<b>2015</b>	.96	6.74	1.7	.59	1.16	2.62
<b>2016</b>	.95	12.08	1.37	2.39	.93	1.47
<b>2017</b>	.95	8.38	1.23	.51	1.48	3.57
<b>2018</b>	.97	14.75	.44	0	.49	.66
<b>2019</b>	.98	9.91	1.02	0	0	.56
<b>2020</b>	.97	2.36	1.02	2.13	2.32	.25

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Andrew County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.9 Arbyrd Police Dept

Table 1: Rates by Race for Arbyrd Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	342	266	0	62	0	0	68
2019 population %	100	77.78	0	18.13	0	0	19.88
<b>Totals</b>	.	.	.	.	.	.	.
All stops	71	57	2	12	0	0	0
Resident stops	21	18	0	3	0	0	0
Searches	9	8	0	1	0	0	0
Contraband	5	4	0	1	0	0	0
Arrests	1	1	0	0	0	0	0
Citations	29	24	1	4	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.76	21.43	.	19.35	.	.	0
Stop rate, residents	6.14	6.77	.	4.84	.	.	0
Search rate	12.68	14.04	0	8.33	.	.	.
Contraband hit rate	55.56	50	.	100	.	.	.
Arrest rate	1.41	1.75	0	0	.	.	.
Citation rate	40.85	42.11	50	33.33	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

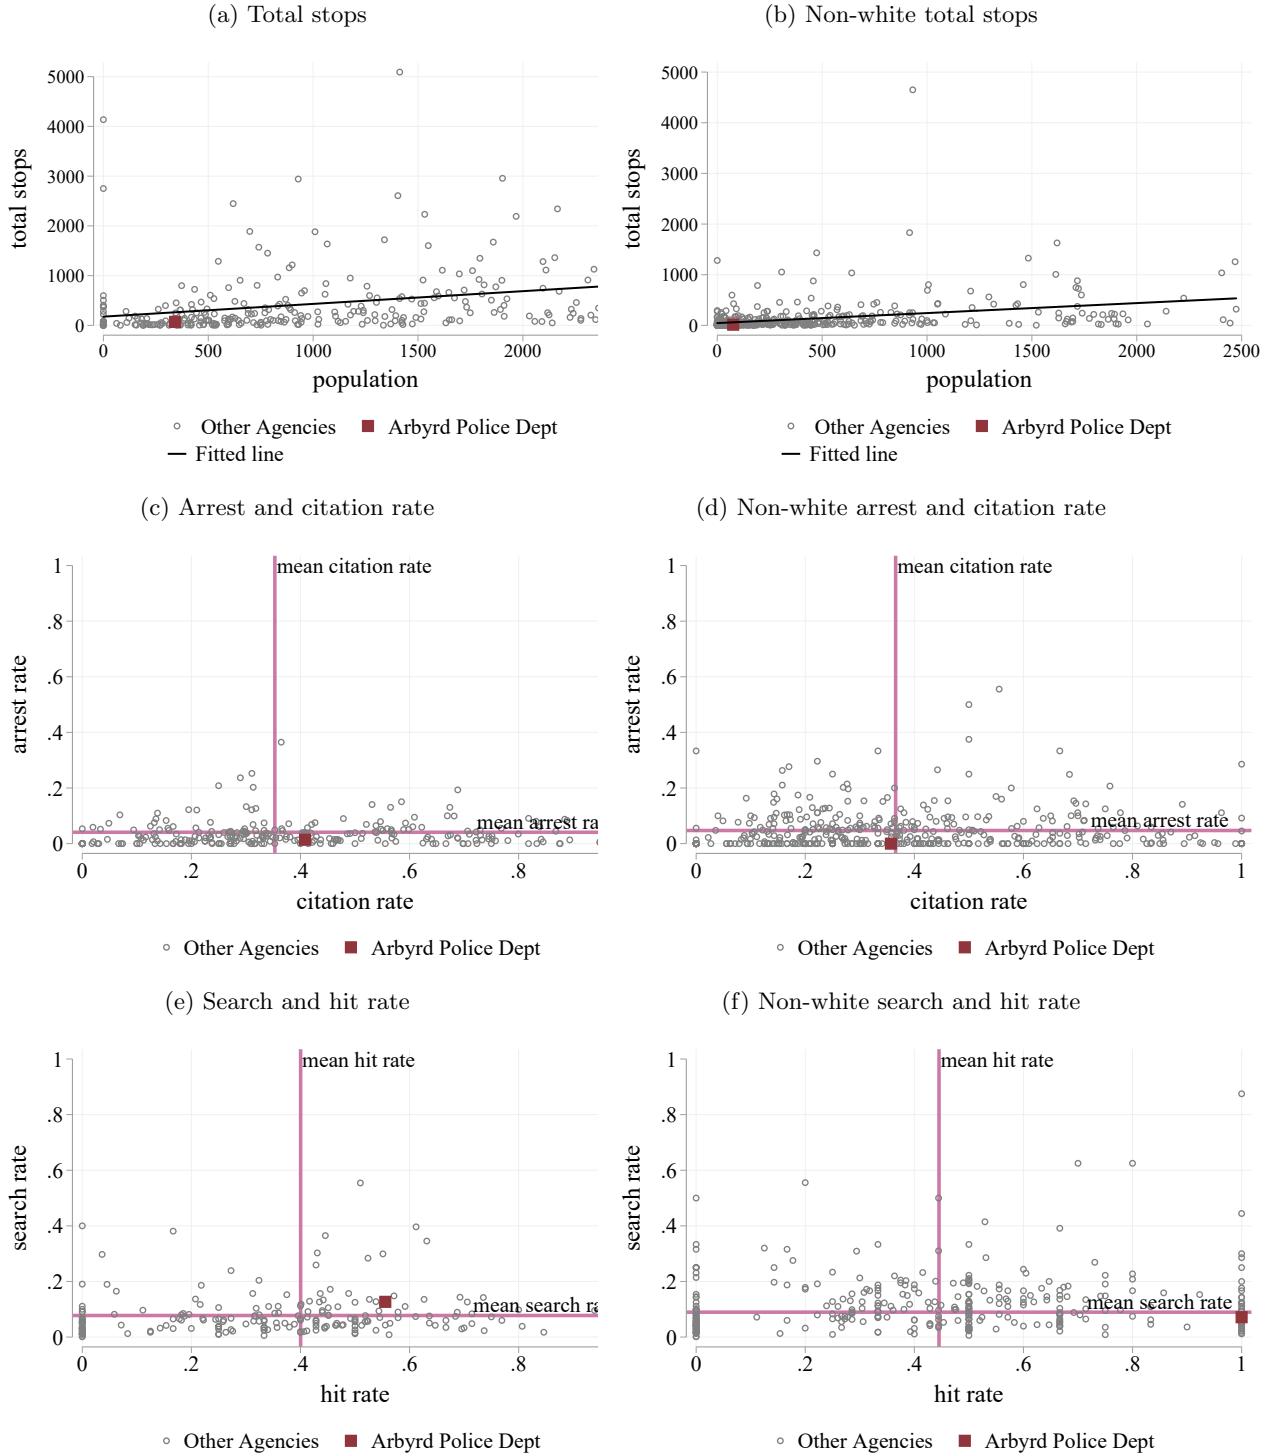

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Arbyrd Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Arbyrd Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	342	266	0	62	0	0	68
2019 population %	100	77.78	0	18.13	0	0	19.88
<b>Stops</b>	.	.	.	.	.	.	.
All stops	71	57	2	12	0	0	0
Resident stops	21	18	0	3	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.032	.	.932	.	.	0
Resident stops	.	1.102	.	.788	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

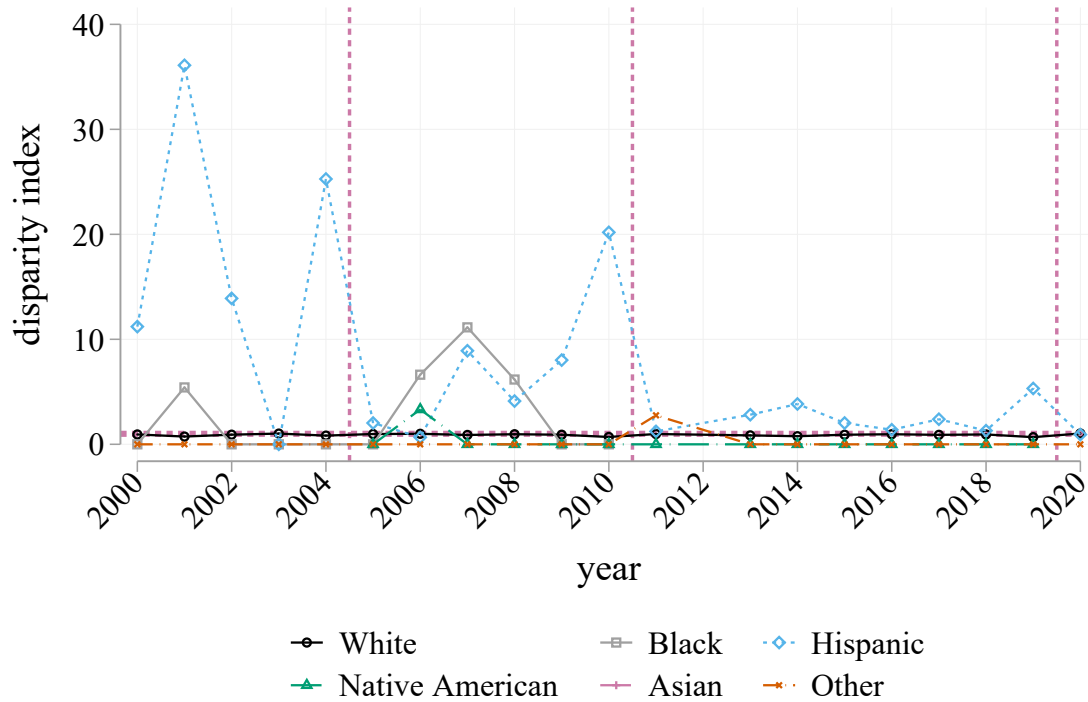

Table 3: Disparity Index from 2000 to 2020 for Arbyrd Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.94	0	11.21	.	.	0

<b>2011</b>	.98	.	1.23	0	.	2.76
<b>2012</b>	.	.	.	.	.	.
<b>2013</b>	.85	.	2.82	0	.	0
<b>2014</b>	.77	.	3.84	0	.	0
<b>2015</b>	.91	.	2.03	0	.	0
<b>2016</b>	.96	.	1.39	0	.	0
<b>2017</b>	.9	.	2.39	0	.	0
<b>2018</b>	.94	.	1.3	0	.	0
<b>2019</b>	.68	.	5.32	0	.	0
<b>2020</b>	1.03	.	.93	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Arbyrd Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Data reported by the agency to the Attorney General's Office covering traffic stops in 2020.

## 1.11 Archie Police Dept

Table 1: Rates by Race for Archie Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	831	809	0	10	0	0	18
2019 population %	100	97.35	0	1.2	0	0	2.17
<b>Totals</b>	.	.	.	.	.	.	.
All stops	971	746	119	48	6	11	41
Resident stops	47	43	3	1	0	0	0
Searches	41	32	4	4	0	0	1
Contraband	21	17	3	1	0	0	0
Arrests	23	18	3	2	0	0	0
Citations	615	457	72	38	5	8	35
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	116.85	92.21	.	480	.	.	227.78
Stop rate, residents	5.66	5.32	.	10	.	.	0
Search rate	4.22	4.29	3.36	8.33	0	0	2.44
Contraband hit rate	51.22	53.13	75	25	.	.	0
Arrest rate	2.37	2.41	2.52	4.17	0	0	0
Citation rate	63.34	61.26	60.5	79.17	83.33	72.73	85.37

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

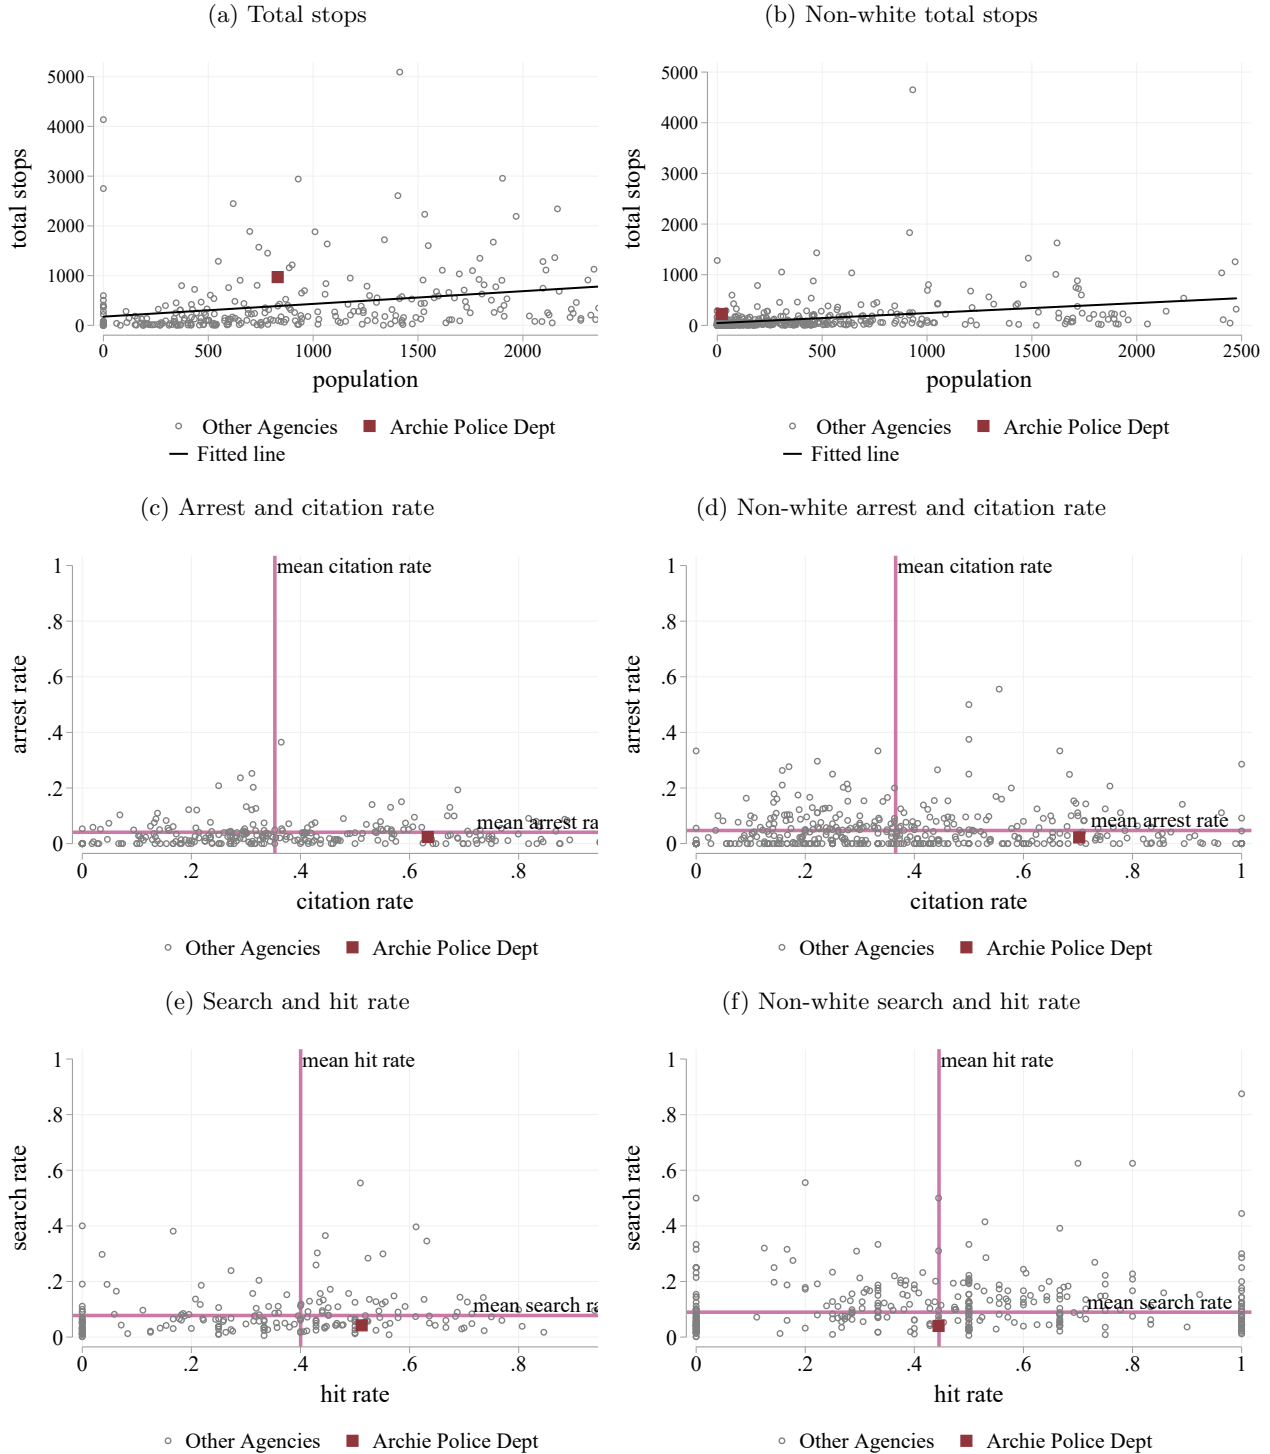

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Archie Police Dept. covers part of Interstate 49.

Figure 1: Comparison to other agencies by population for Archie Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Archie Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	831	809	0	10	0	0	18
2019 population %	100	97.35	0	1.2	0	0	2.17
<b>Stops</b>	.	.	.	.	.	.	.
All stops	971	746	119	48	6	11	41
Resident stops	47	43	3	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.789	.	4.108	.	.	1.949
Resident stops	.	.94	.	1.768	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.13 Ash Grove Police Dept

Table 1: Rates by Race for Ash Grove Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1229	1177	0	33	6	0	40
2019 population %	100	95.77	0	2.69	.49	0	3.25
<b>Totals</b>	.	.	.	.	.	.	.
All stops	388	373	7	4	0	2	2
Resident stops	104	102	0	2	0	0	0
Searches	18	18	0	0	0	0	0
Contraband	7	7	0	0	0	0	0
Arrests	8	8	0	0	0	0	0
Citations	83	81	2	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	31.57	31.69	.	12.12	0	.	5
Stop rate, residents	8.46	8.67	.	6.06	0	.	0
Search rate	4.64	4.83	0	0	.	0	0
Contraband hit rate	38.89	38.89	.	.	.	.	.
Arrest rate	2.06	2.14	0	0	.	0	0
Citation rate	21.39	21.72	28.57	0	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

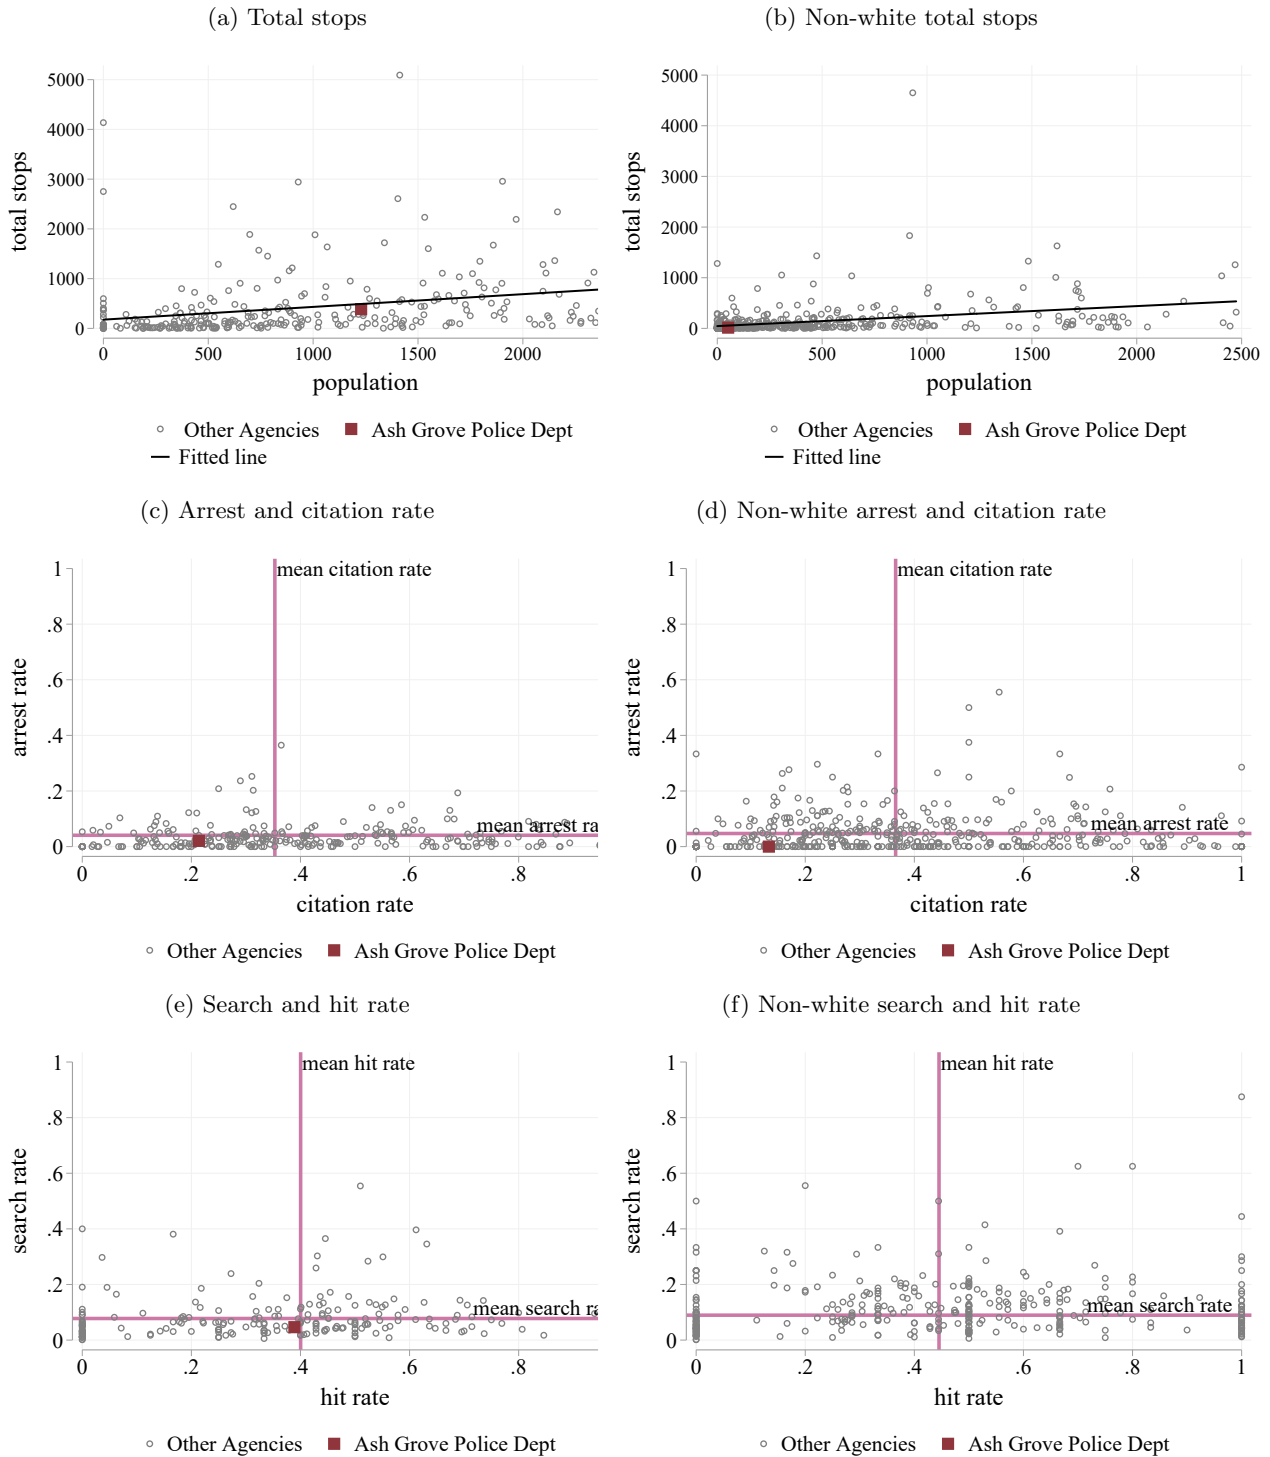

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Ash Grove Police Dept. covers US Highway 160 and Missouri F and V highway.

Figure 1: Comparison to other agencies by population for Ash Grove Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ash Grove Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1229	1177	0	33	6	0	40
2019 population %	100	95.77	0	2.69	.49	0	3.25
<b>Stops</b>	.	.	.	.	.	.	.
All stops	388	373	7	4	0	2	2
Resident stops	104	102	0	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.004	.	.384	0	.	.158
Resident stops	.	1.024	.	.716	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

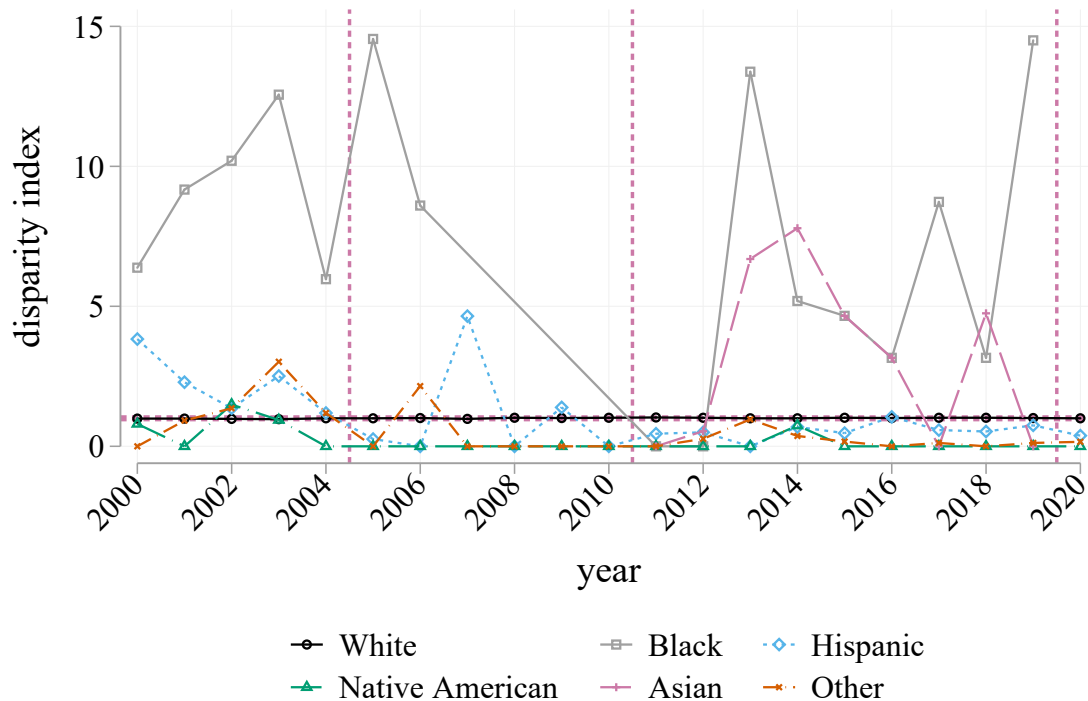

Table 3: Disparity Index from 2000 to 2020 for Ash Grove Police Dept

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

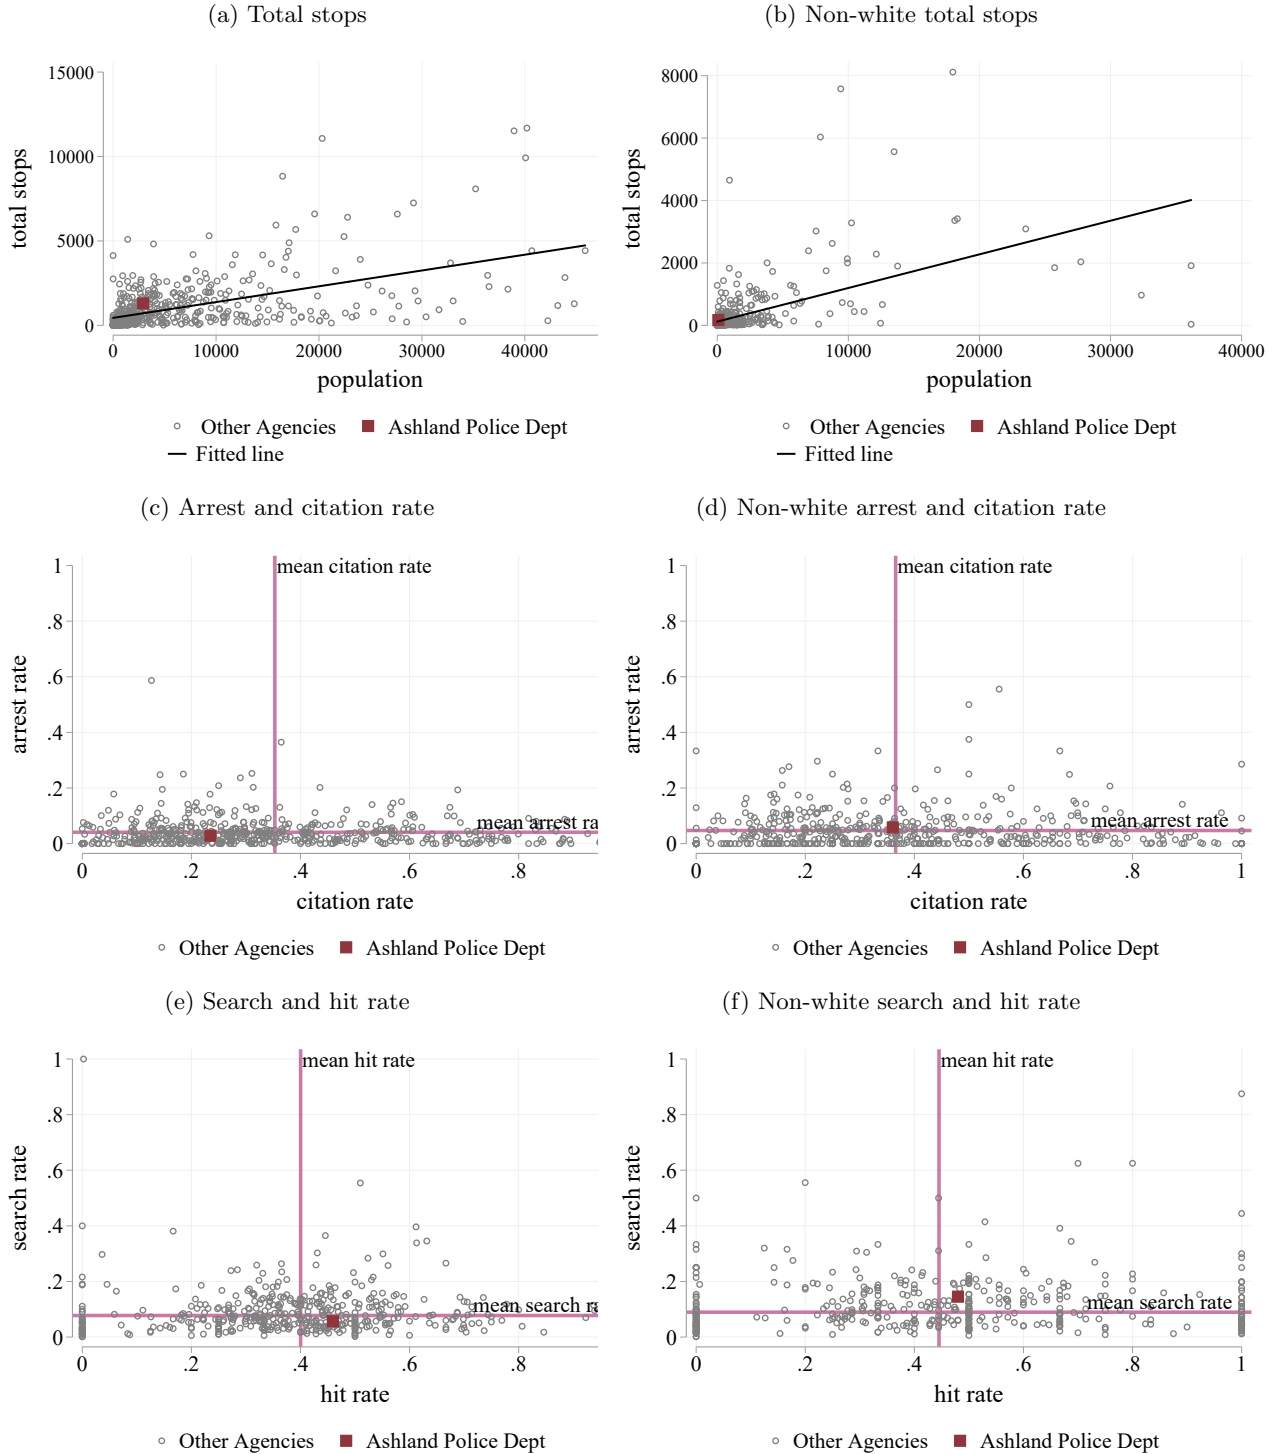

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: In 2014, Ashland Police Dept. administration enacted policy prohibiting Ashland police officers from conducting traffic enforcement on U.S. Highway 63 which travels through the city limits of Ashland, Missouri. In May of 2020, the prohibition against traffic enforcement on U.S. Highway 63 was lifted, which resulted in a substantial shift in where traffic enforcement contacts were made compared to the previous 5.5 years.

Figure 1: Comparison to other agencies by population for Ashland Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). ## 1.15 Atchison County Sheriff's Dept

Table 1: Rates by Race for Atchison County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4335	4177	24	57	39	23	28
2019 population %	100	96.36	.55	1.31	.9	.53	.65
<b>Totals</b>	.	.	.	.	.	.	.
All stops	186	165	13	8	0	0	0
Resident stops	109	107	1	1	0	0	0
Searches	13	9	4	0	0	0	0
Contraband	12	9	3	0	0	0	0
Arrests	2	0	0	2	0	0	0
Citations	47	38	4	5	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.29	3.95	54.17	14.04	0	0	0
Stop rate, residents	2.51	2.56	4.17	1.75	0	0	0
Search rate	6.99	5.45	30.77	0	.	.	.
Contraband hit rate	92.31	100	75	.	.	.	.
Arrest rate	1.08	0	0	25	.	.	.
Citation rate	25.27	23.03	30.77	62.5	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

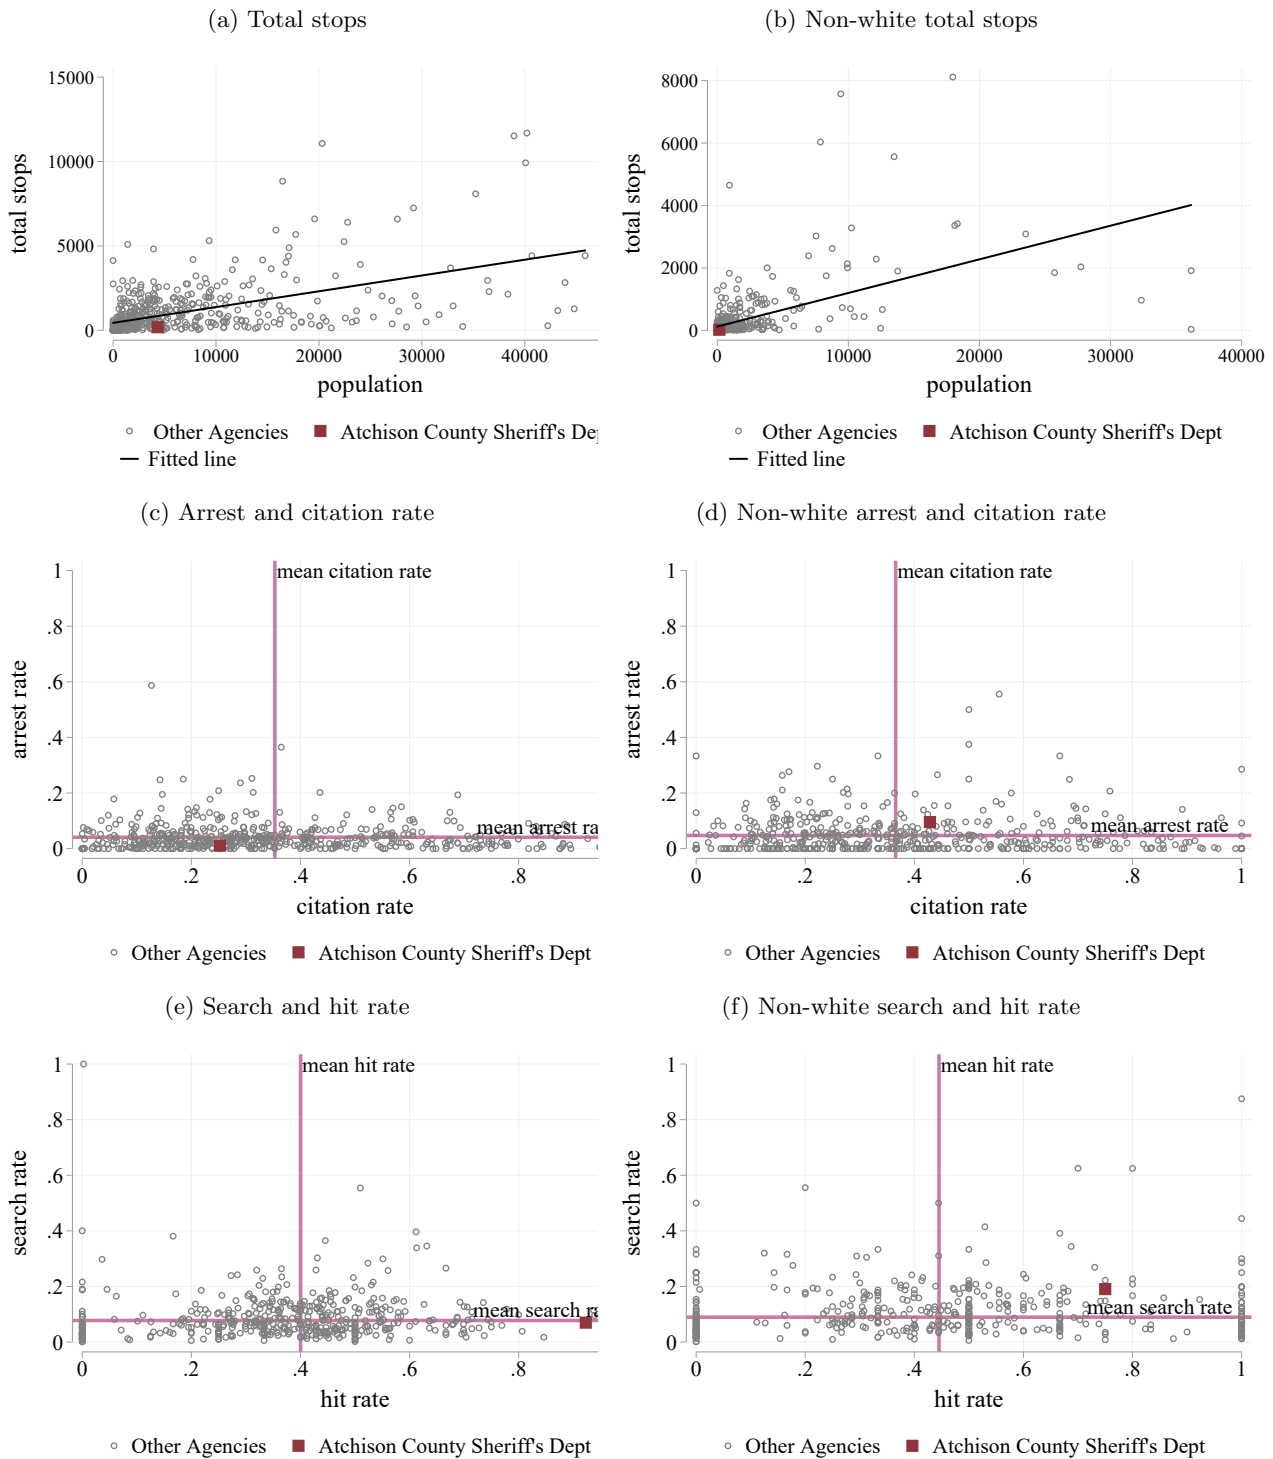

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Atchison County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Atchison County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4335	4177	24	57	39	23	28
2019 population %	100	96.36	.55	1.31	.9	.53	.65
<b>Stops</b>	.	.	.	.	.	.	.
All stops	186	165	13	8	0	0	0
Resident stops	109	107	1	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.921	12.624	3.271	0	0	0
Resident stops	.	1.019	1.657	.698	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.17 Aurora Police Dept

Table 1: Rates by Race for Aurora Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6094	5367	4	415	115	0	200
2019 population %	100	88.07	.07	6.81	1.89	0	3.28
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1713	1632	14	57	3	5	2
Resident stops	625	591	8	22	1	2	1
Searches	77	72	2	3	0	0	0
Contraband	27	25	0	2	0	0	0
Arrests	70	65	2	3	0	0	0
Citations	551	519	7	23	0	2	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	28.11	30.41	350	13.73	2.61	.	1
Stop rate, residents	10.26	11.01	200	5.3	.87	.	.5
Search rate	4.5	4.41	14.29	5.26	0	0	0
Contraband hit rate	35.06	34.72	0	66.67	.	.	.
Arrest rate	4.09	3.98	14.29	5.26	0	0	0
Citation rate	32.17	31.8	50	40.35	0	40	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

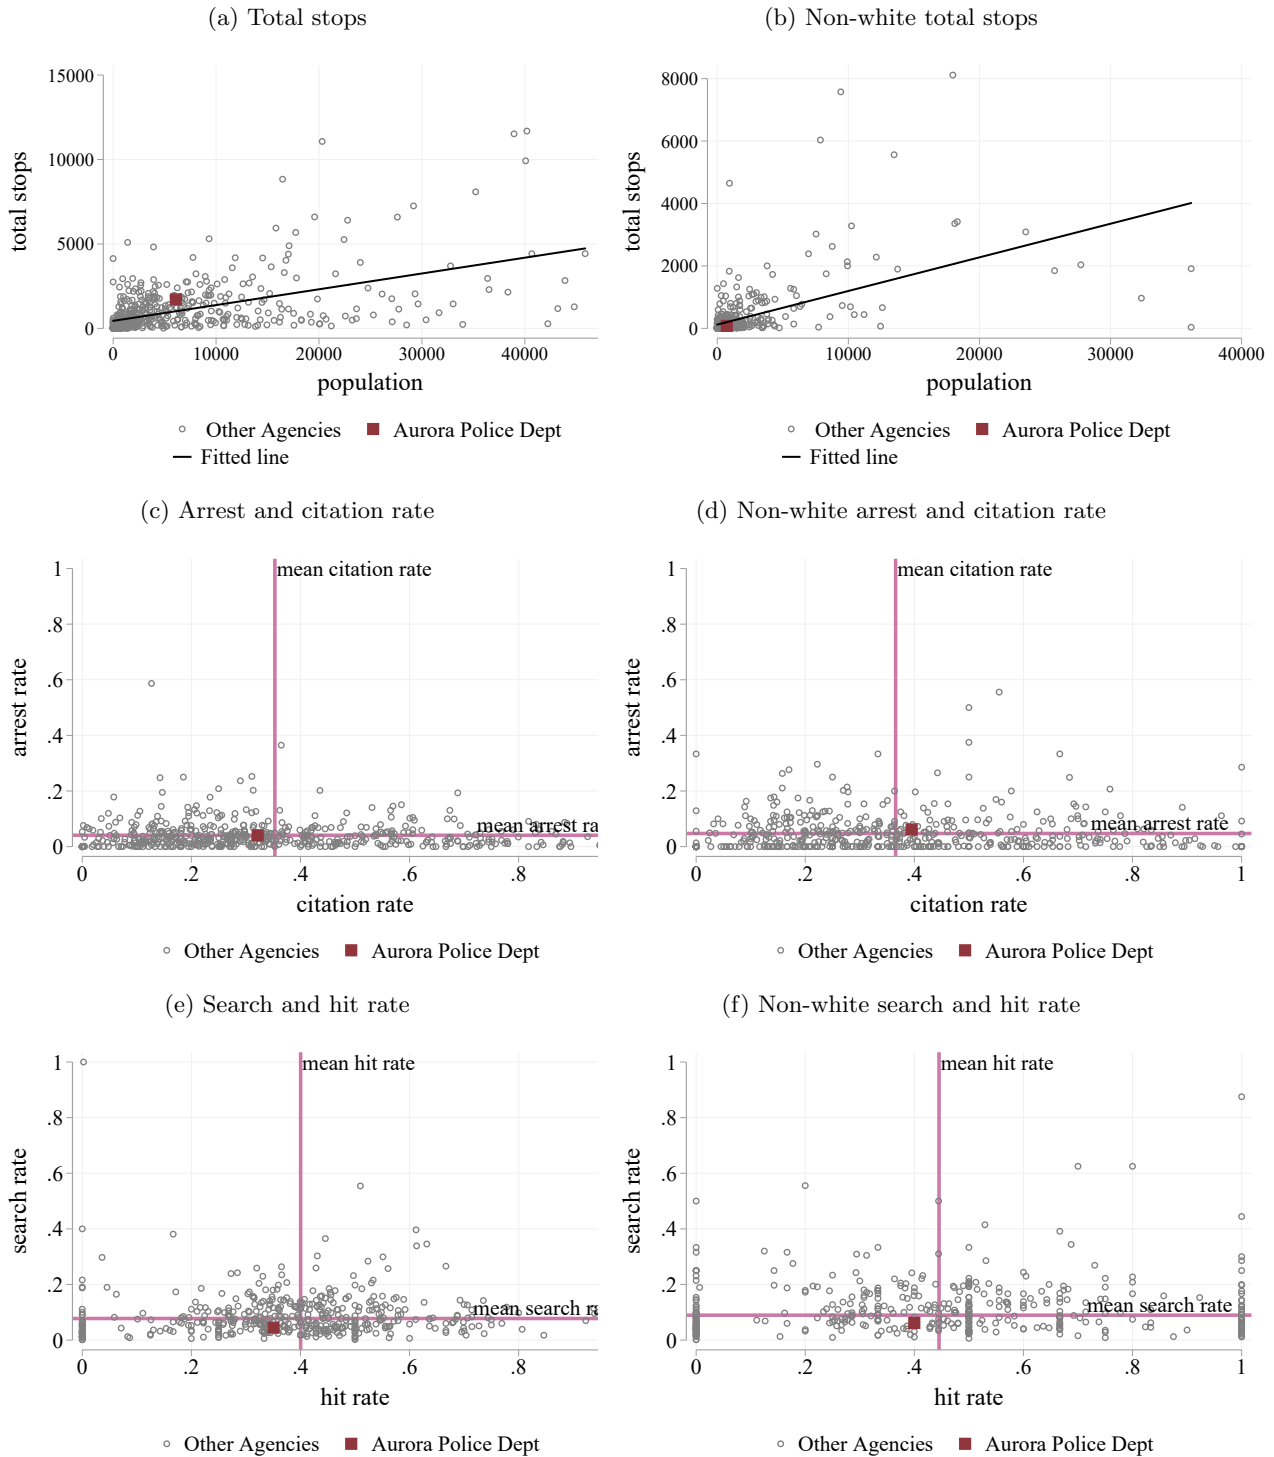

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Aurora Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Aurora Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6094	5367	4	415	115	0	200
2019 population %	100	88.07	.07	6.81	1.89	0	3.28
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1713	1632	14	57	3	5	2
Resident stops	625	591	8	22	1	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.082	12.451	.489	.093	.	.036
Resident stops	.	1.074	19.501	.517	.085	.	.049

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

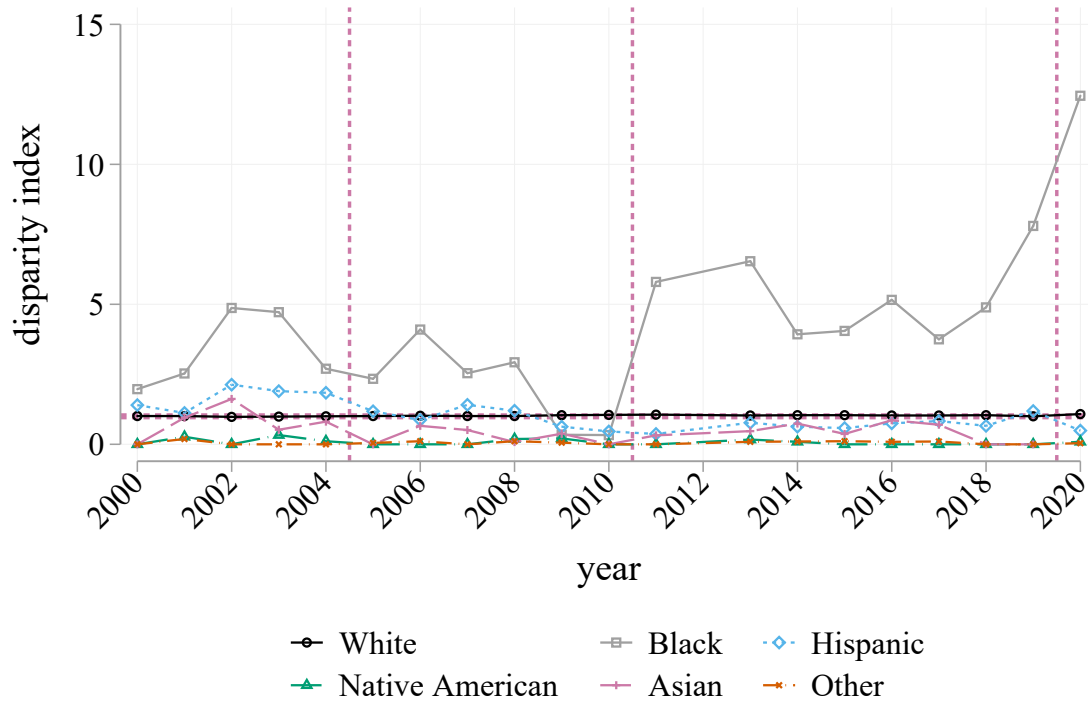

Table 3: Disparity Index from 2000 to 2020 for Aurora Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.01	1.97	1.4	0	0	0

<b>2010</b>	1.05	.33	.46	0	0	0
<b>2011</b>	1.06	5.8	.37	0	.32	0
<b>2012</b>	.	.	.	.	.	.
<b>2013</b>	1.03	6.54	.77	.17	.47	.09
<b>2014</b>	1.04	3.93	.63	.09	.74	.1
<b>2015</b>	1.04	4.05	.58	0	.37	.11
<b>2016</b>	1.03	5.16	.75	0	.86	.09
<b>2017</b>	1.03	3.75	.83	0	.7	.1
<b>2018</b>	1.04	4.89	.66	0	0	0
<b>2019</b>	1	7.8	1.19	0	0	0
<b>2020</b>	1.08	12.45	.49	.09	.	.04

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Aurora Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	3.86	3.81	4	.	.	.	.
Search rate	1.74	1.76	0	0	.	0	.
Contraband hit rate	84.62	84.62	.	.	.	.	.
Arrest rate	3.61	3.52	0	33.33	.	0	.
Citation rate	13.12	13.01	25	33.33	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

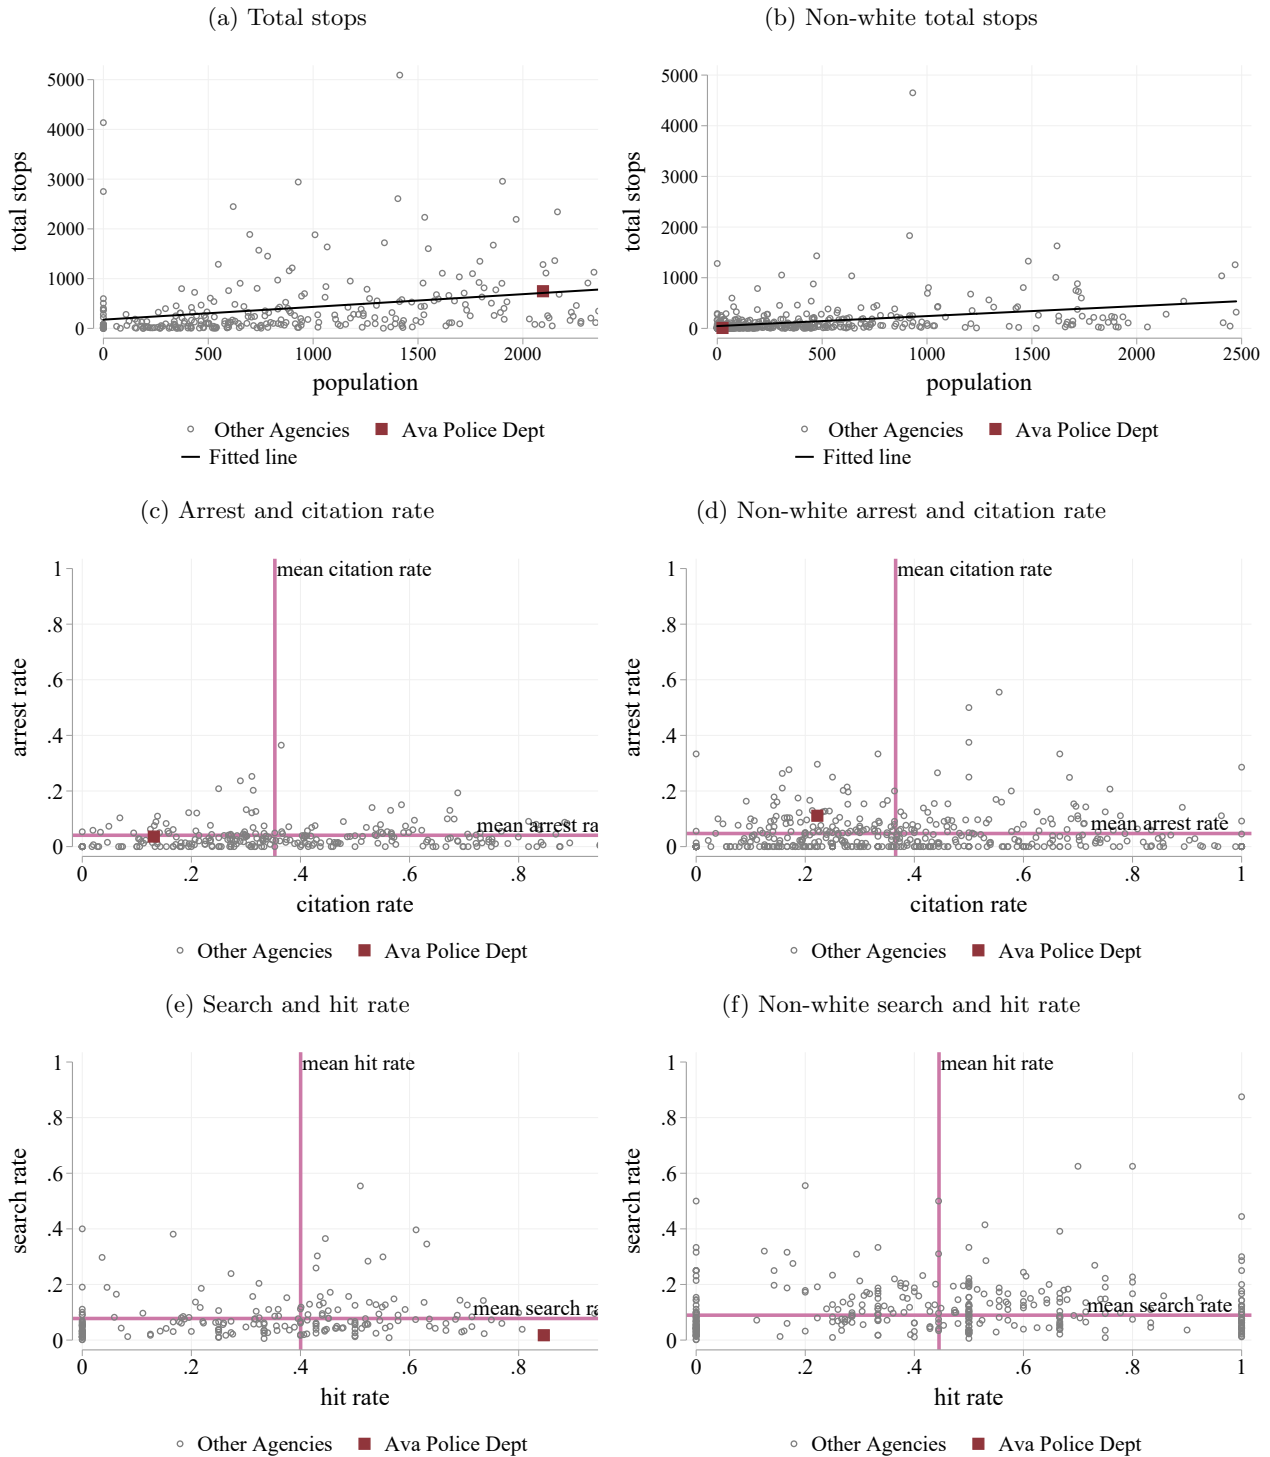

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ava Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ava Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2096	2071	25	0	0	0	0
2019 population %	100	98.81	1.19	0	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	747	738	4	3	0	2	0
Resident stops	81	79	1	0	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1	.449	.	.	.	.
Resident stops	.	.987	1.035	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

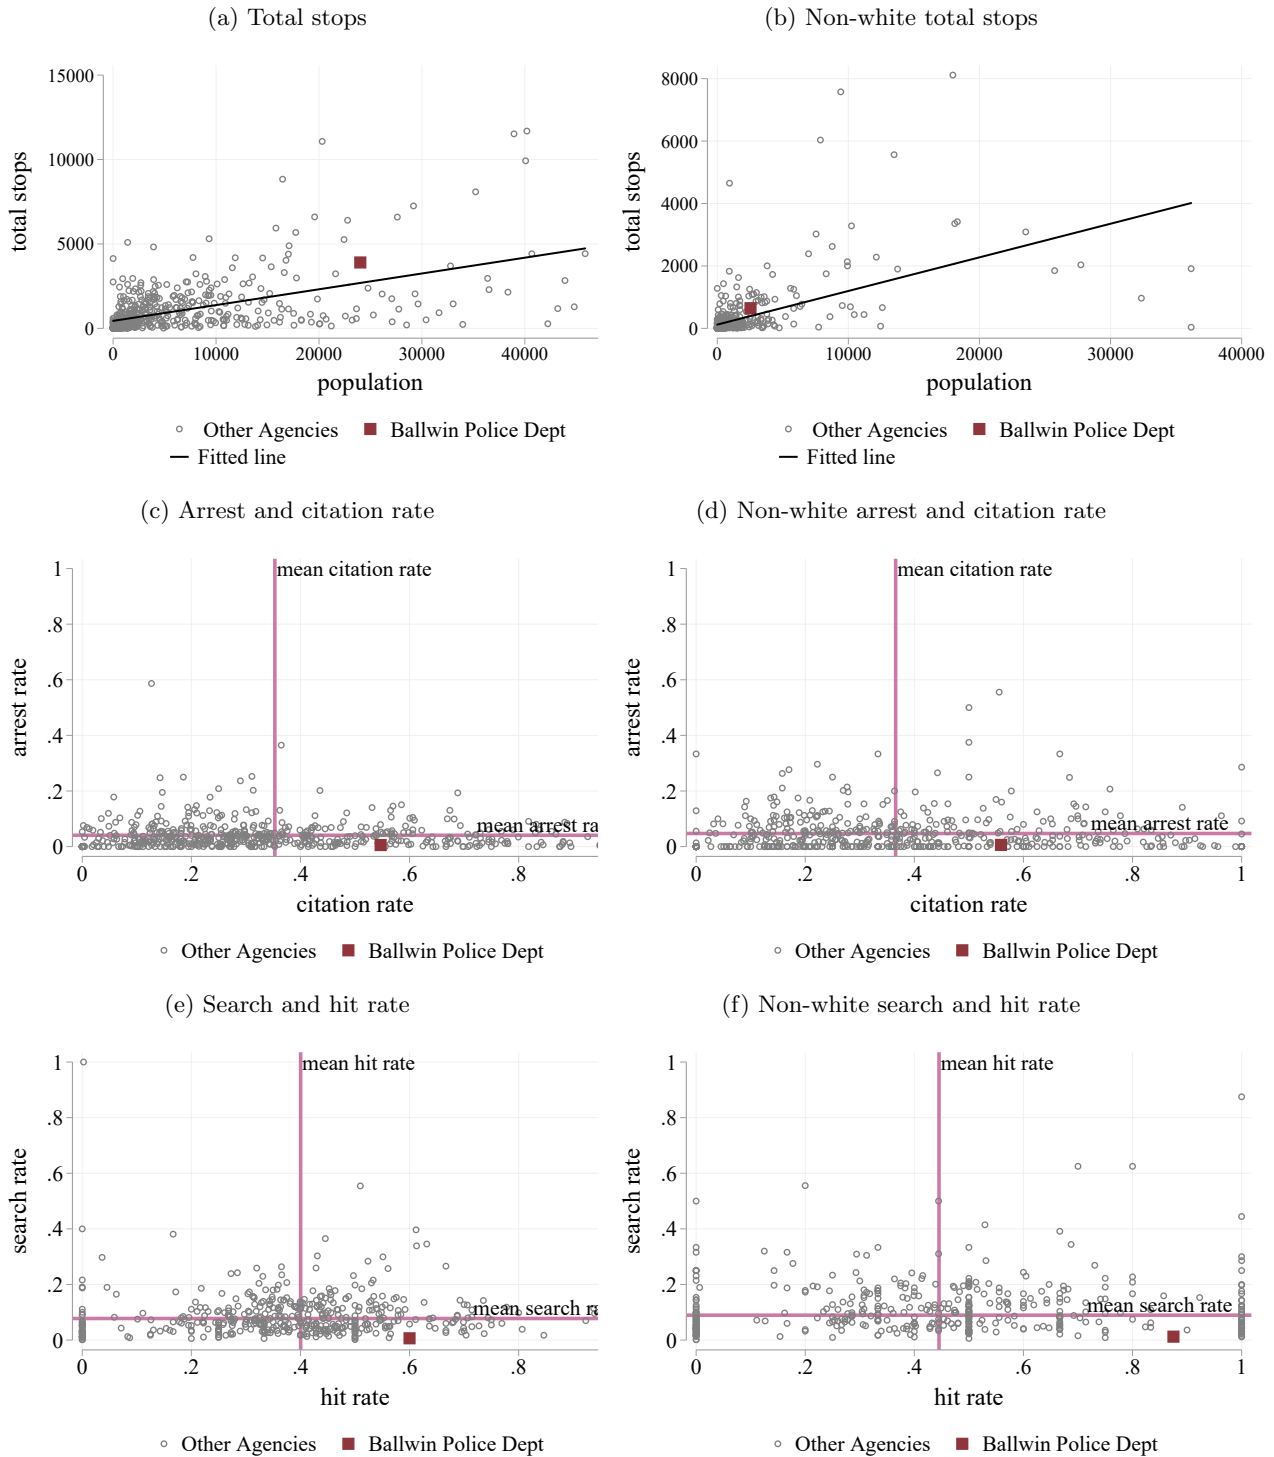

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Barry County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Barry County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	28517	25047	64	2105	227	461	1269
2019 population %	100	87.83	.22	7.38	.8	1.62	4.45
<b>Stops</b>	.	.	.	.	.	.	.
All stops	202	176	2	20	1	2	1
Resident stops	133	117	1	13	0	2	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.992	4.412	1.341	.622	.612	.111
Resident stops	.	1.002	3.35	1.324	0	.93	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate	86.42	83.13	.	.	.	50	.
Stop rate, residents	80.86	80.62	.	.	.	0	.
Search rate	1.43	1.5	0	0	.	0	.
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	0	0	0	0	.	0	.
Citation rate	41.43	41.35	50	50	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

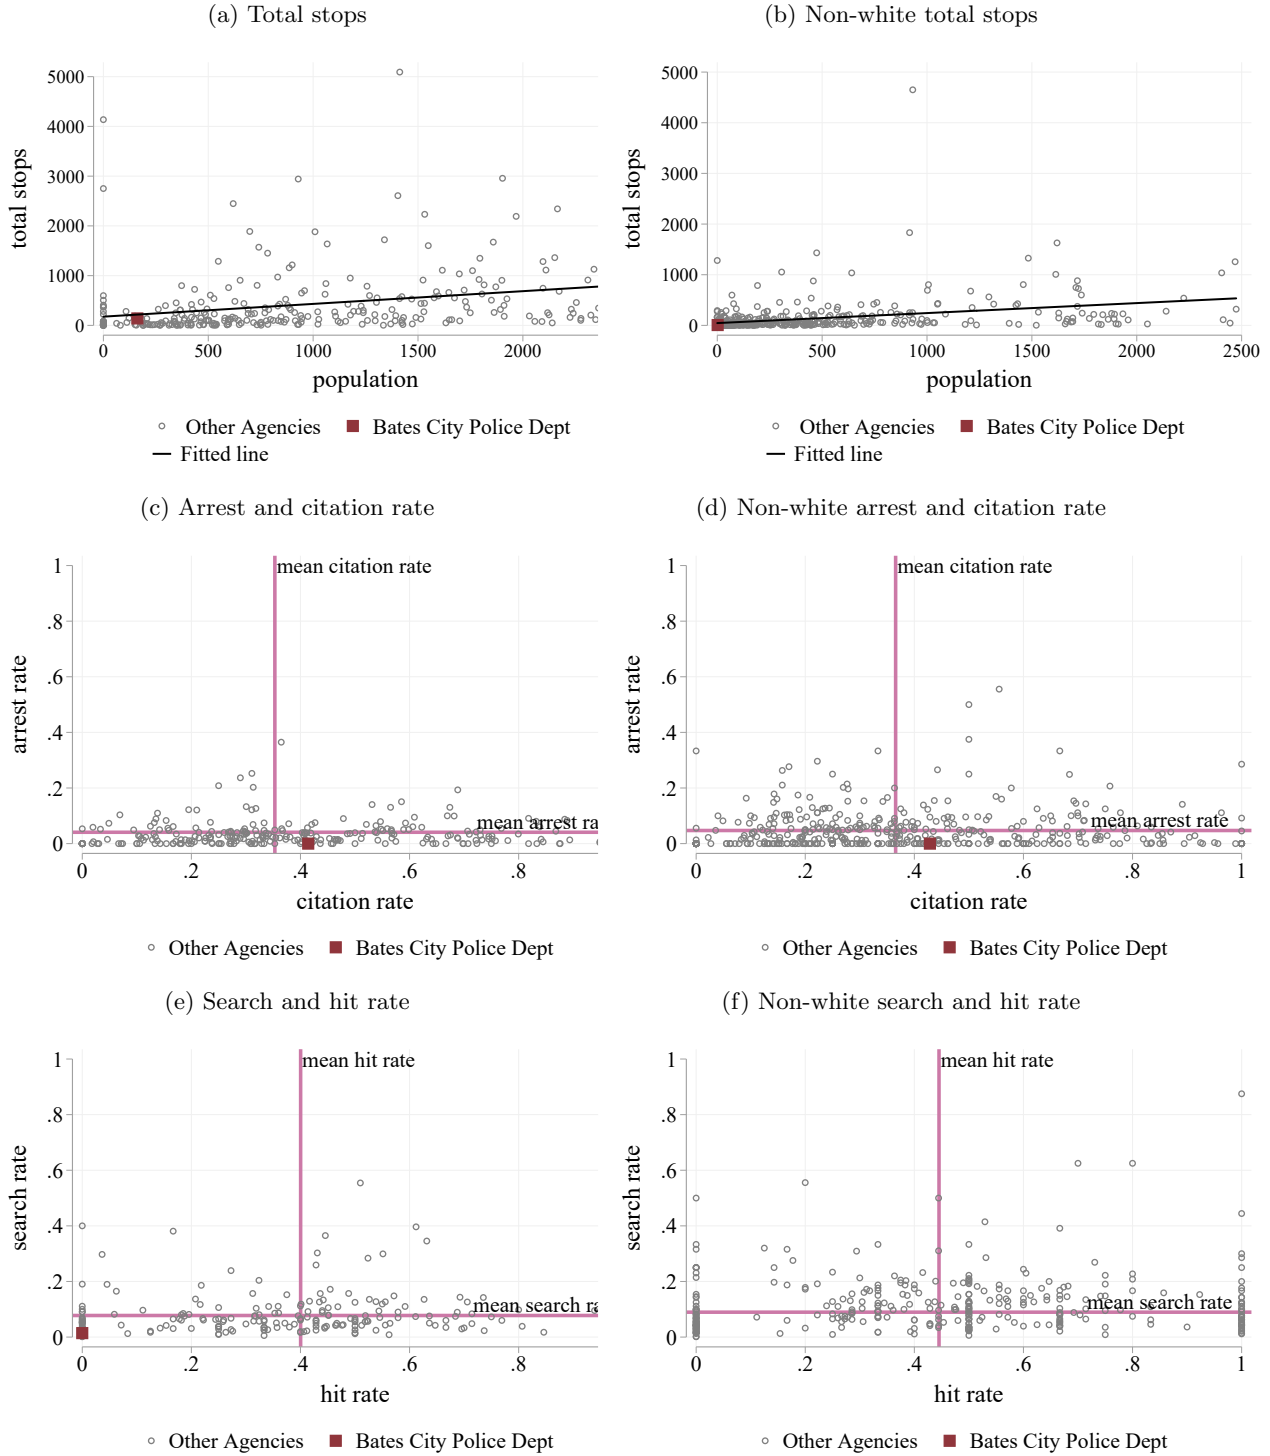

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bates City Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bates City Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	162	160	0	0	0	2	0
2019 population %	100	98.77	0	0	0	1.23	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	140	133	4	2	0	1	0
Resident stops	131	129	0	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.962	.	.	.	.579	.
Resident stops	.	.997	.	.	.	0	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

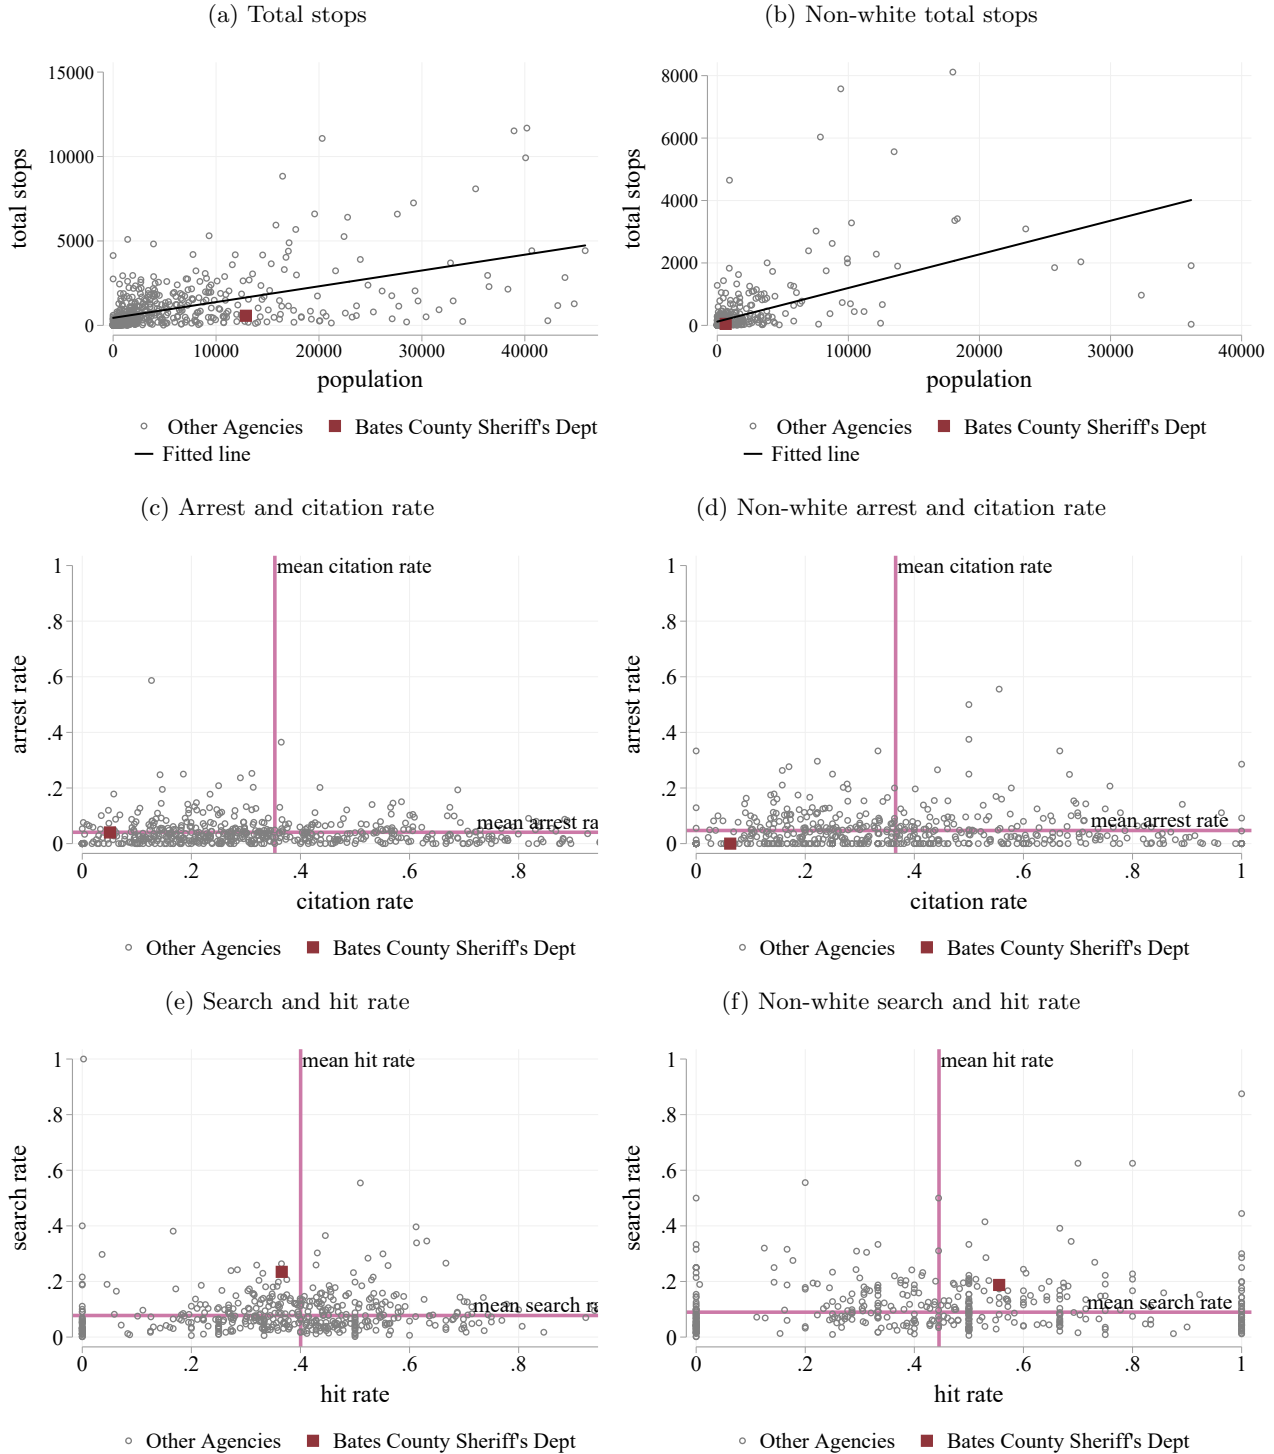

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Battlefield Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Battlefield Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4508	3981	77	143	0	138	269
2019 population %	100	88.31	1.71	3.17	0	3.06	5.97
<b>Stops</b>	.	.	.	.	.	.	.
All stops	584	521	38	13	0	9	3
Resident stops	208	189	10	6	0	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.01	3.809	.702	.	.503	.086
Resident stops	.	1.029	2.815	.909	.	.314	.081

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

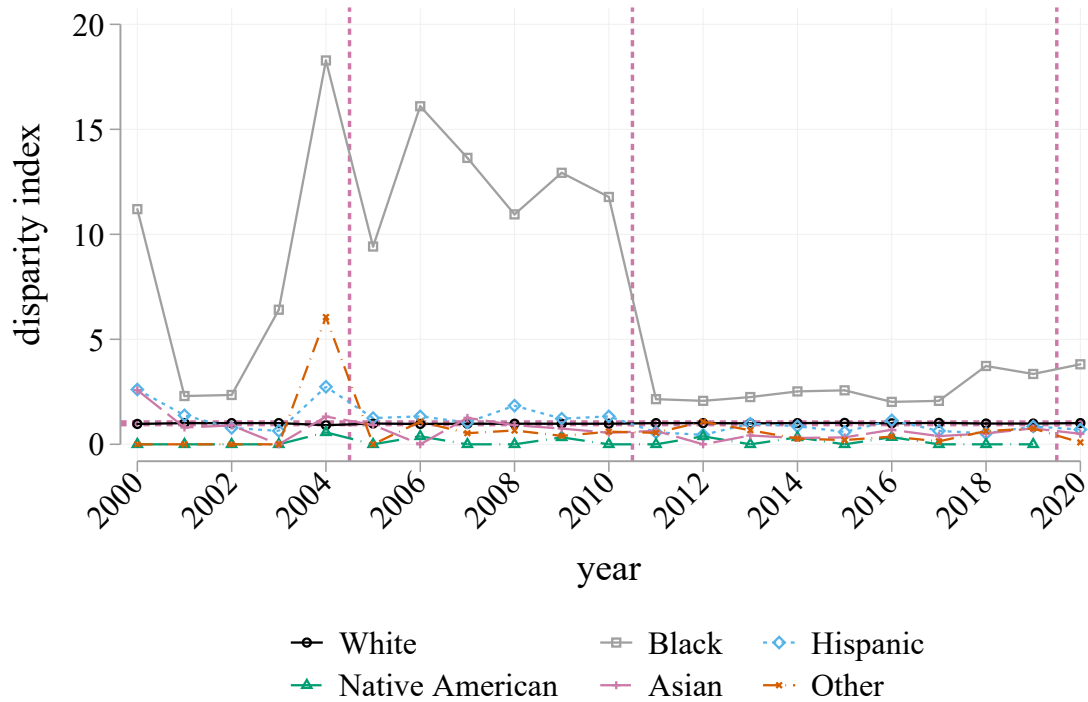

Table 3: Disparity Index from 2000 to 2020 for Battlefield Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bel-Ridge Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bel-Ridge Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1893	153	1665	48	7	0	68
2019 population %	100	8.08	87.96	2.54	.37	0	3.59
<b>Stops</b>	.	.	.	.	.	.	.
All stops	320	79	231	4	2	1	3
Resident stops	24	4	18	1	1	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	3.054	.821	.493	1.69	.	.261
Resident stops	.	2.062	.853	1.643	11.268	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

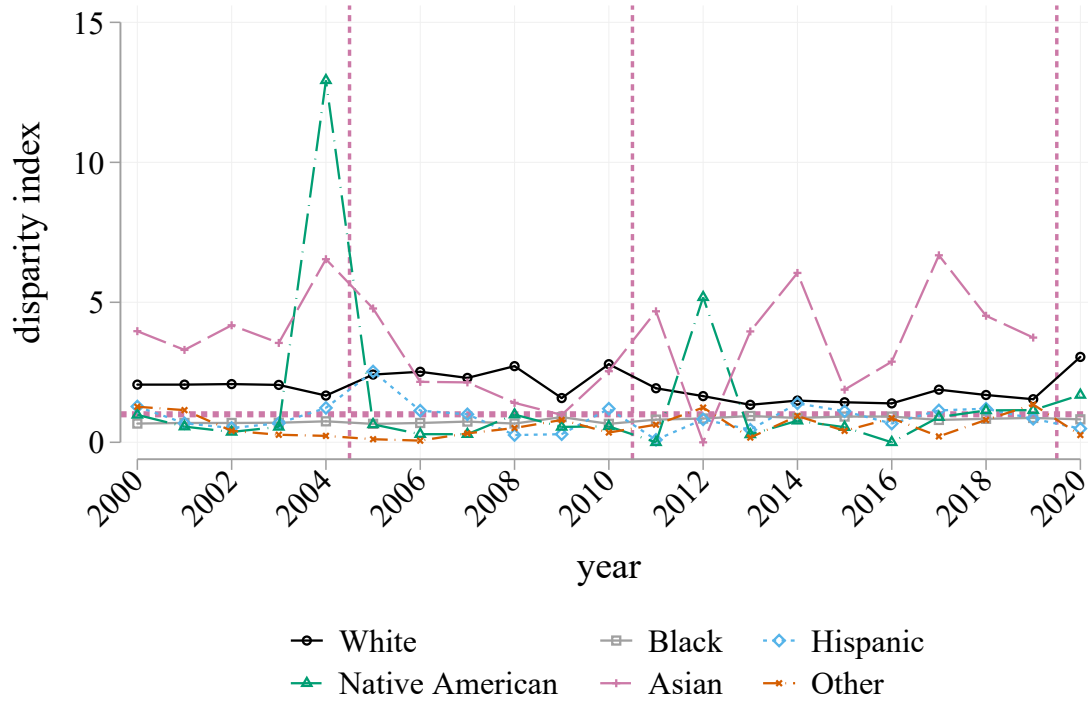

Table 3: Disparity Index from 2000 to 2020 for Bel-Ridge Police Dept

Arrest rate	1.53	1.41	1.57	.	0	.	0
Citation rate	63.05	53.52	64.7	.	0	.	23.08

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

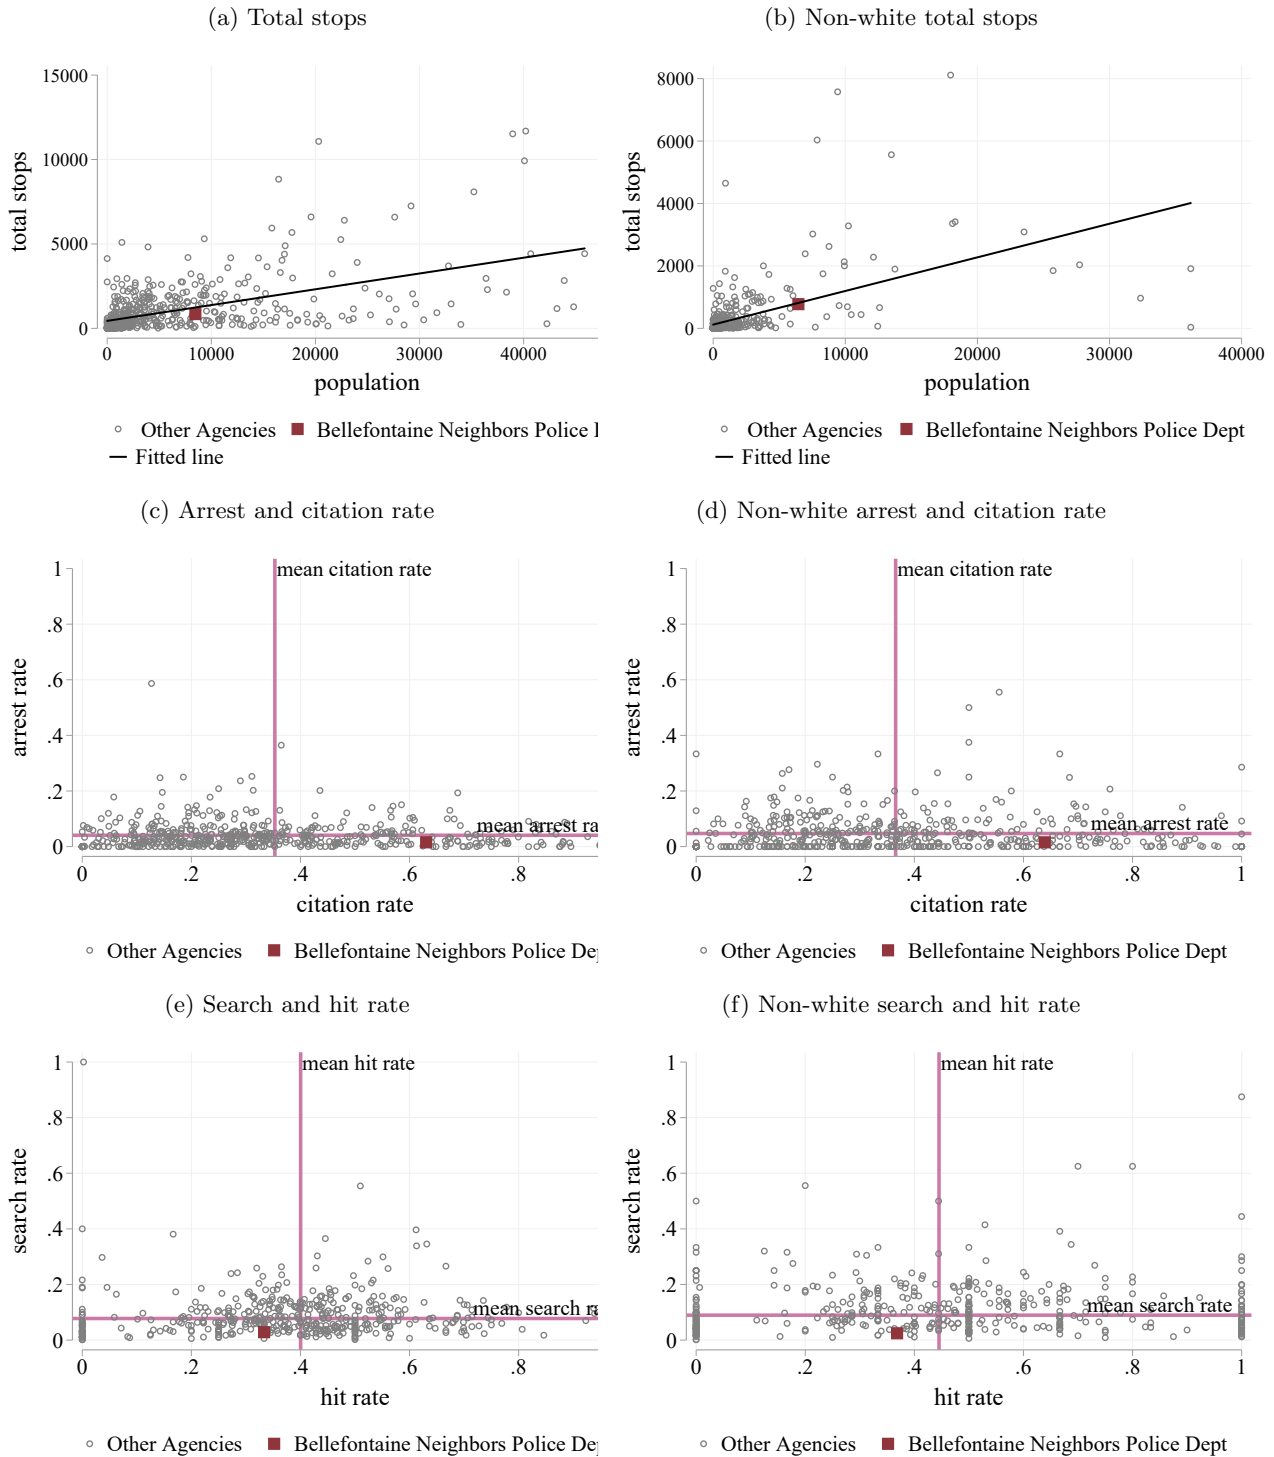

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Bellefontaine Neighbors Police Dept. shares jurisdiction with City of St. Louis, City of Jennings, City of Moline Acres, City of Riverview, and unincorporated St. Louis County and is near the Missouri-Illinois border.

Figure 1: Comparison to other agencies by population for Bellefontaine Neighbors Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bellefontaine Neighbors Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8471	2020	6330	94	0	0	111
2019 population %	100	23.85	74.73	1.11	0	0	1.31
<b>Stops</b>	.	.	.	.	.	.	.
All stops	847	71	762	0	1	0	13
Resident stops	163	13	148	0	0	0	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.352	1.204	0	.	.	1.171
Resident stops	.	.334	1.215	0	.	.	.936

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2019</b>	.22	1.35	.23	0	.53	.28
<b>2020</b>	.35	1.2	0	.	.	1.17

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Bellefontaine Neighbors Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Belton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	17743	15274	612	1316	130	178	692
2019 population %	100	86.08	3.45	7.42	.73	1	3.9
<b>Stops</b>	.	.	.	.	.	.	.
All stops	5681	4425	935	203	5	20	93
Resident stops	2547	2064	345	97	0	7	34
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.905	4.772	.482	.12	.351	.42
Resident stops	.	.941	3.927	.513	0	.274	.342

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

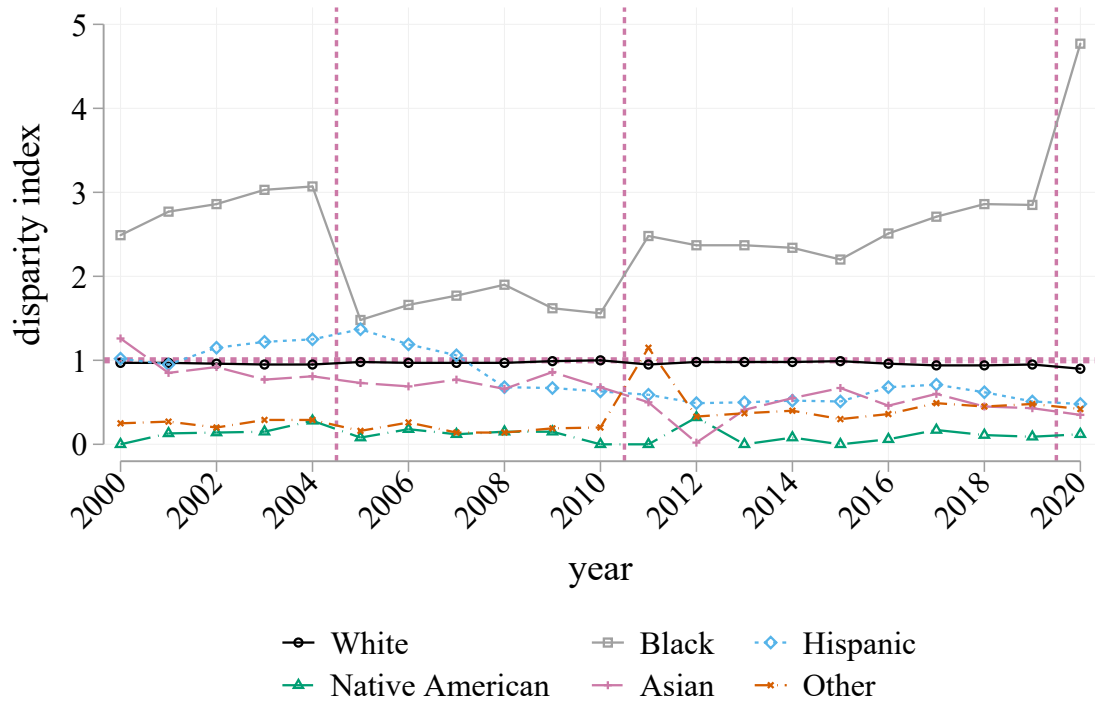

Table 3: Disparity Index from 2000 to 2020 for Belton Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	.9	4.77	.48	.12	.35	.42

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Belton Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.32 Benton County Sheriff's Dept

Table 1: Rates by Race for Benton County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	16257	15532	48	305	289	16	208
2019 population %	100	95.54	.3	1.88	1.78	.1	1.28
<b>Totals</b>	.	.	.	.	.	.	.
All stops	658	634	16	8	0	0	0
Resident stops	385	375	6	4	0	0	0
Searches	119	114	4	1	0	0	0
Contraband	40	36	3	1	0	0	0
Arrests	72	68	3	1	0	0	0
Citations	166	161	4	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.05	4.08	33.33	2.62	0	0	0
Stop rate, residents	2.37	2.41	12.5	1.31	0	0	0
Search rate	18.09	17.98	25	12.5	.	.	.
Contraband hit rate	33.61	31.58	75	100	.	.	.
Arrest rate	10.94	10.73	18.75	12.5	.	.	.
Citation rate	25.23	25.39	25	12.5	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

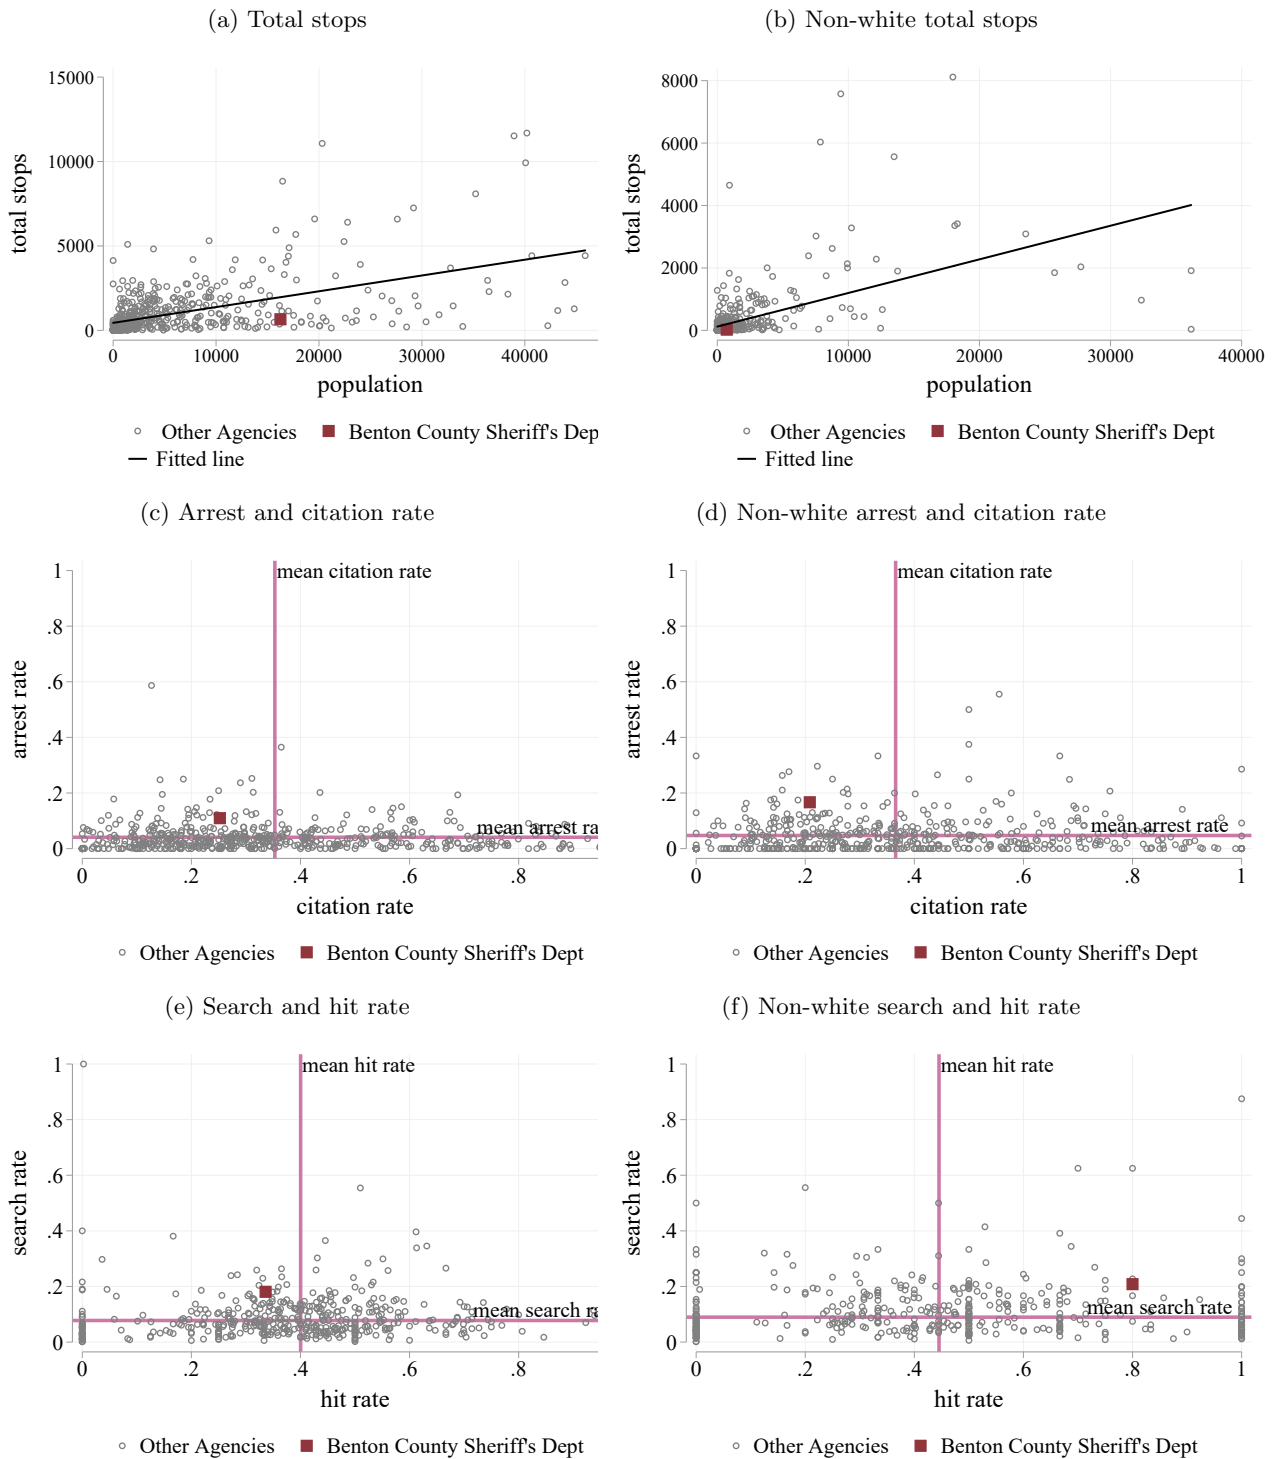

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Benton County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Benton County Sheriff's Dept

Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Benton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	716	643	51	10	0	5	9
2019 population %	100	89.8	7.12	1.4	0	.7	1.26
<b>Stops</b>	.	.	.	.	.	.	.
All stops	56	49	6	1	0	0	0
Resident stops	13	13	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.974	1.504	1.279	.	0	0
Resident stops	.	1.114	0	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

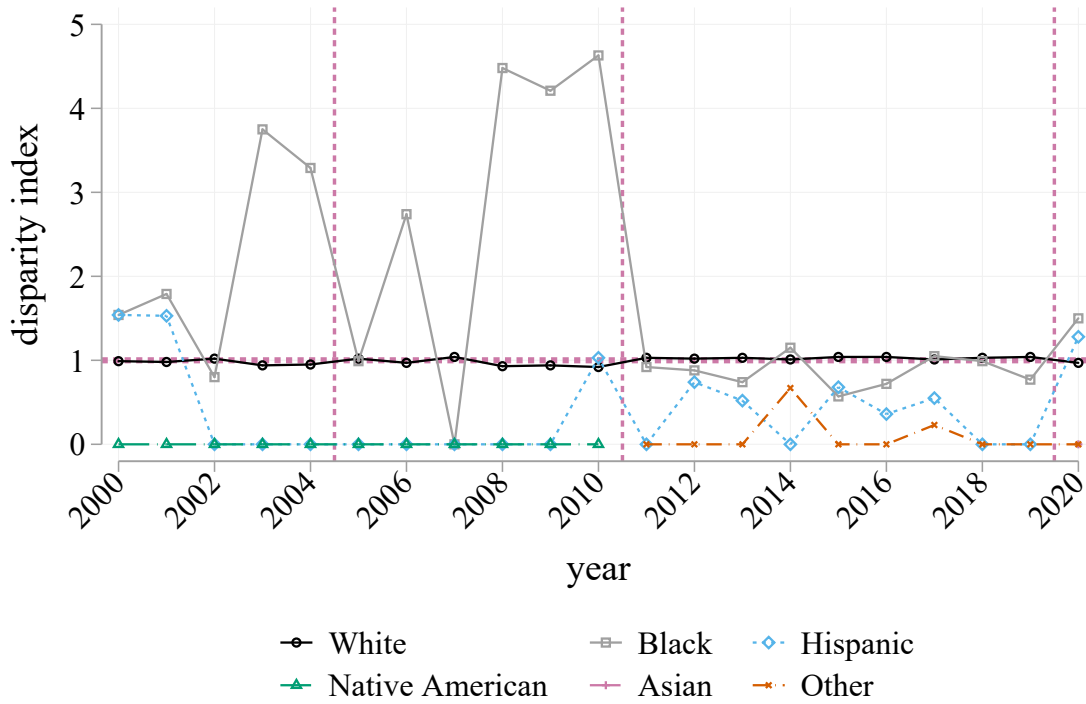

Table 3: Disparity Index from 2000 to 2020 for Benton Police Dept

Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bernie Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1424	1341	63	4	0	0	16
2019 population %	100	94.17	4.42	.28	0	0	1.12
<b>Stops</b>	.	.	.	.	.	.	.
All stops	101	93	5	3	0	0	0
Resident stops	37	36	1	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.978	1.119	10.574	.	.	0
Resident stops	.	1.033	.611	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

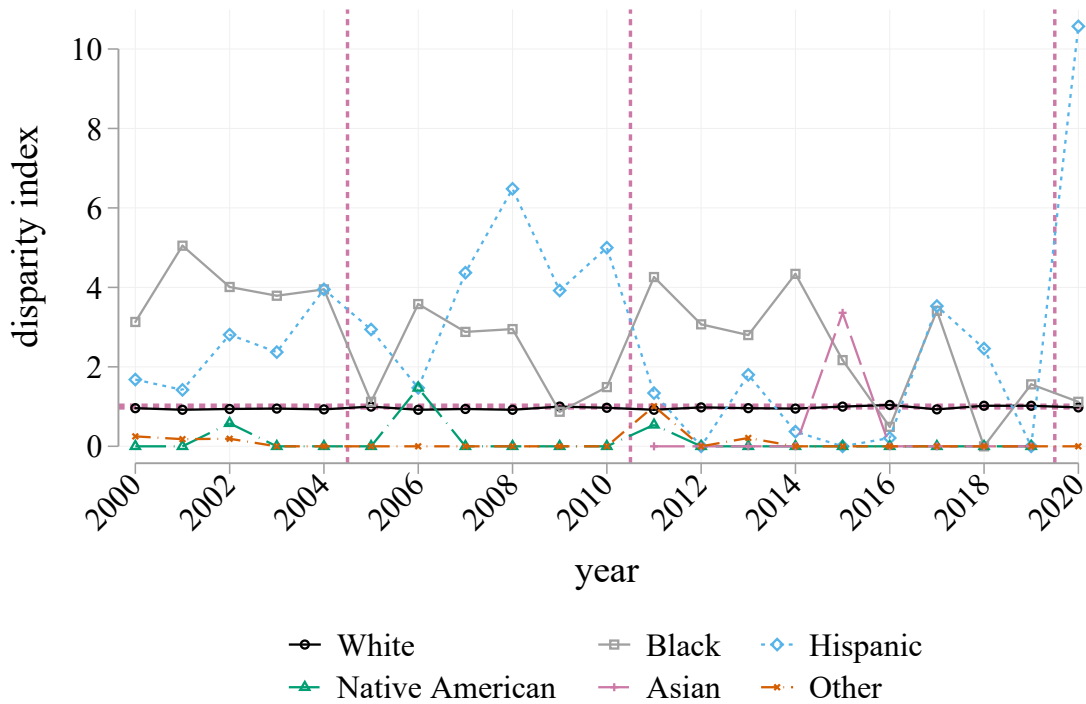

Table 3: Disparity Index from 2000 to 2020 for Bernie Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.96	3.13	1.68	0	.	.25

<b>2003</b>	.95	3.79	2.37	0	.	0
<b>2004</b>	.93	3.95	3.95	0	.	0
<b>2005</b>	1	1.12	2.94	0	.	0
<b>2006</b>	.92	3.58	1.47	1.47	.	0
<b>2007</b>	.94	2.88	4.37	0	.	0
<b>2008</b>	.92	2.95	6.48	0	.	0
<b>2009</b>	1	.87	3.92	0	.	0
<b>2010</b>	.97	1.49	5	0	.	0
<b>2011</b>	.92	4.26	1.34	.54	0	1.01
<b>2012</b>	.98	3.07	0	0	0	0
<b>2013</b>	.96	2.8	1.8	0	0	.21
<b>2014</b>	.95	4.34	.37	0	0	0
<b>2015</b>	1	2.17	0	0	3.36	0
<b>2016</b>	1.04	.49	.21	0	0	0
<b>2017</b>	.93	3.41	3.53	0	0	0
<b>2018</b>	1.02	0	2.46	0	0	0
<b>2019</b>	1.02	1.56	0	0	0	0
<b>2020</b>	.98	1.12	10.57	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Bernie Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	33.29	21.8	314.81	85.71	0	.	0
Stop rate, residents	4.85	4.27	22.22	0	0	.	0
Search rate	0	0	0	0	.	0	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	0	.
Citation rate	17.92	19.59	15.29	16.67	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

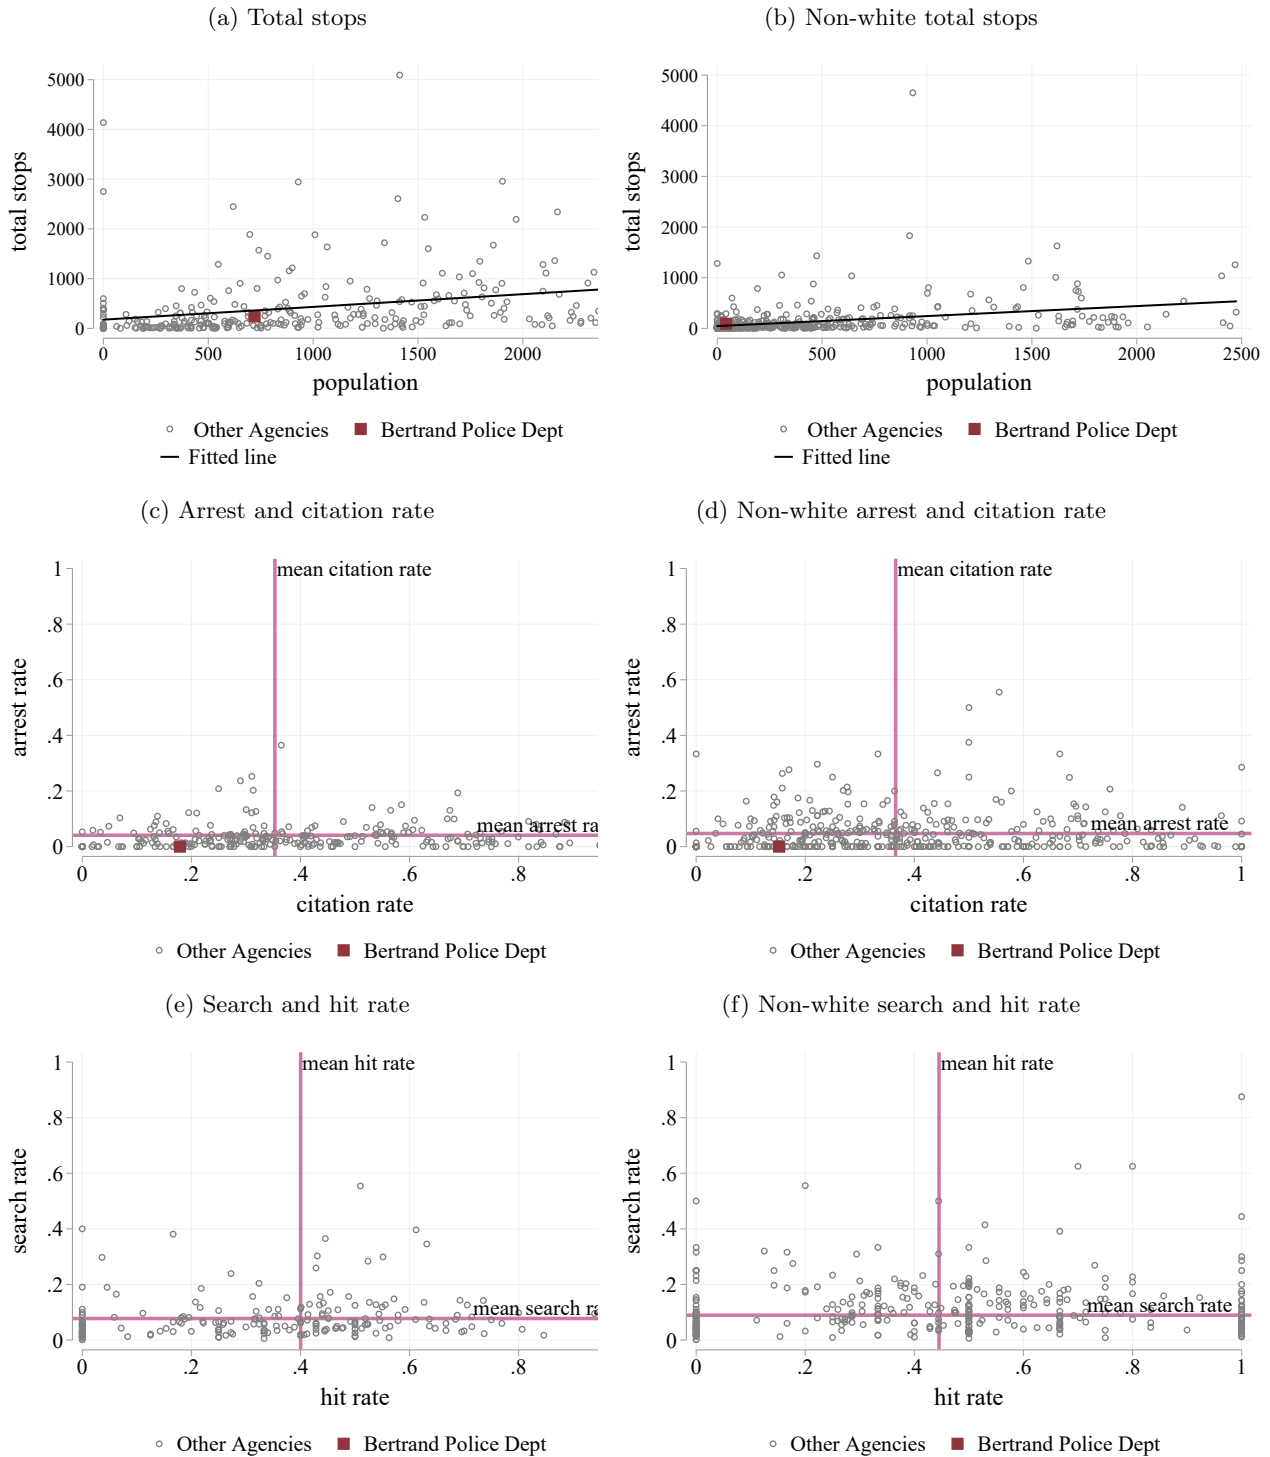

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bertrand Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2018</b>	1	3.59	.55	.51	.9	.26
<b>2019</b>	.99	3.13	1.15	0	0	.48
<b>2020</b>	1.03	1.82	.24	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Bethany Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.38 Billings Police Dept

Table 1: Rates by Race for Billings Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	770	762	0	8	8	0	0
2019 population %	100	98.96	0	1.04	1.04	0	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	252	232	4	11	0	4	1
Resident stops	1	1	0	0	0	0	0
Searches	9	7	1	1	0	0	0
Contraband	4	3	1	0	0	0	0
Arrests	7	6	1	0	0	0	0
Citations	169	159	2	4	0	2	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	32.73	30.45	.	137.5	0	.	.
Stop rate, residents	.13	.13	.	0	0	.	.
Search rate	3.57	3.02	25	9.09	.	0	0
Contraband hit rate	44.44	42.86	100	0	.	.	.
Arrest rate	2.78	2.59	25	0	.	0	0
Citation rate	67.06	68.53	50	36.36	.	50	200

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

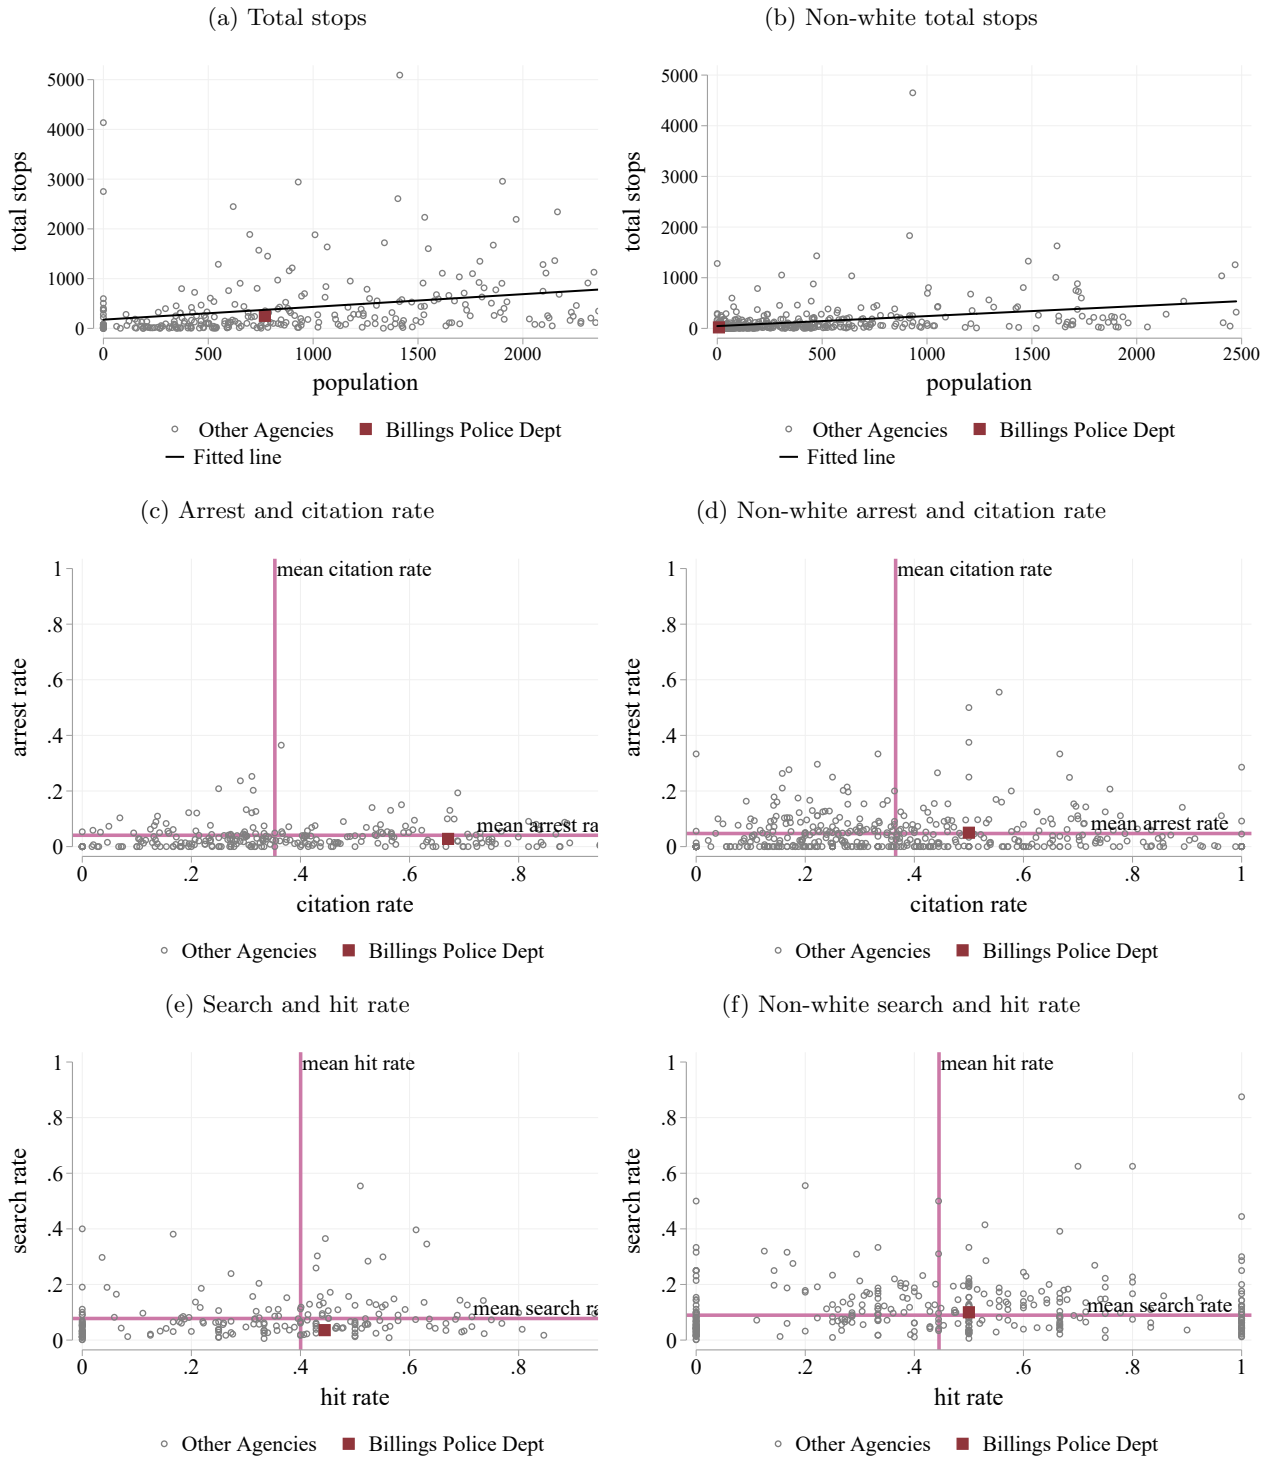

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Billings Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Billings Police Dept

<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	1.04	0	.	0	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Birch Tree Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.40 Bismarck Police Dept

Table 1: Rates by Race for Bismarck Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1166	1099	58	0	4	0	5
2019 population %	100	94.25	4.97	0	.34	0	.43
<b>Totals</b>	.	.	.	.	.	.	.
All stops	424	398	5	7	1	9	4
Resident stops	126	126	0	0	0	0	0
Searches	20	19	0	0	0	1	0
Contraband	6	6	0	0	0	0	0
Arrests	11	11	0	0	0	0	0
Citations	316	299	5	5	0	6	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	36.36	36.21	8.62	.	25	.	80
Stop rate, residents	10.81	11.46	0	.	0	.	0
Search rate	4.72	4.77	0	0	0	11.11	0
Contraband hit rate	30	31.58	.	.	.	0	.
Arrest rate	2.59	2.76	0	0	0	0	0
Citation rate	74.53	75.13	100	71.43	0	66.67	25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

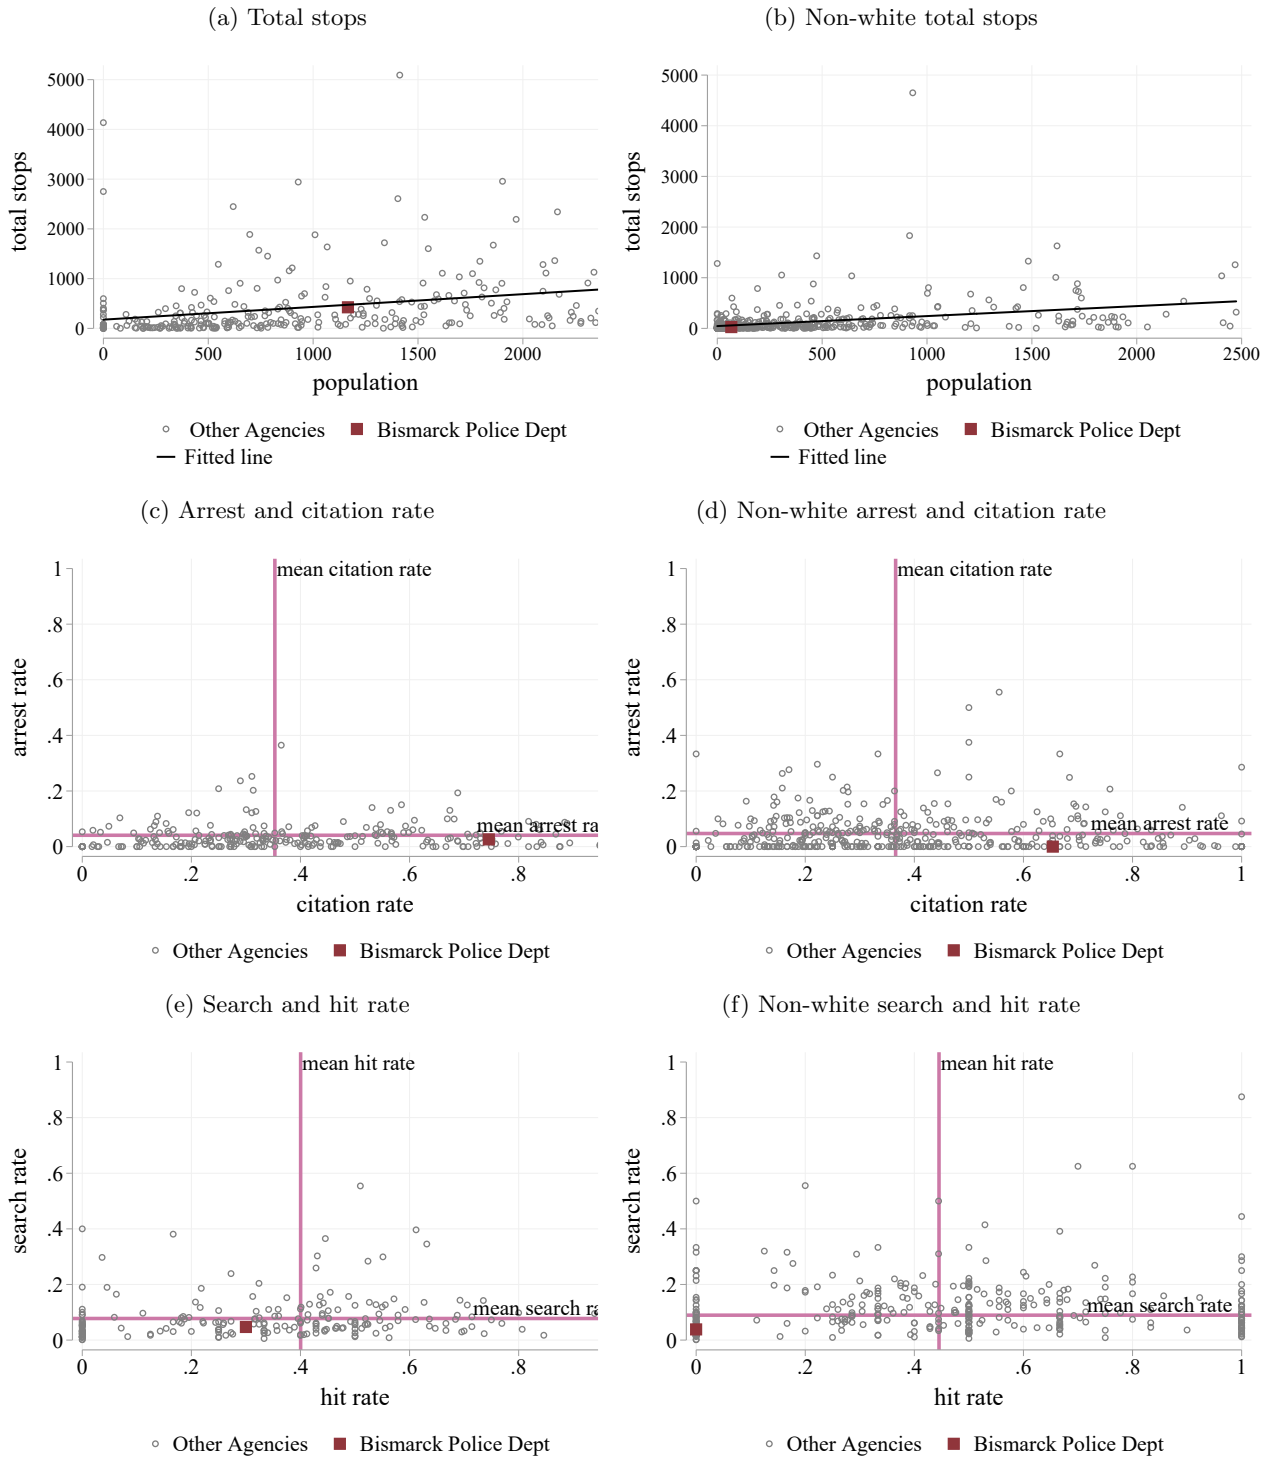

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bismarck Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bismarck Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

## 1.42 Bloomfield Police Dept

Table 1: Rates by Race for Bloomfield Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1699	1669	20	7	0	0	3
2019 population %	100	98.23	1.18	.41	0	0	.18
<b>Totals</b>	.	.	.	.	.	.	.
All stops	91	88	2	1	0	0	0
Resident stops	34	34	0	0	0	0	0
Searches	4	4	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	3	2	1	0	0	0	0
Citations	52	50	2	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	5.36	5.27	10	14.29	.	.	0
Stop rate, residents	2	2.04	0	0	.	.	0
Search rate	4.4	4.55	0	0	.	.	.
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	3.3	2.27	50	0	.	.	.
Citation rate	57.14	56.82	100	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

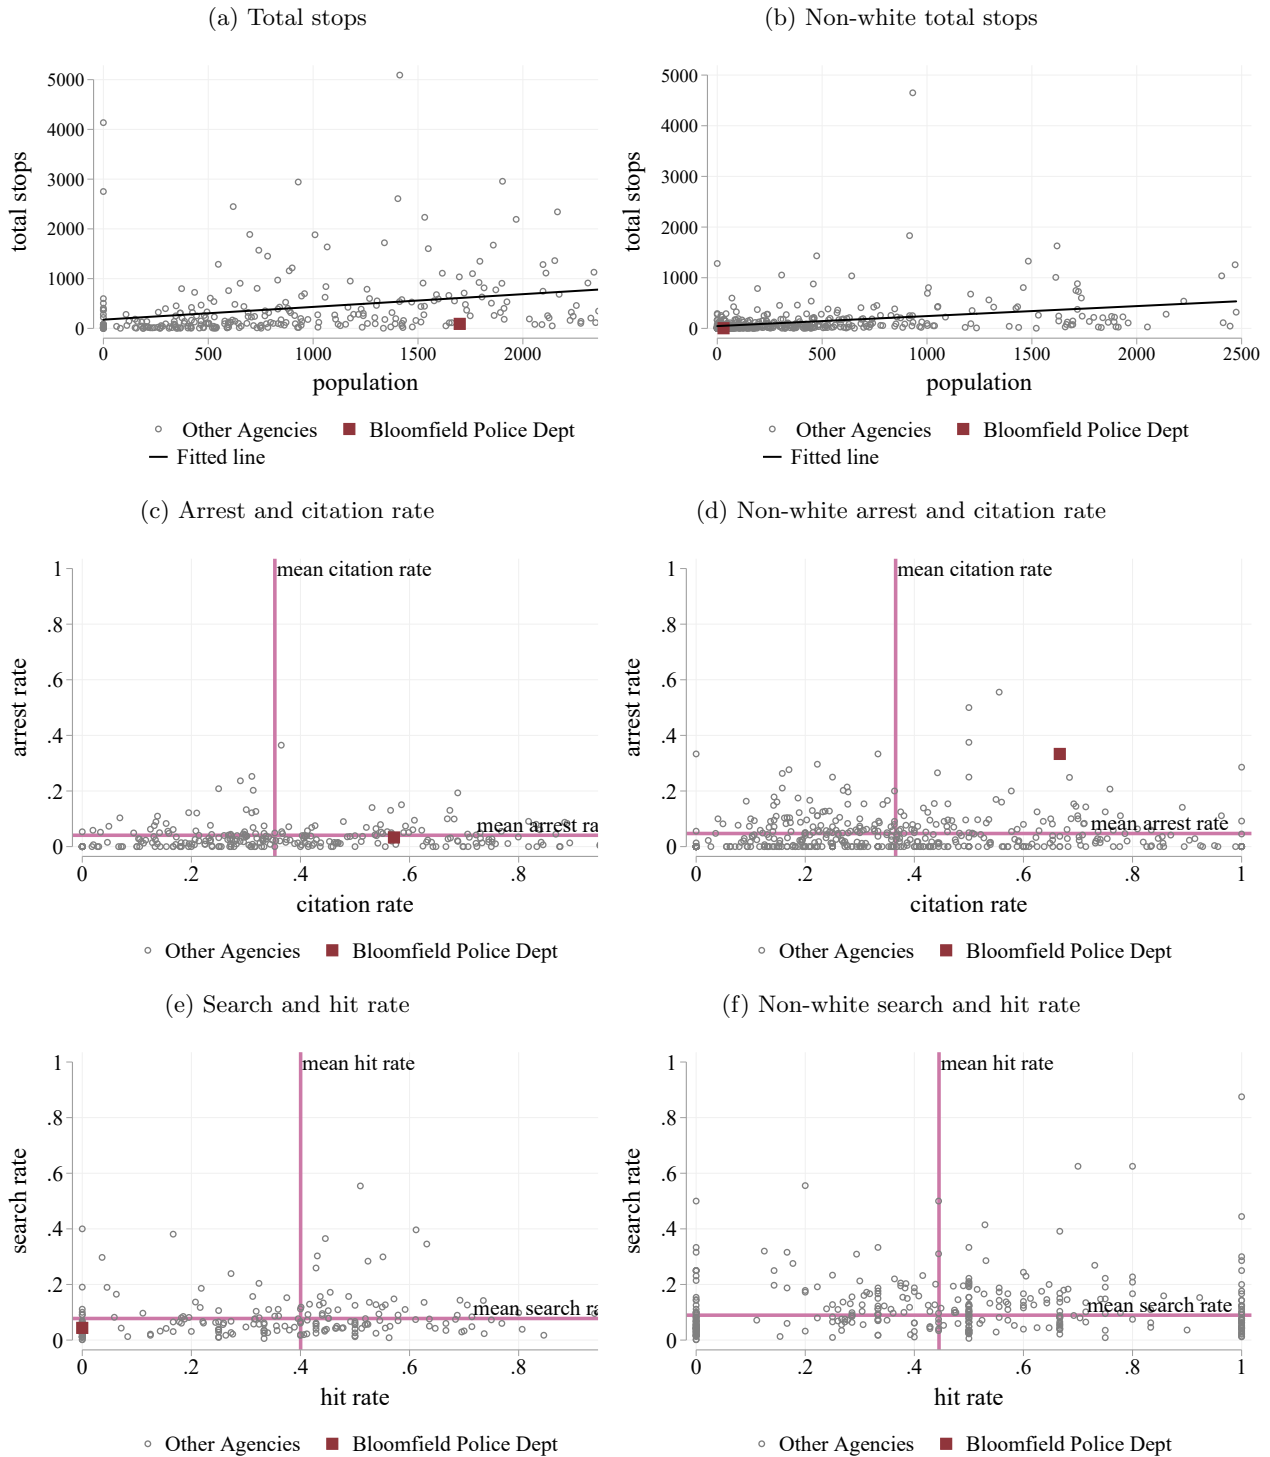

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bloomfield Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bloomfield Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1699	1669	20	7	0	0	3
2019 population %	100	98.23	1.18	.41	0	0	.18
<b>Stops</b>	.	.	.	.	.	.	.
All stops	91	88	2	1	0	0	0
Resident stops	34	34	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.984	1.867	2.667	.	.	0
Resident stops	.	1.018	0	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Bloomfield Police Dept

## 1.44 Bolivar Police Dept

Table 1: Rates by Race for Bolivar Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8433	7745	239	278	92	16	139
2019 population %	100	91.84	2.83	3.3	1.09	.19	1.65
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2601	2422	110	53	5	11	0
Resident stops	1236	1154	51	26	2	3	0
Searches	95	91	4	0	0	0	0
Contraband	33	31	2	0	0	0	0
Arrests	132	128	2	2	0	0	0
Citations	435	401	21	13	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	30.84	31.27	46.03	19.06	5.43	68.75	0
Stop rate, residents	14.66	14.9	21.34	9.35	2.17	18.75	0
Search rate	3.65	3.76	3.64	0	0	0	.
Contraband hit rate	34.74	34.07	50	.	.	.	.
Arrest rate	5.07	5.28	1.82	3.77	0	0	.
Citation rate	16.72	16.56	19.09	24.53	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

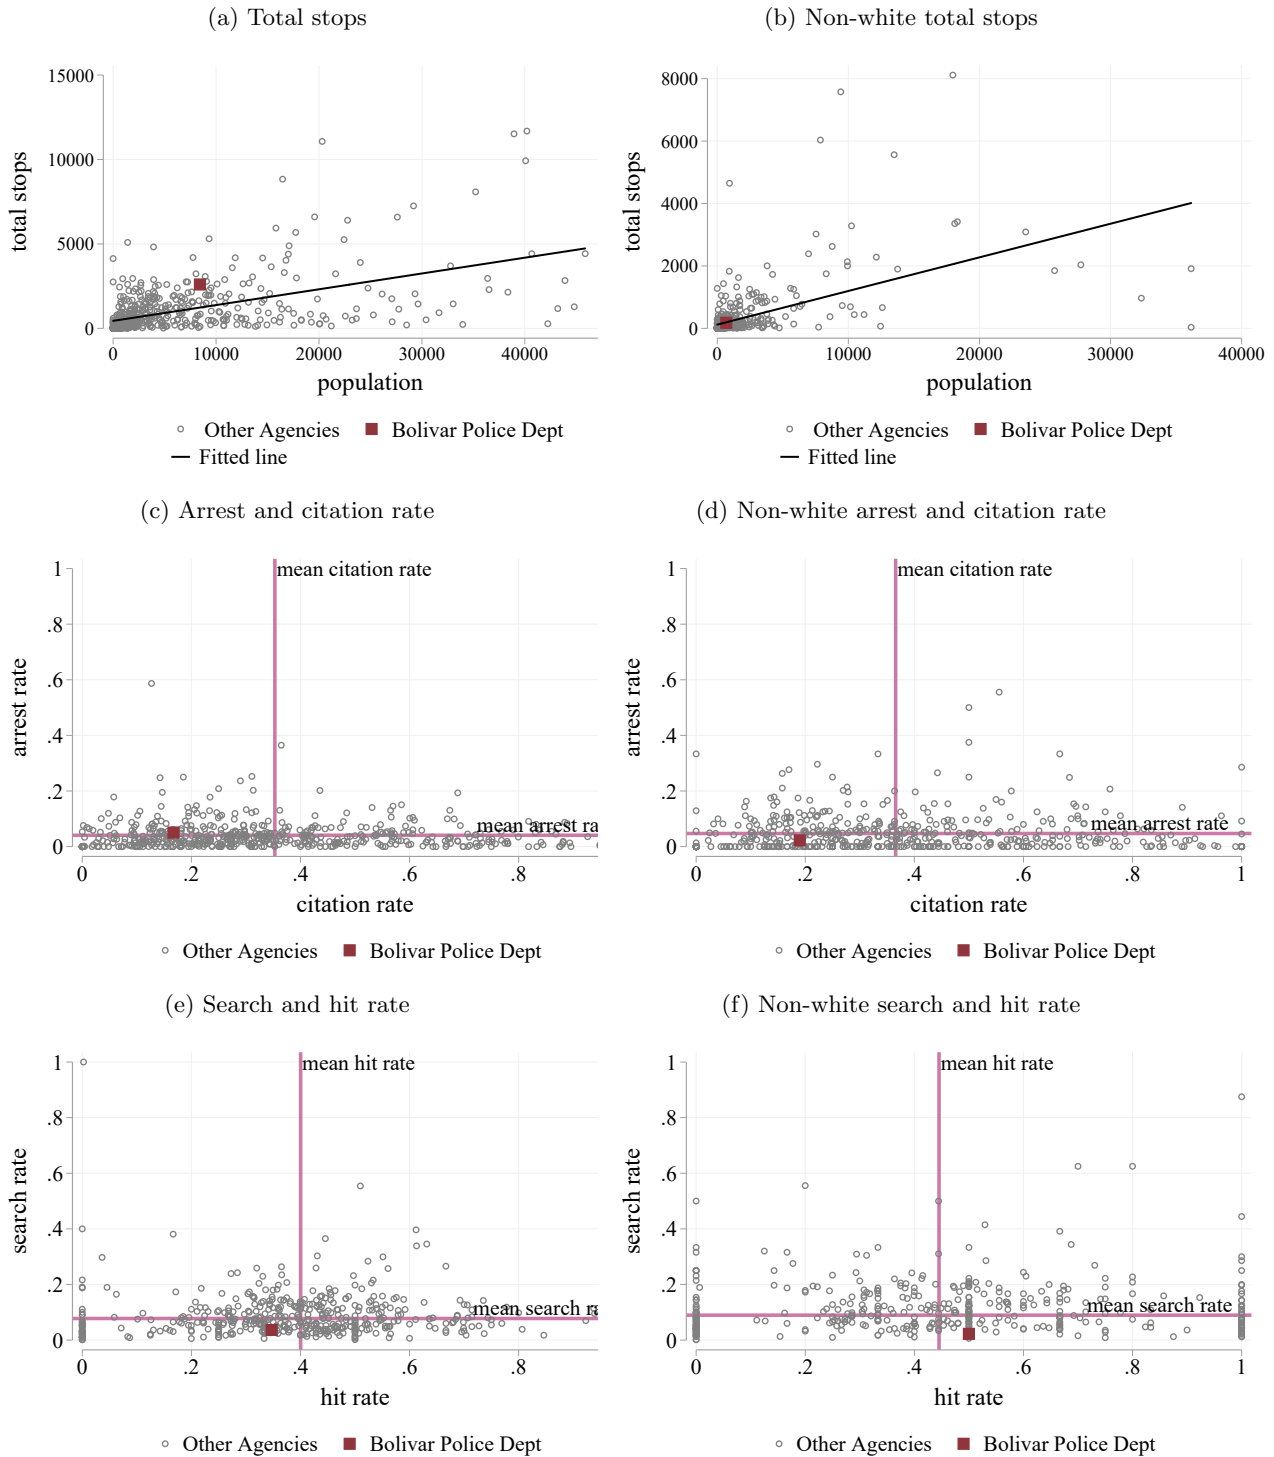

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bolivar Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bolivar Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8433	7745	239	278	92	16	139
2019 population %	100	91.84	2.83	3.3	1.09	.19	1.65
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2601	2422	110	53	5	11	0
Resident stops	1236	1154	51	26	2	3	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.014	1.492	.618	.176	2.229	0
Resident stops	.	1.017	1.456	.638	.148	1.279	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

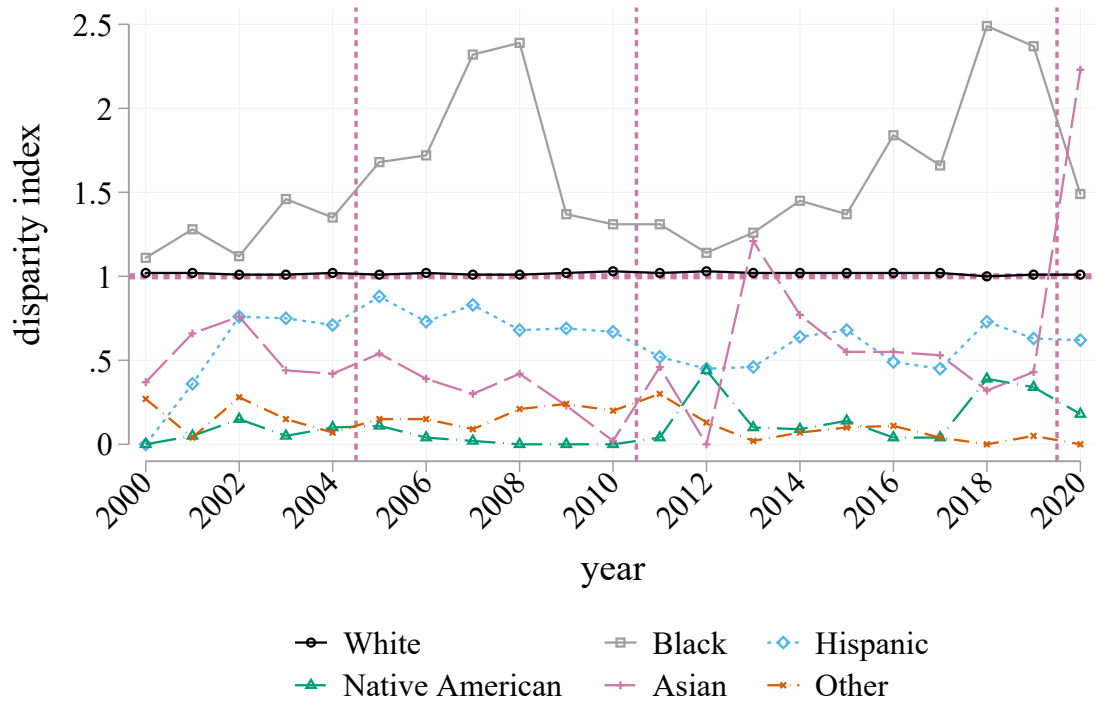

Table 3: Disparity Index from 2000 to 2020 for Bolivar Police Dept

## 1.46 Bonne Terre Police Dept

Table 1: Rates by Race for Bonne Terre Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6253	4732	1245	112	67	0	131
2019 population %	100	75.68	19.91	1.79	1.07	0	2.09
<b>Totals</b>	.	.	.	.	.	.	.
All stops	548	545	2	1	0	0	0
Resident stops	164	163	1	0	0	0	0
Searches	65	65	0	0	0	0	0
Contraband	33	33	0	0	0	0	0
Arrests	56	56	0	0	0	0	0
Citations	329	328	1	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	8.76	11.52	.16	.89	0	.	0
Stop rate, residents	2.62	3.44	.08	0	0	.	0
Search rate	11.86	11.93	0	0	.	.	.
Contraband hit rate	50.77	50.77	.	.	.	.	.
Arrest rate	10.22	10.28	0	0	.	.	.
Citation rate	60.04	60.18	50	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

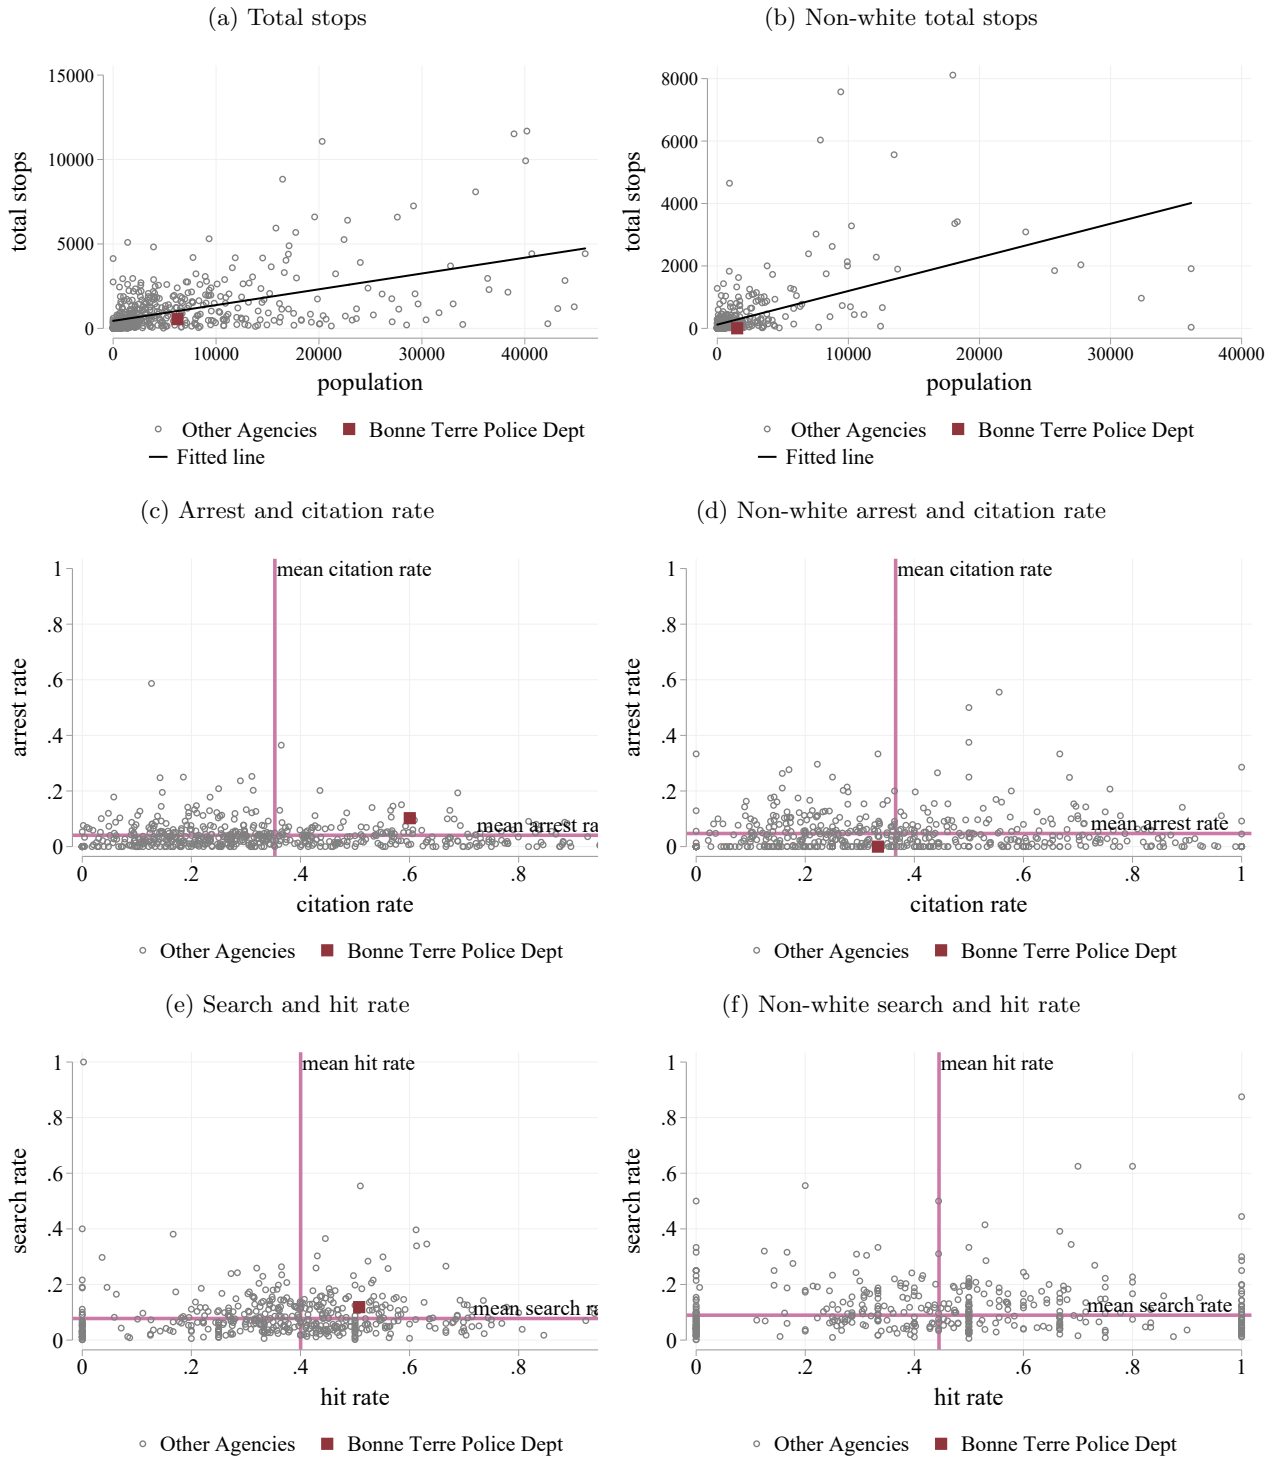

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bonne Terre Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bonne Terre Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6253	4732	1245	112	67	0	131
2019 population %	100	75.68	19.91	1.79	1.07	0	2.09
<b>Stops</b>	.	.	.	.	.	.	.
All stops	548	545	2	1	0	0	0
Resident stops	164	163	1	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.314	.018	.102	0	.	0
Resident stops	.	1.313	.031	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Population</b>	.	.	.	.	.	.	.
2019 population	7095	5663	894	188	49	52	346
2019 population %	100	79.82	12.6	2.65	.69	.73	4.88
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2759	2332	372	20	0	31	4
Resident stops	987	836	139	7	0	4	1
Searches	153	114	38	0	0	0	1
Contraband	65	52	12	1	0	0	0
Arrests	188	147	39	1	0	0	1
Citations	1193	982	186	4	0	19	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	38.89	41.18	41.61	10.64	0	59.62	1.16
Stop rate, residents	13.91	14.76	15.55	3.72	0	7.69	.29
Search rate	5.55	4.89	10.22	0	.	0	25
Contraband hit rate	42.48	45.61	31.58	.	.	.	0
Arrest rate	6.81	6.3	10.48	5	.	0	25
Citation rate	43.24	42.11	50	20	.	61.29	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

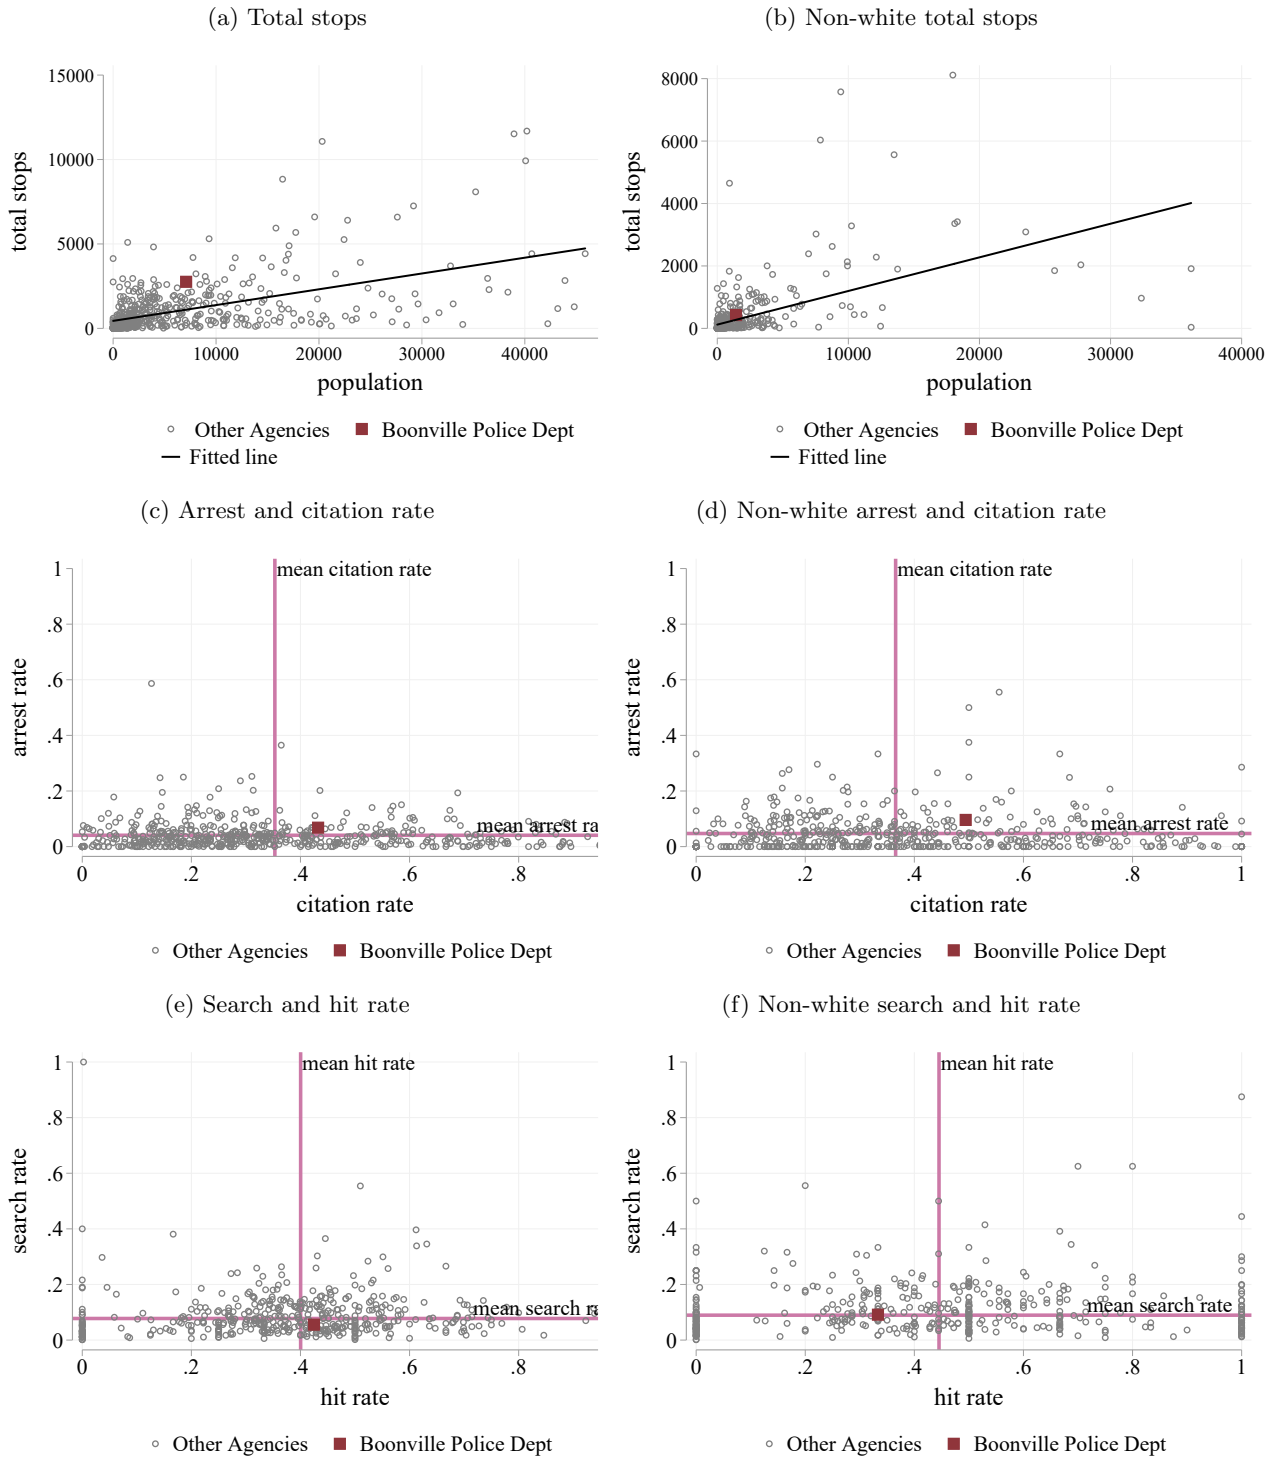

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Boonville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Boonville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7095	5663	894	188	49	52	346
2019 population %	100	79.82	12.6	2.65	.69	.73	4.88
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2759	2332	372	20	0	31	4
Resident stops	987	836	139	7	0	4	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.059	1.07	.274	0	1.533	.03
Resident stops	.	1.061	1.118	.268	0	.553	.021

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

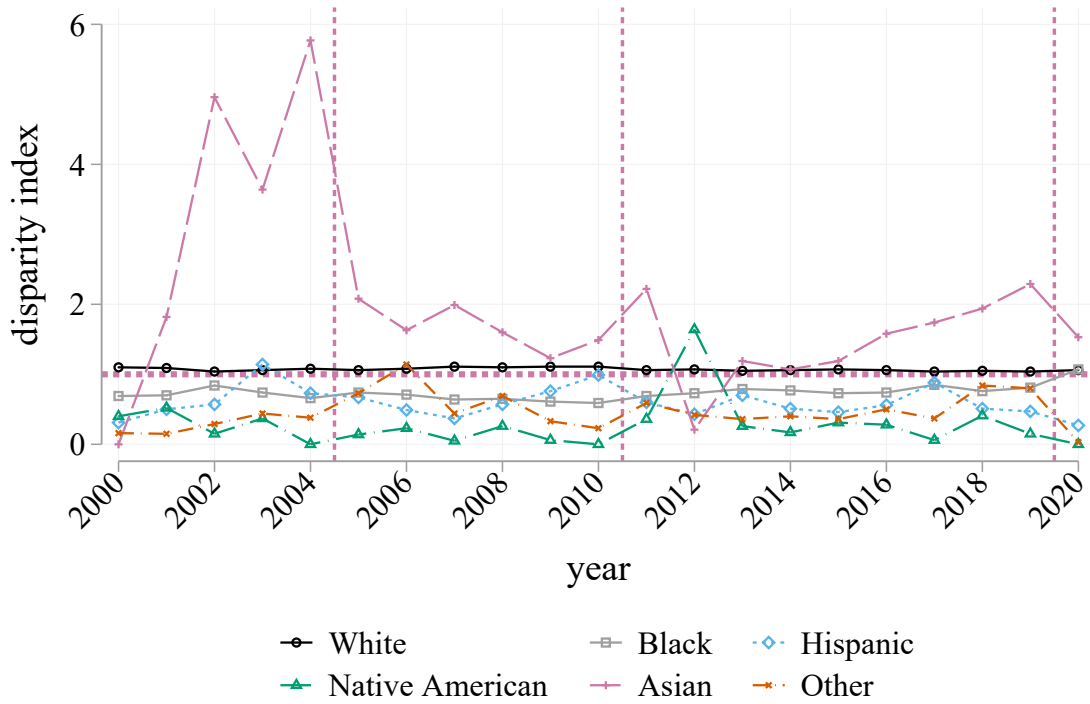

Table 3: Disparity Index from 2000 to 2020 for Boonville Police Dept

<b>2011</b>	1.06	.69	.6	.36	2.22	.59
<b>2012</b>	1.07	.73	.43	1.64	.21	.42
<b>2013</b>	1.05	.79	.7	.26	1.19	.36
<b>2014</b>	1.06	.77	.51	.17	1.07	.4
<b>2015</b>	1.07	.73	.46	.31	1.19	.36
<b>2016</b>	1.06	.74	.56	.28	1.58	.5
<b>2017</b>	1.04	.85	.88	.06	1.74	.37
<b>2018</b>	1.05	.76	.51	.41	1.94	.84
<b>2019</b>	1.04	.81	.47	.15	2.29	.8
<b>2020</b>	1.06	1.07	.27	0	1.53	.03

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Boonville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4717	3508	951	90	47	42	79
2019 population %	100	74.37	20.16	1.91	1	.89	1.67
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1230	1138	73	9	4	3	3
Resident stops	546	510	32	2	0	1	1
Searches	98	89	8	1	0	0	0
Contraband	63	56	6	1	0	0	0
Arrests	63	58	5	0	0	0	0
Citations	210	194	12	1	1	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	26.08	32.44	7.68	10	8.51	7.14	3.8
Stop rate, residents	11.58	14.54	3.36	2.22	0	2.38	1.27
Search rate	7.97	7.82	10.96	11.11	0	0	0
Contraband hit rate	64.29	62.92	75	100	.	.	.
Arrest rate	5.12	5.1	6.85	0	0	0	0
Citation rate	17.07	17.05	16.44	11.11	25	0	66.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

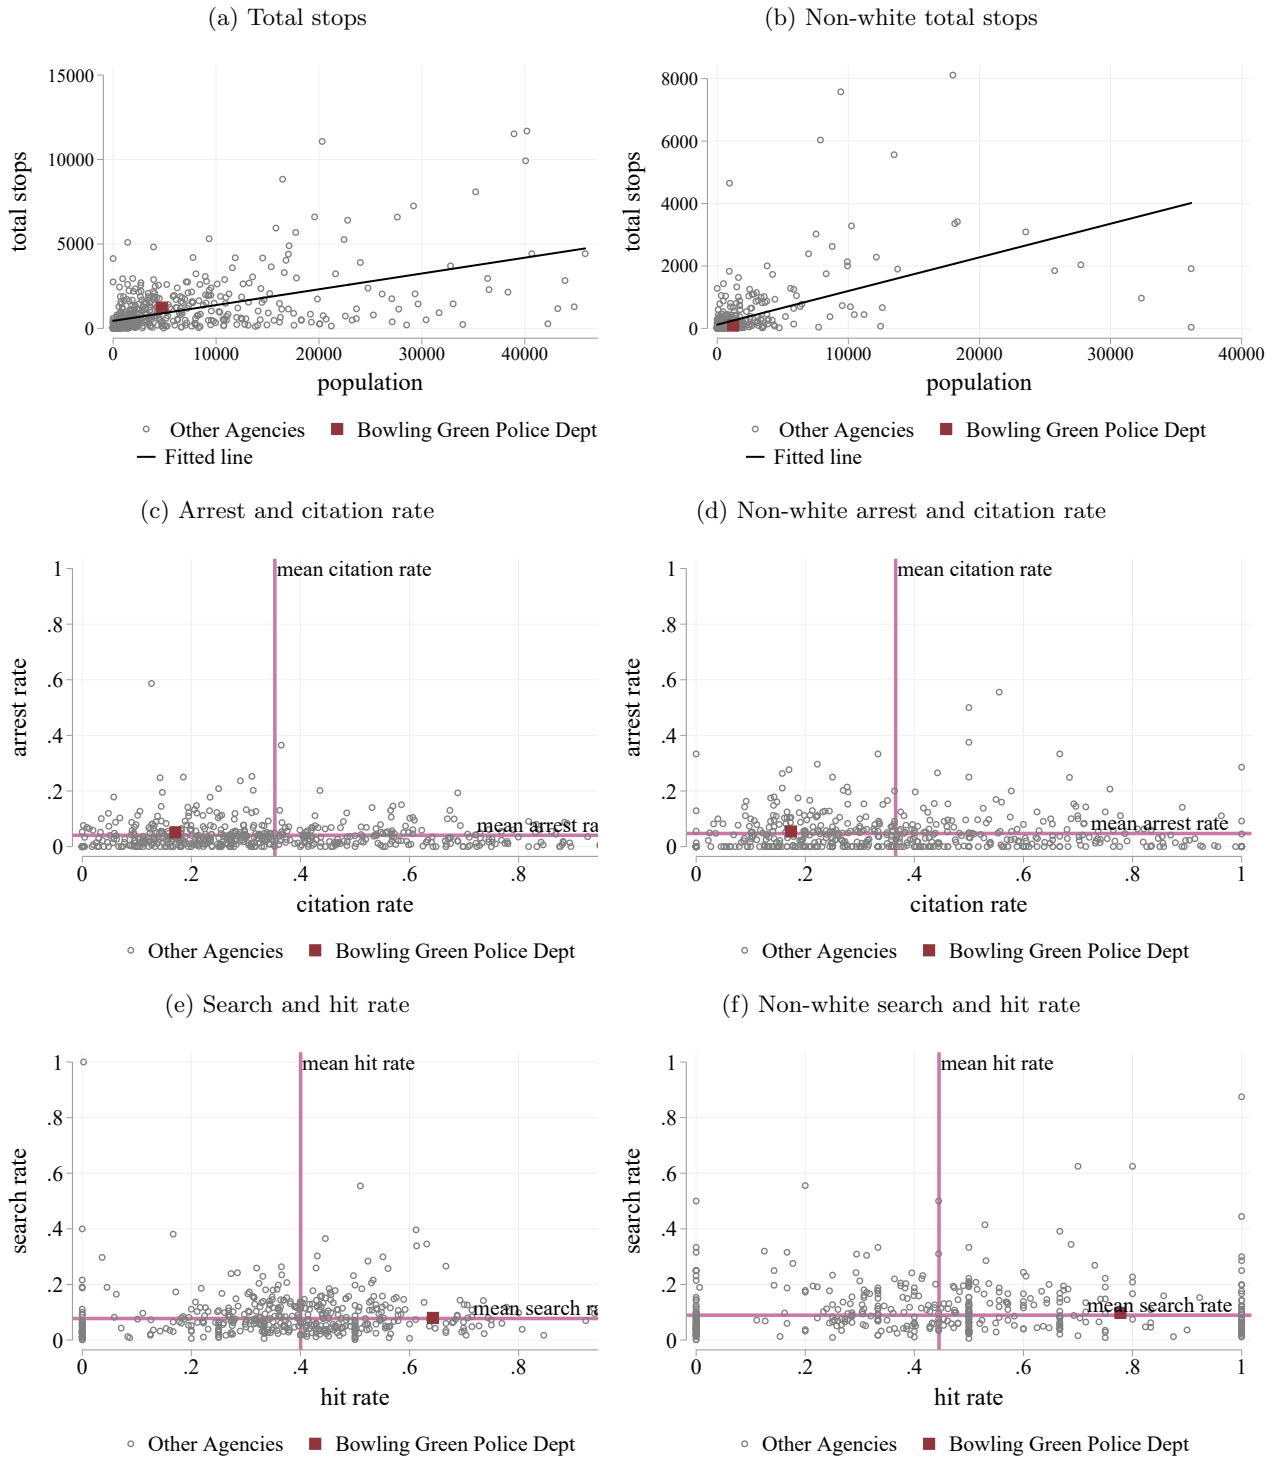

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Bowling Green Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Bowling Green Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Branson Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	548	476	3	42	0	0	63
2019 population %	100	86.86	.55	7.66	0	0	11.5
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1288	1219	21	35	6	4	3
Resident stops	37	34	0	3	0	0	0
Searches	86	82	1	2	1	0	0
Contraband	19	19	0	0	0	0	0
Arrests	11	11	0	0	0	0	0
Citations	402	372	9	15	2	2	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	235.04	256.09	700	83.33	.	.	4.76
Stop rate, residents	6.75	7.14	0	7.14	.	.	0
Search rate	6.68	6.73	4.76	5.71	16.67	0	0
Contraband hit rate	22.09	23.17	0	0	0	.	.
Arrest rate	.85	.9	0	0	0	0	0
Citation rate	31.21	30.52	42.86	42.86	33.33	50	66.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

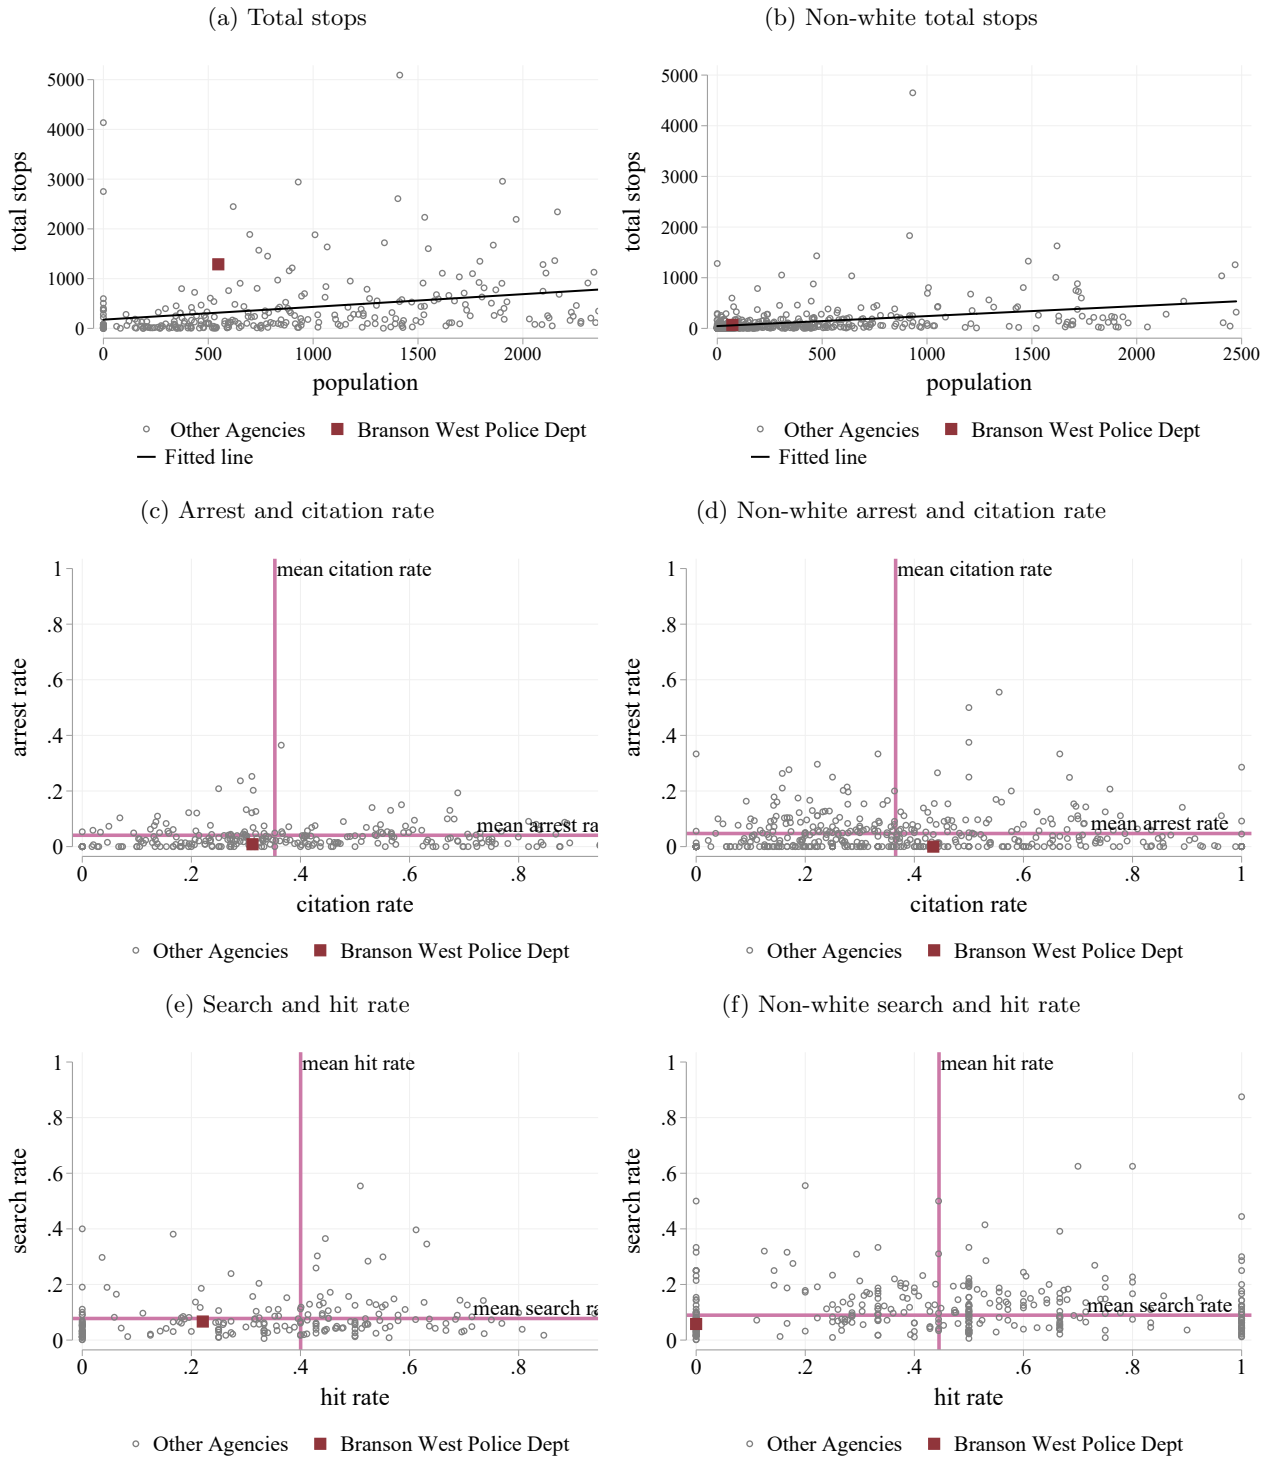

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Branson West Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Branson West Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	548	476	3	42	0	0	63

## 1.54 Brentwood Police Dept

Table 1: Rates by Race for Brentwood Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6710	5660	302	173	0	548	117
2019 population %	100	84.35	4.5	2.58	0	8.17	1.74
<b>Totals</b>	.	.	.	.	.	.	.
All stops	886	467	398	3	4	11	3
Resident stops	60	51	6	0	0	2	1
Searches	5	1	4	0	0	0	0
Contraband	1	0	1	0	0	0	0
Arrests	6	2	4	0	0	0	0
Citations	530	272	246	0	2	9	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	13.2	8.25	131.79	1.73	.	2.01	2.56
Stop rate, residents	.89	.9	1.99	0	.	.36	.85
Search rate	.56	.21	1.01	0	0	0	0
Contraband hit rate	20	0	25	.	.	.	.
Arrest rate	.68	.43	1.01	0	0	0	0
Citation rate	59.82	58.24	61.81	0	50	81.82	33.33

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

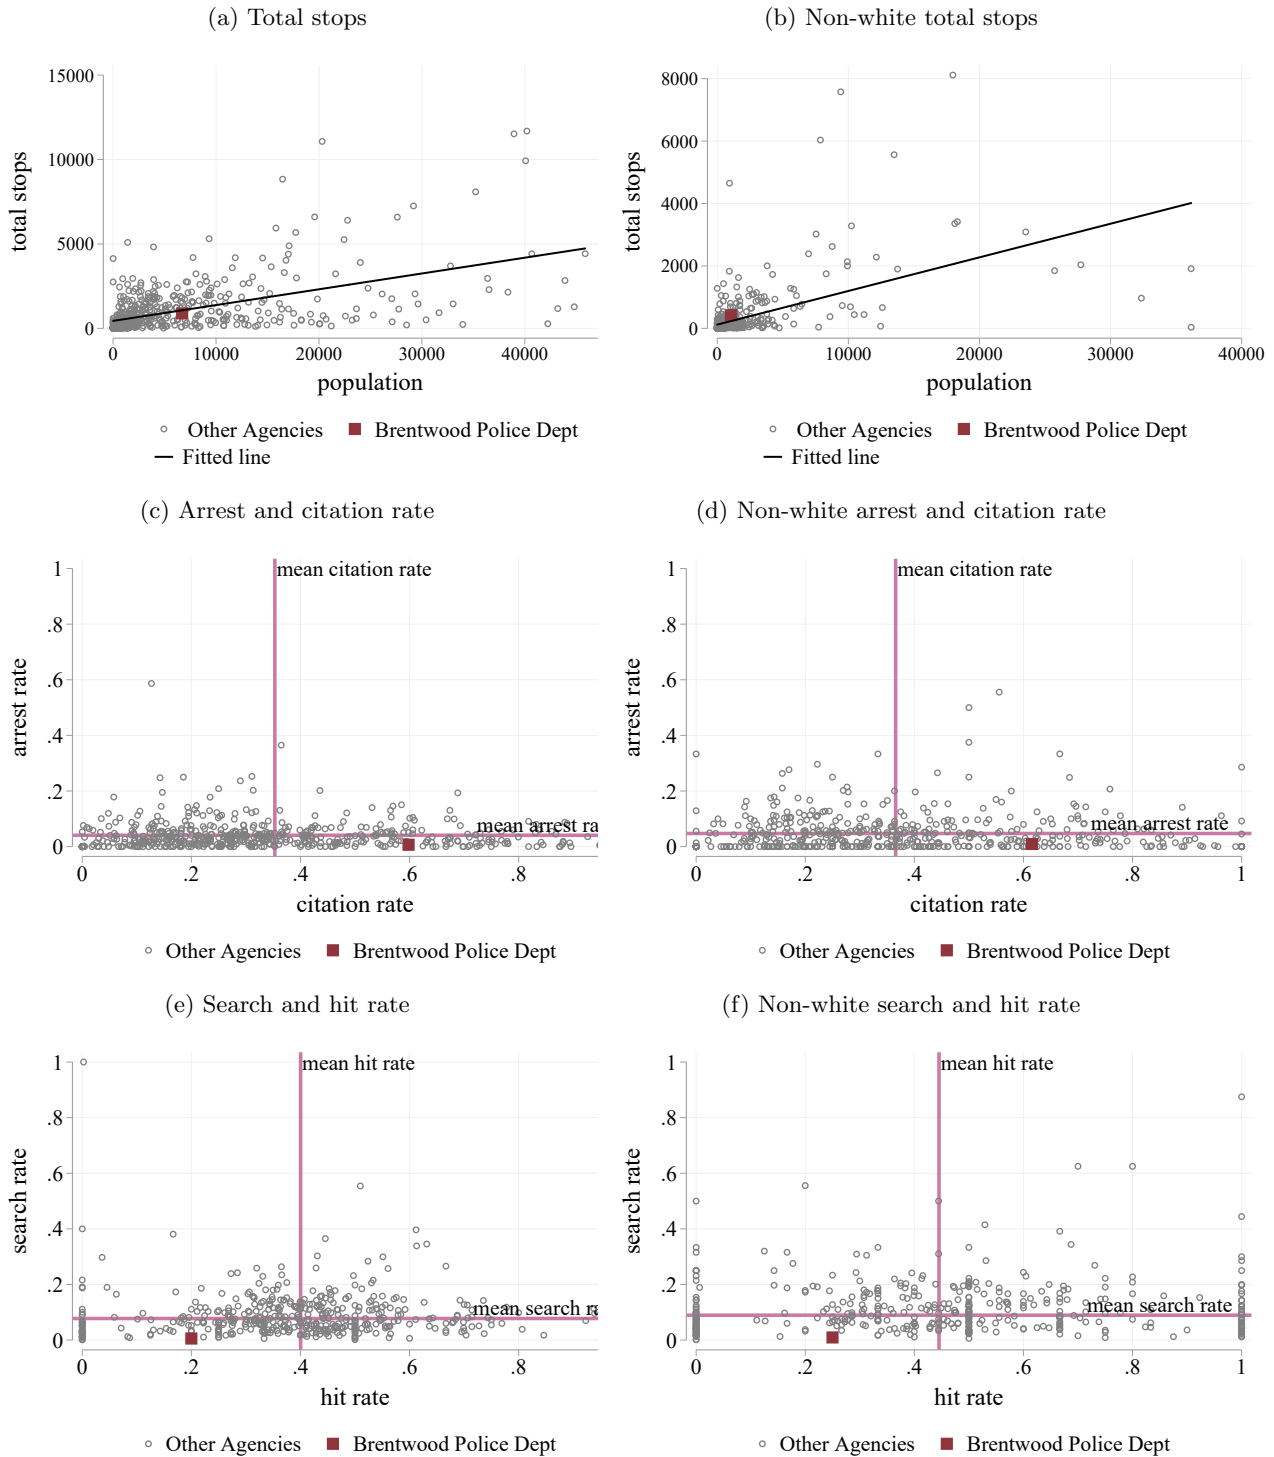

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Brentwood Police Dept. provides service to the City of Brentwood, MO, which has three major thoroughfares connecting two US Interstates and provides access to the county government seat, city government facilities, and public transportation hubs.

Figure 1: Comparison to other agencies by population for Brentwood Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Brentwood Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6710	5660	302	173	0	548	117
2019 population %	100	84.35	4.5	2.58	0	8.17	1.74
<b>Stops</b>	.	.	.	.	.	.	.
All stops	886	467	398	3	4	11	3
Resident stops	60	51	6	0	0	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.625	9.981	.131	.	.152	.194
Resident stops	.	1.008	2.222	0	.	.408	.956

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Brentwood Police Dept

## 1.56 Brookfield Police Dept

Table 1: Rates by Race for Brookfield Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3396	3215	47	76	7	20	31
2019 population %	100	94.67	1.38	2.24	.21	.59	.91
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1672	1556	75	30	0	7	4
Resident stops	782	731	37	11	0	2	1
Searches	117	103	11	2	0	1	0
Contraband	37	30	6	1	0	0	0
Arrests	38	31	5	2	0	0	0
Citations	274	240	20	10	0	2	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	49.23	48.4	159.57	39.47	0	35	12.9
Stop rate, residents	23.03	22.74	78.72	14.47	0	10	3.23
Search rate	7	6.62	14.67	6.67	.	14.29	0
Contraband hit rate	31.62	29.13	54.55	50	.	0	.
Arrest rate	2.27	1.99	6.67	6.67	.	0	0
Citation rate	16.39	15.42	26.67	33.33	.	28.57	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

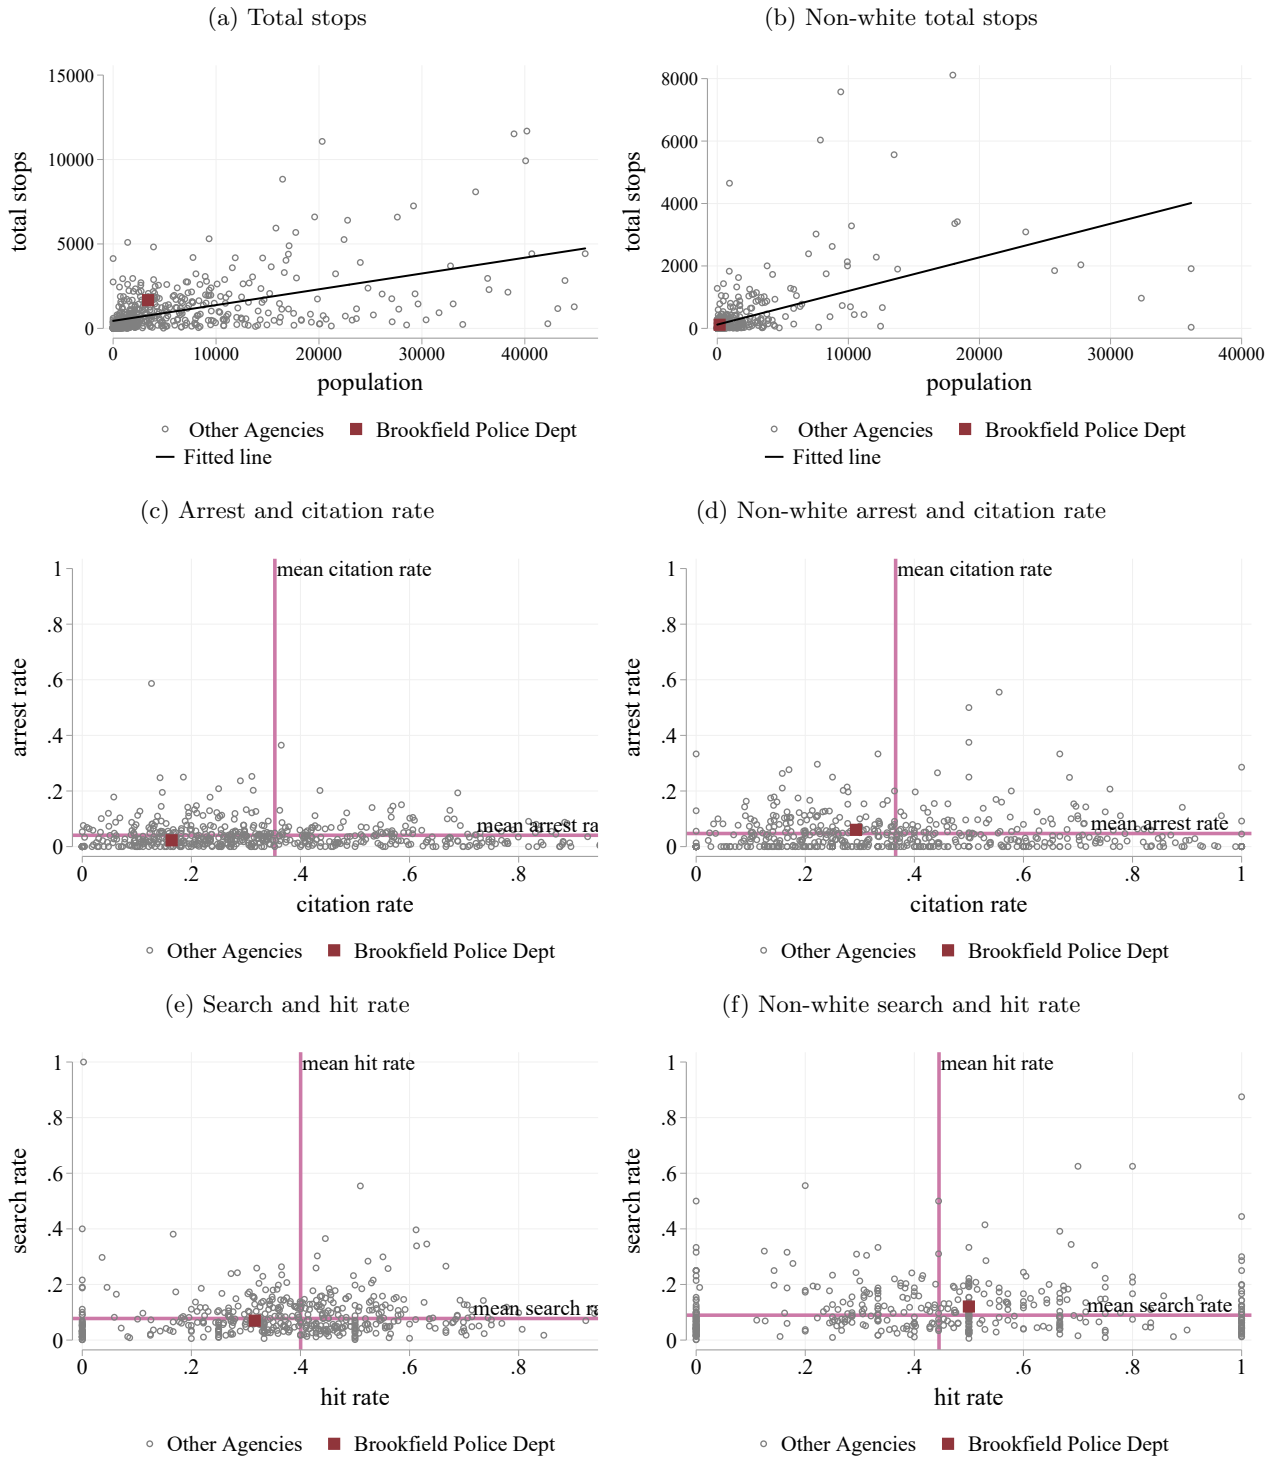

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Brookfield Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Brookfield Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3396	3215	47	76	7	20	31
2019 population %	100	94.67	1.38	2.24	.21	.59	.91
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1672	1556	75	30	0	7	4
Resident stops	782	731	37	11	0	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.983	3.241	.802	0	.711	.262
Resident stops	.	.987	3.419	.629	0	.434	.14

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

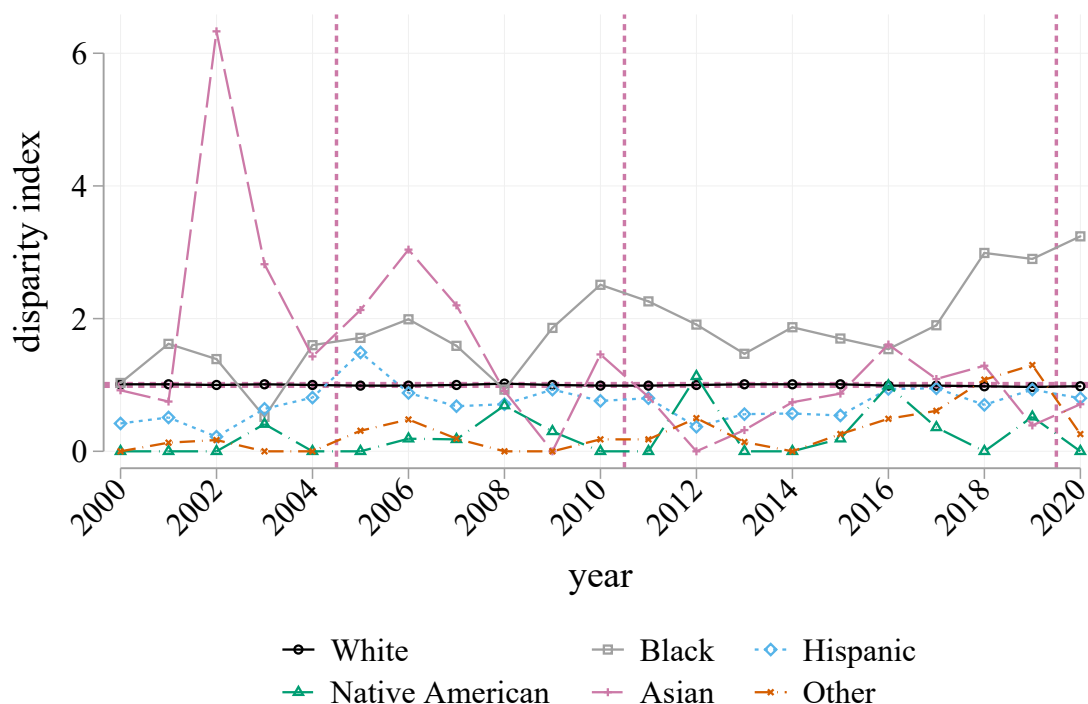

Table 3: Disparity Index from 2000 to 2020 for Brookfield Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.01	1.03	.42	0	.92	0
<b>2001</b>	1.01	1.62	.51	0	.75	.13
<b>2002</b>	1	1.39	.22	0	6.33	.17
<b>2003</b>	1.01	.52	.64	.41	2.82	0

<b>2005</b>	.99	1.71	1.49	0	2.13	.31
<b>2006</b>	.99	1.99	.88	.19	3.04	.48
<b>2007</b>	1	1.59	.68	.18	2.2	.19
<b>2008</b>	1.02	.93	.71	.69	.91	0
<b>2009</b>	1	1.86	.93	.3	0	0
<b>2010</b>	.99	2.51	.76	0	1.46	.18
<b>2011</b>	.99	2.26	.8	0	.82	.18
<b>2012</b>	1	1.91	.37	1.13	0	.5
<b>2013</b>	1.01	1.47	.56	0	.32	.14
<b>2014</b>	1.01	1.87	.57	0	.74	0
<b>2015</b>	1.01	1.7	.54	.19	.87	.26
<b>2016</b>	.99	1.54	.94	.99	1.61	.49
<b>2017</b>	.99	1.9	.95	.36	1.09	.61
<b>2018</b>	.98	2.99	.7	0	1.29	1.08
<b>2019</b>	.97	2.9	.93	.52	.39	1.3
<b>2020</b>	.98	3.24	.8	0	.71	.26

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Brookfield Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.58 Buchanan County Sheriff's Dept

Table 1: Rates by Race for Buchanan County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	70761	60308	3829	3960	399	855	3140
2019 population %	100	85.23	5.41	5.6	.56	1.21	4.44
<b>Totals</b>	.	.	.	.	.	.	.
All stops	3301	2860	248	100	3	19	71
Resident stops	1917	1674	135	55	1	7	45
Searches	240	218	16	5	0	0	1
Contraband	127	113	10	3	0	0	1
Arrests	0	0	0	0	0	0	0
Citations	526	418	45	24	0	1	38
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.66	4.74	6.48	2.53	.75	2.22	2.26
Stop rate, residents	2.71	2.78	3.53	1.39	.25	.82	1.43
Search rate	7.27	7.62	6.45	5	0	0	1.41
Contraband hit rate	52.92	51.83	62.5	60	.	.	100
Arrest rate	0	0	0	0	0	0	0
Citation rate	15.93	14.62	18.15	24	0	5.26	53.52

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

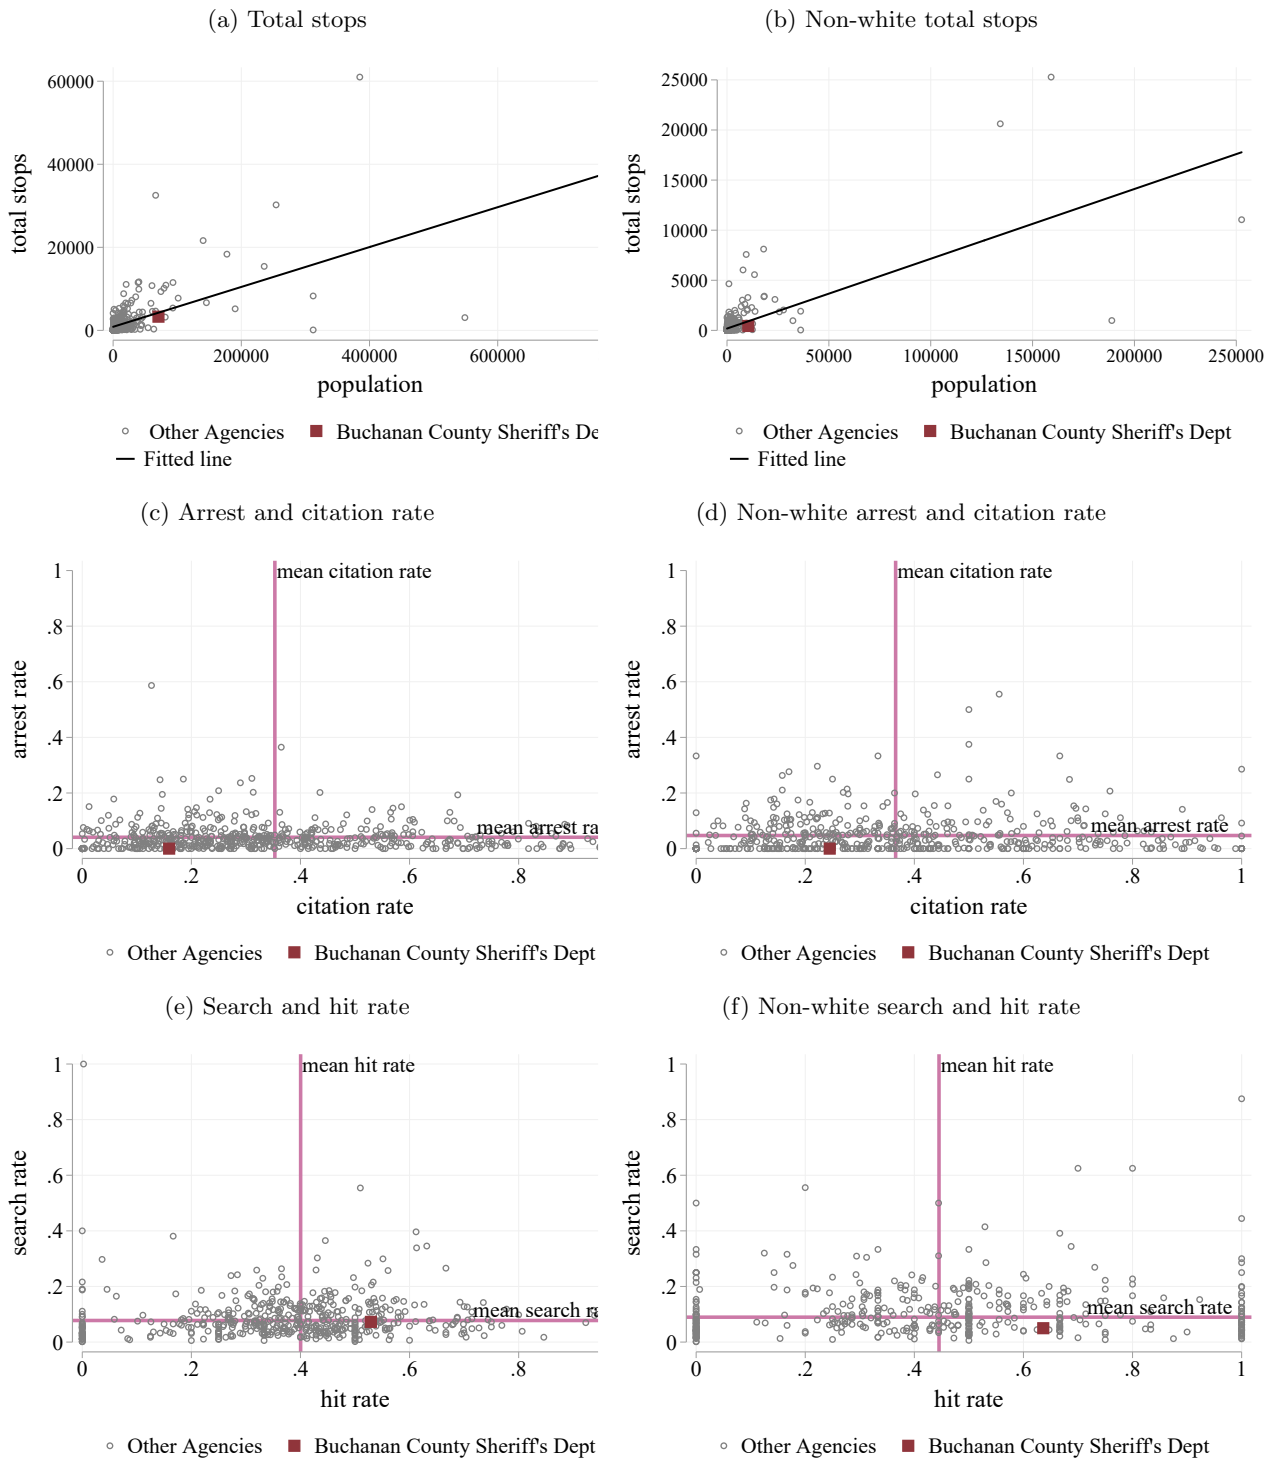

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Buchanan County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Buchanan County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	70761	60308	3829	3960	399	855	3140
2019 population %	100	85.23	5.41	5.6	.56	1.21	4.44
<b>Stops</b>	.	.	.	.	.	.	.
All stops	3301	2860	248	100	3	19	71
Resident stops	1917	1674	135	55	1	7	45
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.017	1.388	.541	.161	.476	.485
Resident stops	.	1.025	1.301	.513	.093	.302	.529

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.60 Buffalo Police Dept

Table 1: Rates by Race for Buffalo Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2361	2108	3	103	45	41	61
2019 population %	100	89.28	.13	4.36	1.91	1.74	2.58
<b>Totals</b>	.	.	.	.	.	.	.
All stops	348	344	2	2	0	0	0
Resident stops	161	160	0	1	0	0	0
Searches	71	70	0	1	0	0	0
Contraband	23	23	0	0	0	0	0
Arrests	31	29	0	2	0	0	0
Citations	47	45	0	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.74	16.32	66.67	1.94	0	0	0
Stop rate, residents	6.82	7.59	0	.97	0	0	0
Search rate	20.4	20.35	0	50	.	.	.
Contraband hit rate	32.39	32.86	.	0	.	.	.
Arrest rate	8.91	8.43	0	100	.	.	.
Citation rate	13.51	13.08	0	100	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

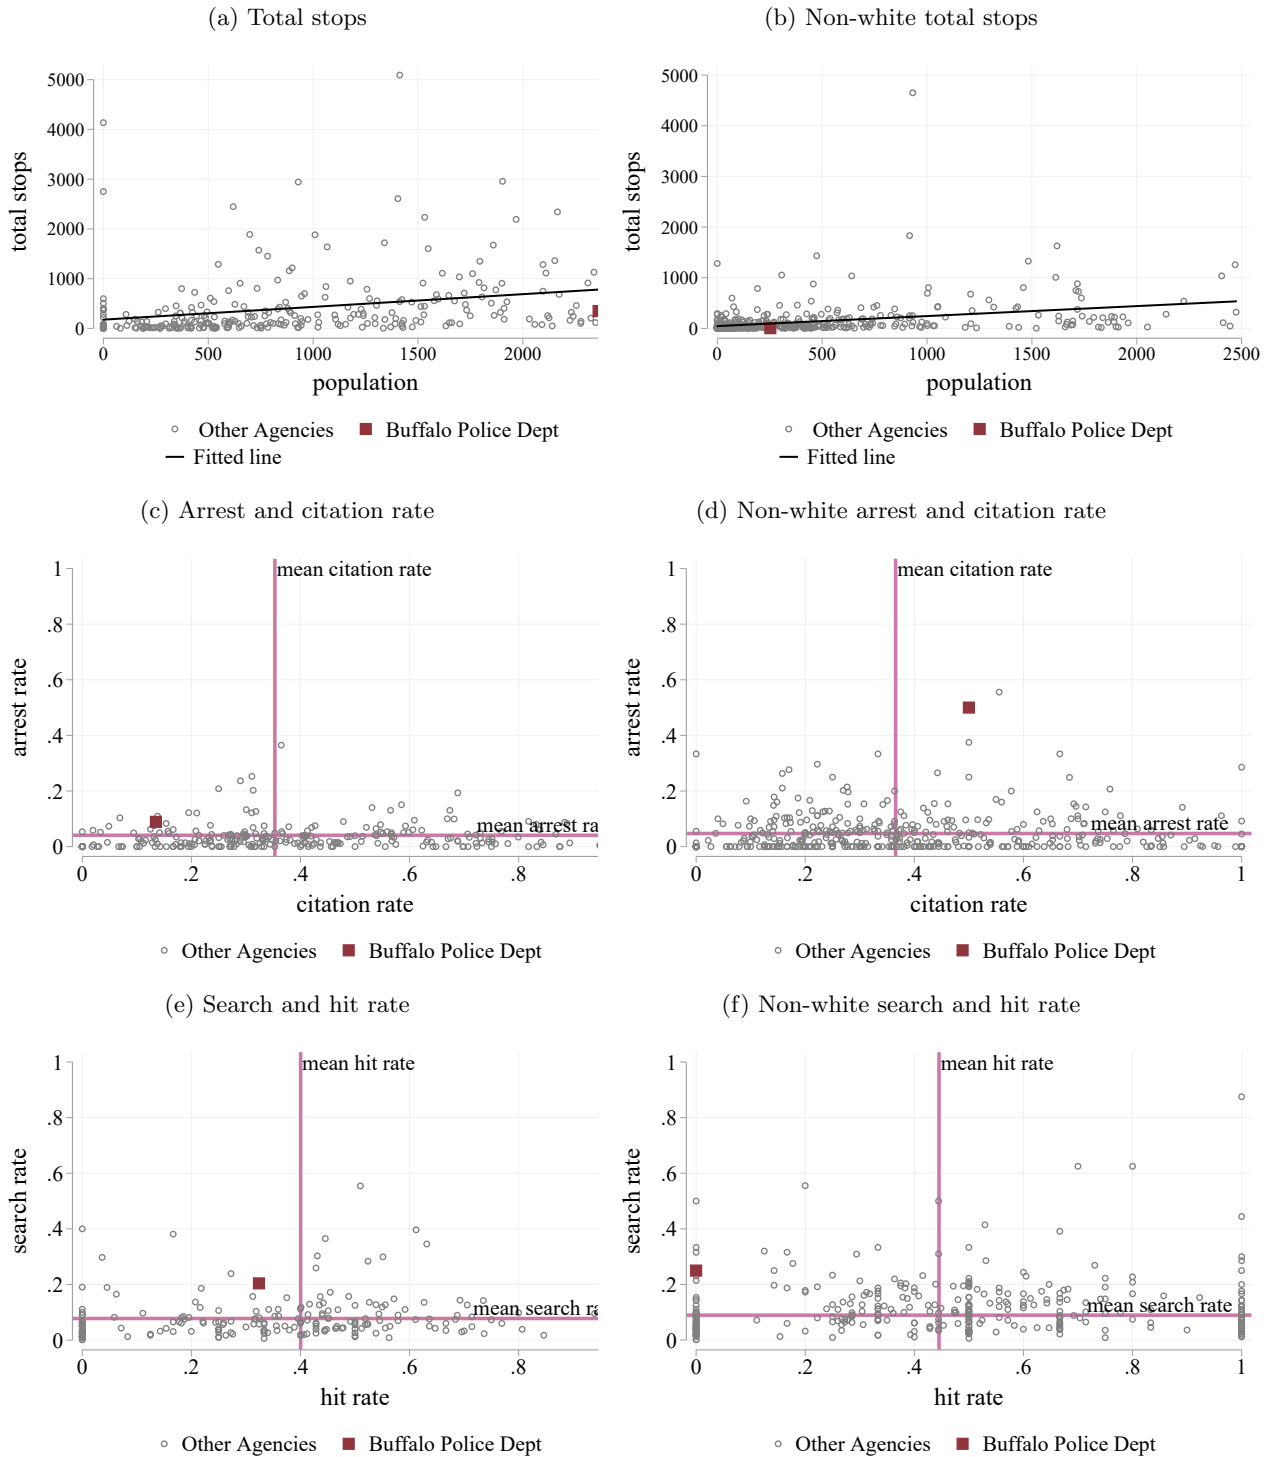

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Buffalo Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Buffalo Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2361	2108	3	103	45	41	61
2019 population %	100	89.28	.13	4.36	1.91	1.74	2.58
<b>Stops</b>	.	.	.	.	.	.	.
All stops	348	344	2	2	0	0	0
Resident stops	161	160	0	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.107	4.523	.132	0	0	0
Resident stops	.	1.113	0	.142	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

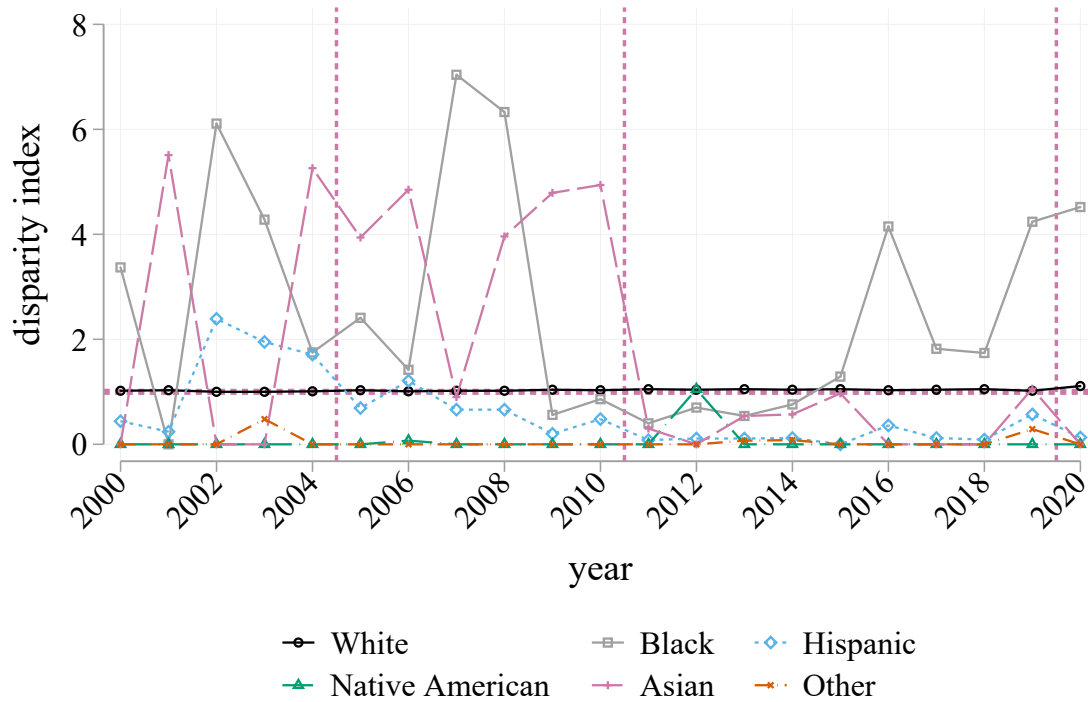

Table 3: Disparity Index from 2000 to 2020 for Buffalo Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.02	3.37	.44	0	0	0

## 1.62 Butler Police Dept

Table 1: Rates by Race for Butler Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3102	2849	116	48	34	0	77
2019 population %	100	91.84	3.74	1.55	1.1	0	2.48
<b>Totals</b>	.	.	.	.	.	.	.
All stops	402	382	6	9	1	2	2
Resident stops	211	197	4	6	1	2	1
Searches	60	58	1	1	0	0	0
Contraband	29	28	1	0	0	0	0
Arrests	17	16	0	1	0	0	0
Citations	165	157	3	3	1	1	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	12.96	13.41	5.17	18.75	2.94	.	2.6
Stop rate, residents	6.8	6.91	3.45	12.5	2.94	.	1.3
Search rate	14.93	15.18	16.67	11.11	0	0	0
Contraband hit rate	48.33	48.28	100	0	.	.	.
Arrest rate	4.23	4.19	0	11.11	0	0	0
Citation rate	41.04	41.1	50	33.33	100	50	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

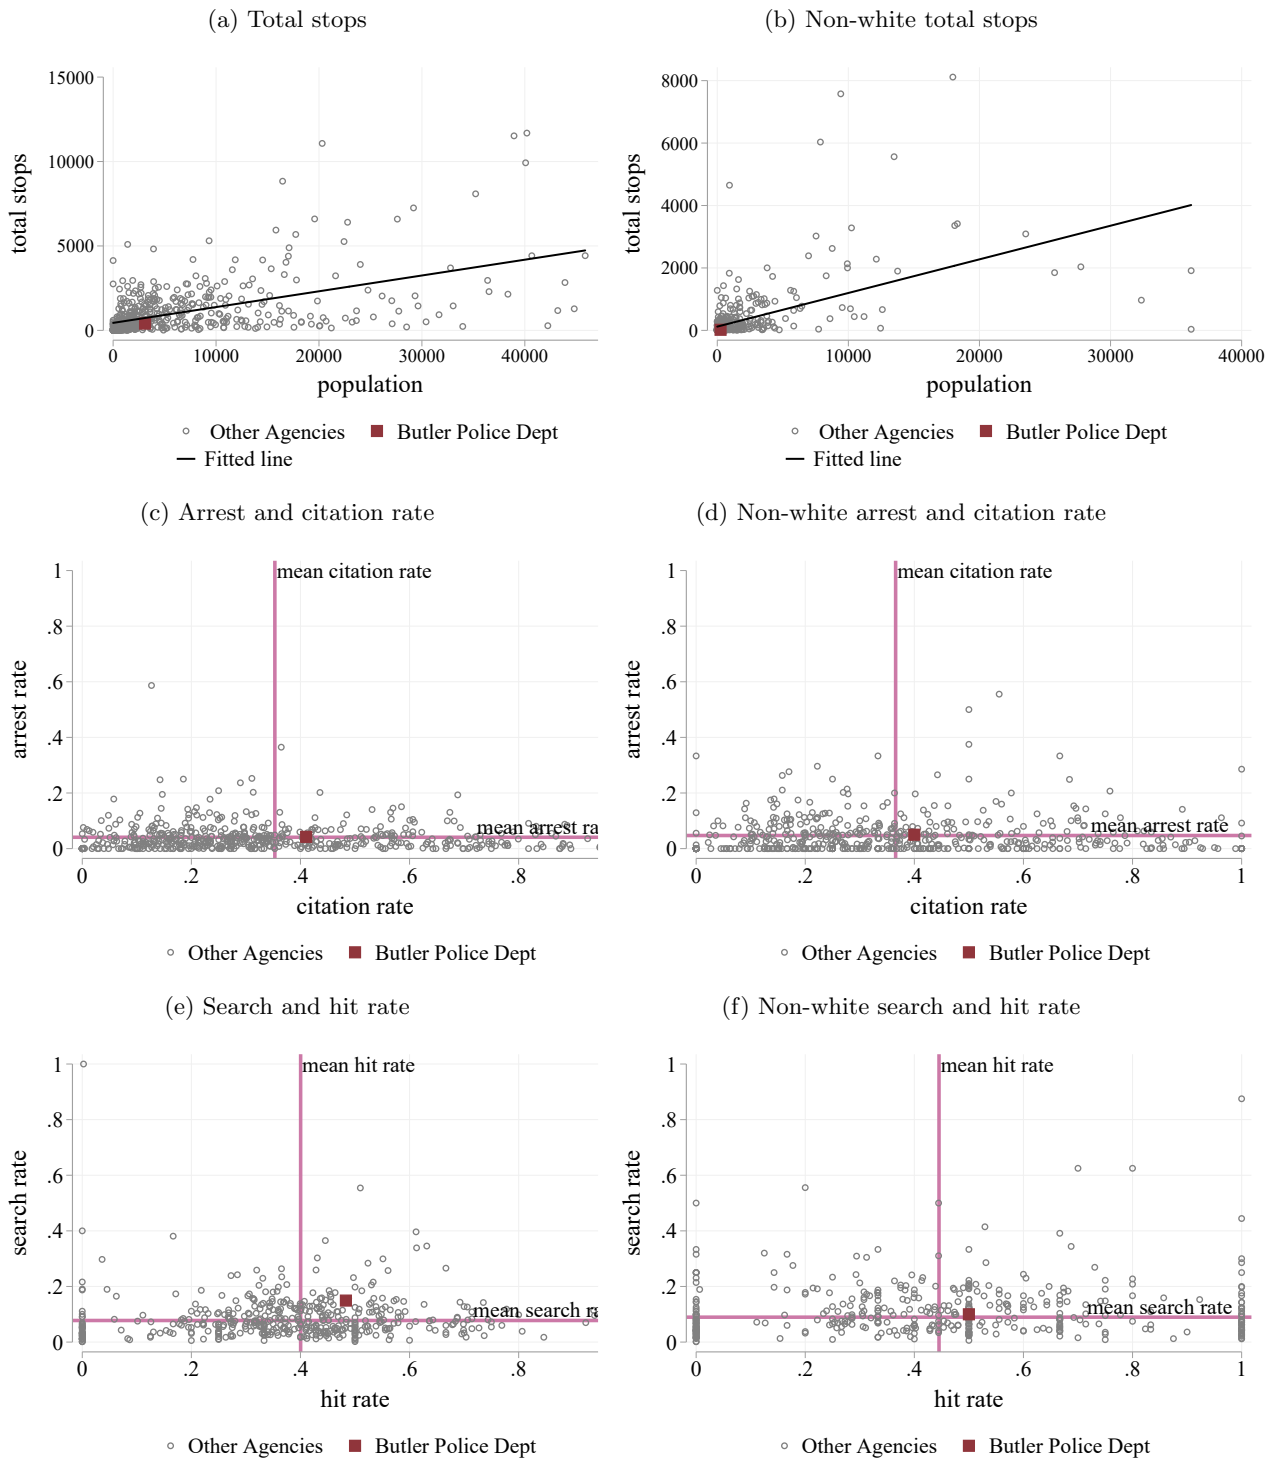

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Butler Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Butler Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3102	2849	116	48	34	0	77
2019 population %	100	91.84	3.74	1.55	1.1	0	2.48
<b>Stops</b>	.	.	.	.	.	.	.
All stops	402	382	6	9	1	2	2
Resident stops	211	197	4	6	1	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.035	.399	1.447	.227	.	.2
Resident stops	.	1.017	.507	1.838	.432	.	.191

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Butler Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1	1.19	1.57	1.5	0	.33

<b>2007</b>	1.01	1.01	1.4	0	0	.4
<b>2008</b>	1.03	.73	.39	0	0	.56
<b>2009</b>	1.04	.39	1.01	.19	0	.27
<b>2010</b>	1.04	.56	.6	.3	.42	.21
<b>2011</b>	1.03	.62	.48	.69	1.33	.8
<b>2012</b>	1.02	.58	.45	1.65	.96	.93
<b>2013</b>	1.03	.71	.71	.27	1.88	.21
<b>2014</b>	1.04	.63	.39	.2	.5	0
<b>2015</b>	1.01	.93	.98	.43	.74	.42
<b>2016</b>	1.02	1.02	.86	.25	0	.07
<b>2017</b>	1.01	1.31	.96	0	0	0
<b>2018</b>	1.02	.95	1.06	0	0	.18
<b>2019</b>	1.01	1.07	.72	.33	.85	.38
<b>2020</b>	1.03	.4	1.45	.23	.	.2

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Butler Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.64 Cabool Police Dept

Table 1: Rates by Race for Cabool Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1850	1657	4	35	76	0	78
2019 population %	100	89.57	.22	1.89	4.11	0	4.22
<b>Totals</b>	.	.	.	.	.	.	.
All stops	507	478	18	8	1	1	1
Resident stops	105	104	0	0	0	1	0
Searches	201	192	7	0	1	0	1
Contraband	123	119	3	0	0	0	1
Arrests	98	92	4	0	1	0	1
Citations	349	327	14	7	1	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	27.41	28.85	450	22.86	1.32	.	1.28
Stop rate, residents	5.68	6.28	0	0	0	.	0
Search rate	39.64	40.17	38.89	0	100	0	100
Contraband hit rate	61.19	61.98	42.86	.	0	.	100
Arrest rate	19.33	19.25	22.22	0	100	0	100
Citation rate	68.84	68.41	77.78	87.5	100	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

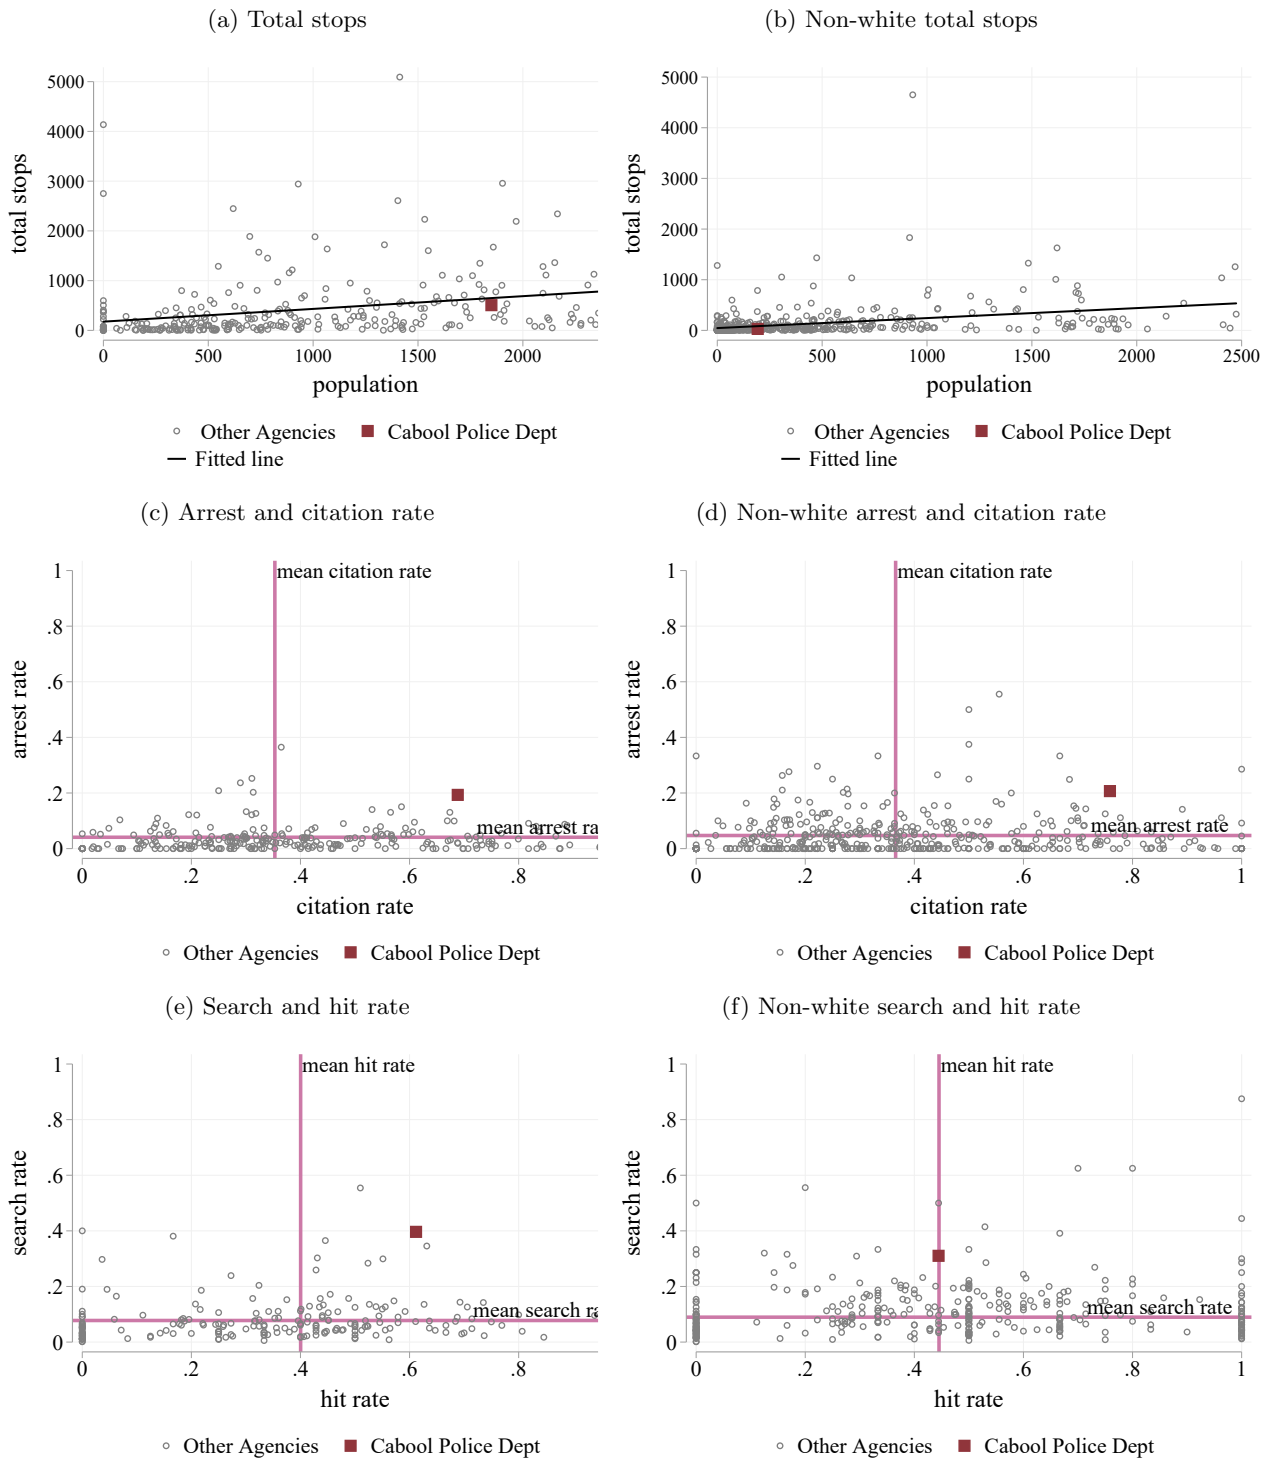

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cabool Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cabool Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1850	1657	4	35	76	0	78
2019 population %	100	89.57	.22	1.89	4.11	0	4.22
<b>Stops</b>	.	.	.	.	.	.	.
All stops	507	478	18	8	1	1	1
Resident stops	105	104	0	0	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.053	16.42	.834	.048	.	.047
Resident stops	.	1.106	0	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

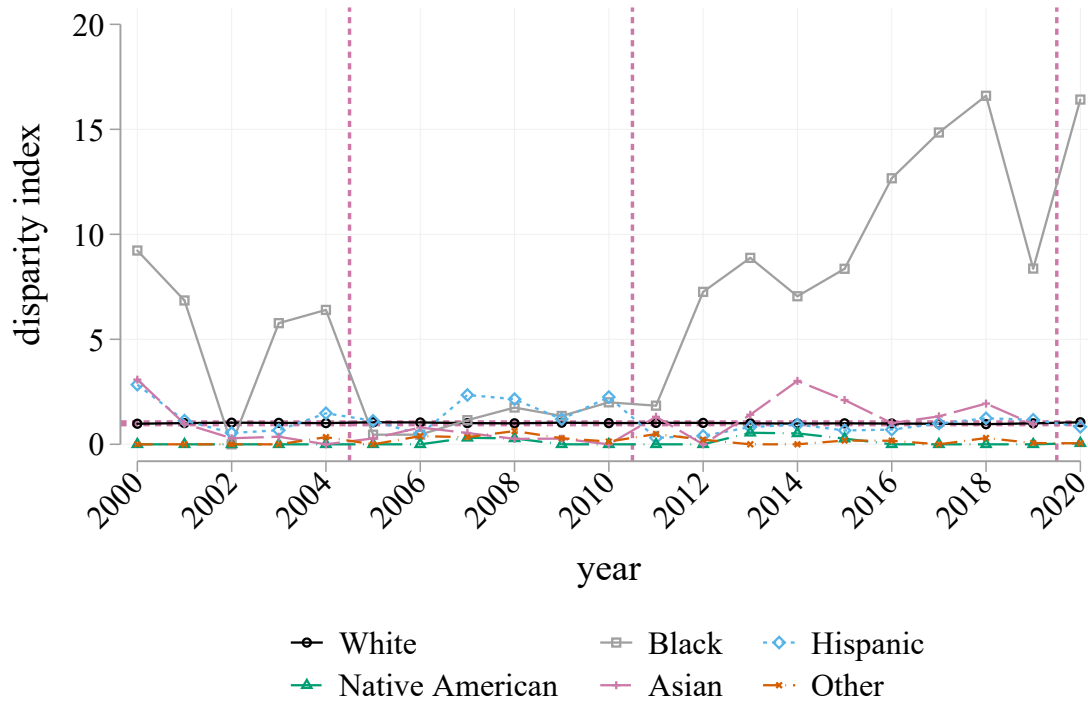

Table 3: Disparity Index from 2000 to 2020 for Cabool Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.98	9.23	2.84	0	3.08	0

## 1.66 Callaway County Sheriff's Dept

Table 1: Rates by Race for Callaway County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	36522	33181	1759	680	197	306	508
2019 population %	100	90.85	4.82	1.86	.54	.84	1.39
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2295	1980	256	38	0	5	16
Resident stops	1507	1367	118	13	0	2	7
Searches	594	498	81	12	0	0	3
Contraband	190	160	25	5	0	0	0
Arrests	275	230	40	4	0	0	1
Citations	110	82	23	3	0	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.28	5.97	14.55	5.59	0	1.63	3.15
Stop rate, residents	4.13	4.12	6.71	1.91	0	.65	1.38
Search rate	25.88	25.15	31.64	31.58	.	0	18.75
Contraband hit rate	31.99	32.13	30.86	41.67	.	.	0
Arrest rate	11.98	11.62	15.63	10.53	.	0	6.25
Citation rate	4.79	4.14	8.98	7.89	.	0	12.5

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

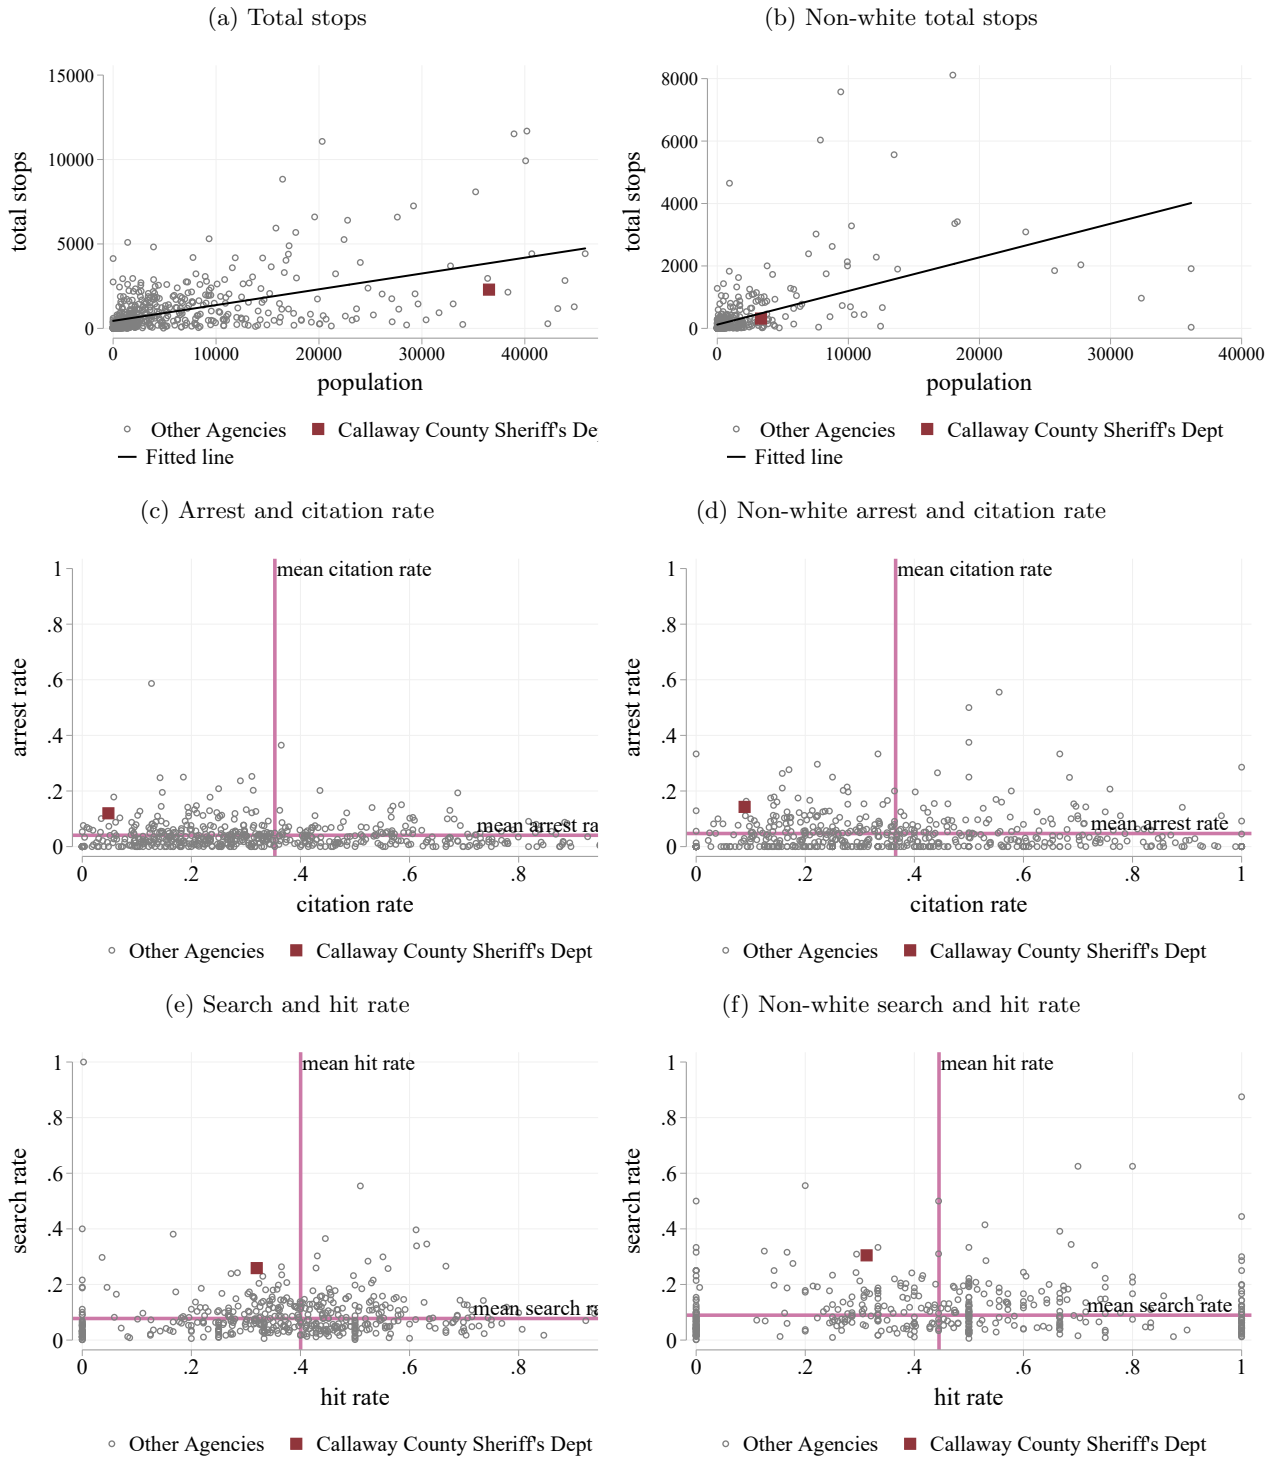

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Callaway County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Callaway County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	36522	33181	1759	680	197	306	508
2019 population %	100	90.85	4.82	1.86	.54	.84	1.39
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2295	1980	256	38	0	5	16
Resident stops	1507	1367	118	13	0	2	7
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.95	2.316	.889	0	.26	.501
Resident stops	.	.998	1.626	.463	0	.158	.334

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Callaway County Sheriff's Dept

## 1.68 Camden County Sheriff's Dept

Table 1: Rates by Race for Camden County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	38358	36584	221	825	262	139	609
2019 population %	100	95.38	.58	2.15	.68	.36	1.59
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2145	2008	60	40	11	14	12
Resident stops	1220	1168	16	17	5	8	6
Searches	386	354	16	7	3	3	3
Contraband	135	127	8	0	0	0	0
Arrests	53	53	0	0	0	0	0
Citations	329	302	10	7	3	4	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	5.59	5.49	27.15	4.85	4.2	10.07	1.97
Stop rate, residents	3.18	3.19	7.24	2.06	1.91	5.76	.99
Search rate	18	17.63	26.67	17.5	27.27	21.43	25
Contraband hit rate	34.97	35.88	50	0	0	0	0
Arrest rate	2.47	2.64	0	0	0	0	0
Citation rate	15.34	15.04	16.67	17.5	27.27	28.57	25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

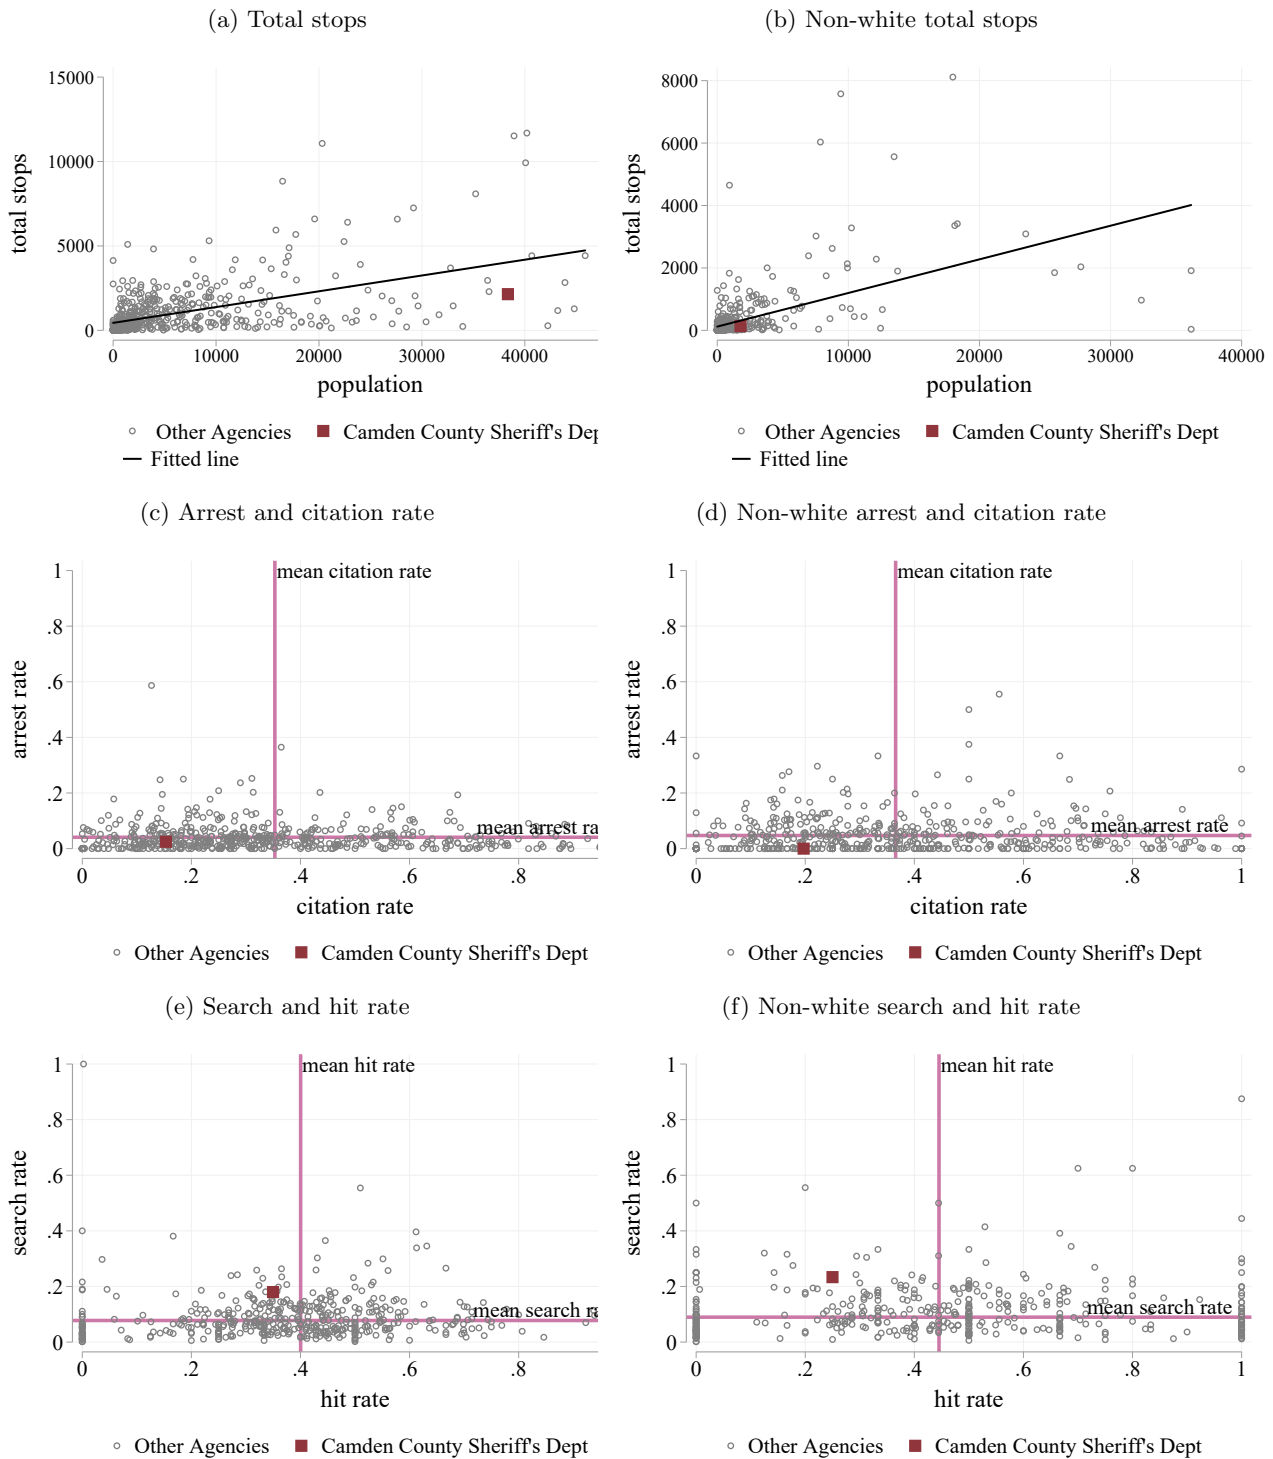

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Camden County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Camden County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	38358	36584	221	825	262	139	609
2019 population %	100	95.38	.58	2.15	.68	.36	1.59
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2145	2008	60	40	11	14	12
Resident stops	1220	1168	16	17	5	8	6
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.982	4.855	.867	.751	1.801	.352
Resident stops	.	1.004	2.276	.648	.6	1.81	.31

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

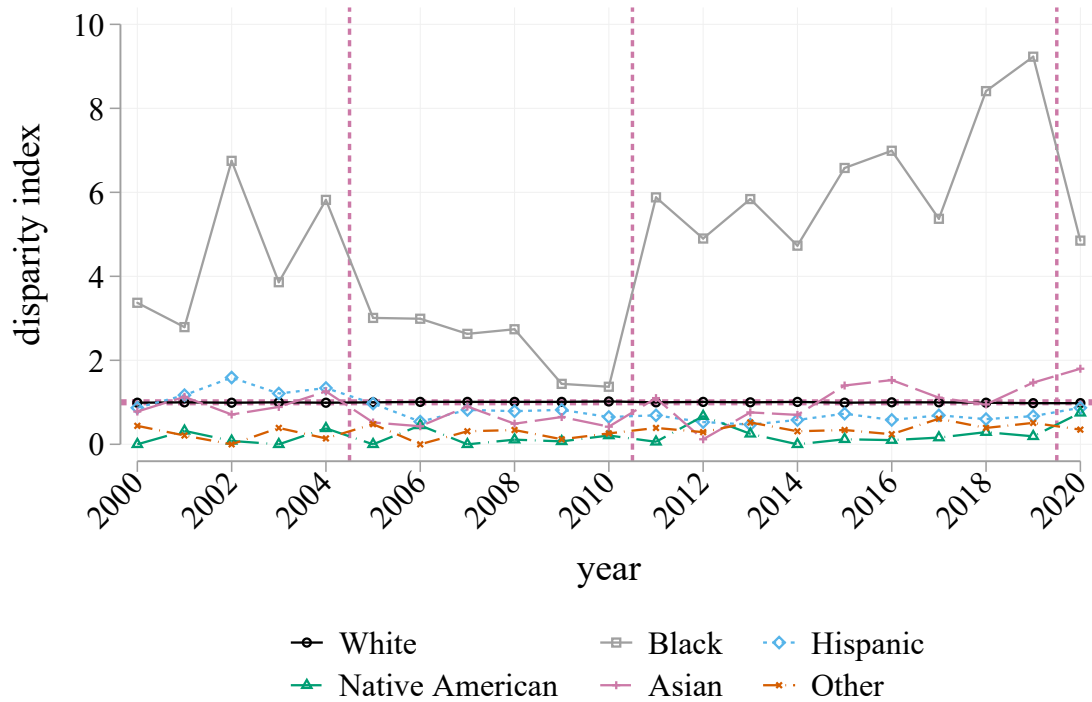

Table 3: Disparity Index from 2000 to 2020 for Camden County Sheriff's Dept

## 1.70 Cameron Police Dept

Table 1: Rates by Race for Cameron Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8336	6377	1127	354	78	16	418
2019 population %	100	76.5	13.52	4.25	.94	.19	5.01
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1638	1530	54	28	5	13	8
Resident stops	526	501	15	5	0	3	2
Searches	38	31	5	2	0	0	0
Contraband	17	12	4	1	0	0	0
Arrests	51	37	9	4	1	0	0
Citations	241	218	12	6	1	2	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	19.65	23.99	4.79	7.91	6.41	81.25	1.91
Stop rate, residents	6.31	7.86	1.33	1.41	0	18.75	.48
Search rate	2.32	2.03	9.26	7.14	0	0	0
Contraband hit rate	44.74	38.71	80	50	.	.	.
Arrest rate	3.11	2.42	16.67	14.29	20	0	0
Citation rate	14.71	14.25	22.22	21.43	20	15.38	25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

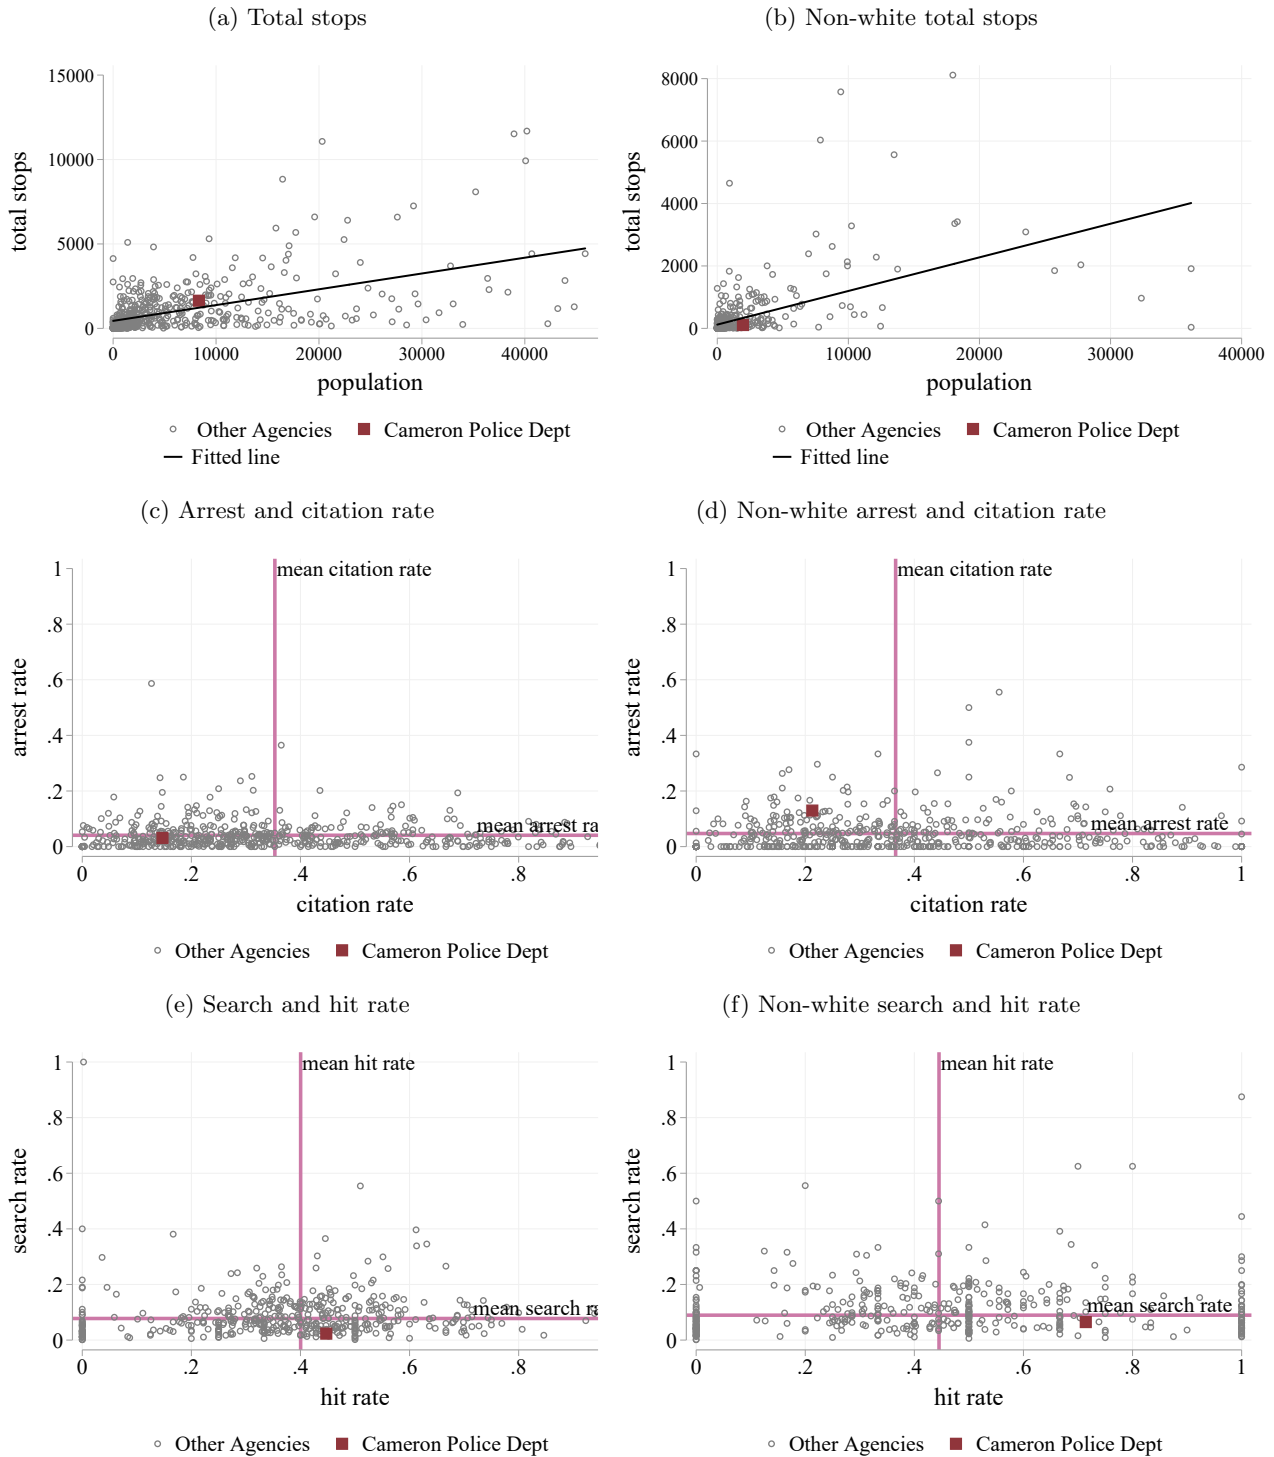

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cameron Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cameron Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8336	6377	1127	354	78	16	418
2019 population %	100	76.5	13.52	4.25	.94	.19	5.01
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1638	1530	54	28	5	13	8
Resident stops	526	501	15	5	0	3	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.221	.244	.403	.326	4.135	.097
Resident stops	.	1.245	.211	.224	0	2.971	.076

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Cameron Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2019</b>	1.18	.2	.89	.28	1.38	.77
<b>2020</b>	1.22	.24	.4	.33	4.13	.1

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cameron Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.72 Canalou Police Dept

Table 1: Rates by Race for Canalou Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	157	152	0	5	0	0	0
2019 population %	100	96.82	0	3.18	0	0	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	5	5	0	0	0	0	0
Resident stops	5	5	0	0	0	0	0
Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	0	0	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	3.18	3.29	.	0	.	.	.
Stop rate, residents	3.18	3.29	.	0	.	.	.
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	0	0	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

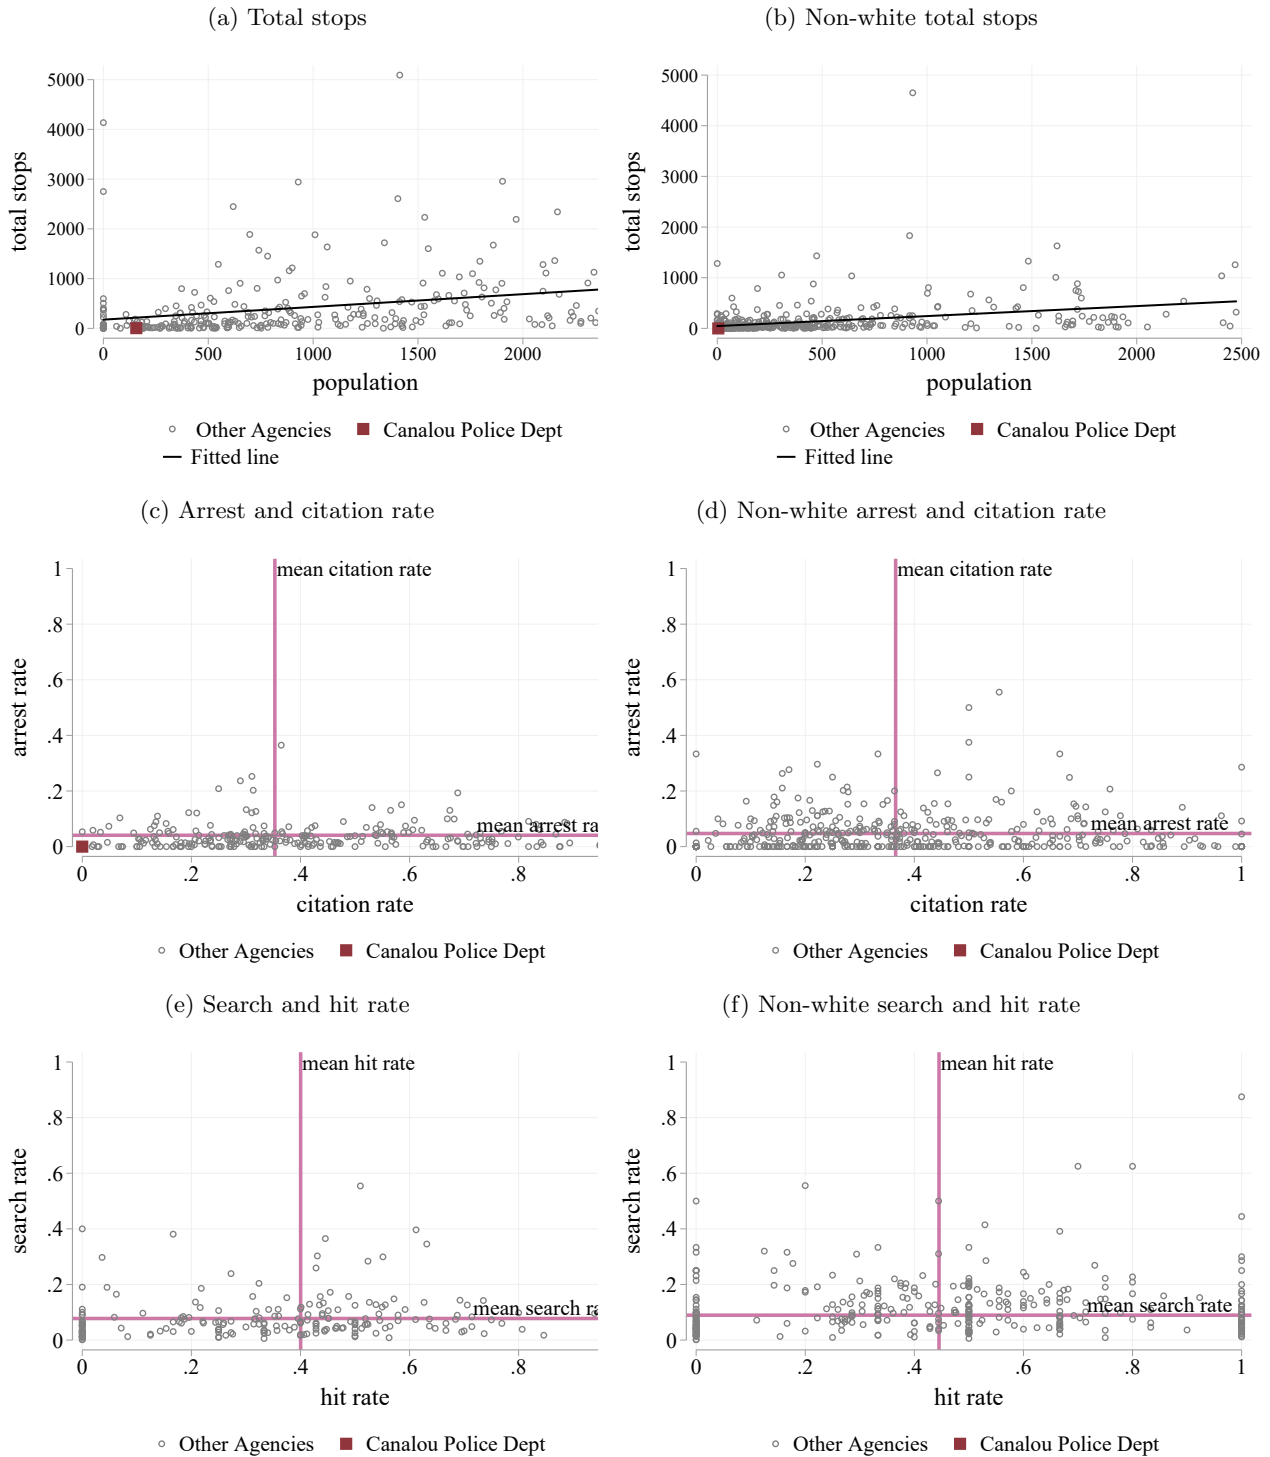

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Canalou Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Canalou Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	157	152	0	5	0	0	0
2019 population %	100	96.82	0	3.18	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	5	5	0	0	0	0	0
Resident stops	5	5	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.033	.	0	.	.	.
Resident stops	.	1.033	.	0	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

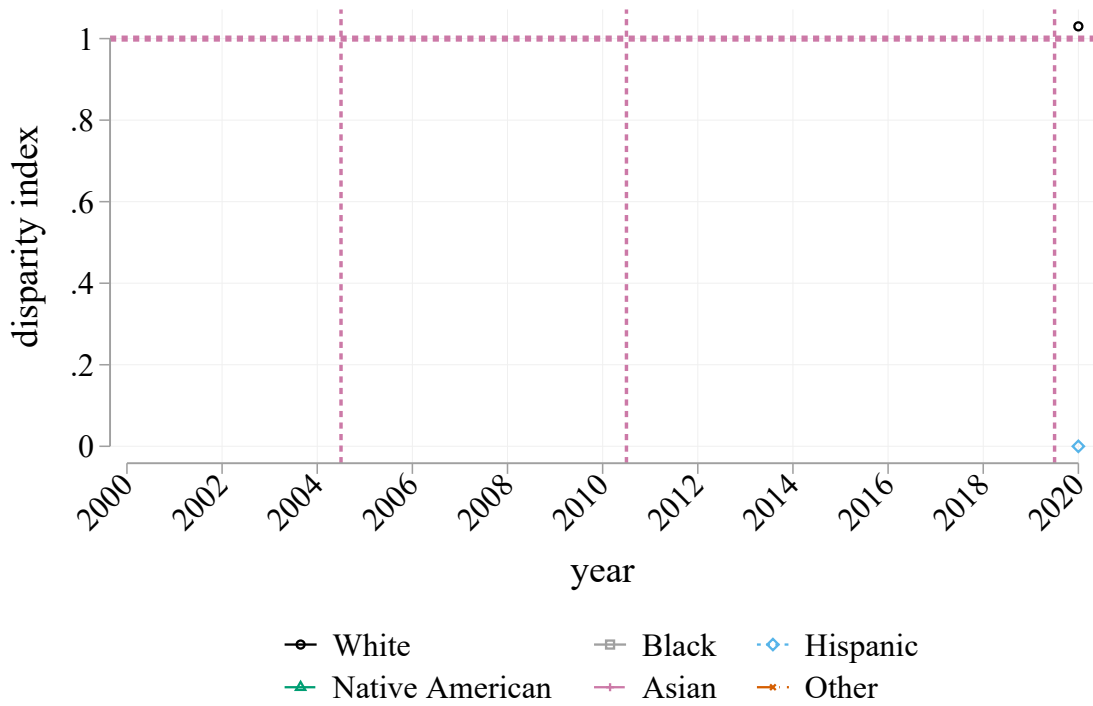

Table 3: Disparity Index from 2000 to 2020 for Canalou Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.	.	.	.	.	.

<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	1.03	.	0	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Canalou Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.74 Cape Girardeau Co. Sheriff's Dept

Table 1: Rates by Race for Cape Girardeau Co. Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	63422	55692	4303	1207	87	1210	1229
2019 population %	100	87.81	6.78	1.9	.14	1.91	1.94
<b>Totals</b>	.	.	.	.	.	.	.
All stops	308	269	34	4	0	1	0
Resident stops	218	194	20	3	0	1	0
Searches	20	17	2	1	0	0	0
Contraband	3	3	0	0	0	0	0
Arrests	10	9	1	0	0	0	0
Citations	34	29	4	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.49	.48	.79	.33	0	.08	0
Stop rate, residents	.34	.35	.46	.25	0	.08	0
Search rate	6.49	6.32	5.88	25	.	0	.
Contraband hit rate	15	17.65	0	0	.	.	.
Arrest rate	3.25	3.35	2.94	0	.	0	.
Citation rate	11.04	10.78	11.76	25	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

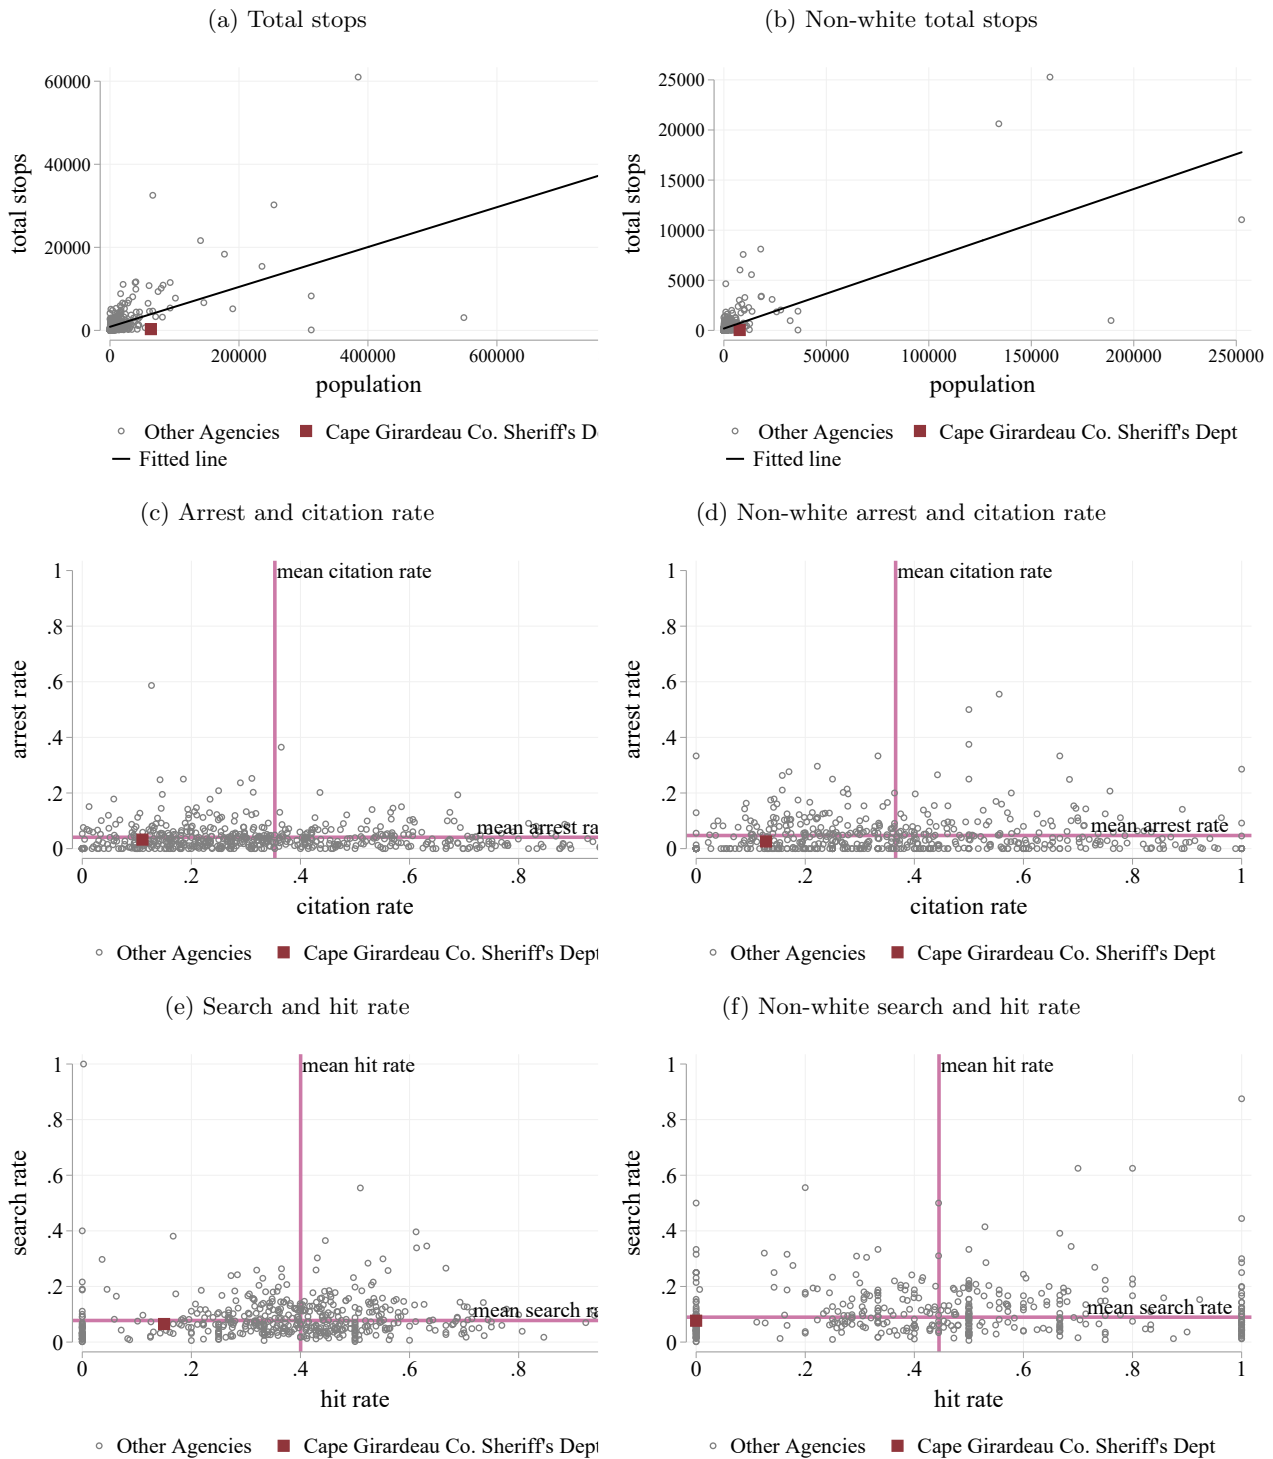

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cape Girardeau Co. Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cape Girardeau Co. Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	63422	55692	4303	1207	87	1210	1229
2019 population %	100	87.81	6.78	1.9	.14	1.91	1.94
<b>Stops</b>	.	.	.	.	.	.	.
All stops	308	269	34	4	0	1	0
Resident stops	218	194	20	3	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.995	1.627	.682	0	.17	0
Resident stops	.	1.013	1.352	.723	0	.24	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Cape Girardeau Co. Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

## 1.76 Cardwell Police Dept

Table 1: Rates by Race for Cardwell Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	607	489	0	85	2	7	51
2019 population %	100	80.56	0	14	.33	1.15	8.4
<b>Totals</b>	.	.	.	.	.	.	.
All stops	122	102	7	12	0	0	1
Resident stops	21	17	1	3	0	0	0
Searches	3	2	1	0	0	0	0
Contraband	4	3	1	0	0	0	0
Arrests	2	1	1	0	0	0	0
Citations	77	70	3	4	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.1	20.86	.	14.12	0	0	1.96
Stop rate, residents	3.46	3.48	.	3.53	0	0	0
Search rate	2.46	1.96	14.29	0	.	.	0
Contraband hit rate	133.33	150	100	.	.	.	.
Arrest rate	1.64	.98	14.29	0	.	.	0
Citation rate	63.11	68.63	42.86	33.33	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

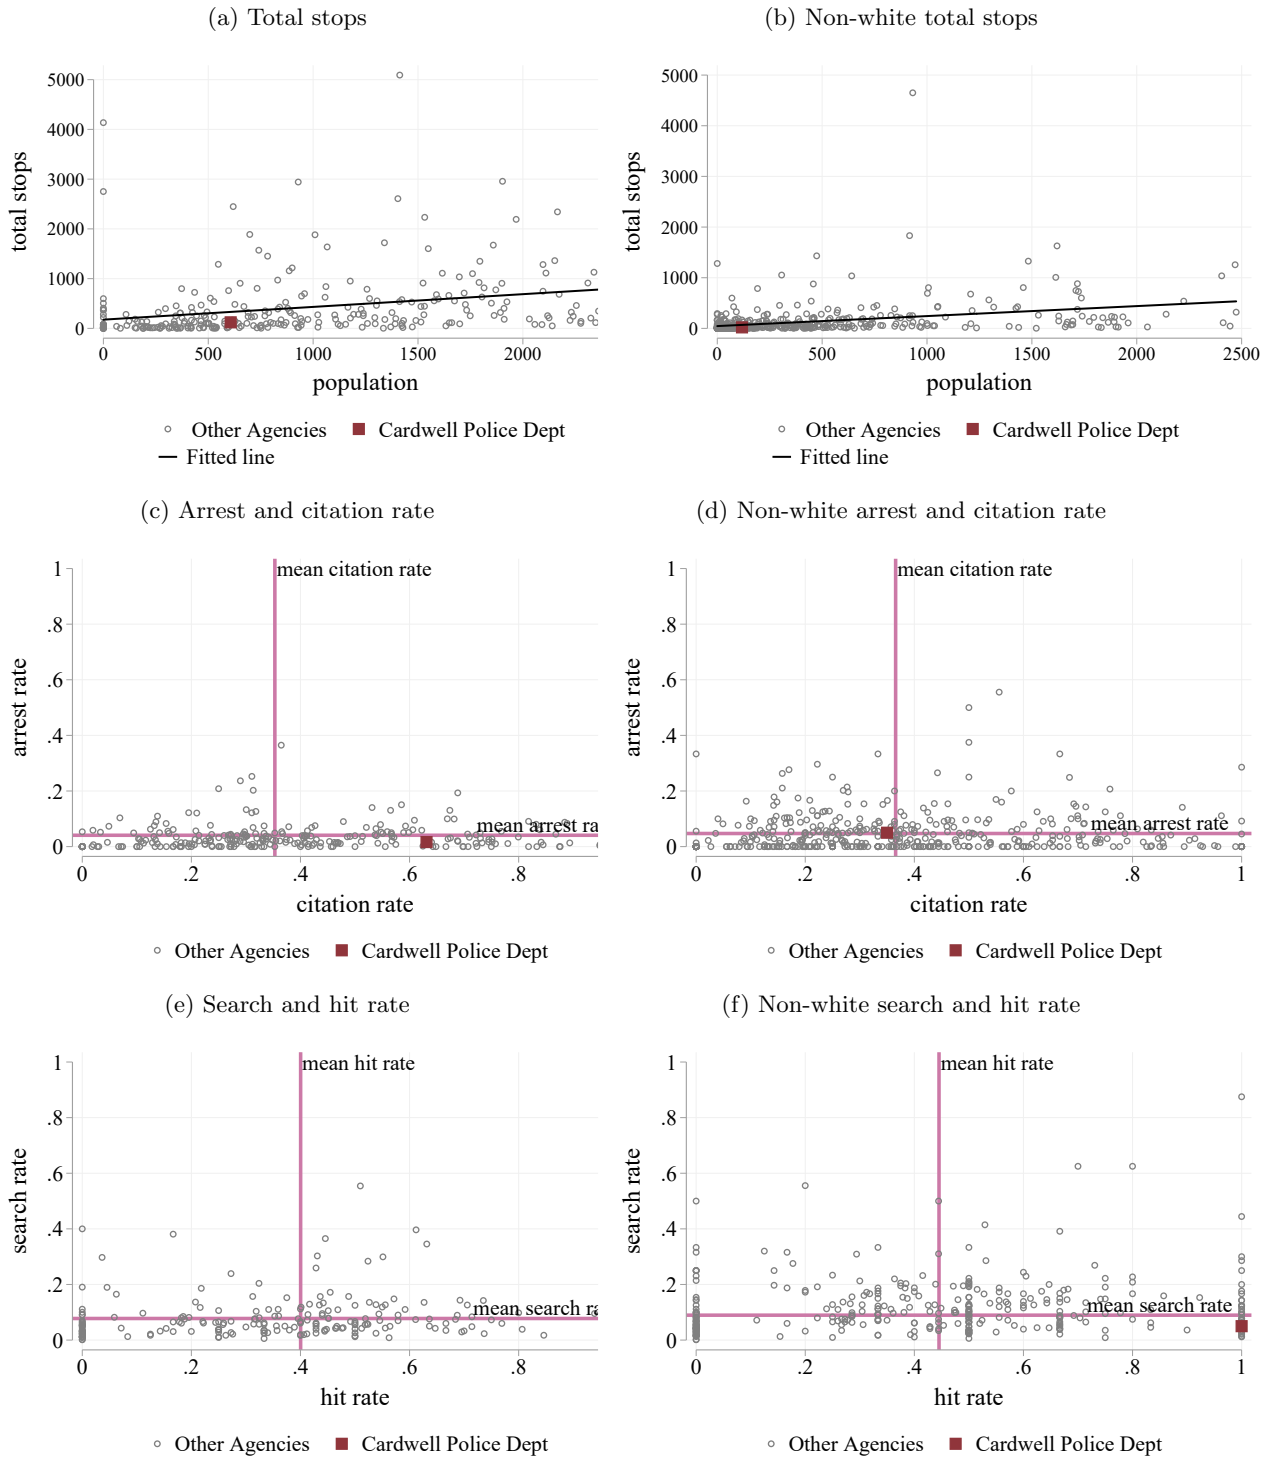

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cardwell Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cardwell Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	607	489	0	85	2	7	51
2019 population %	100	80.56	0	14	.33	1.15	8.4
<b>Stops</b>	.	.	.	.	.	.	.
All stops	122	102	7	12	0	0	1
Resident stops	21	17	1	3	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.038	.	.702	0	0	.098
Resident stops	.	1.005	.	1.02	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.78 Carroll County Sheriff's Dept

Table 1: Rates by Race for Carroll County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7002	6706	110	102	18	43	62
2019 population %	100	95.77	1.57	1.46	.26	.61	.89
<b>Totals</b>	.	.	.	.	.	.	.
All stops	486	449	6	14	11	2	4
Resident stops	330	330	0	0	0	0	0
Searches	26	23	0	2	0	0	1
Contraband	13	11	0	1	0	0	1
Arrests	0	0	0	0	0	0	0
Citations	2	1	1	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.94	6.7	5.45	13.73	61.11	4.65	6.45
Stop rate, residents	4.71	4.92	0	0	0	0	0
Search rate	5.35	5.12	0	14.29	0	0	25
Contraband hit rate	50	47.83	.	50	.	.	100
Arrest rate	0	0	0	0	0	0	0
Citation rate	.41	.22	16.67	0	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

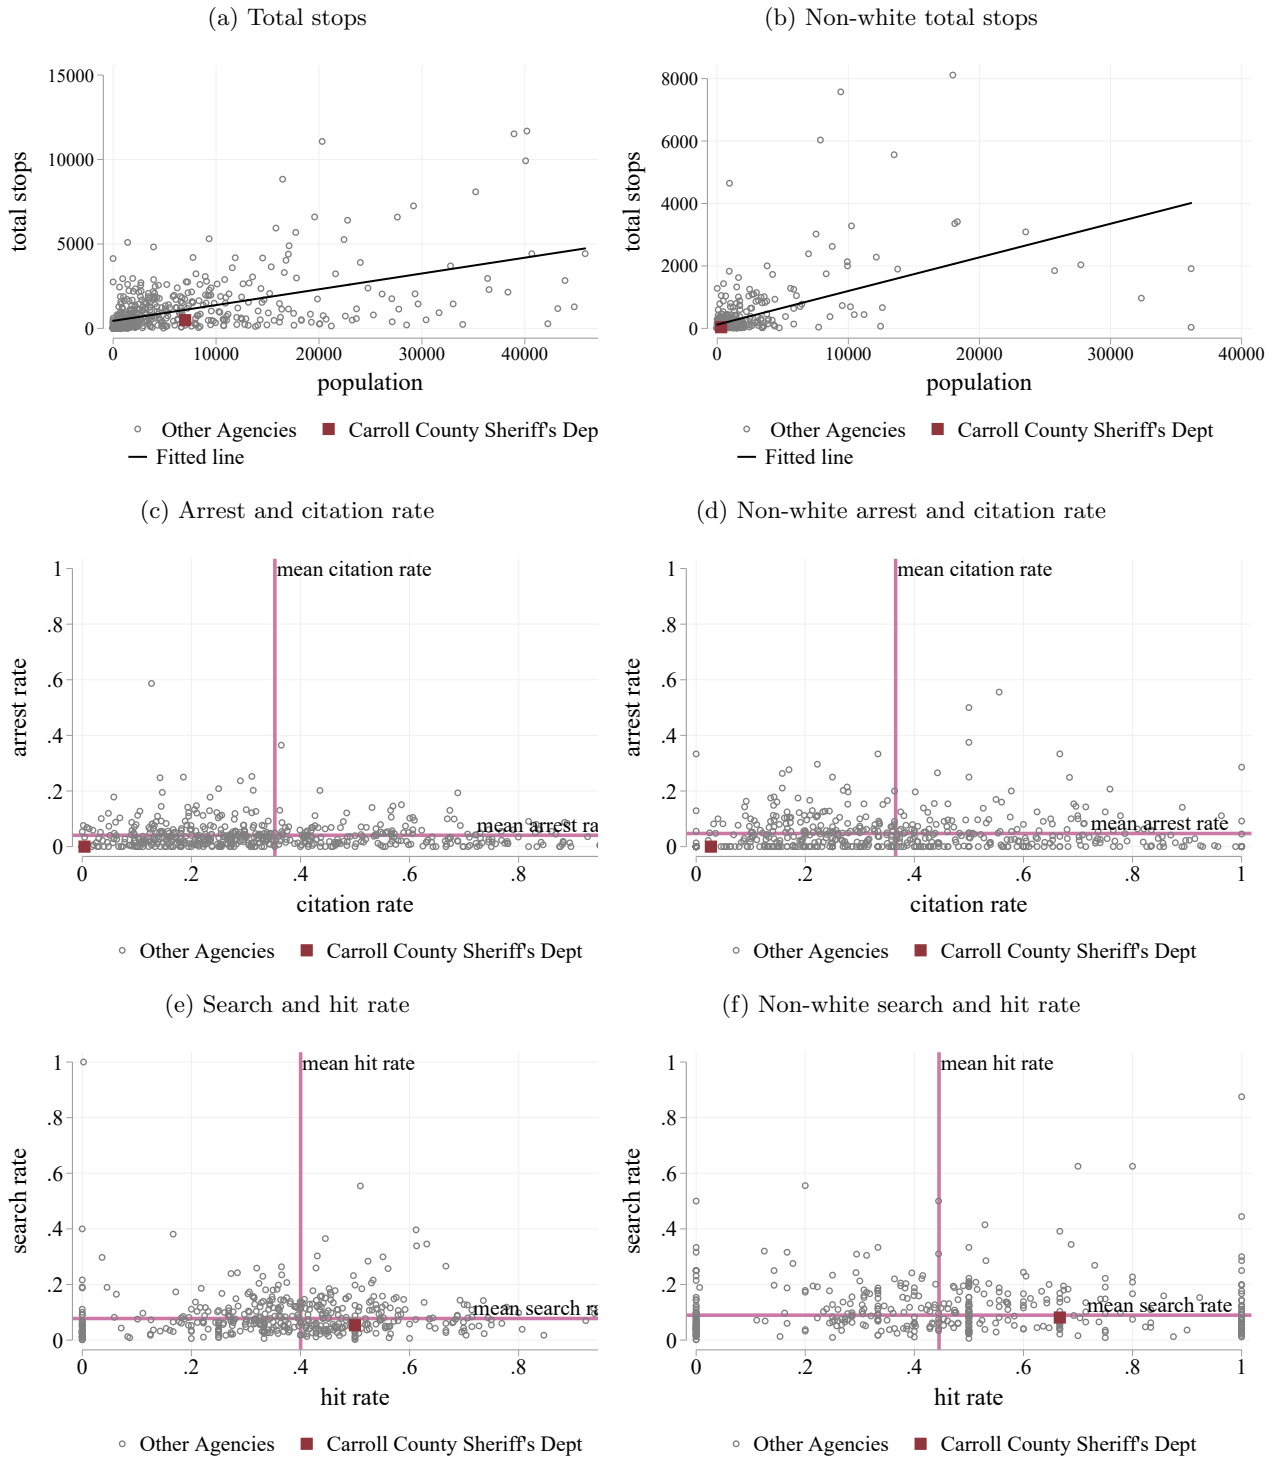

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Carroll County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Carroll County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7002	6706	110	102	18	43	62
2019 population %	100	95.77	1.57	1.46	.26	.61	.89
<b>Stops</b>	.	.	.	.	.	.	.
All stops	486	449	6	14	11	2	4
Resident stops	330	330	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.965	.786	1.977	8.805	.67	.93
Resident stops	.	1.044	0	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Carroll County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.98	0	8.69	0	0	0
<b>2001</b>	.98	1.59	4.34	0	0	0
<b>2002</b>	.96	2.09	3.82	0	0	2.2

<b>2006</b>	.97	2.47	2.26	0	0	0
<b>2007</b>	.99	3.24	0	0	0	0
<b>2008</b>	.99	1.39	3.88	0	0	0
<b>2009</b>	.98	1.46	2.2	0	3.01	1
<b>2010</b>	.97	2.08	2.33	0	1.63	.55
<b>2011</b>	.98	3	.89	0	1.02	0
<b>2012</b>	.98	1.77	2.15	3.94	0	.61
<b>2013</b>	1	1.67	.95	0	0	0
<b>2014</b>	.99	1.58	2.01	0	0	0
<b>2015</b>	.92	3.89	5.15	0	0	1.05
<b>2016</b>	.95	3.62	3.36	0	0	0
<b>2017</b>	.95	2.59	4.17	0	0	1.32
<b>2018</b>	.96	2.98	1.69	0	1.72	1.6
<b>2019</b>	.98	1.44	2.62	0	0	1.49
<b>2020</b>	.96	.79	1.98	8.8	.67	.93

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Carroll County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.33	.3	50	0	0	.	0
Stop rate, residents	.18	.19	0	0	0	.	0
Search rate	18.75	14.29	50	.	.	.	.
Contraband hit rate	0	0	0	.	.	.	.
Arrest rate	18.75	21.43	0	.	.	.	.
Citation rate	112.5	114.29	100	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

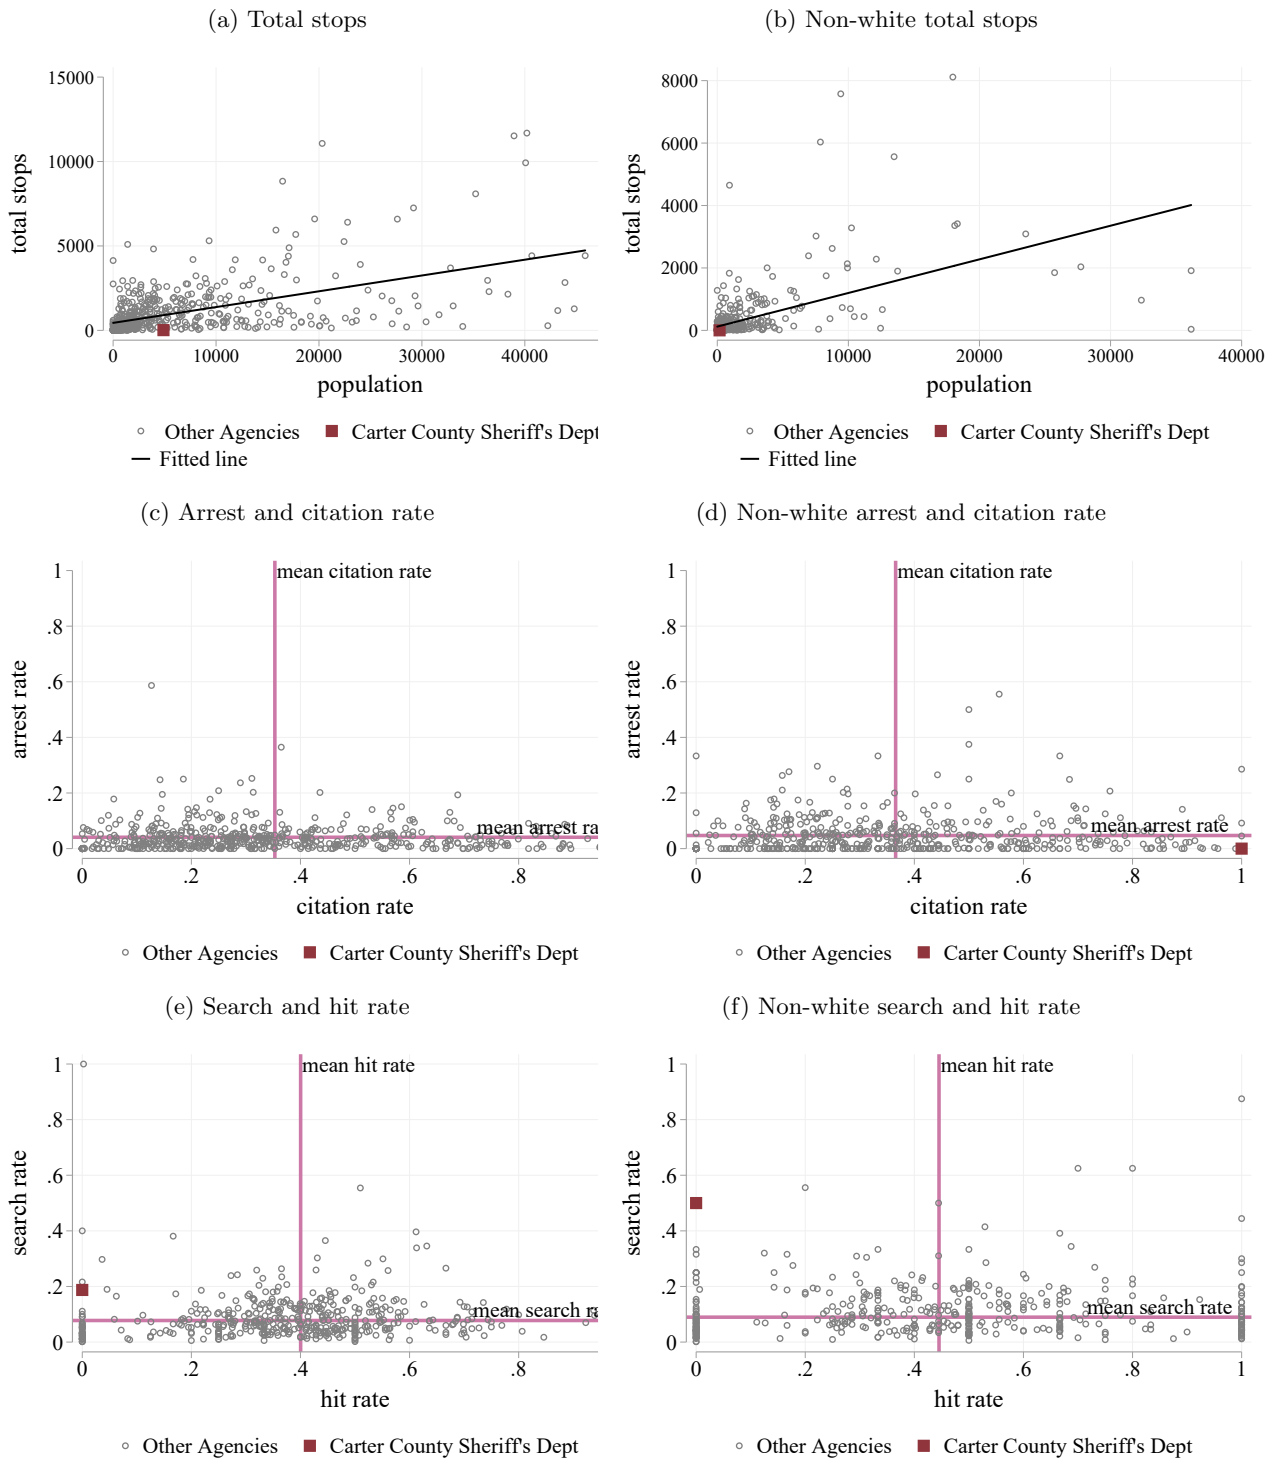

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Carter County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Carter County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4892	4714	4	106	58	0	65
2019 population %	100	96.36	.08	2.17	1.19	0	1.33
<b>Stops</b>	.	.	.	.	.	.	.
All stops	16	14	2	0	0	0	0
Resident stops	9	9	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.908	152.875	0	0	.	0
Resident stops	.	1.038	0	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	5.64	5.19	6.12	9.3	10	0	4.17
Citation rate	28.05	27	31.63	36.88	40	0	20.83

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

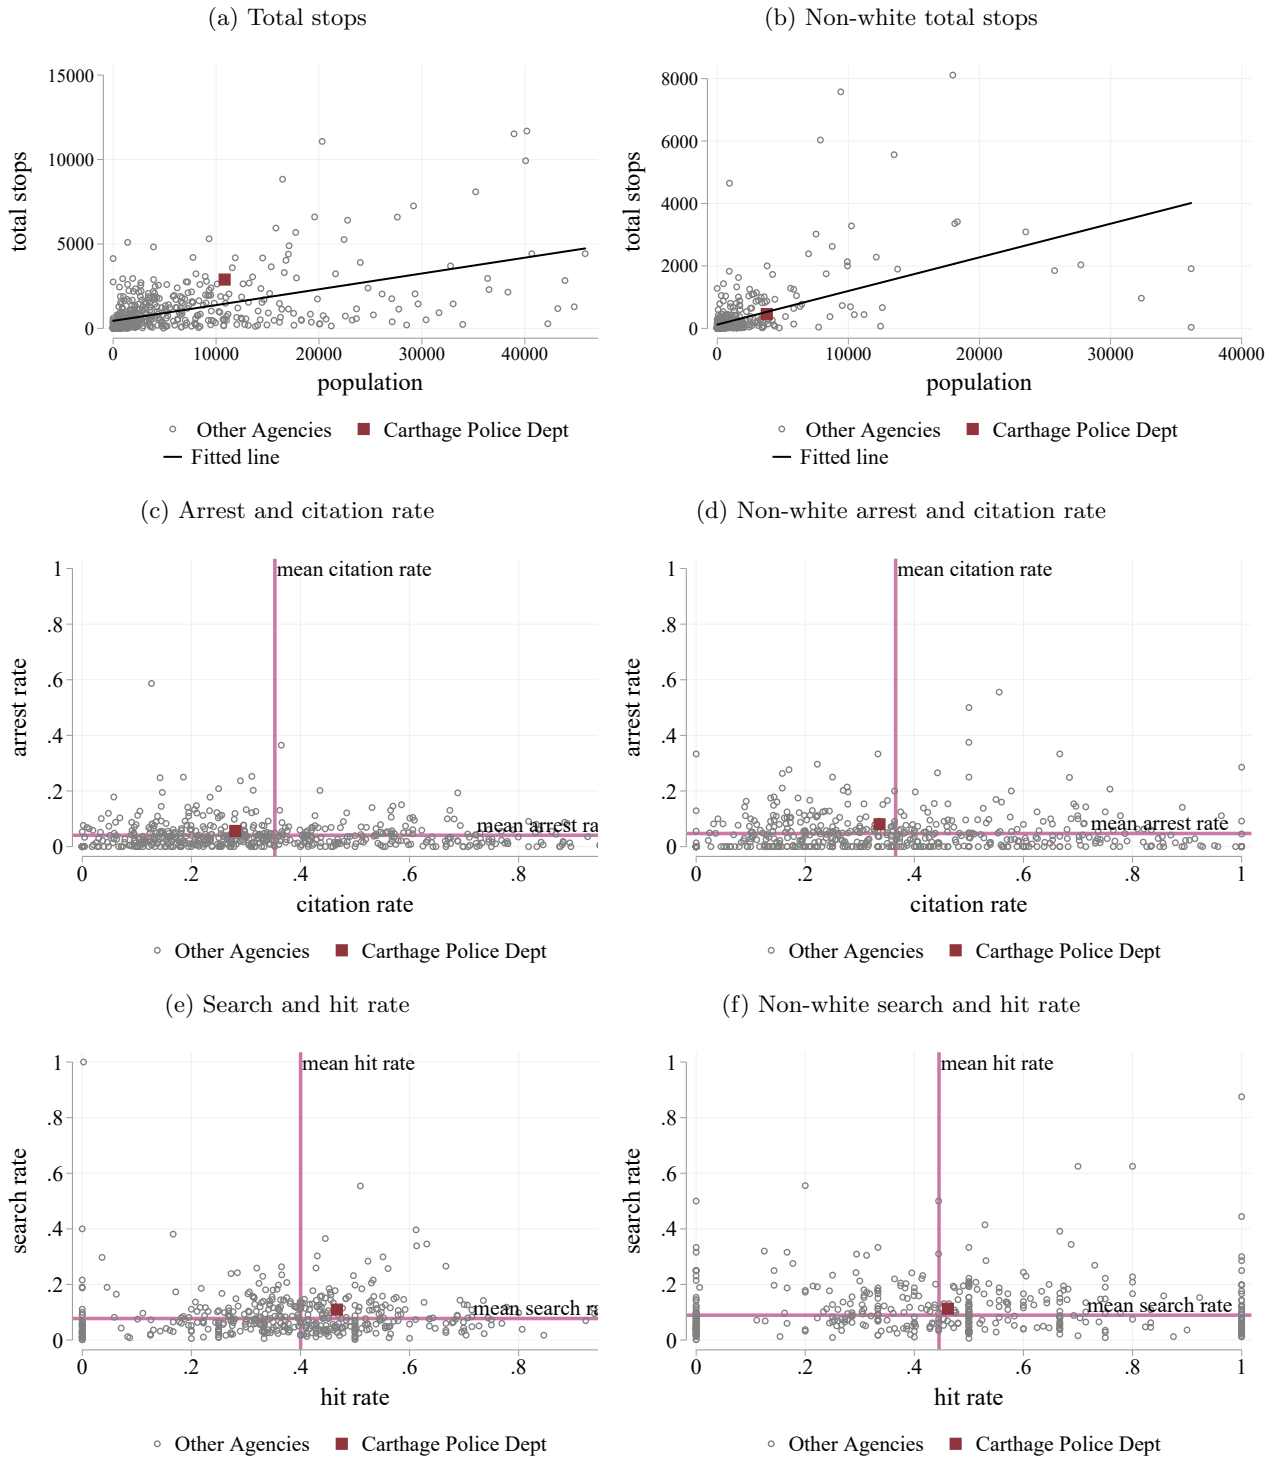

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Carthage Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Carthage Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10835	7056	211	2870	138	97	901
2019 population %	100	65.12	1.95	26.49	1.27	.9	8.32
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2891	2430	98	301	20	18	24
Resident stops	1607	1315	50	213	11	6	12
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.291	1.741	.393	.543	.695	.1
Resident stops	.	1.257	1.598	.5	.537	.417	.09

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	3.93	3.87	7.19	2.04	1.9	2.22	2.74
Stop rate, residents	2.46	2.52	2.81	.88	1.52	1.11	1.47
Search rate	18.26	17.93	25.75	16.67	10	7.14	10.34
Contraband hit rate	44.43	43.37	53.33	40	0	0	66.67
Arrest rate	6.08	6.14	8.15	1.67	0	0	1.72
Citation rate	19.2	19.13	19.74	18.33	0	0	29.31

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

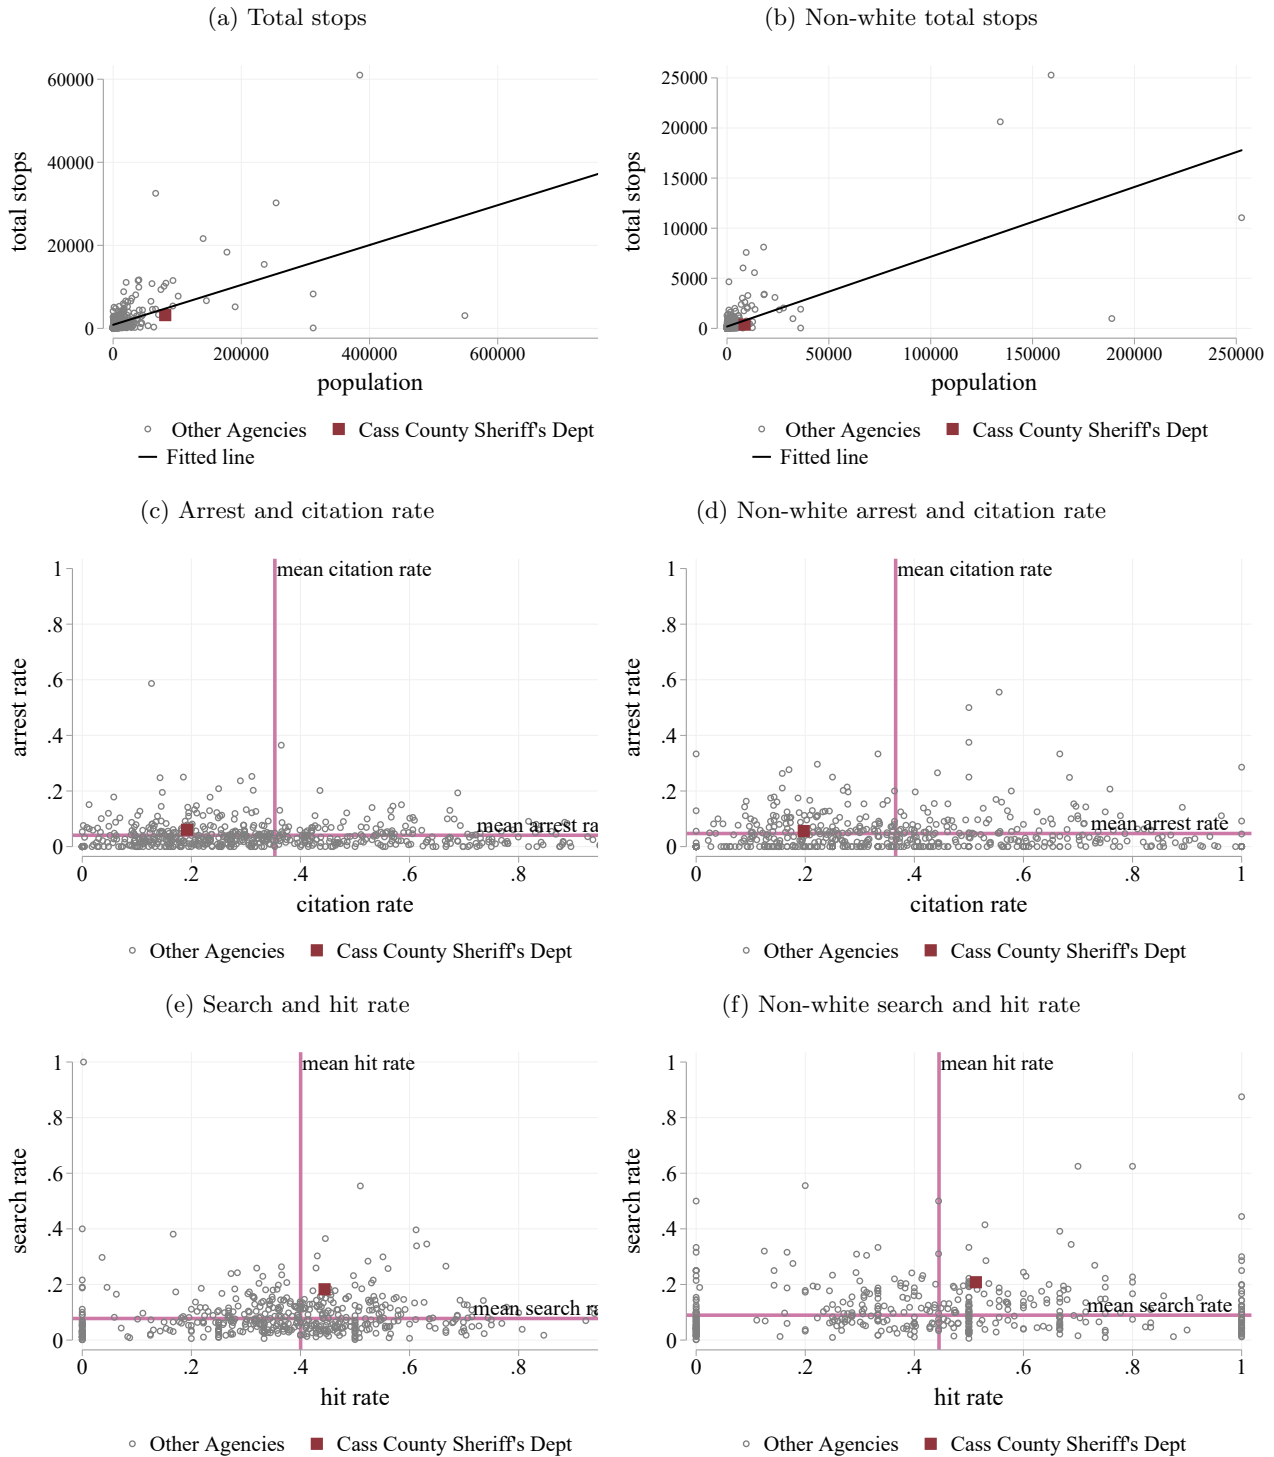

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cass County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cass County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	81315	72716	3240	2943	526	630	2113
2019 population %	100	89.43	3.98	3.62	.65	.77	2.6
<b>Stops</b>	.	.	.	.	.	.	.
All stops	3192	2817	233	60	10	14	58
Resident stops	1998	1835	91	26	8	7	31
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.987	1.832	.519	.484	.566	.699
Resident stops	.	1.027	1.143	.36	.619	.452	.597

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	3.39	3.33	14.29	0	.	.	0
Citation rate	15.82	15.92	0	50	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

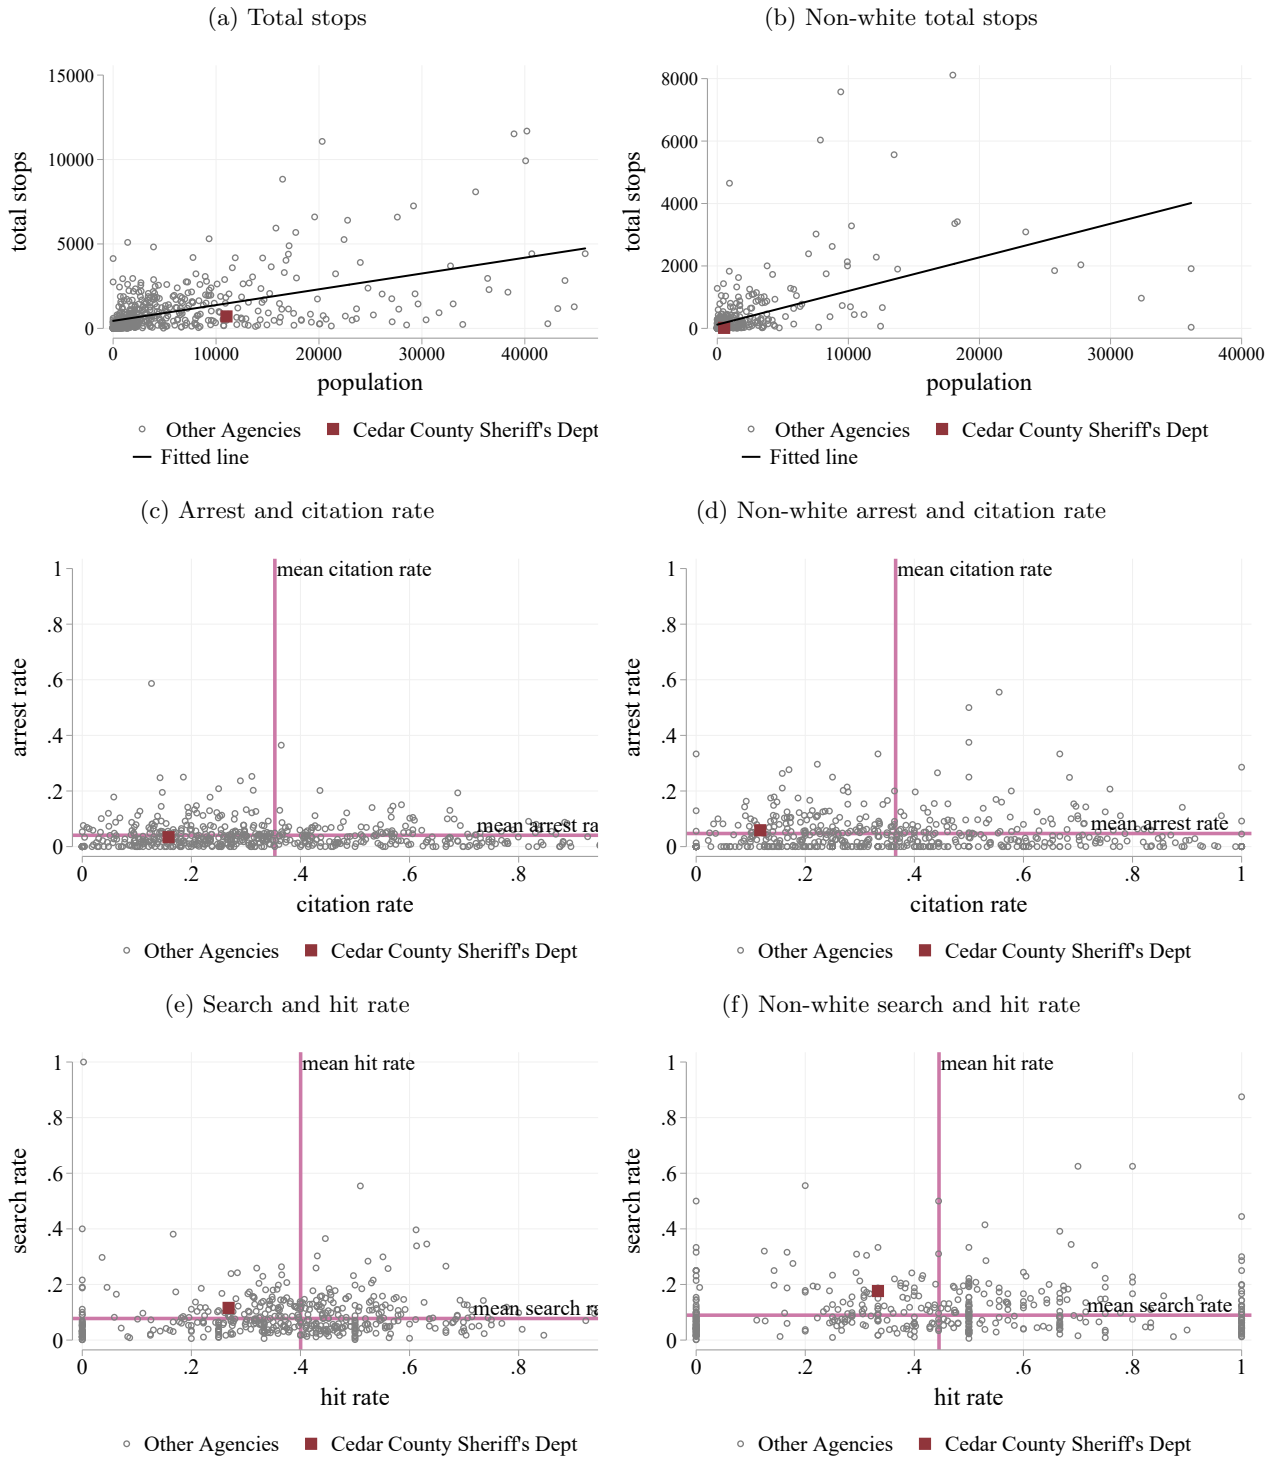

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Cedar County Sheriff's Dept. has jurisdiction over Stockton Lake, a summer tourist destination.

Figure 1: Comparison to other agencies by population for Cedar County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cedar County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	11016	10491	7	200	32	30	344
2019 population %	100	95.23	.06	1.82	.29	.27	3.12
<b>Stops</b>	.	.	.	.	.	.	.
All stops	708	691	7	4	0	0	6
Resident stops	508	505	0	1	0	0	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.025	15.559	.311	0	0	.271
Resident stops	.	1.044	0	.108	0	0	.126

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Cedar County Sheriff's Dept

<b>2019</b>	1.03	0	.39	0	0	.1
<b>2020</b>	1.02	15.56	.31	0	0	.27

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cedar County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Centralia Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Centralia Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3187	3166	0	21	0	0	0
2019 population %	100	99.34	0	.66	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1490	1405	64	15	0	3	3
Resident stops	653	631	16	3	0	3	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.949	.	1.528	.	.	.
Resident stops	.	.973	.	.697	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

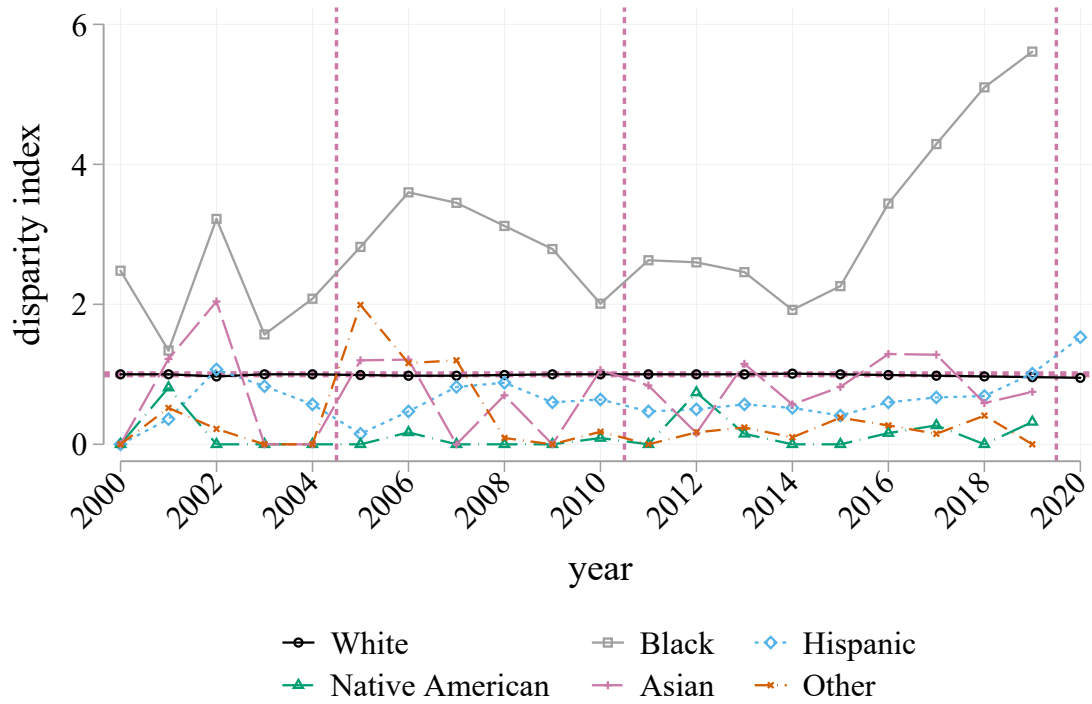

Table 3: Disparity Index from 2000 to 2020 for Centralia Police Dept

	White	Black	Hispanic	Native American	Asian	Other

2019 population	5990	5736	167	33	3	0	55
2019 population %	100	95.76	2.79	.55	.05	0	.92
<b>Stops</b>	.	.	.	.	.	.	.
All stops	193	171	18	3	0	0	1
Resident stops	97	82	14	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.925	3.345	2.821	0	.	.564
Resident stops	.	.883	5.177	1.871	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Chariton County Sheriff's Dept

<b>2017</b>	.96	3	1.27	0	3.32	.46
<b>2018</b>	.98	2.5	.88	0	0	0
<b>2019</b>	.96	3.07	2.65	0	0	0
<b>2020</b>	.93	3.35	2.82	0	.	.56

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Chariton County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	5	2	3	0	0	0	0
Citations	64	30	33	0	1	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	3.21	3.2	3.29	1.08	2.5	.	1.43
Stop rate, residents	1.9	1.24	2.59	0	1.25	.	0
Search rate	14.47	13.43	12.5	100	50	100	0
Contraband hit rate	36.36	44.44	40	0	0	0	.
Arrest rate	3.29	2.99	3.75	0	0	0	0
Citation rate	42.11	44.78	41.25	0	50	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

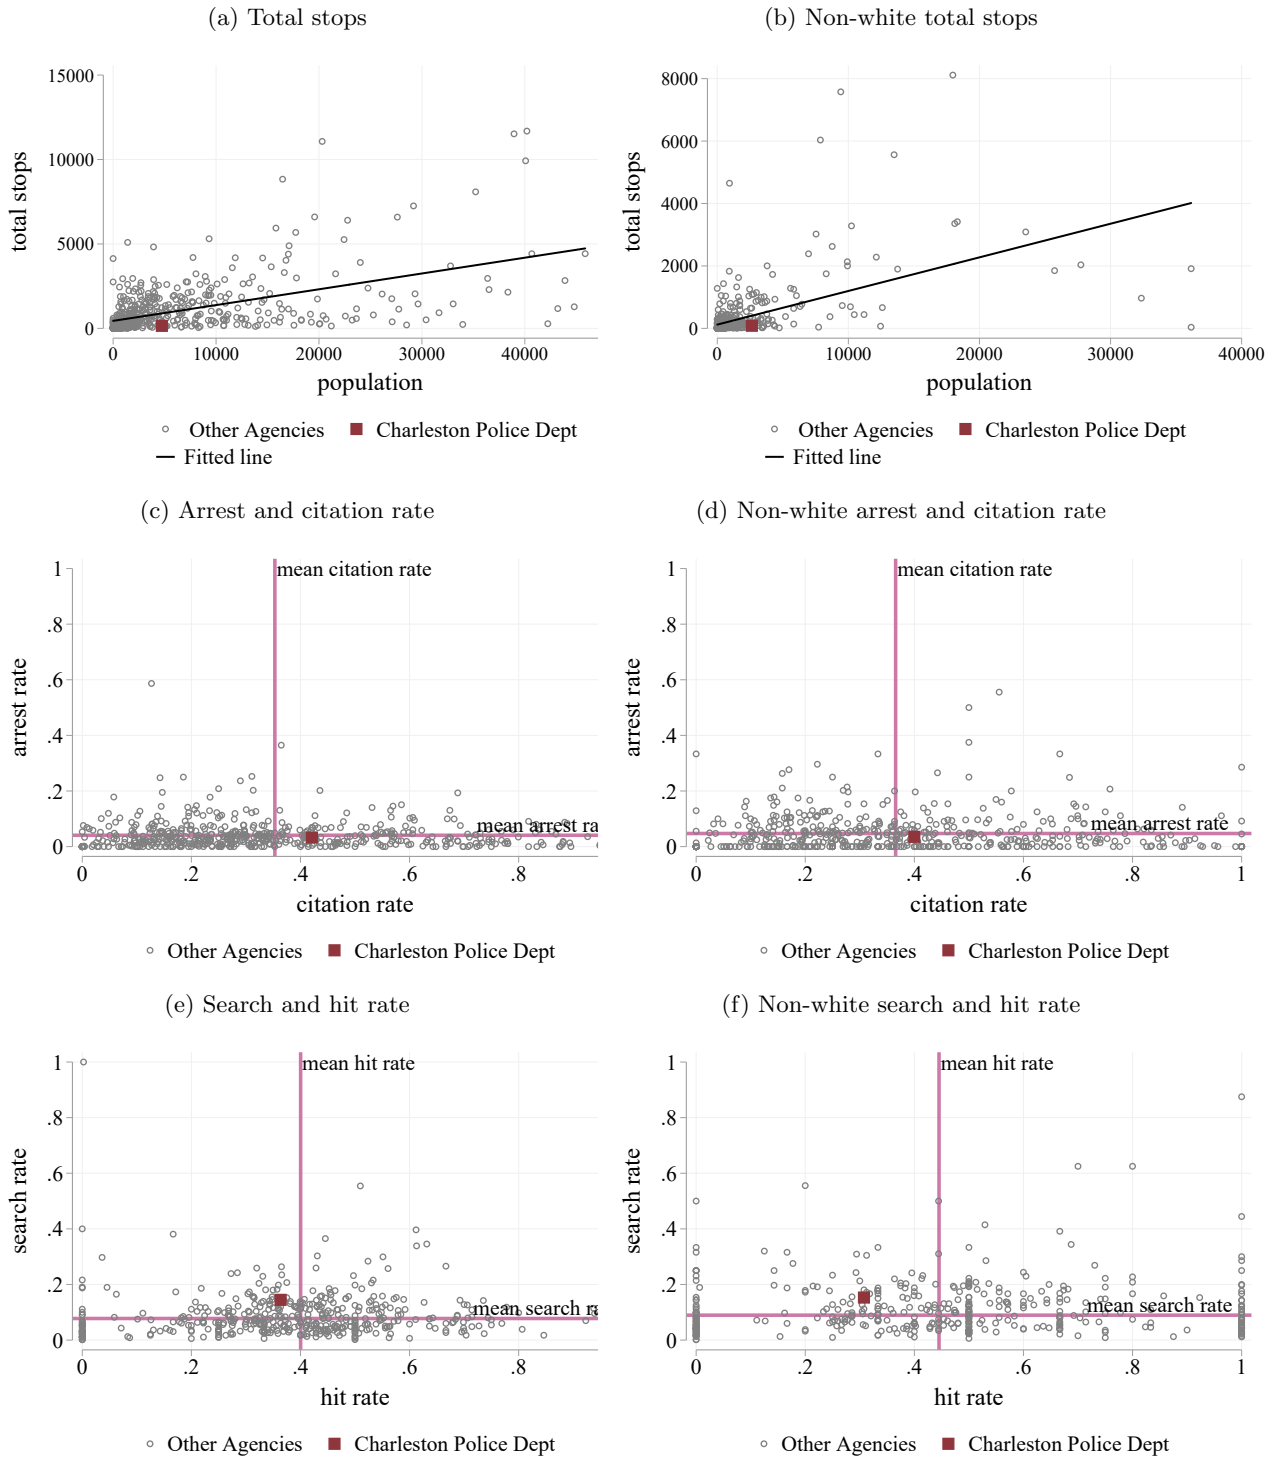

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Charleston Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	.97	4.27	.22	3.31	.23	1.11

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Chesterfield Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	29.87	29.69	33.33	33.33	.	.	0
Arrest rate	3.02	2.66	9.43	5.26	.	0	25
Citation rate	17.17	17.16	15.09	31.58	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

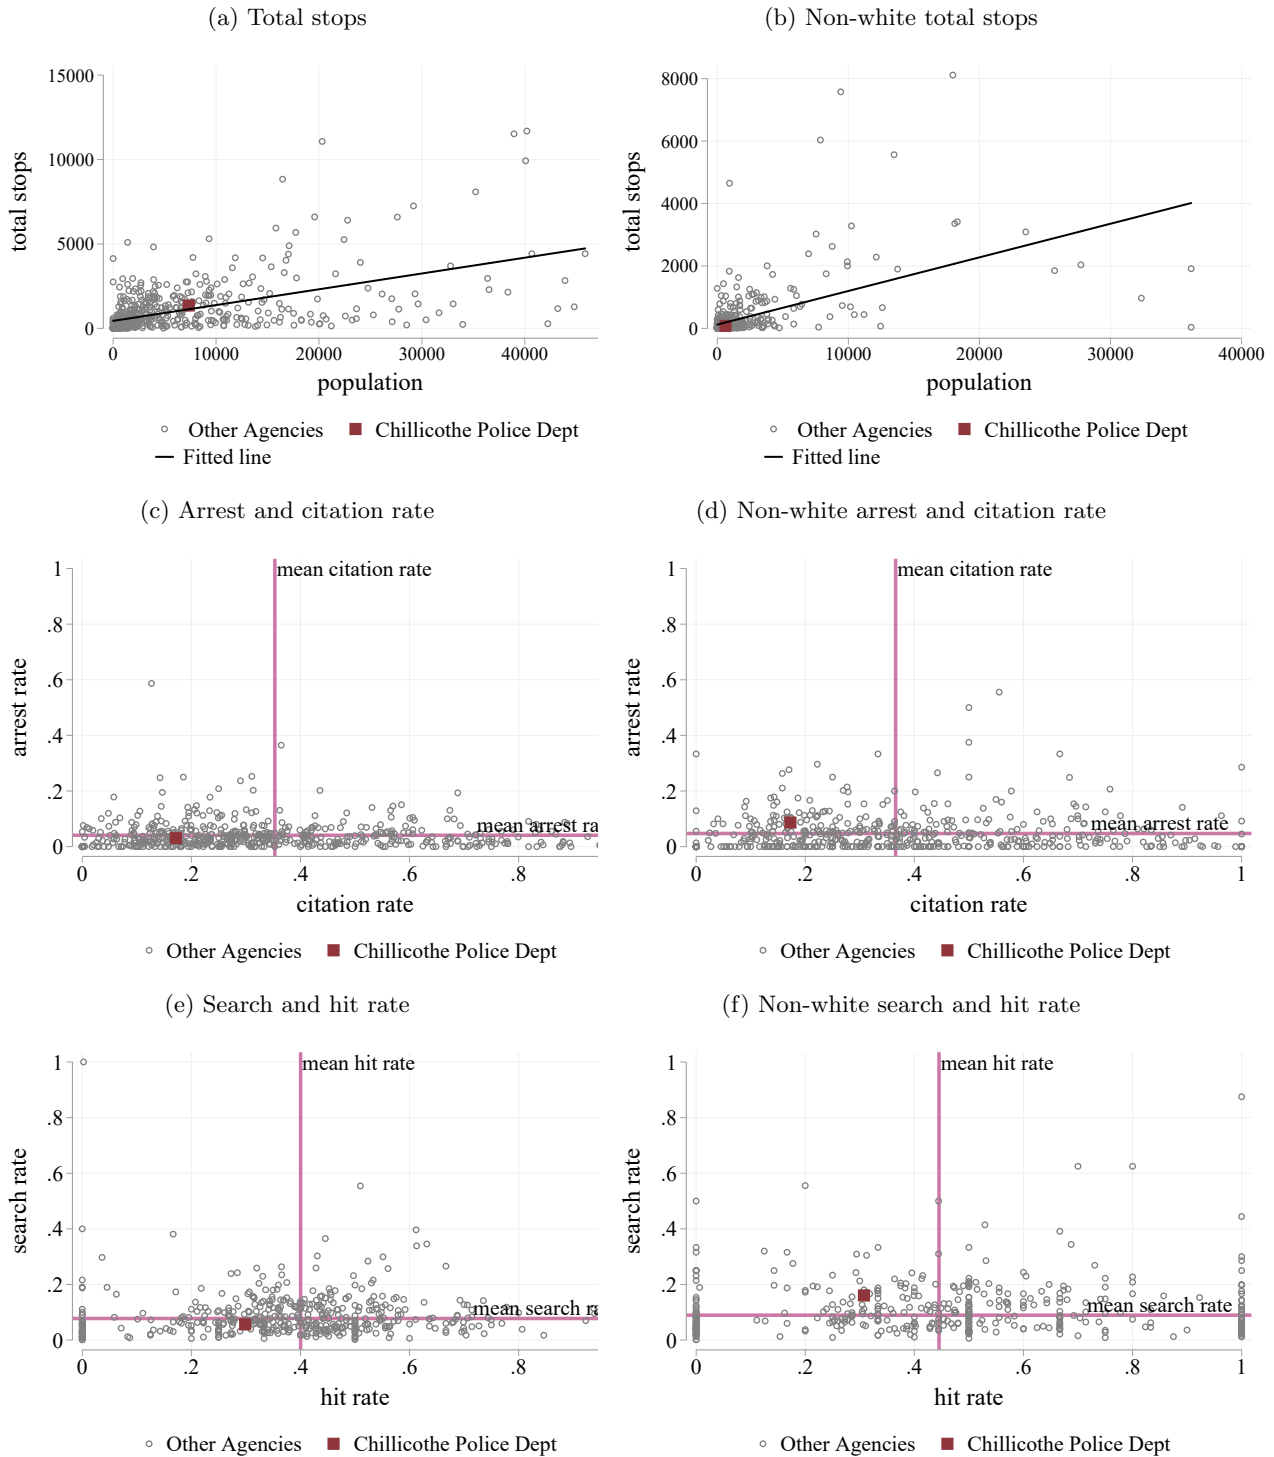

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Chillicothe Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Chillicothe Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Christian County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	66267	62356	462	1676	336	368	1607
2019 population %	100	94.1	.7	2.53	.51	.56	2.43
<b>Stops</b>	.	.	.	.	.	.	.
All stops	4652	4359	148	102	2	9	32
Resident stops	2237	2155	36	34	0	5	7
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.996	4.563	.867	.085	.348	.284
Resident stops	.	1.024	2.308	.601	0	.402	.129

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Clarence Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	748	702	0	46	0	0	15
2019 population %	100	93.85	0	6.15	0	0	2.01
<b>Stops</b>	.	.	.	.	.	.	.
All stops	36	35	1	0	0	0	0
Resident stops	10	10	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.036	.	0	.	.	0
Resident stops	.	1.066	.	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

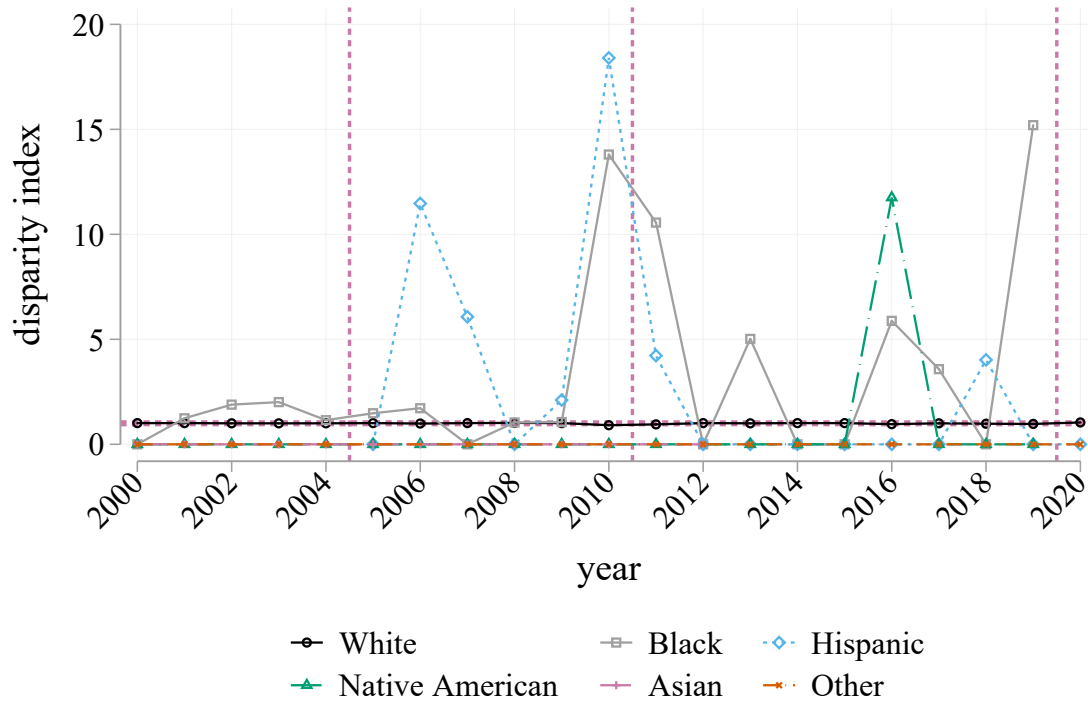

Table 3: Disparity Index from 2000 to 2020 for Clarence Police Dept

<b>Stops</b>	.	.	.	.	.	.	.
All stops	29	25	4	0	0	0	0
Resident stops	3	3	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.905	29.241	.	.	.	0
Resident stops	.	1.05	0	.	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Clark Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	0	0	0	0	0	0	0
Citations	90	80	8	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	135.11	175.85	26.09	3.23	.	.	0
Stop rate, residents	9	10.75	7.25	2.42	.	.	0
Search rate	5.76	5.44	22.22	25	.	.	.
Contraband hit rate	42.86	40	100	0	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	7.4	6.7	44.44	50	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

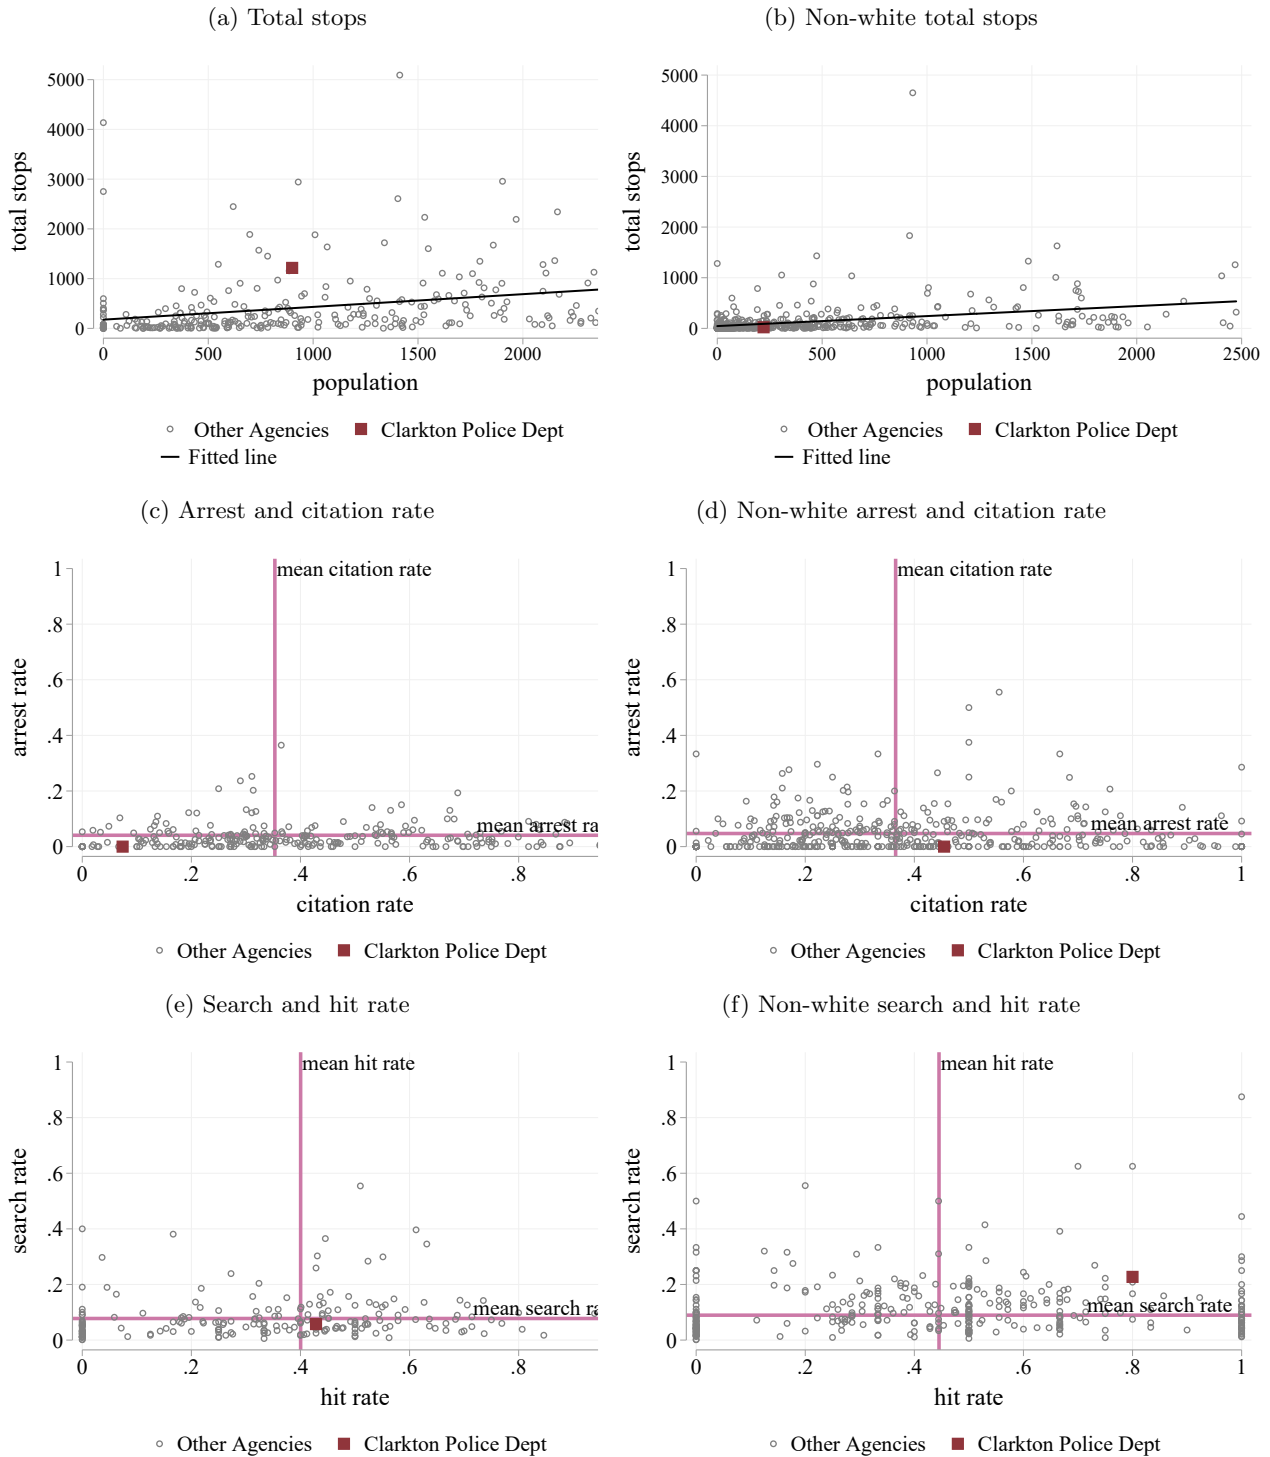

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Clarkton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Clarkton Police Dept

<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	.	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Clay County Parks Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Search rate	14.42	14.6	15.93	10.05	0	0	3.85
Contraband hit rate	53.67	54.46	50.45	45	.	.	100
Arrest rate	6.66	6.32	9.9	4.52	0	2.38	0
Citation rate	2.81	2.72	3.87	1.01	0	2.38	3.85

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

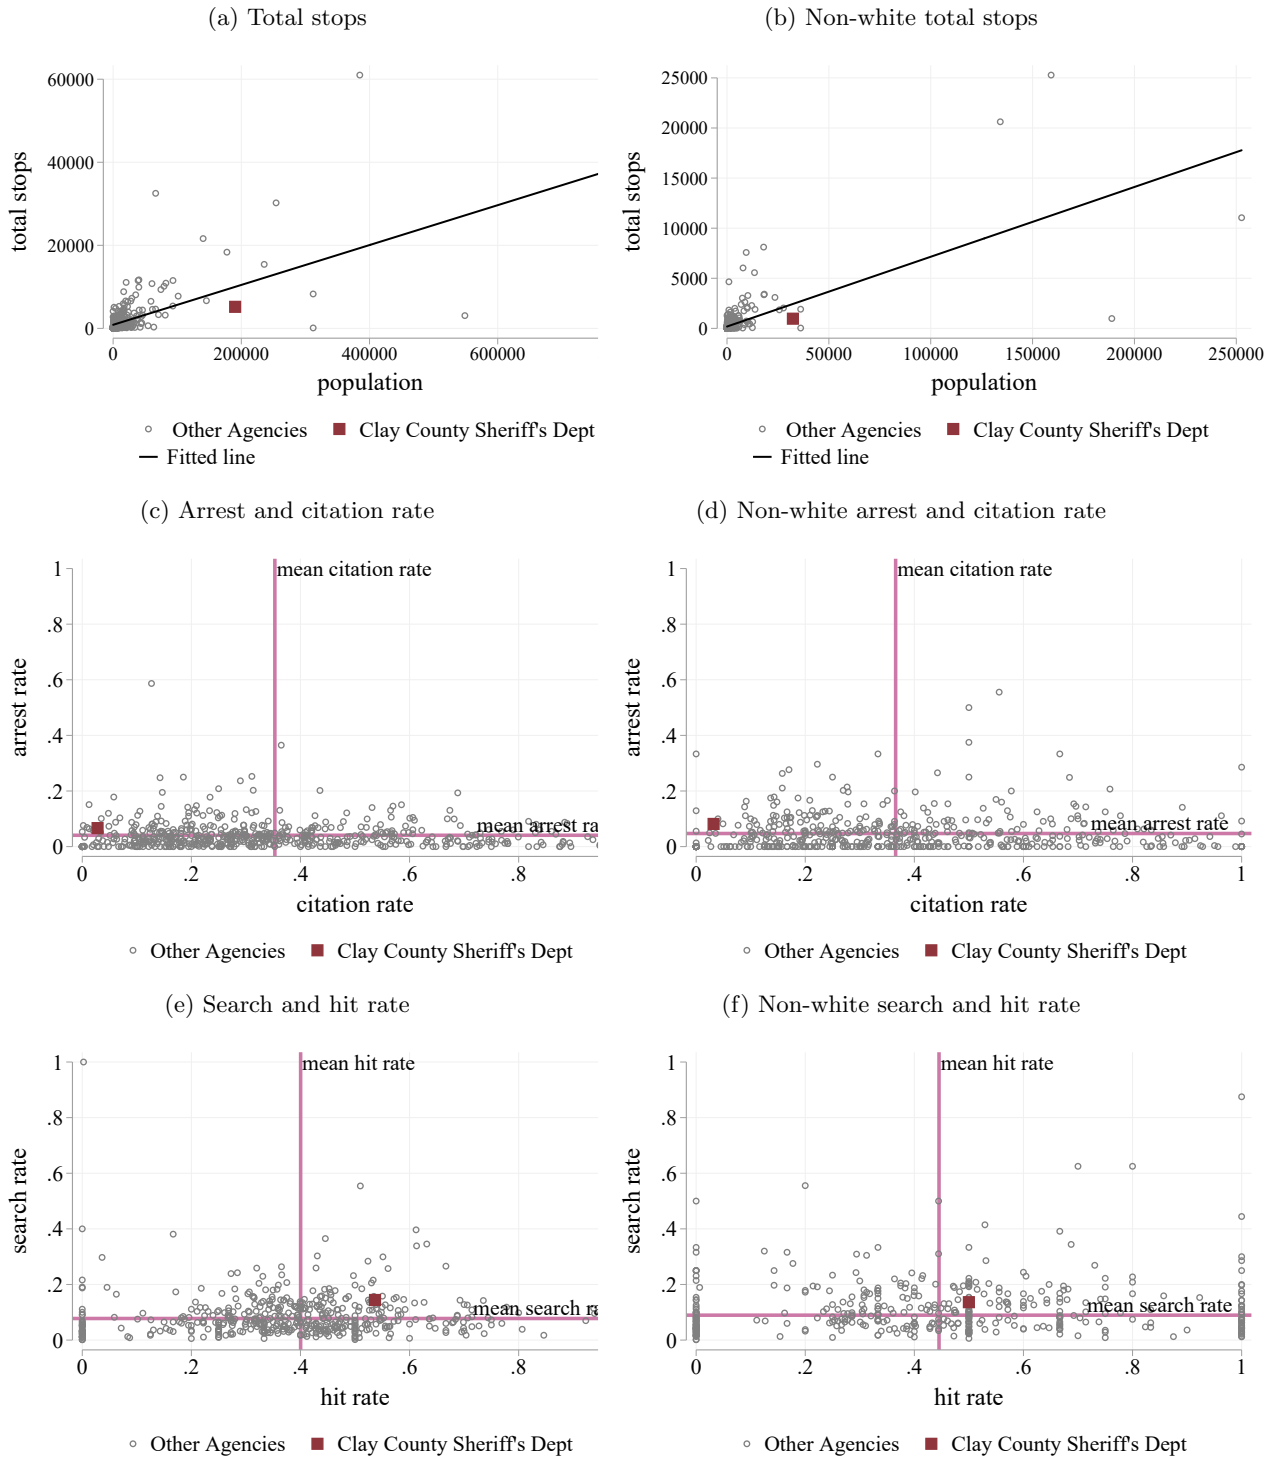

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Clay County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2018</b>	.79	27.49	.92	.92	1.94	1.02
<b>2019</b>	.76	28.03	1.2	1.18	2.52	1.45
<b>2020</b>	.81	5.22	1.71	.22	1.67	.22

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Claycomo Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.103 Clayton Police Dept

Table 1: Rates by Race for Clayton Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14359	10577	1130	522	28	1837	310
2019 population %	100	73.66	7.87	3.64	.19	12.79	2.16
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2361	1489	718	15	7	89	43
Resident stops	284	245	13	0	2	20	4
Searches	76	32	40	1	0	1	2
Contraband	22	5	15	1	0	0	1
Arrests	46	25	21	0	0	0	0
Citations	529	307	180	1	3	27	11
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	16.44	14.08	63.54	2.87	25	4.84	13.87
Stop rate, residents	1.98	2.32	1.15	0	7.14	1.09	1.29
Search rate	3.22	2.15	5.57	6.67	0	1.12	4.65
Contraband hit rate	28.95	15.63	37.5	100	.	0	50
Arrest rate	1.95	1.68	2.92	0	0	0	0
Citation rate	22.41	20.62	25.07	6.67	42.86	30.34	25.58

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

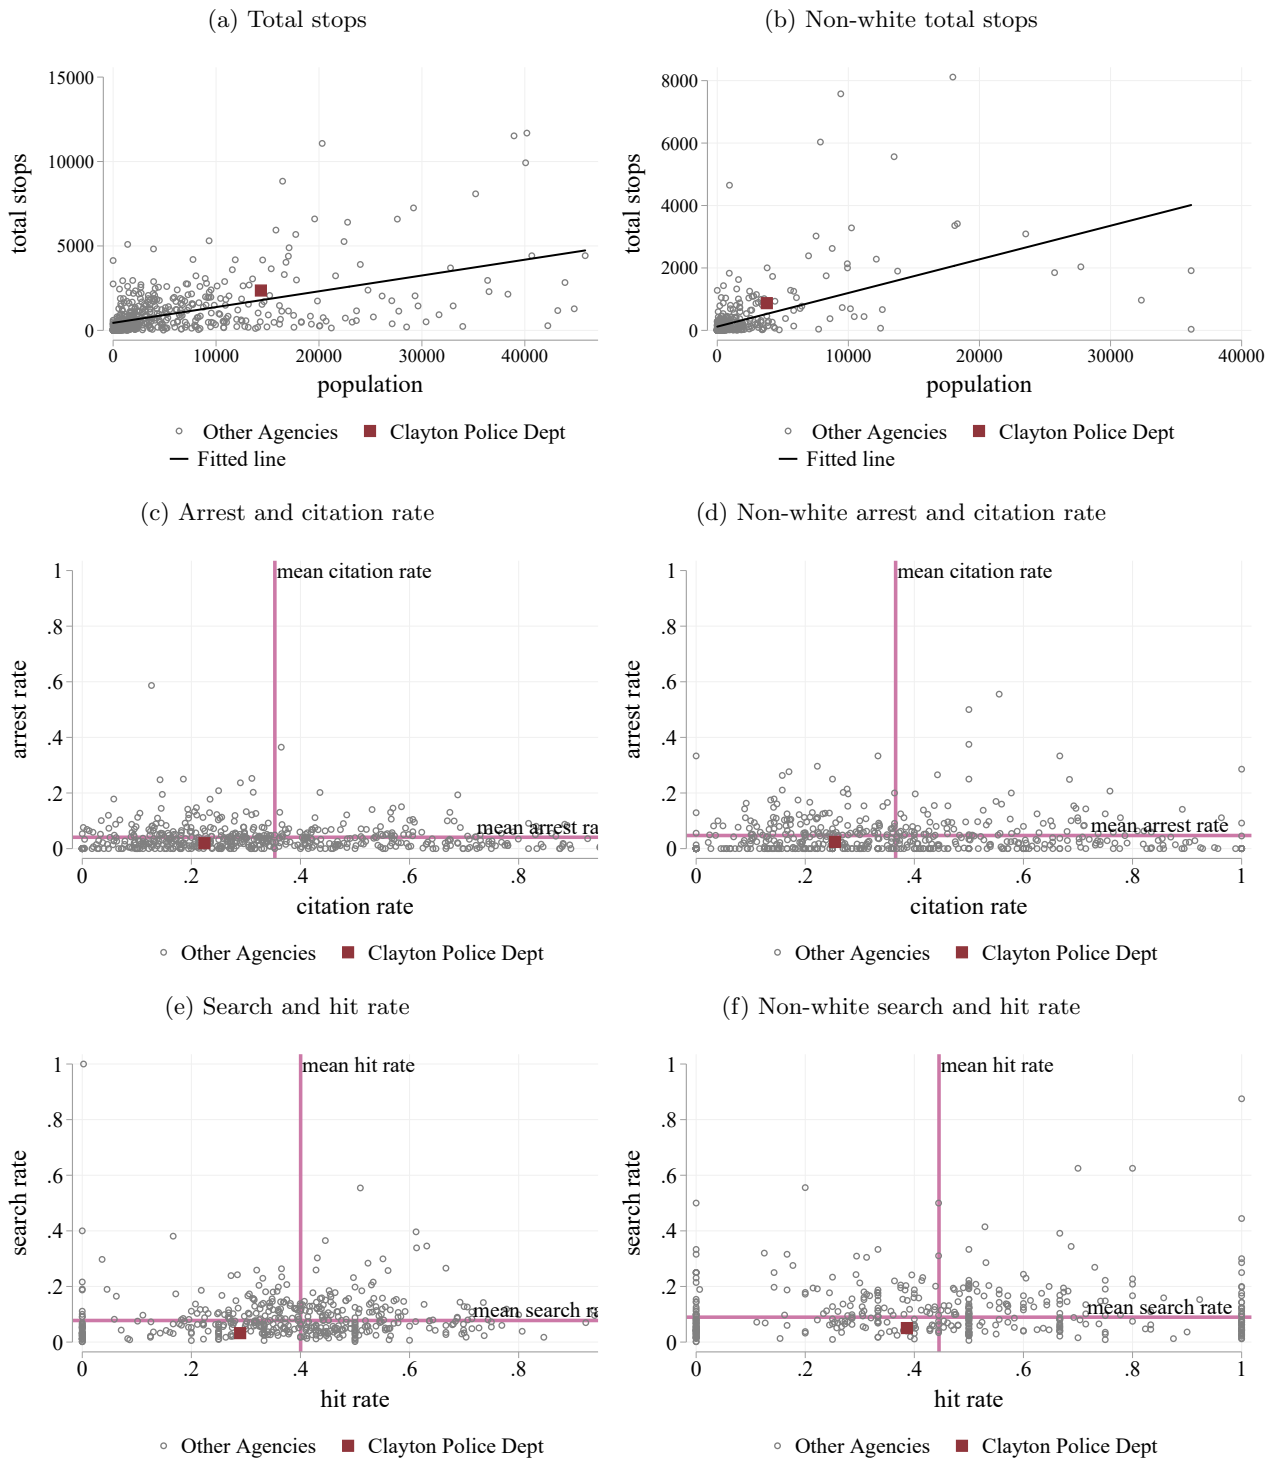

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Clayton Police Dept. provides service to the county seat for St. Louis County, which houses many social service facilities, businesses, and two universities. It borders the City of St. Louis and University City.

Figure 1: Comparison to other agencies by population for Clayton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Clayton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

All stops	.	.963	.	1.586	0	.	1.057
Resident stops	.	1.039	.	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

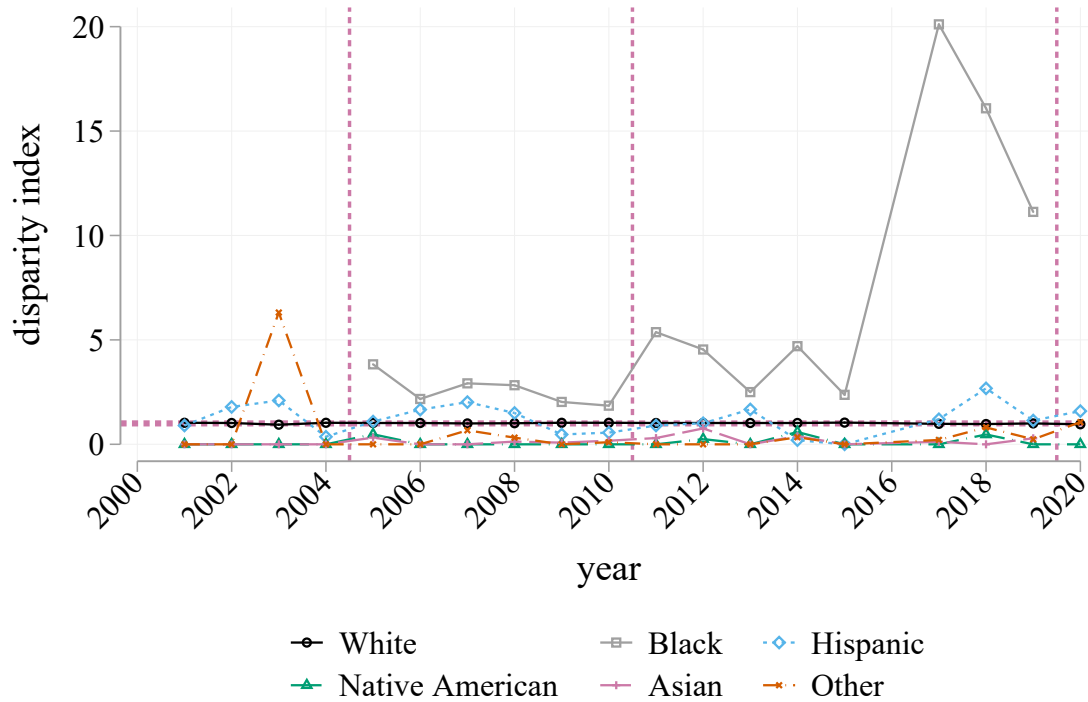

Table 3: Disparity Index from 2000 to 2020 for Cleveland Police Dept

	White	Black	Hispanic	Native American	Asian	Other

<b>2019</b>	1	11.13	1.14	0	.29	.24
<b>2020</b>	.96	.	1.59	0	.	1.06

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cleveland Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	42.86	41.18	.	.	.	.	100
Arrest rate	2.54	2.61	0	0	.	0	0
Citation rate	37.42	37.3	36.36	62.5	.	0	33.33

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

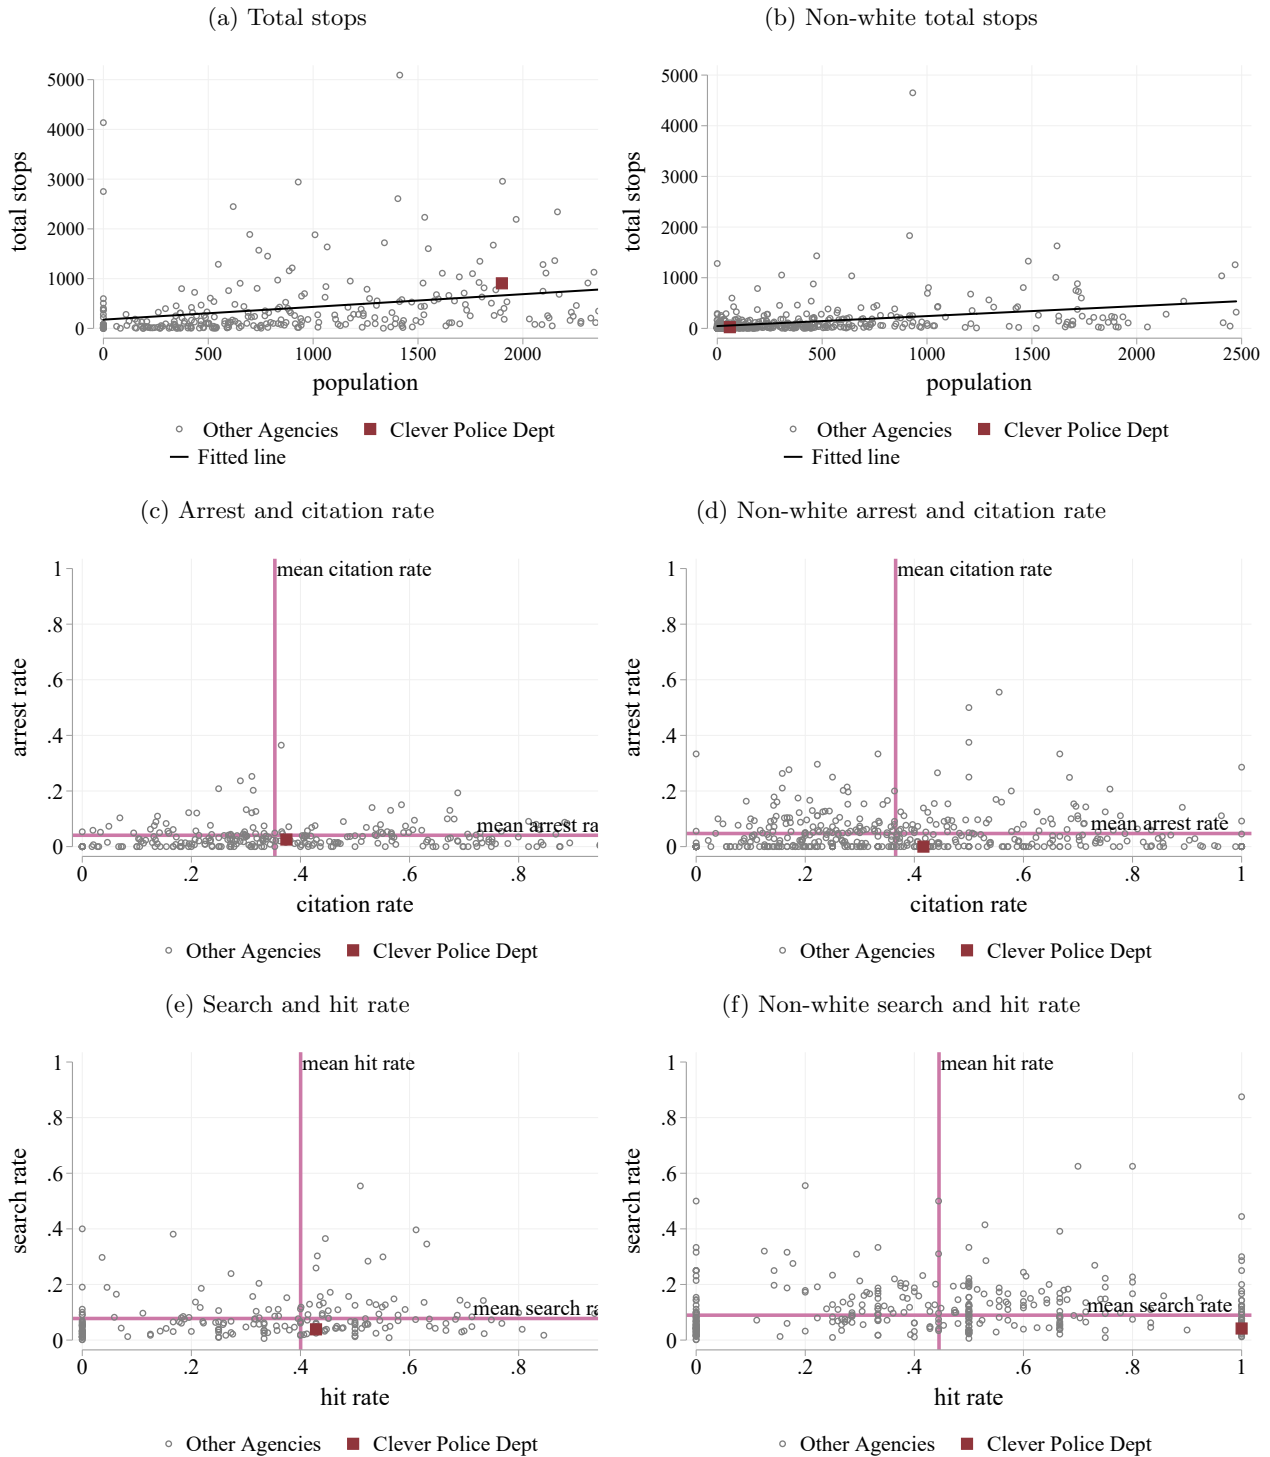

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Clever Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	.95	3.1	1.45	1.22	3.81	.36

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Clinton County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	29.01	28.78	54.62	28.34	0	15.19	0
Stop rate, residents	8.58	8.88	10.92	3.74	0	0	0
Search rate	10.43	10.29	13.08	11.32	.	0	.
Contraband hit rate	30.45	29.44	47.06	16.67	.	.	.
Arrest rate	5.17	5.69	0	0	.	0	.
Citation rate	40.95	40.78	42.31	41.51	.	50	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

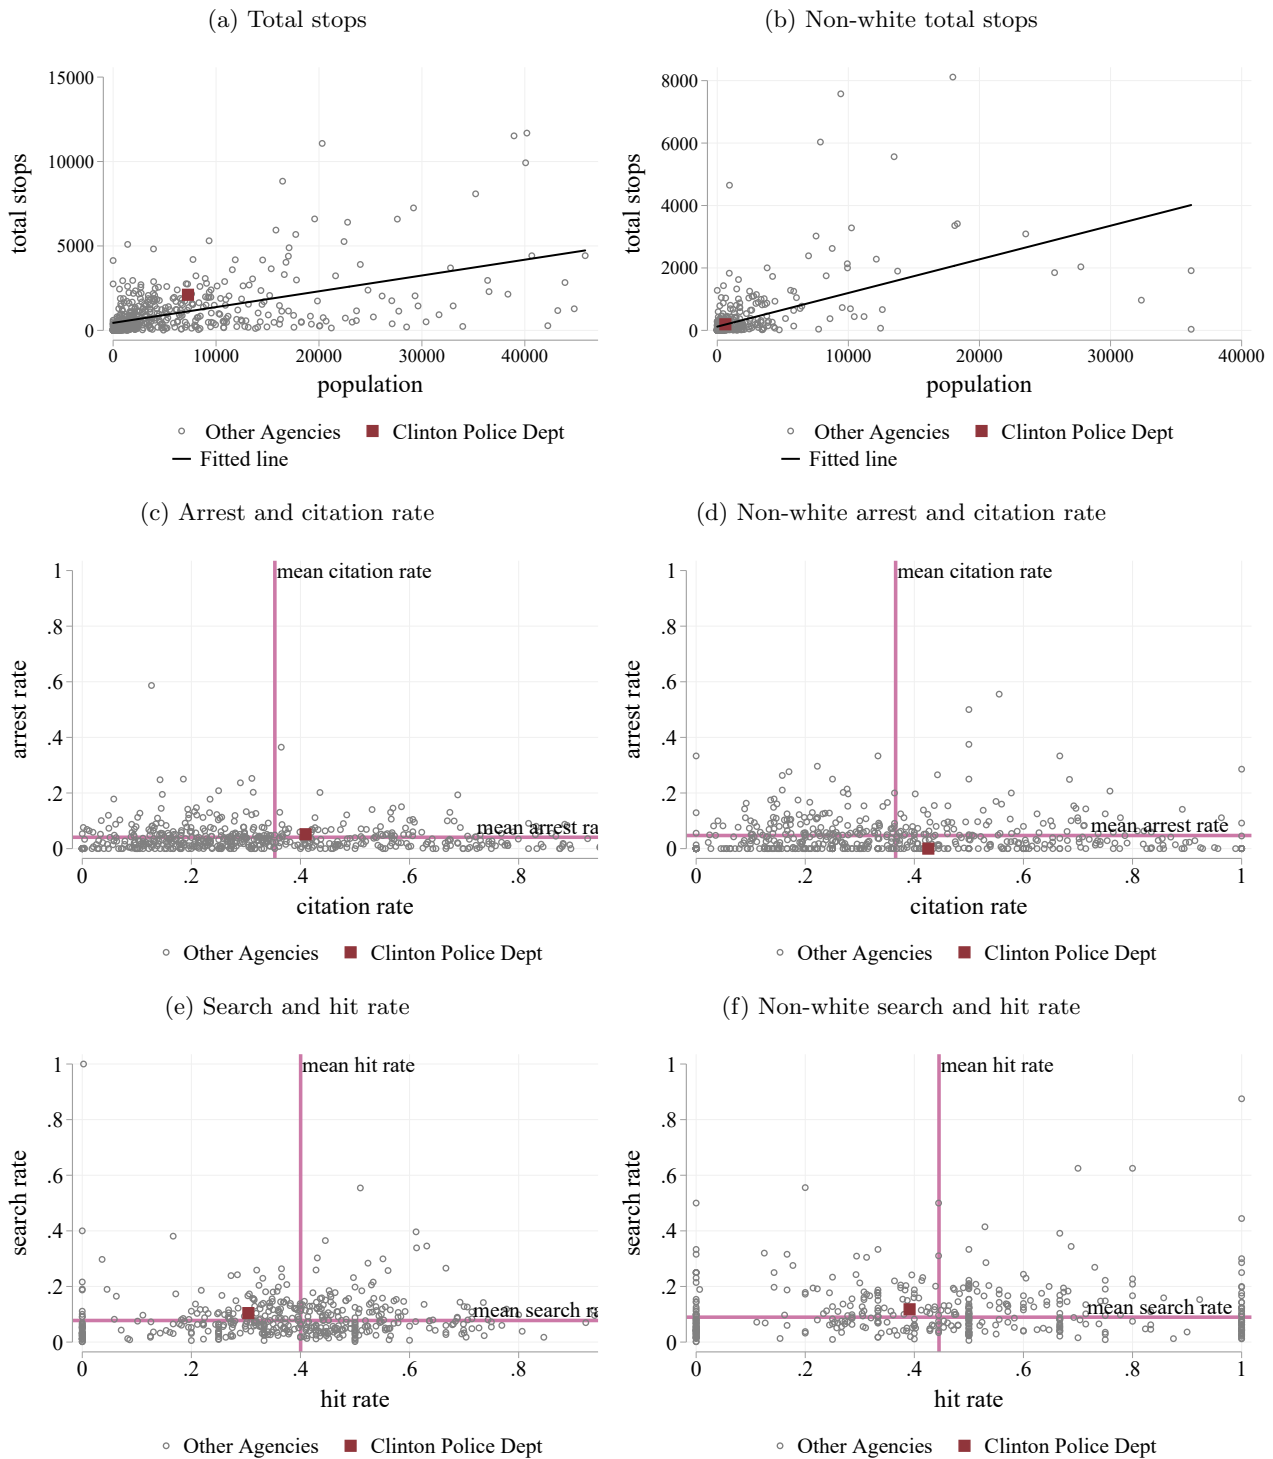

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Clinton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Clinton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	1	.	.53	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cole Camp Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	270	192	66	11	1	0	0
Citations	508	410	81	14	1	1	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.48	7.62	7.83	7.47	3.06	2.44	1.8
Stop rate, residents	5.04	5.05	5.86	5.13	2.62	1.22	.85
Search rate	11.51	10.2	18.9	24.51	14.29	4.55	5.88
Contraband hit rate	40.72	38.54	50.49	32	0	100	100
Arrest rate	5.89	4.93	12.11	10.78	14.29	0	0
Citation rate	11.08	10.53	14.86	13.73	14.29	4.55	5.88

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

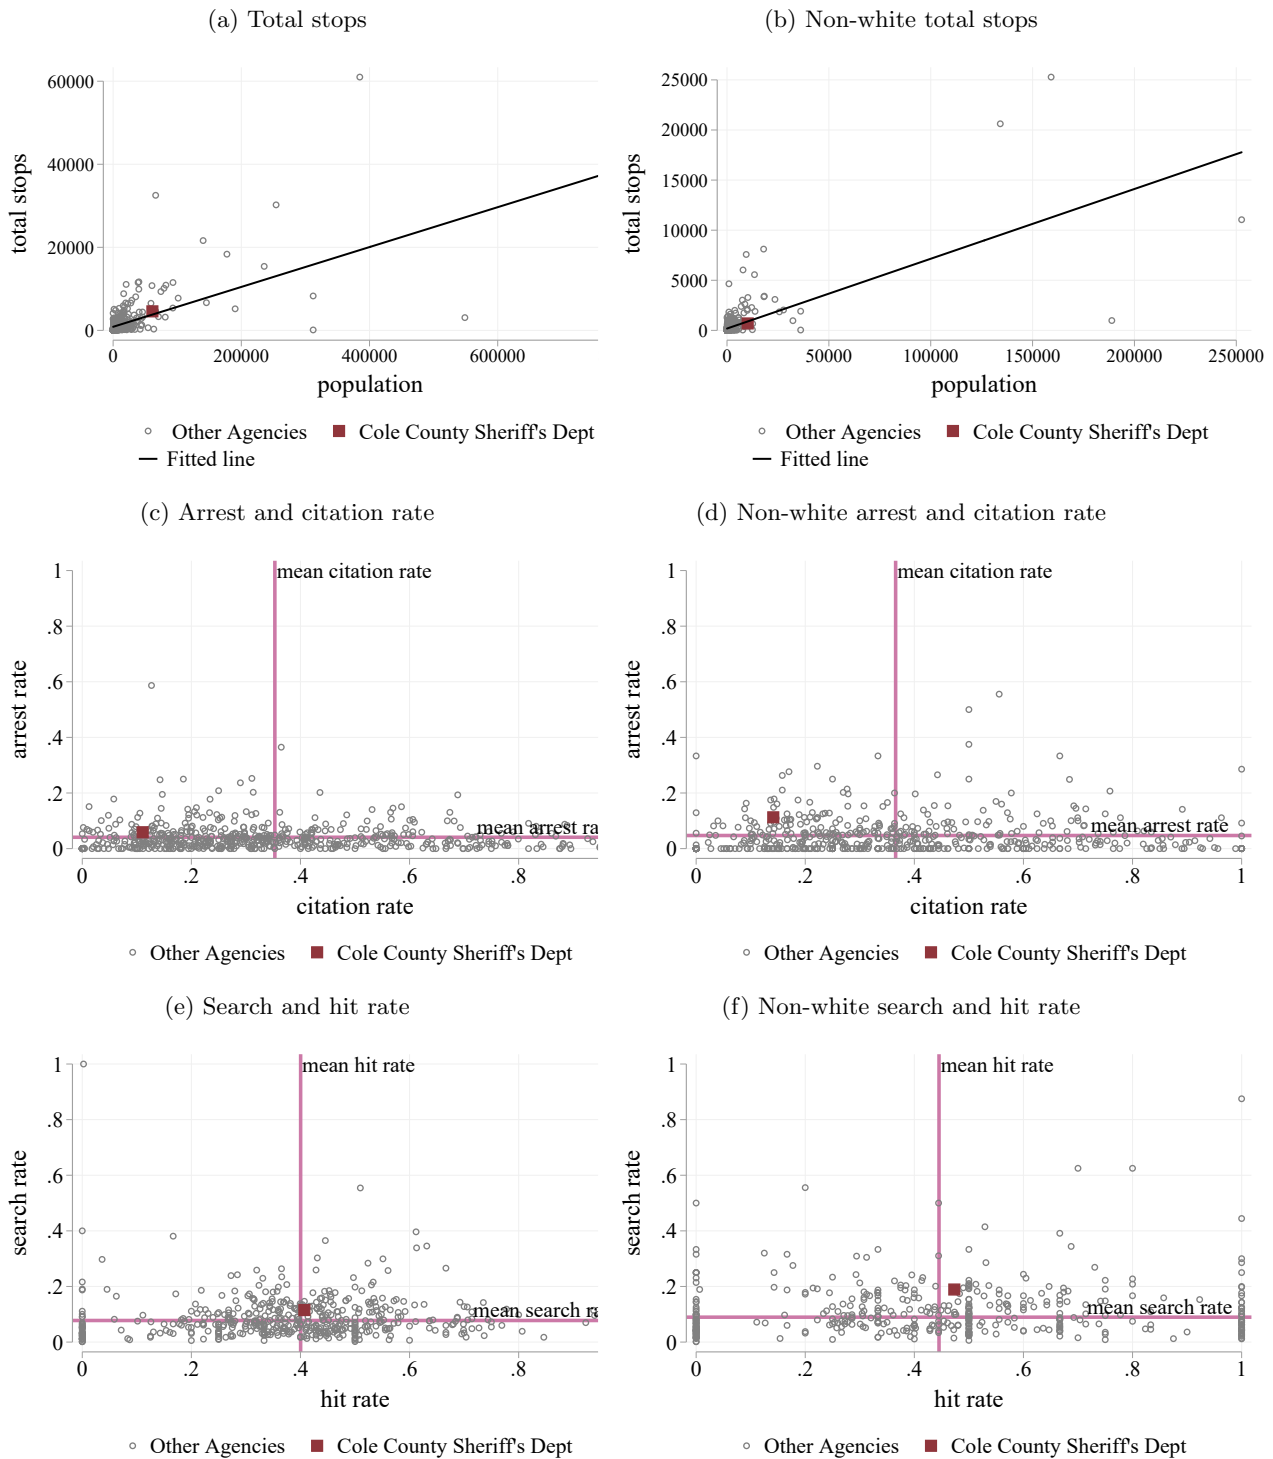

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Cole County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cole County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.

Citation rate	16.19	18.37	11.86	24.32	16	20.41	10.53

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

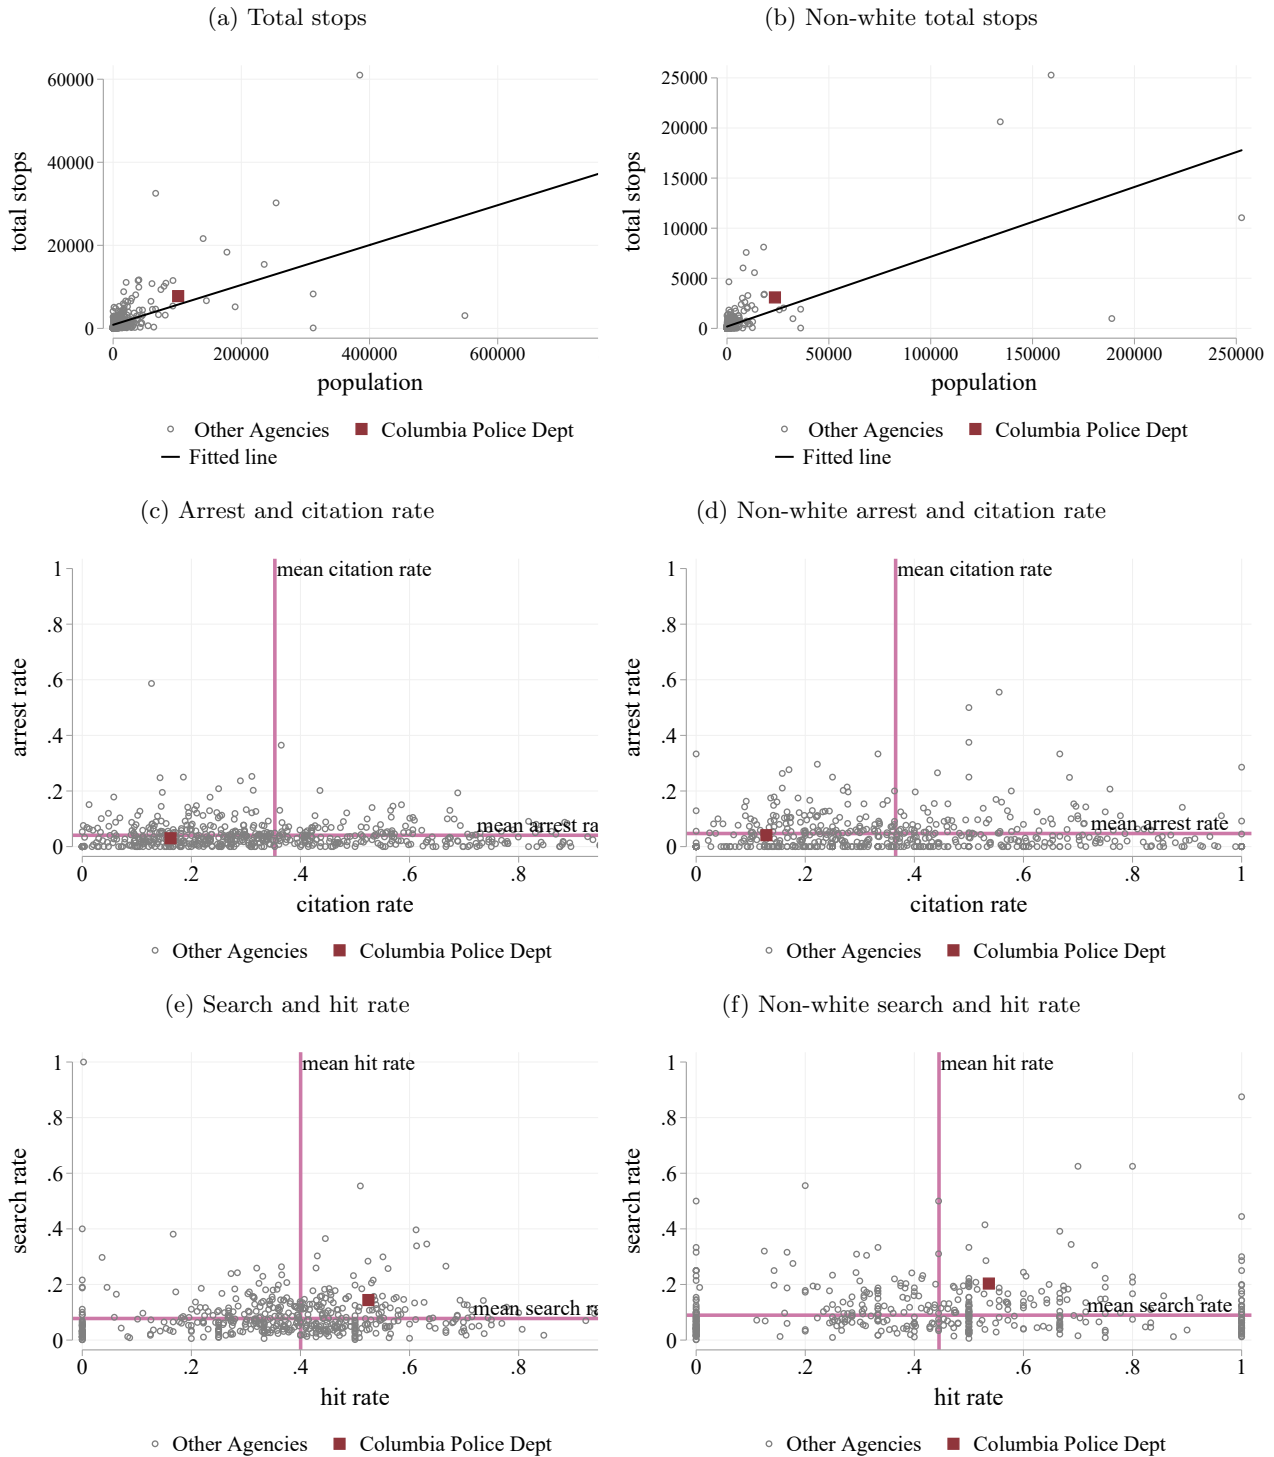

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Columbia Police Dept. modified traffic enforcement to reduce unnecessary exposure and contact with individuals during the COVID-19 pandemic. Stops were authorized only for hazardous moving violations, unless an officer had articulable facts that a person was a danger to the community. Under this condition, an officer could stop a person for reasonable suspicion other than a hazardous moving violation. Columbia Police Dept. plans to transition to the new reporting form in April 2021.

Figure 1: Comparison to other agencies by population for Columbia Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

All stops	.	.784	3.414	.575	.957	.3	.132
Resident stops	.	.751	3.654	.533	1.051	.322	.145

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Columbia Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2011</b>	.96	1.99	.39	.07	.44	.29
<b>2012</b>	.92	2.26	.46	.46	.15	.3
<b>2013</b>	.91	2.29	.44	.1	.45	.4
<b>2014</b>	.89	2.45	.43	.27	.5	.51
<b>2015</b>	.82	2.97	.52	.36	.47	.65
<b>2016</b>	.79	3.13	.56	.16	.51	.87
<b>2017</b>	.76	3.28	.62	.21	.56	.94
<b>2018</b>	.8	2.92	.69	.62	.49	1.2
<b>2019</b>	.76	3.51	.55	1.66	.33	.43
<b>2020</b>	.78	3.41	.57	.96	.3	.13

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Columbia Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2231	2117	8	23	17	0	66
2019 population %	100	94.89	.36	1.03	.76	0	2.96
<b>Totals</b>	.	.	.	.	.	.	.
All stops	325	311	8	6	0	0	0
Resident stops	178	174	0	4	0	0	0
Searches	22	21	0	1	0	0	0
Contraband	6	6	0	0	0	0	0
Arrests	18	17	0	1	0	0	0
Citations	51	49	1	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.57	14.69	100	26.09	0	.	0
Stop rate, residents	7.98	8.22	0	17.39	0	.	0
Search rate	6.77	6.75	0	16.67	.	.	.
Contraband hit rate	27.27	28.57	.	0	.	.	.
Arrest rate	5.54	5.47	0	16.67	.	.	.
Citation rate	15.69	15.76	12.5	16.67	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

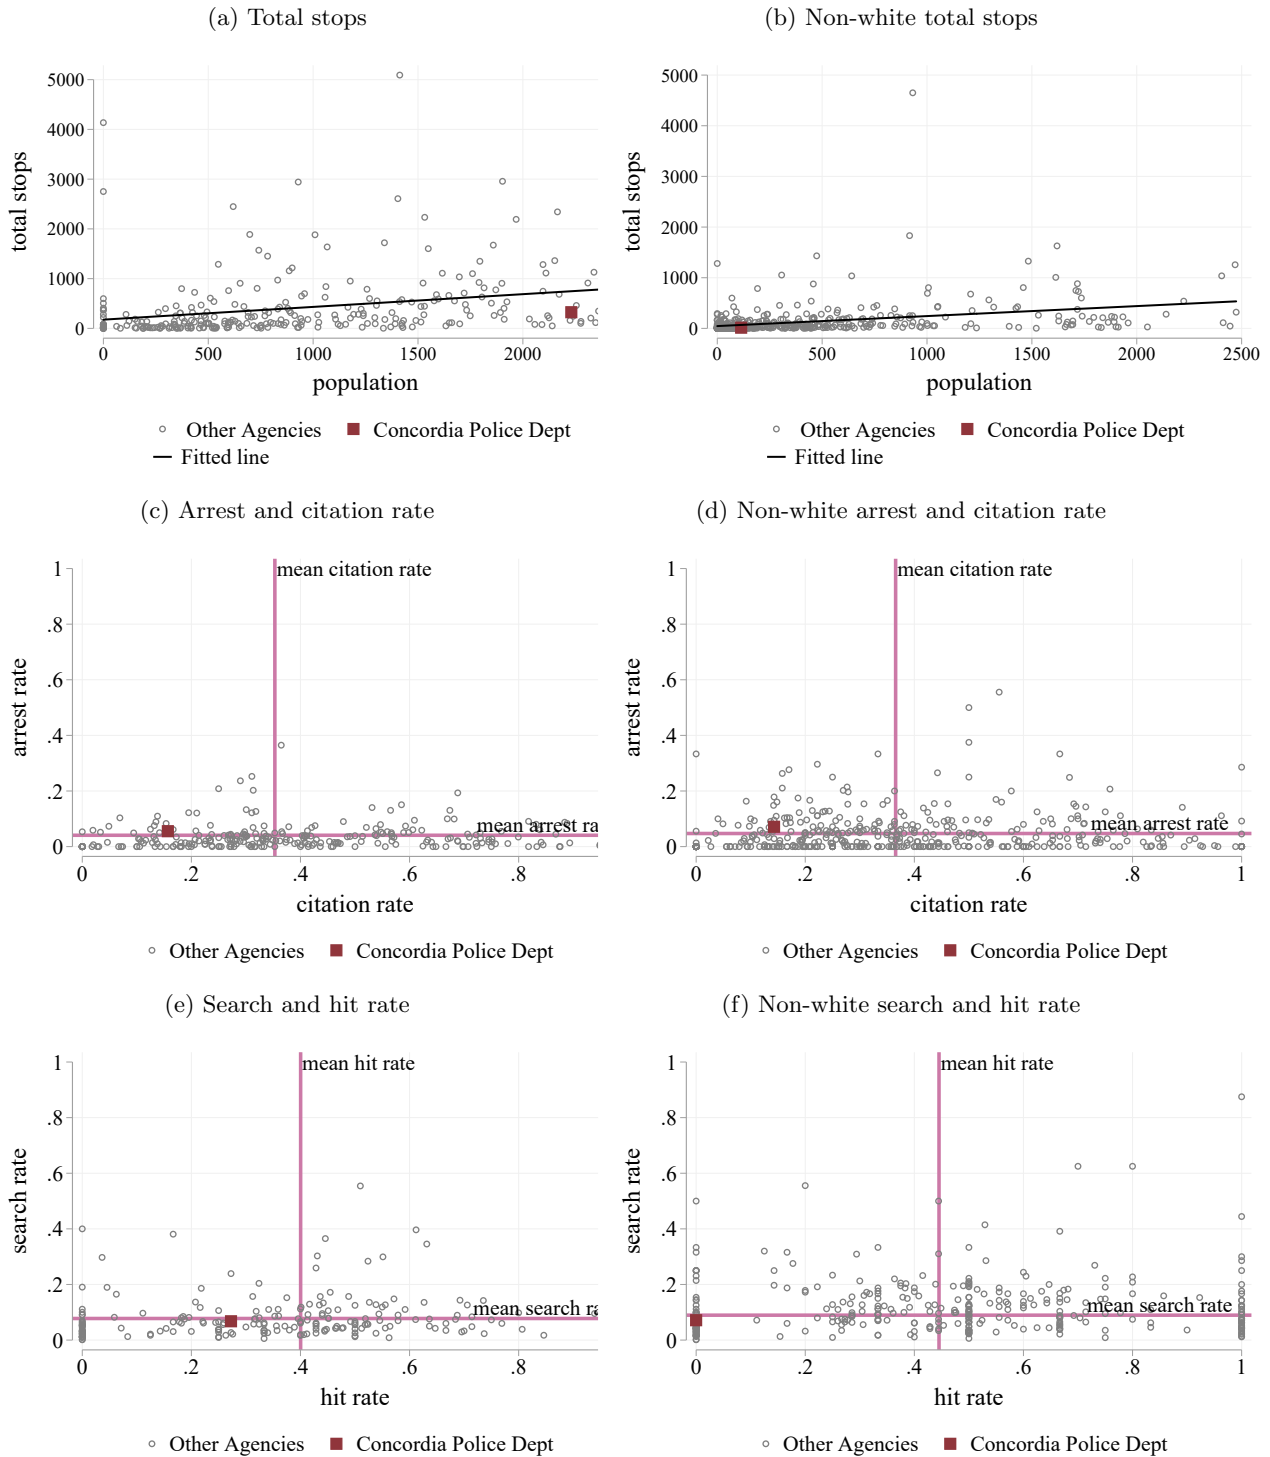

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Concordia Police Dept. covers Interstate 70 and has many factories (Old World Spice, Tyson's, Milbanks) in its jurisdiction.

Figure 1: Comparison to other agencies by population for Concordia Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14294	12606	946	239	77	70	476
2019 population %	100	88.19	6.62	1.67	.54	.49	3.33
<b>Stops</b>	.	.	.	.	.	.	.
All stops	511	443	58	5	1	4	0
Resident stops	221	205	15	0	1	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.983	1.715	.585	.363	1.598	0
Resident stops	.	1.052	1.026	0	.84	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

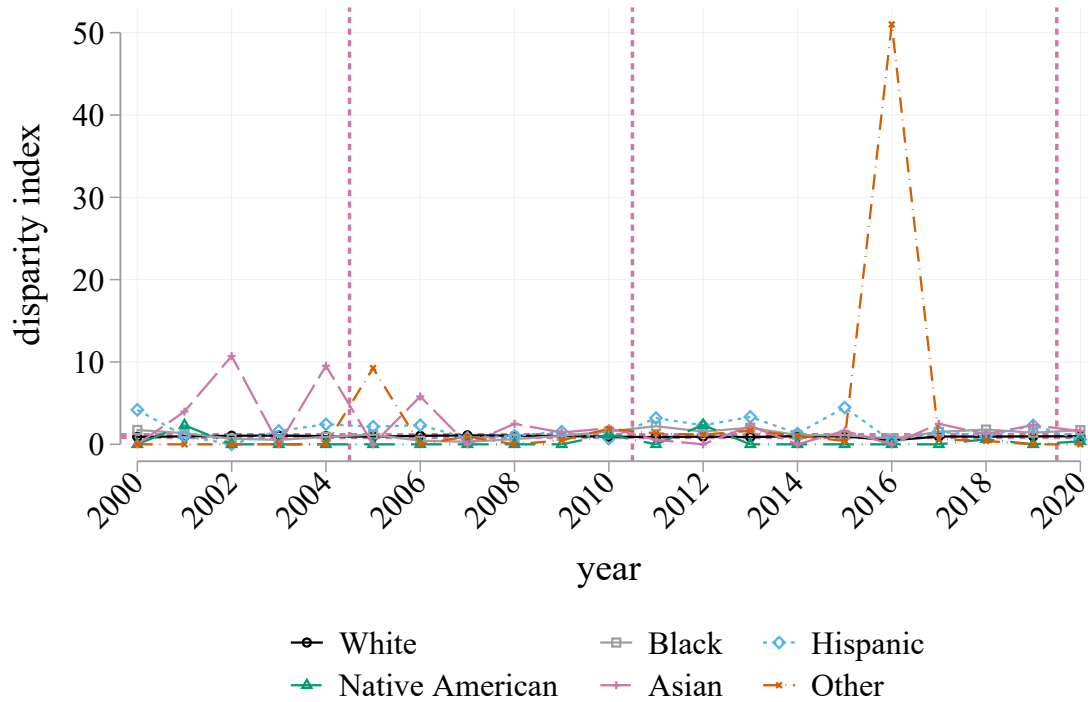

Table 3: Disparity Index from 2000 to 2020 for Cooper County Sheriff's Dept

<b>2011</b>	.88	2.2	3.19	0	.54	1.33
<b>2012</b>	.93	1.55	2.31	2.34	0	1.16
<b>2013</b>	.88	2.01	3.33	0	2.25	1.66
<b>2014</b>	.99	1.12	1.31	0	0	1.05
<b>2015</b>	.96	1.11	4.47	0	1.65	.41
<b>2016</b>	.49	.71	.38	0	0	51.01
<b>2017</b>	.95	1.51	1.54	0	2.49	.61
<b>2018</b>	.94	1.79	1.02	.61	1.24	.41
<b>2019</b>	.96	1.41	2.3	0	2.33	0
<b>2020</b>	.98	1.72	.59	.36	1.6	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cooper County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	3.27	3.65	0	.	0	.	0
Stop rate, residents	2.18	2.43	0	.	0	.	0
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	0	0	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

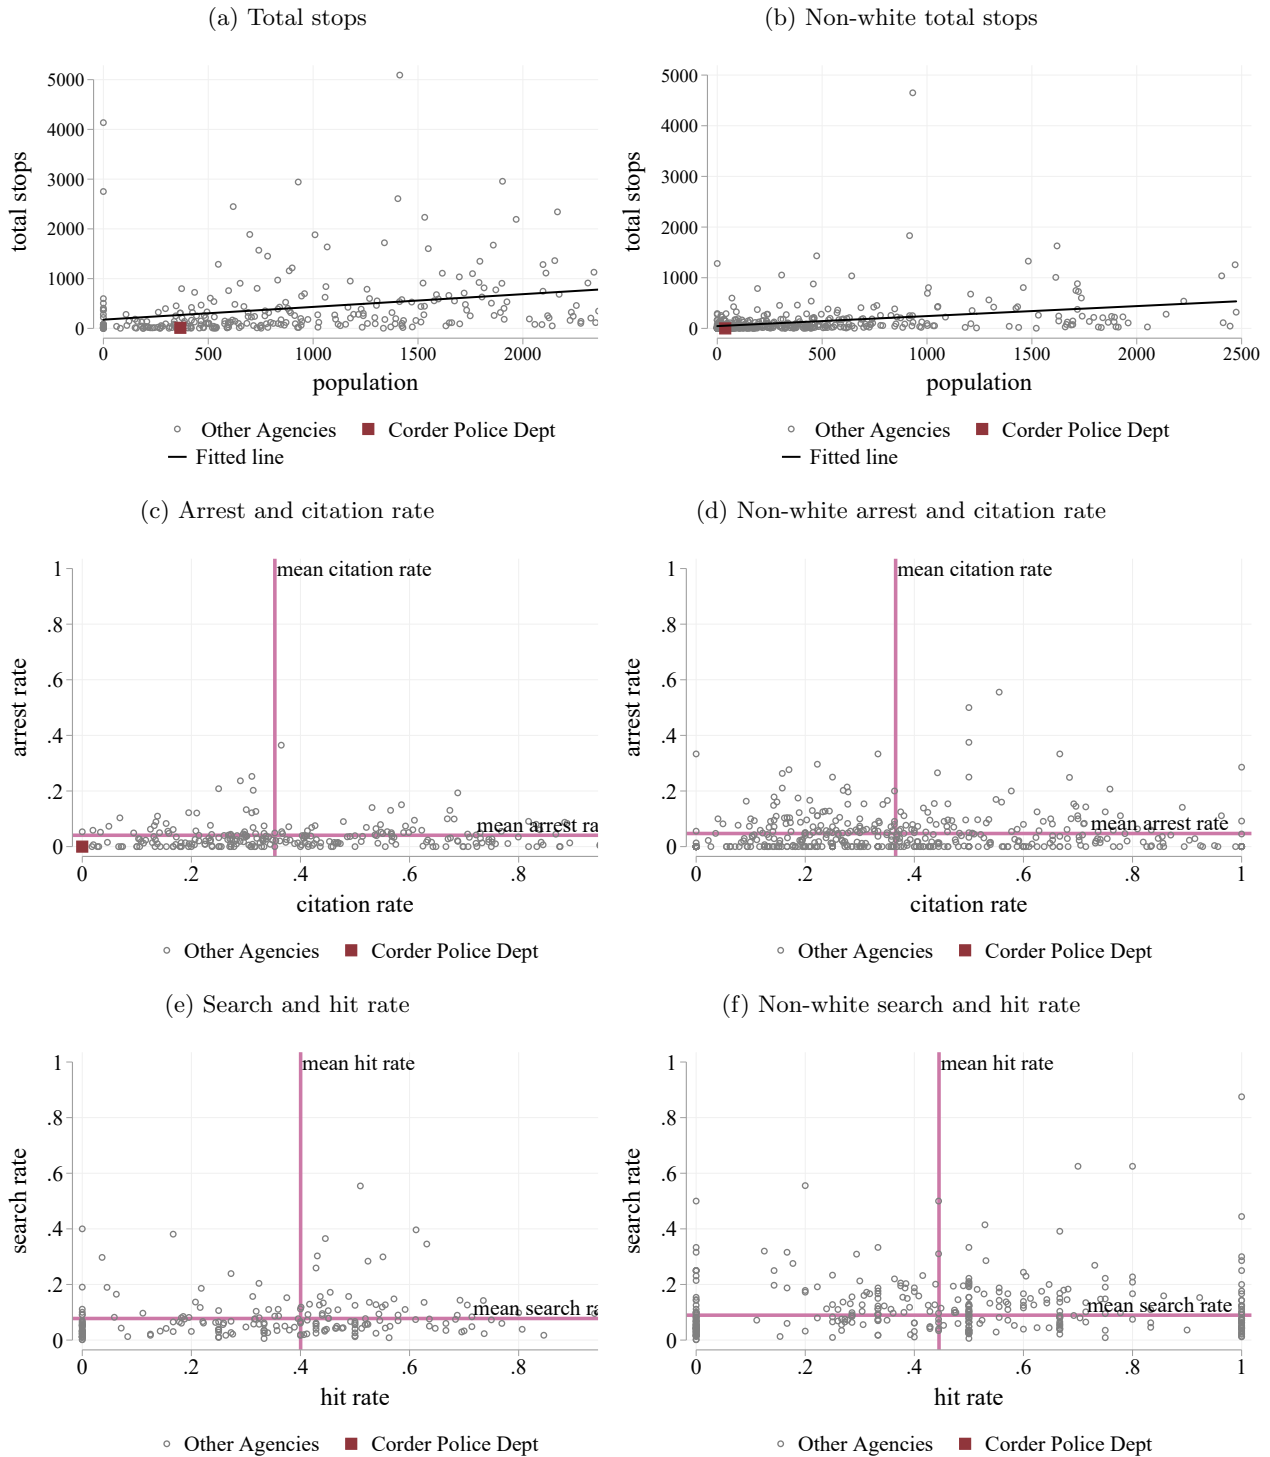

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Corder Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Cottleville Police Dept

<b>2019</b>	.87	4.09	1.35	2.54	.85	1.46
<b>2020</b>	.84	16.05	.75	.	1.13	.99

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Cottleville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citations	20	3	16	0	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	2.35	7.84	2.06	.	.	.	2.04
Stop rate, residents	.29	0	.33	.	.	.	0
Search rate	0	0	0	.	.	.	0
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	0
Citation rate	83.33	75	84.21	.	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

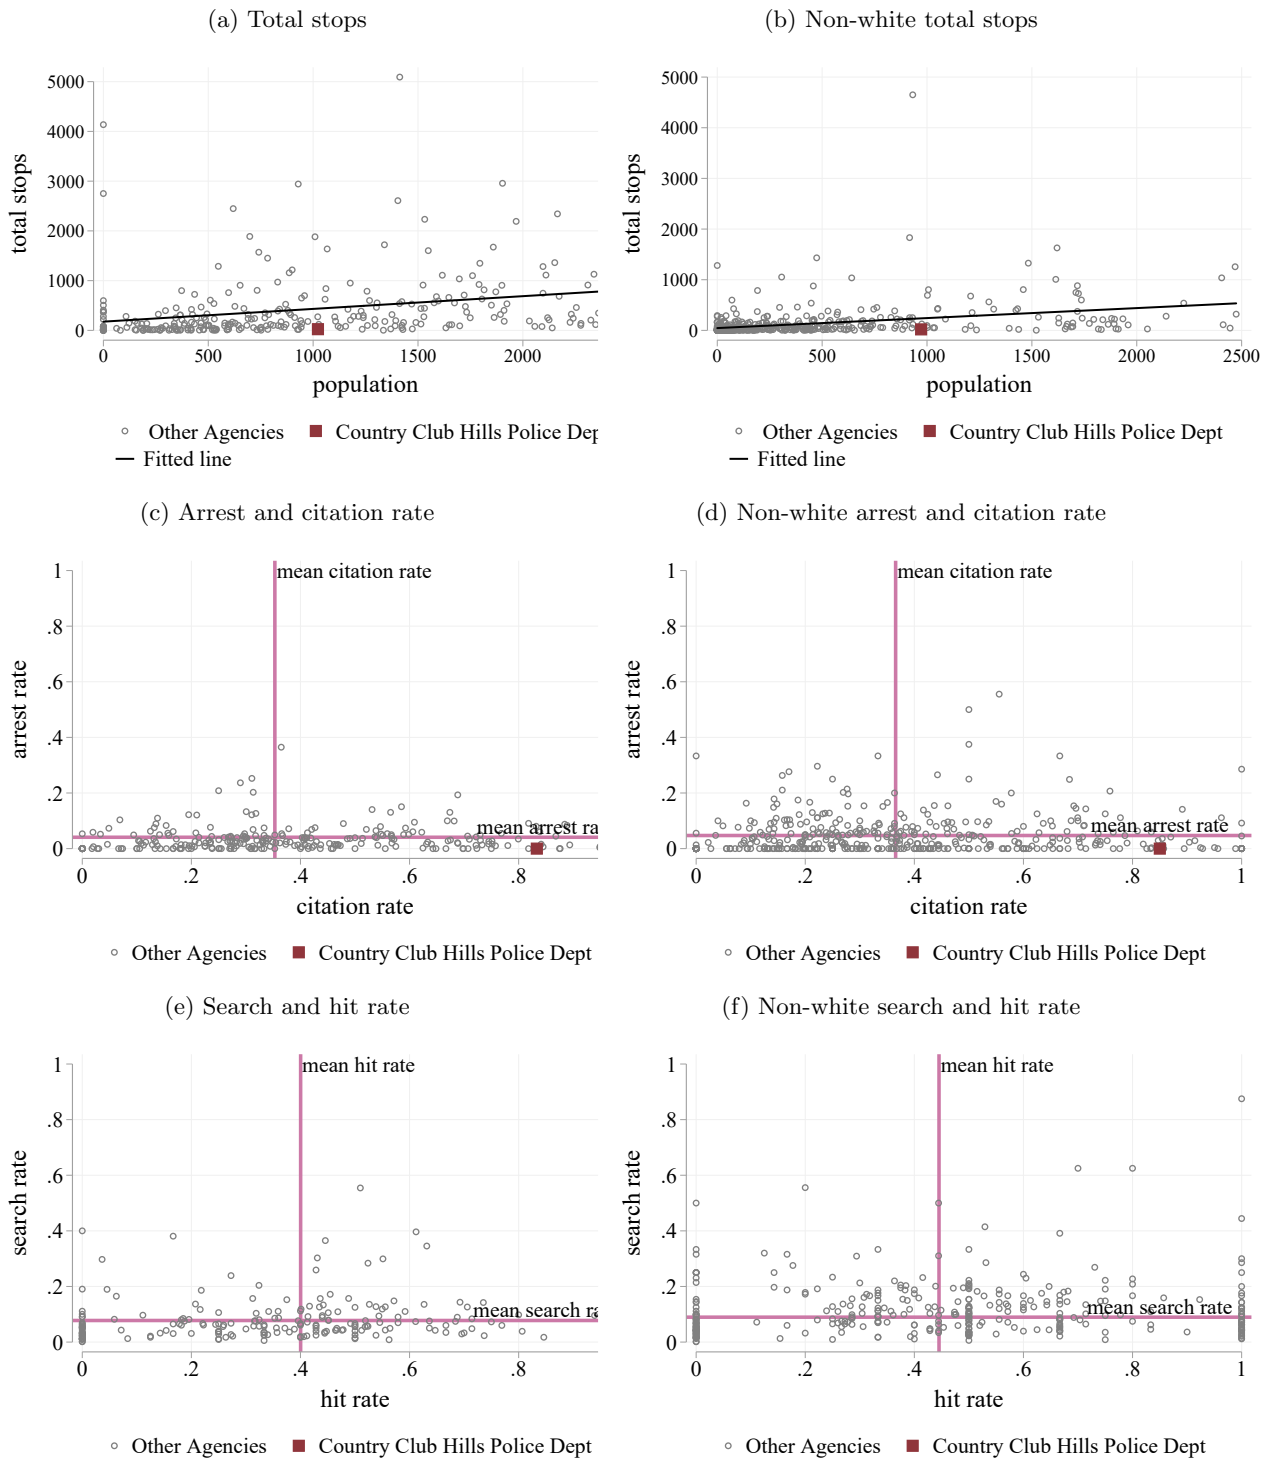

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Country Club Hills Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Country Club Hills Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Country Club Village Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Crane Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1107	1045	8	11	4	0	43
2019 population %	100	94.4	.72	.99	.36	0	3.88
<b>Totals</b>	.	.	.	.	.	.	.
All stops	185	165	0	20	0	0	0
Resident stops	118	103	0	15	0	0	0
Searches	55	55	0	0	0	0	0
Contraband	2	2	0	0	0	0	0
Arrests	2	2	0	0	0	0	0
Citations	72	70	0	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	16.71	15.79	0	181.82	0	.	0
Stop rate, residents	10.66	9.86	0	136.36	0	.	0
Search rate	29.73	33.33	.	0	.	.	.
Contraband hit rate	3.64	3.64	.	.	.	.	.
Arrest rate	1.08	1.21	.	0	.	.	.
Citation rate	38.92	42.42	.	10	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

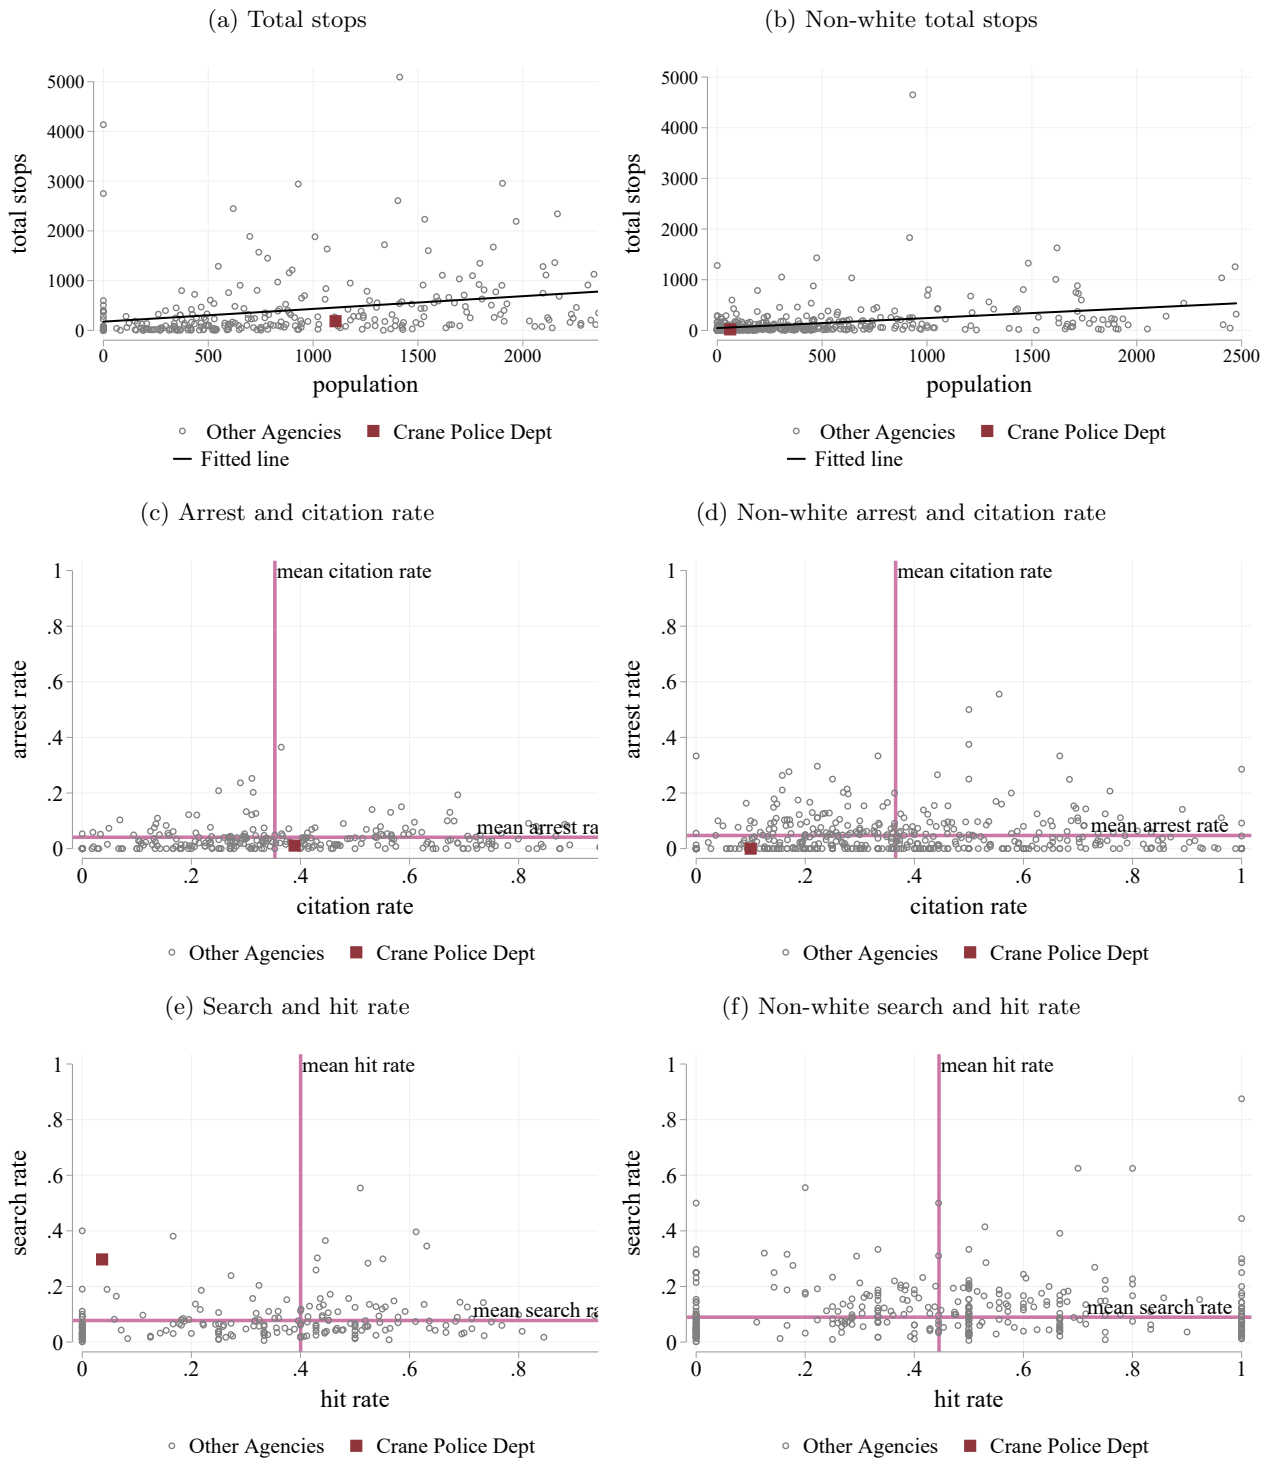

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Crane Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Crane Police Dept

<b>2011</b>	1.01	7.67	.23	.58	0	.32
<b>2012</b>	.99	11.52	.41	1.57	0	.29
<b>2013</b>	.99	8.04	.72	0	1.37	1
<b>2014</b>	1	4.46	1.33	0	3.04	0
<b>2015</b>	1	8.59	.77	0	0	.36
<b>2016</b>	.99	12.79	.53	.44	0	.98
<b>2017</b>	.98	6.87	.92	0	1.17	2.15
<b>2018</b>	.92	25.67	2.63	0	3.51	1.28
<b>2019</b>	.96	15.29	1.86	.28	.84	.76
<b>2020</b>	.97	8.6	1.26	2.53	1.63	.23

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Crawford County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.119 Crestwood Police Dept

Table 1: Rates by Race for Crestwood Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	9539	8909	85	305	0	149	240
2019 population %	100	93.4	.89	3.2	0	1.56	2.52
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1029	817	157	2	0	15	38
Resident stops	196	171	18	0	0	3	4
Searches	23	14	9	0	0	0	0
Contraband	13	7	6	0	0	0	0
Arrests	8	5	3	0	0	0	0
Citations	371	289	68	1	0	5	8
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	10.79	9.17	184.71	.66	.	10.07	15.83
Stop rate, residents	2.05	1.92	21.18	0	.	2.01	1.67
Search rate	2.24	1.71	5.73	0	.	0	0
Contraband hit rate	56.52	50	66.67	.	.	.	.
Arrest rate	.78	.61	1.91	0	.	0	0
Citation rate	36.05	35.37	43.31	50	.	33.33	21.05

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

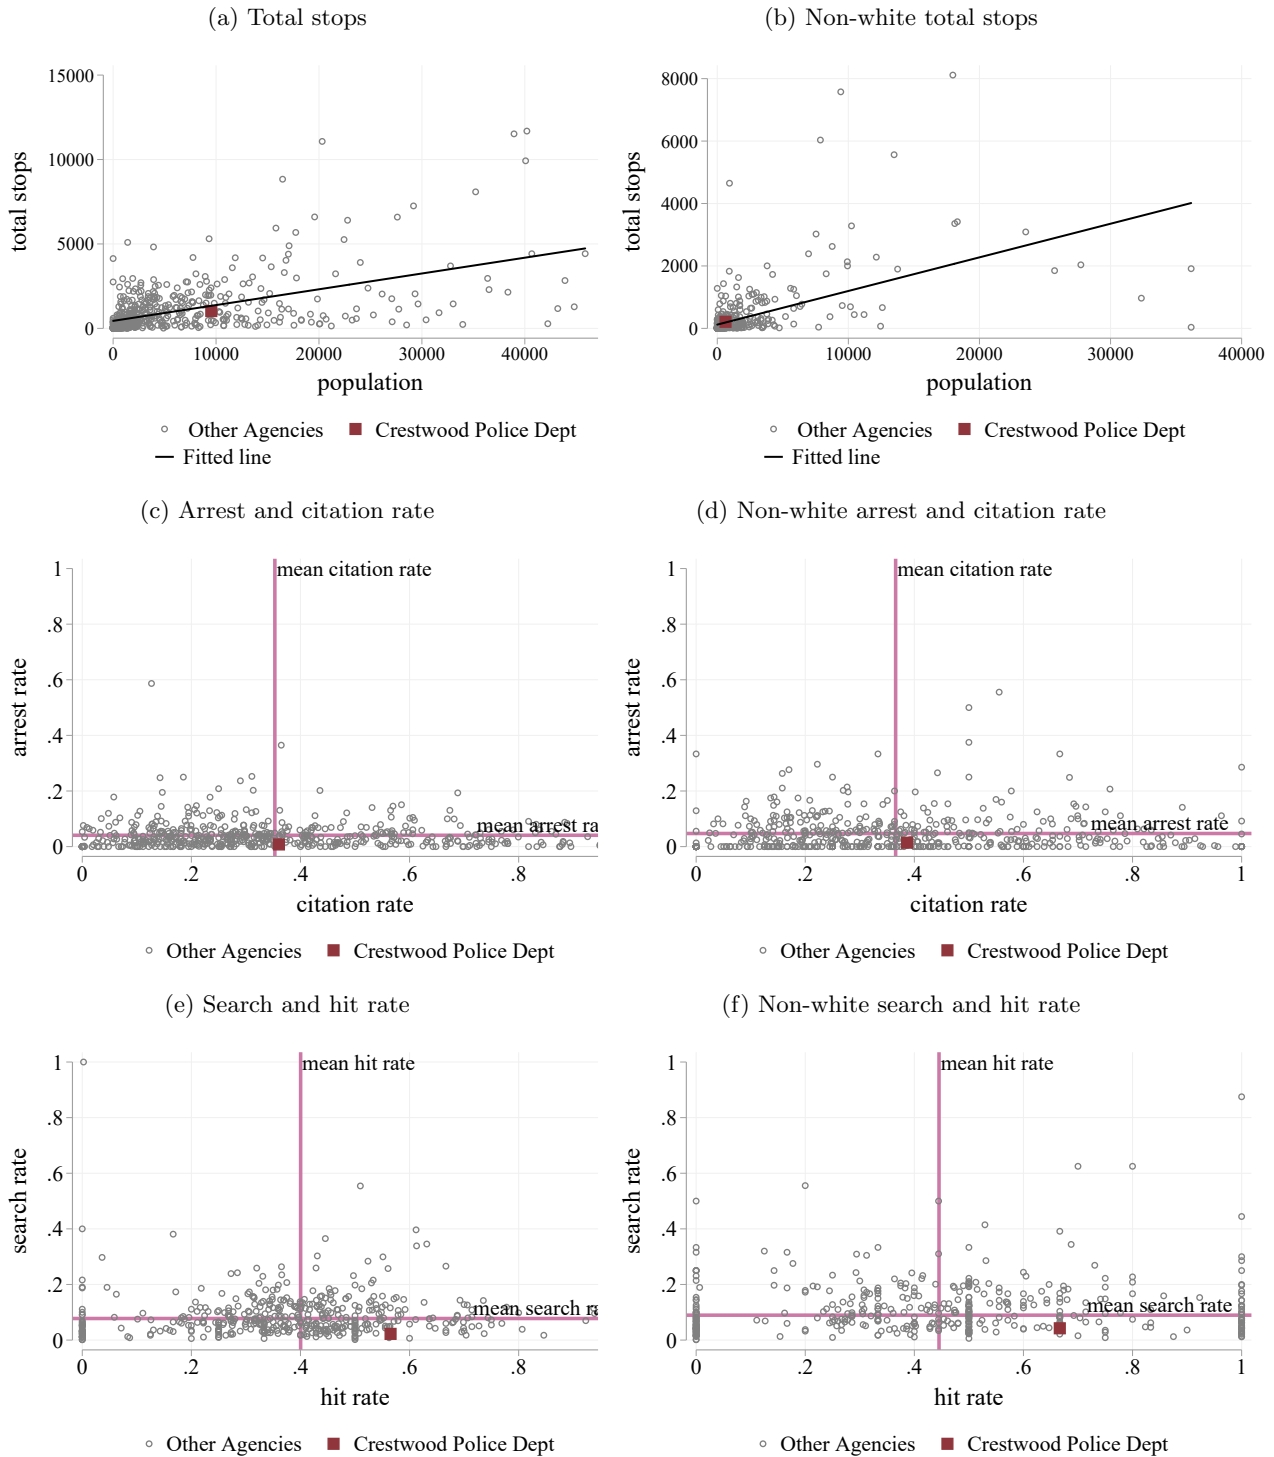

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Crestwood Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Crestwood Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

<b>2020</b>	.87	3.25	.3	.04	.27	1.11

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Creve Coeur Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	869	764	4	6	4	15	76
2019 population %	100	87.92	.46	.69	.46	1.73	8.75
<b>Totals</b>	.	.	.	.	.	.	.
All stops	525	484	25	8	0	3	5
Resident stops	87	87	0	0	0	0	0
Searches	50	48	1	1	0	0	0
Contraband	22	21	1	0	0	0	0
Arrests	24	21	3	0	0	0	0
Citations	155	151	4	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	60.41	63.35	625	133.33	0	20	6.58
Stop rate, residents	10.01	11.39	0	0	0	0	0
Search rate	9.52	9.92	4	12.5	.	0	0
Contraband hit rate	44	43.75	100	0	.	.	.
Arrest rate	4.57	4.34	12	0	.	0	0
Citation rate	29.52	31.2	16	0	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

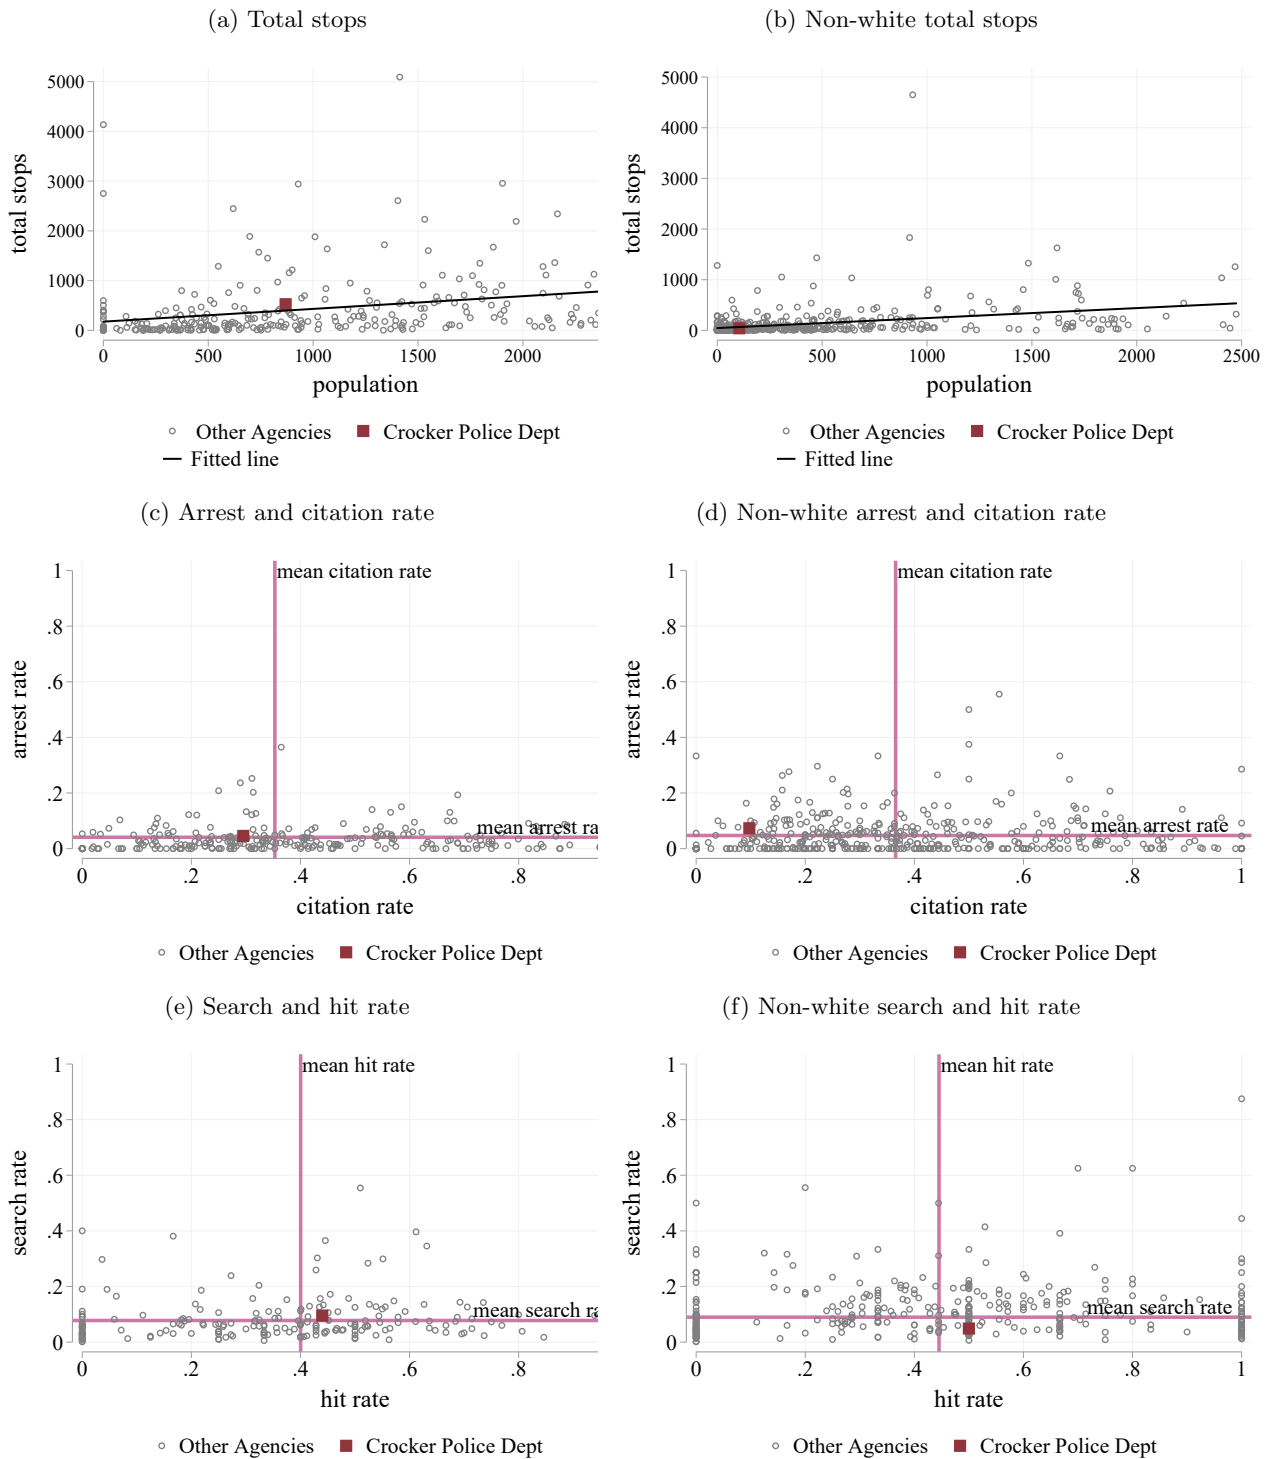

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Crocker Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Crocker Police Dept

<b>2018</b>	.99	1.61	.85	.24	.51	.25
<b>2019</b>	1	1.53	.66	.1	.64	.2
<b>2020</b>	1	1.19	1.66	.25	2.45	.14

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Crystal City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	158	125	19	5	4	3	2
Contraband	54	37	9	2	2	2	2
Arrests	1	0	0	1	0	0	0
Citations	361	311	24	11	4	6	5
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	58.26	58.35	163.64	25.87	.	.	13.33
Stop rate, residents	37.76	39.83	47.73	16.92	.	.	3.7
Search rate	11.01	9.97	26.39	9.62	21.05	15	11.11
Contraband hit rate	34.18	29.6	47.37	40	50	66.67	100
Arrest rate	.07	0	0	1.92	0	0	0
Citation rate	25.16	24.8	33.33	21.15	21.05	30	27.78

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

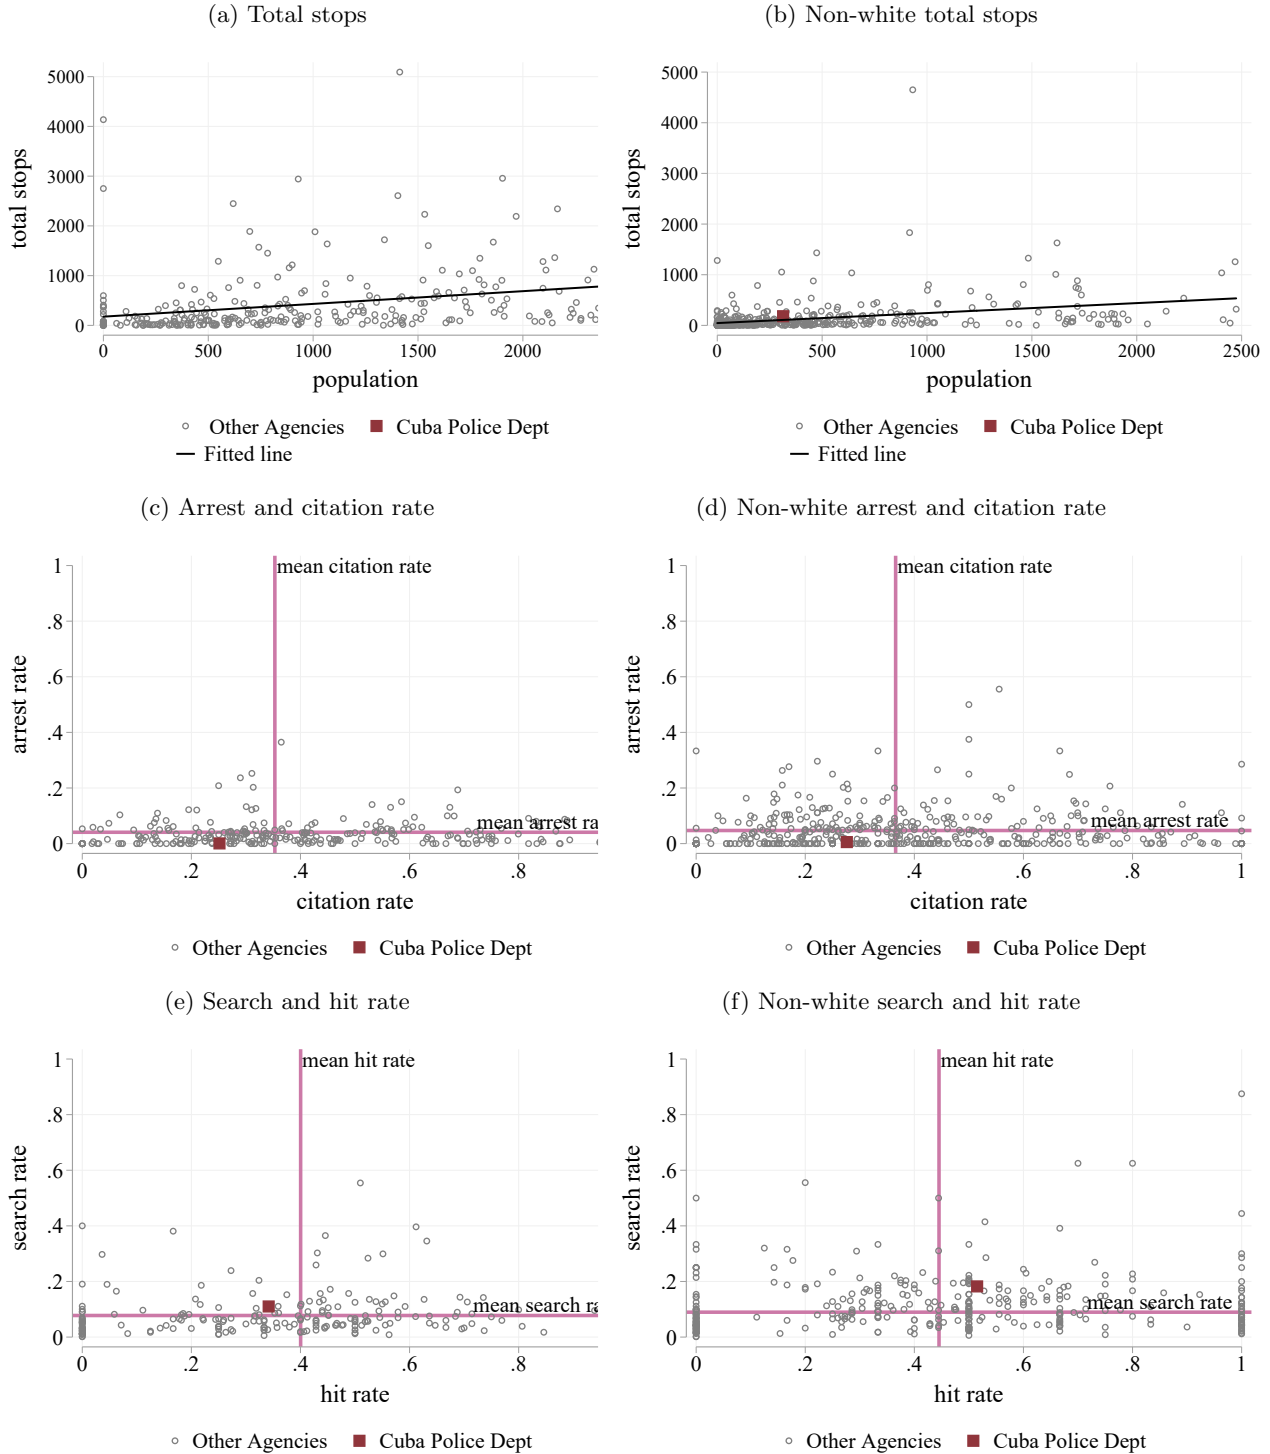

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Cuba Police Dept. does not report stops in or out of jurisdiction, as the form has not yet been updated.

Figure 1: Comparison to other agencies by population for Cuba Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Cuba Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

All stops	.	1.036	3.622	.677	.204	0	.092
Resident stops	.	1.042	1.506	.483	.34	0	.153

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

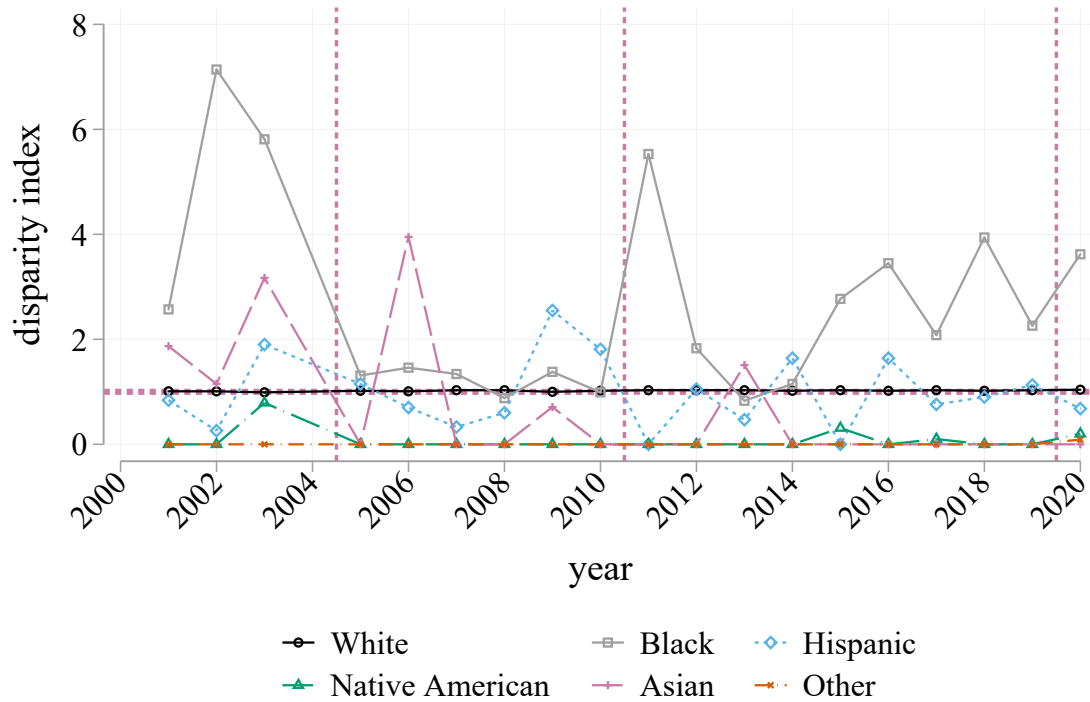

Table 3: Disparity Index from 2000 to 2020 for Dade County Sheriff's Dept

Stop rate, residents	0	0	0	0	0	0	0
Search rate	33.88	31.43	100	66.67	100	100	100
Contraband hit rate	61.29	56.36	100	100	100	100	100
Arrest rate	9.84	10.29	0	0	0	0	0
Citation rate	27.87	28.57	0	33.33	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

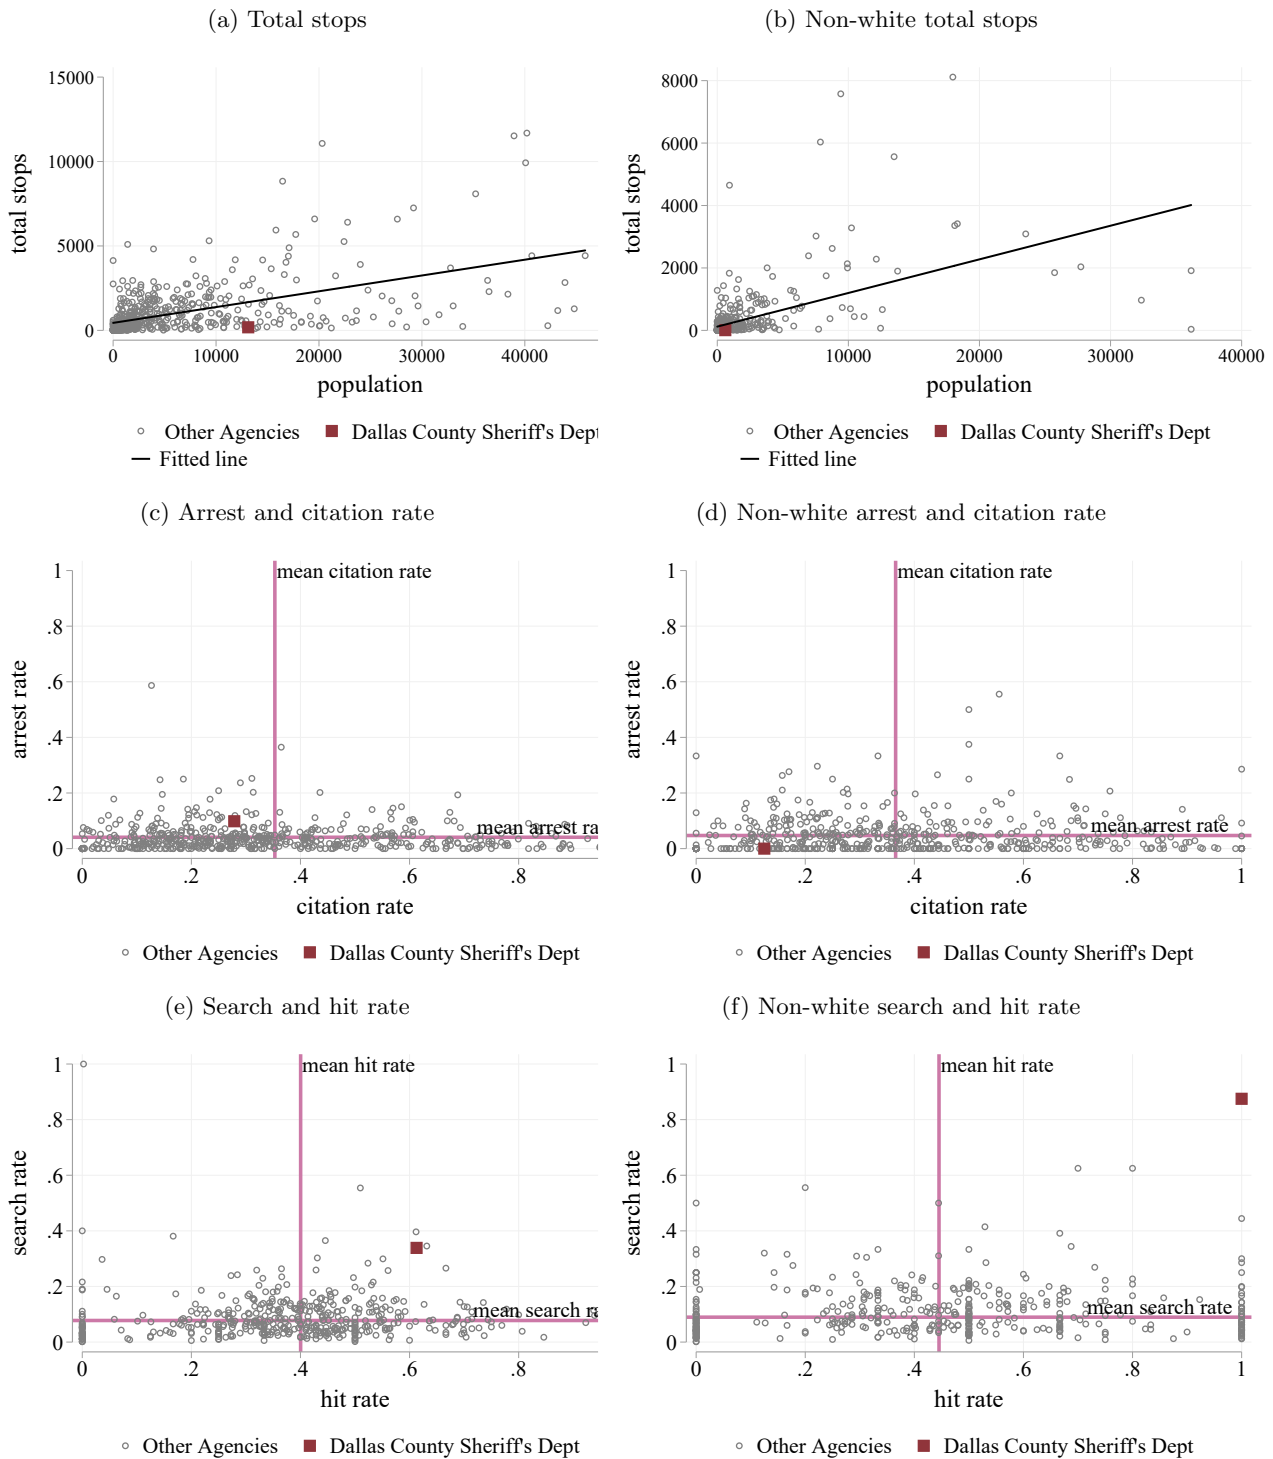

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Dallas County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Resident stops	.	.986	2.078	.929	.	.438	.403

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	.96	2.46	1.2	.	.27	.8

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Dardenne Prairie Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

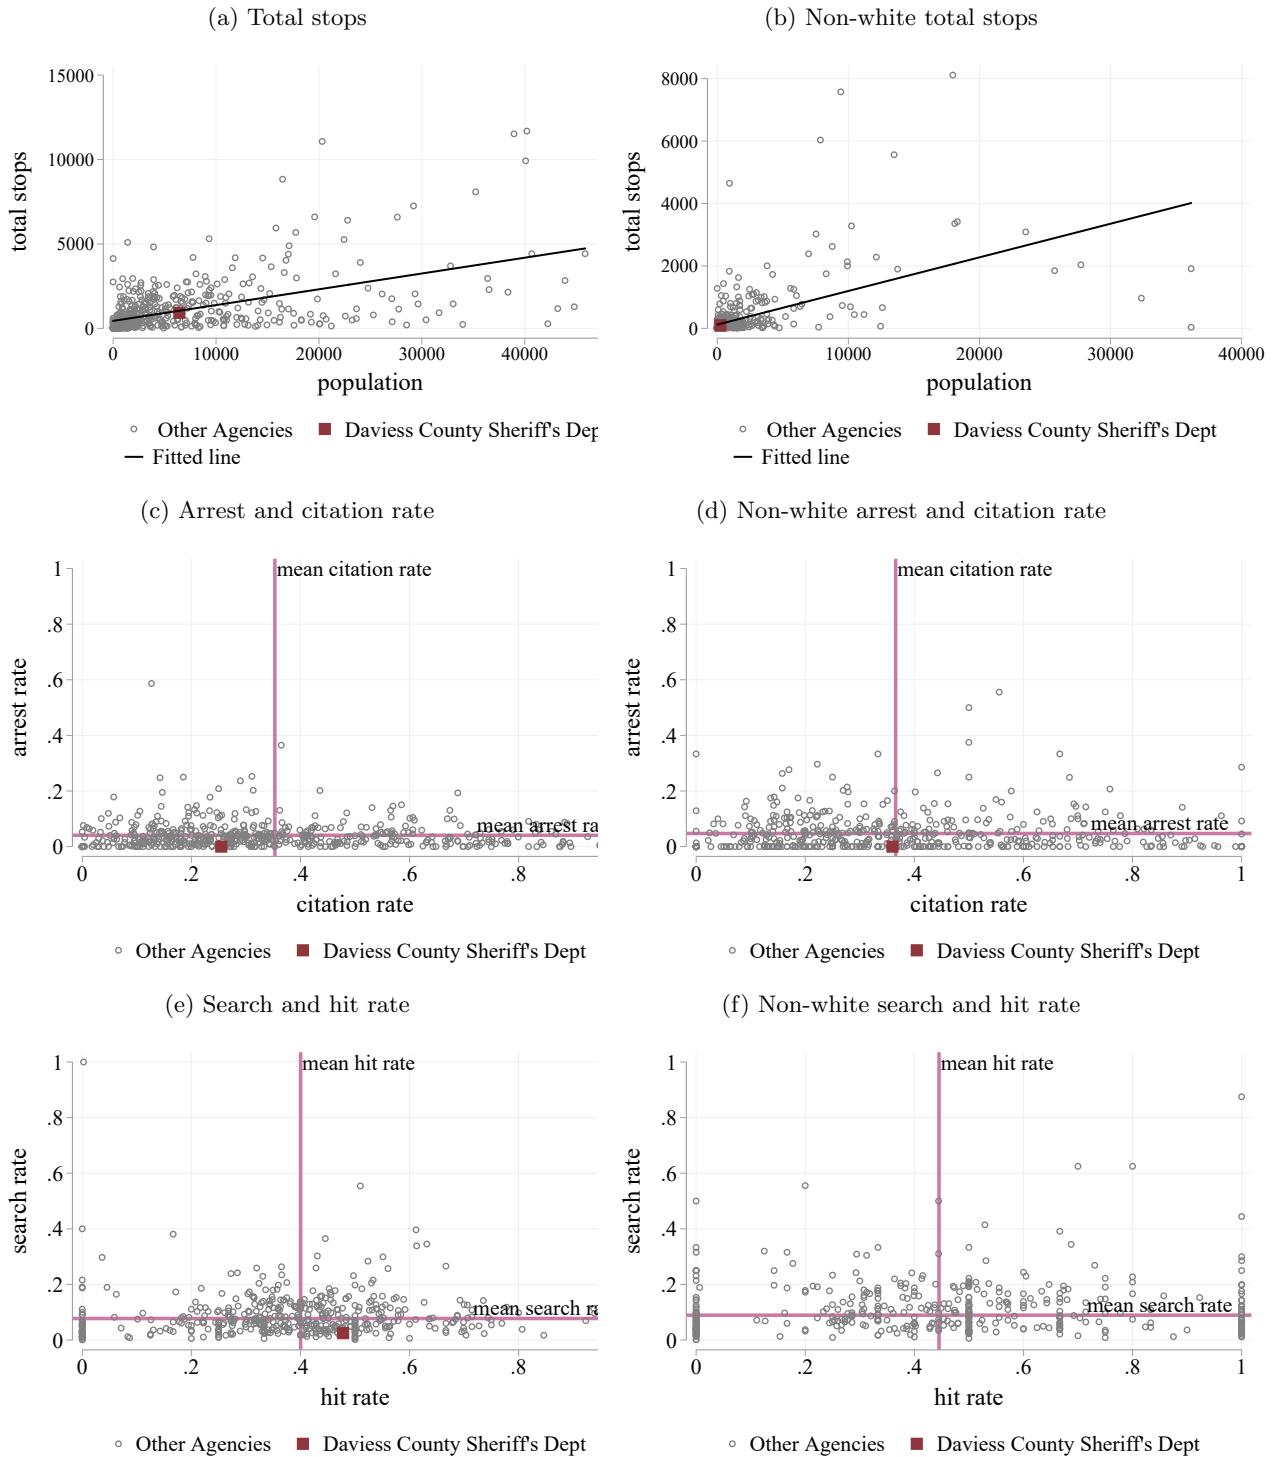

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Daviess County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Daviess County Sheriff's Dept

Resident stops	.	1.193	.046	.357	0	1.06	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

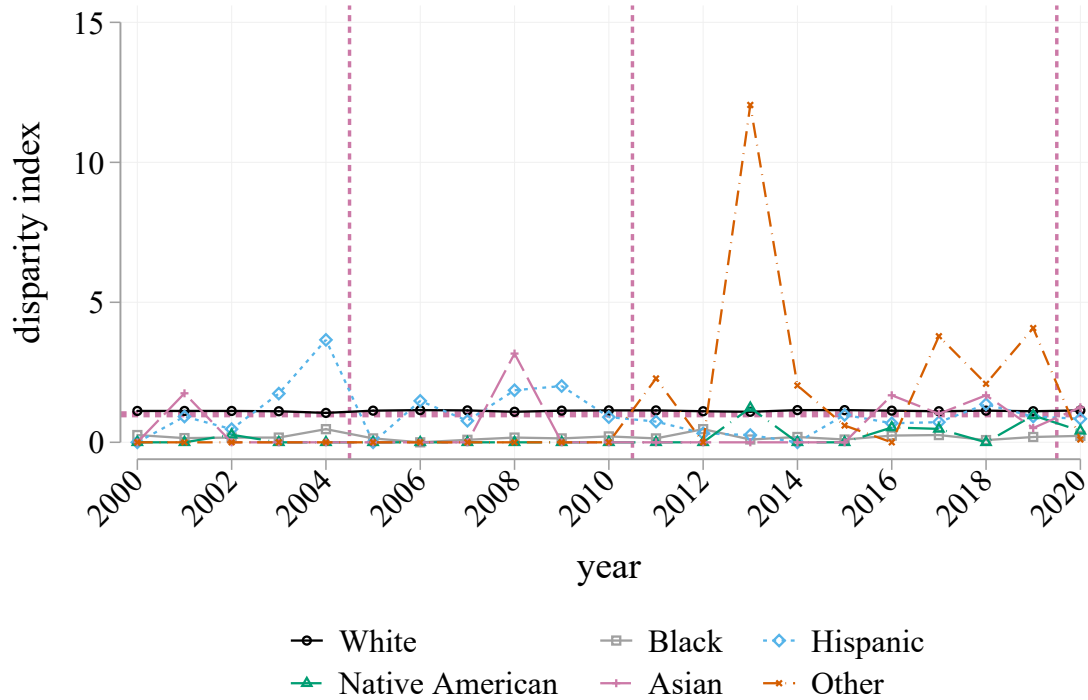

Table 3: Disparity Index from 2000 to 2020 for DeKalb County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2011</b>	1.14	.14	.74	0	0	2.28
<b>2012</b>	1.11	.47	.32	0	0	0
<b>2013</b>	1.09	.1	.26	1.23	0	12.05
<b>2014</b>	1.15	.19	0	0	0	2.03
<b>2015</b>	1.15	.1	.98	0	0	.6
<b>2016</b>	1.13	.24	.68	.53	1.68	0
<b>2017</b>	1.11	.26	.72	.48	1.02	3.79
<b>2018</b>	1.13	.08	1.36	0	1.68	2.09
<b>2019</b>	1.11	.19	.92	.96	.51	4.08
<b>2020</b>	1.14	.23	.84	.41	1.25	.1

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for DeKalb County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	12.87	12.98	17.02	.	0	.	1.35
Search rate	12.9	12.87	10.71	25	100	.	0
Contraband hit rate	31.61	30.77	66.67	100	0	.	.
Arrest rate	9.19	9.22	7.14	0	100	.	0
Citation rate	34.1	34.27	25	50	100	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

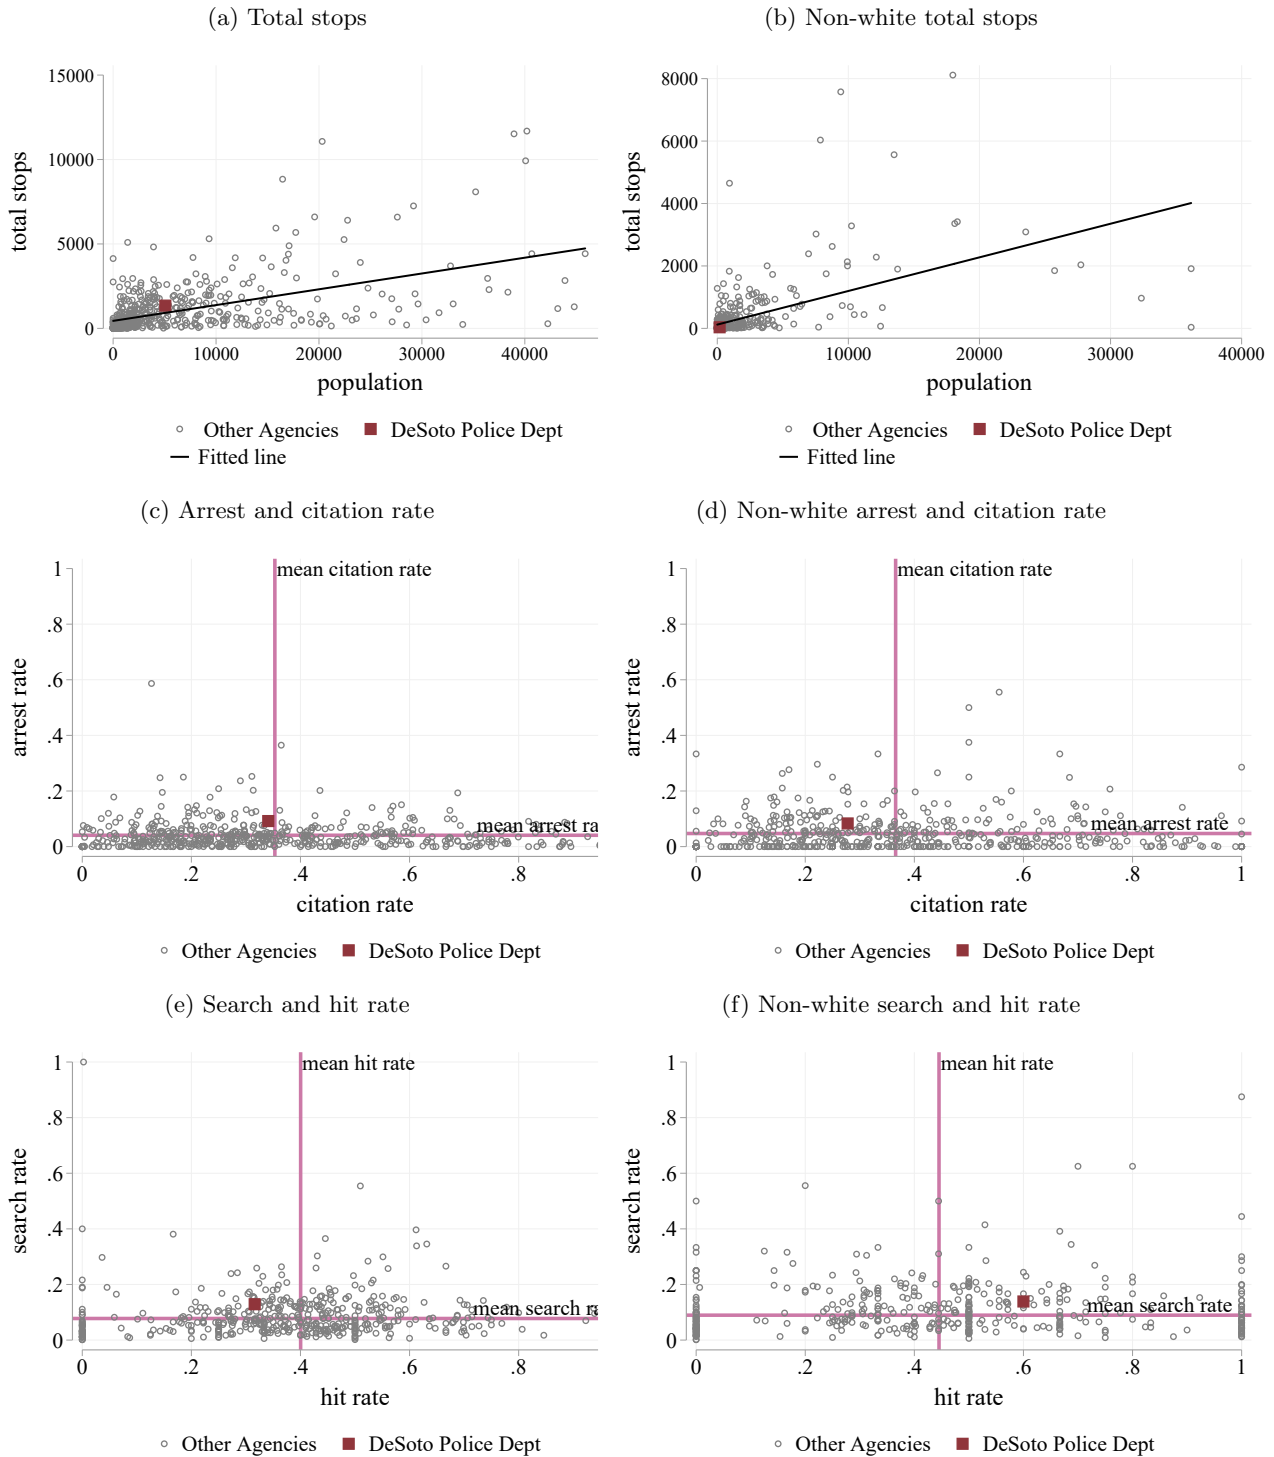

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for DeSoto Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for DeSoto Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Delta Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	47	47	0	0	0	0	0
Arrests	110	105	2	3	0	0	0
Citations	145	142	1	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.98	5.07	18.37	3.57	1.85	0	.6
Stop rate, residents	4.98	5.07	18.37	3.57	1.85	0	.6
Search rate	22.94	22.67	33.33	50	0	.	0
Contraband hit rate	33.1	34.56	0	0	.	.	.
Arrest rate	17.77	17.5	22.22	50	0	.	0
Citation rate	23.42	23.67	11.11	33.33	0	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

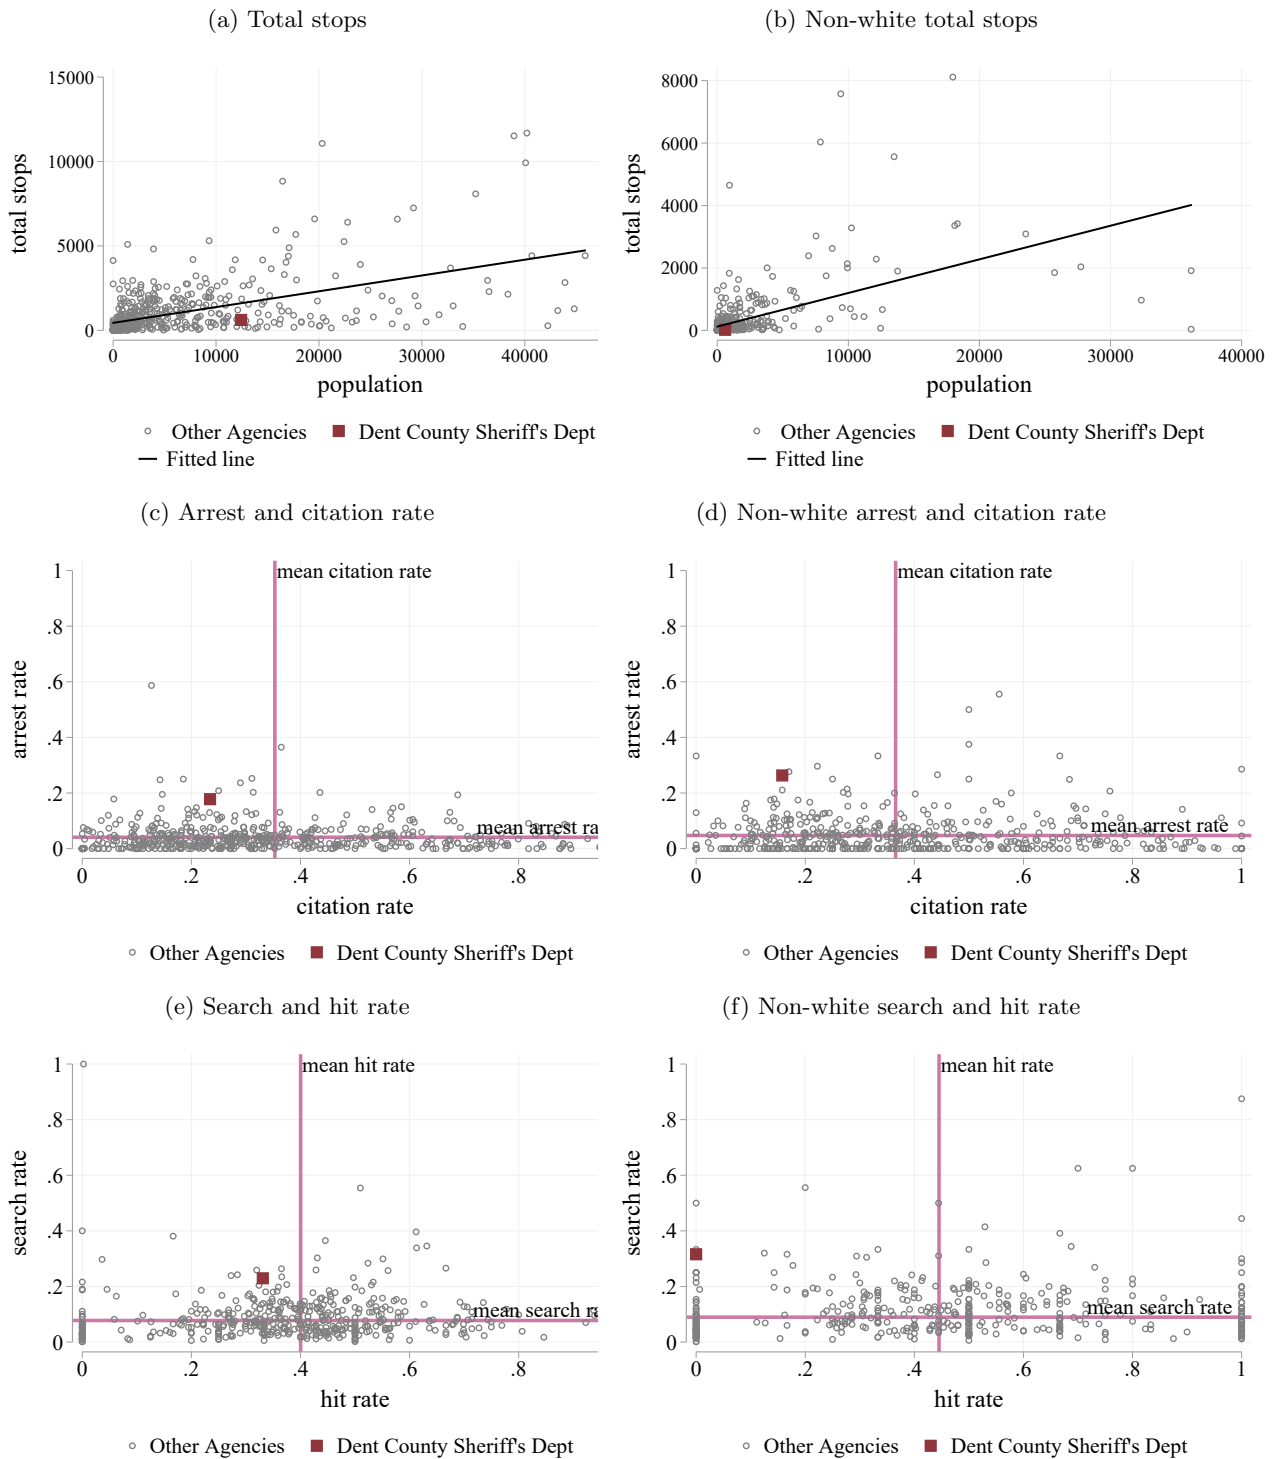

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Dent County Sheriff's Dept. has jurisdiction over Montauk State Park and the Current River, which are tourist destinations.

Figure 1: Comparison to other agencies by population for Dent County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	.81	13.88	.56	0	1.19	1.75

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Des Peres Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	137	137	0	0	0	0	0
Contraband	62	62	0	0	0	0	0
Arrests	64	64	0	0	0	0	0
Citations	271	267	2	1	0	1	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	18.42	18.12	87.5	.	.	25	4.17
Stop rate, residents	1.87	1.81	12.5	.	.	25	0
Search rate	18.51	19	0	0	0	0	0
Contraband hit rate	45.26	45.26	.	.	.	.	.
Arrest rate	8.65	8.88	0	0	0	0	0
Citation rate	36.62	37.03	28.57	16.67	0	50	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

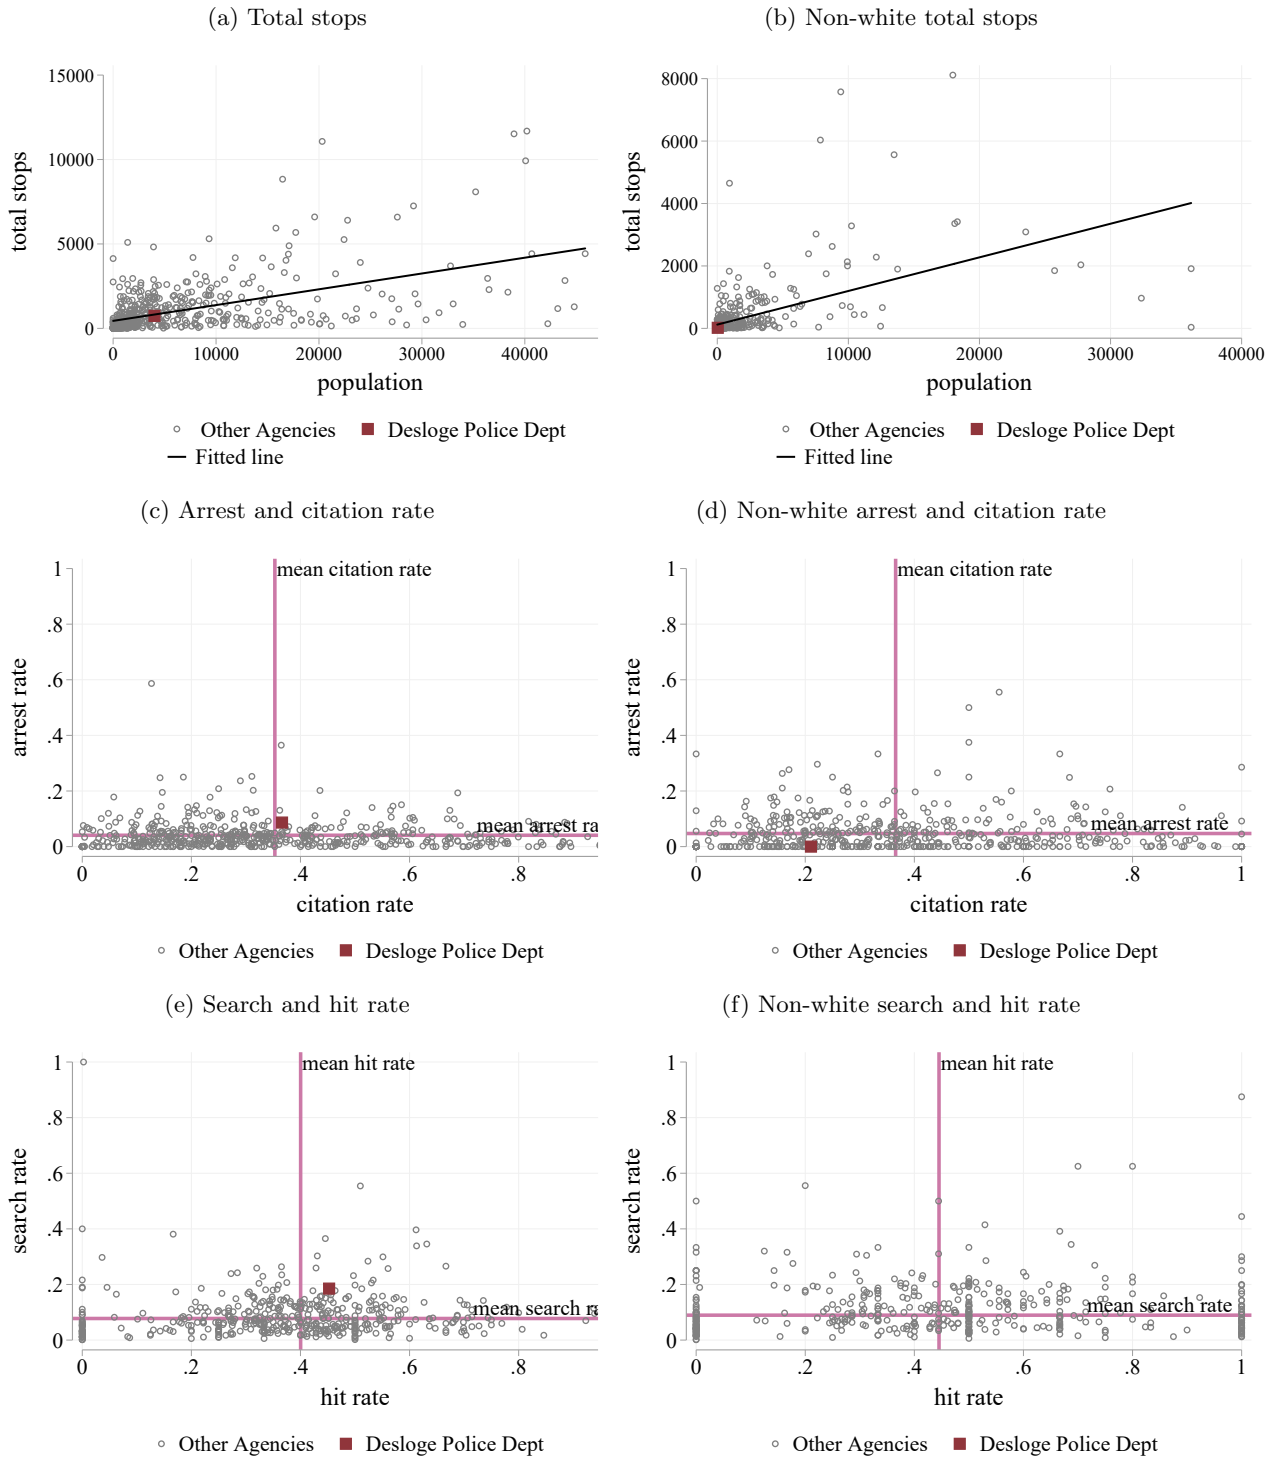

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Desloge Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Desloge Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other

<b>2013</b>	.98	13.74	.35	0	1.69	.04
<b>2014</b>	.97	13.75	.42	.09	1.21	.21
<b>2015</b>	.98	13.05	.36	0	.38	.08
<b>2016</b>	.97	16.07	.6	.15	.83	.11
<b>2017</b>	.96	16.2	.53	.22	1.92	.11
<b>2018</b>	.97	14.2	.56	.41	.75	.15
<b>2019</b>	.97	16.33	.6	0	.41	.12
<b>2020</b>	.96	7.59	.85	.	.	.2

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Dexter Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	690	657	0	10	12	0	21
2019 population %	100	95.22	0	1.45	1.74	0	3.04
<b>Totals</b>	.	.	.	.	.	.	.
All stops	322	293	8	16	0	4	1
Resident stops	47	47	0	0	0	0	0
Searches	43	38	0	4	0	1	0
Contraband	19	18	0	1	0	0	0
Arrests	11	11	0	0	0	0	0
Citations	110	95	2	12	0	1	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	46.67	44.6	.	160	0	.	4.76
Stop rate, residents	6.81	7.15	.	0	0	.	0
Search rate	13.35	12.97	0	25	.	25	0
Contraband hit rate	44.19	47.37	.	25	.	0	.
Arrest rate	3.42	3.75	0	0	.	0	0
Citation rate	34.16	32.42	25	75	.	25	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

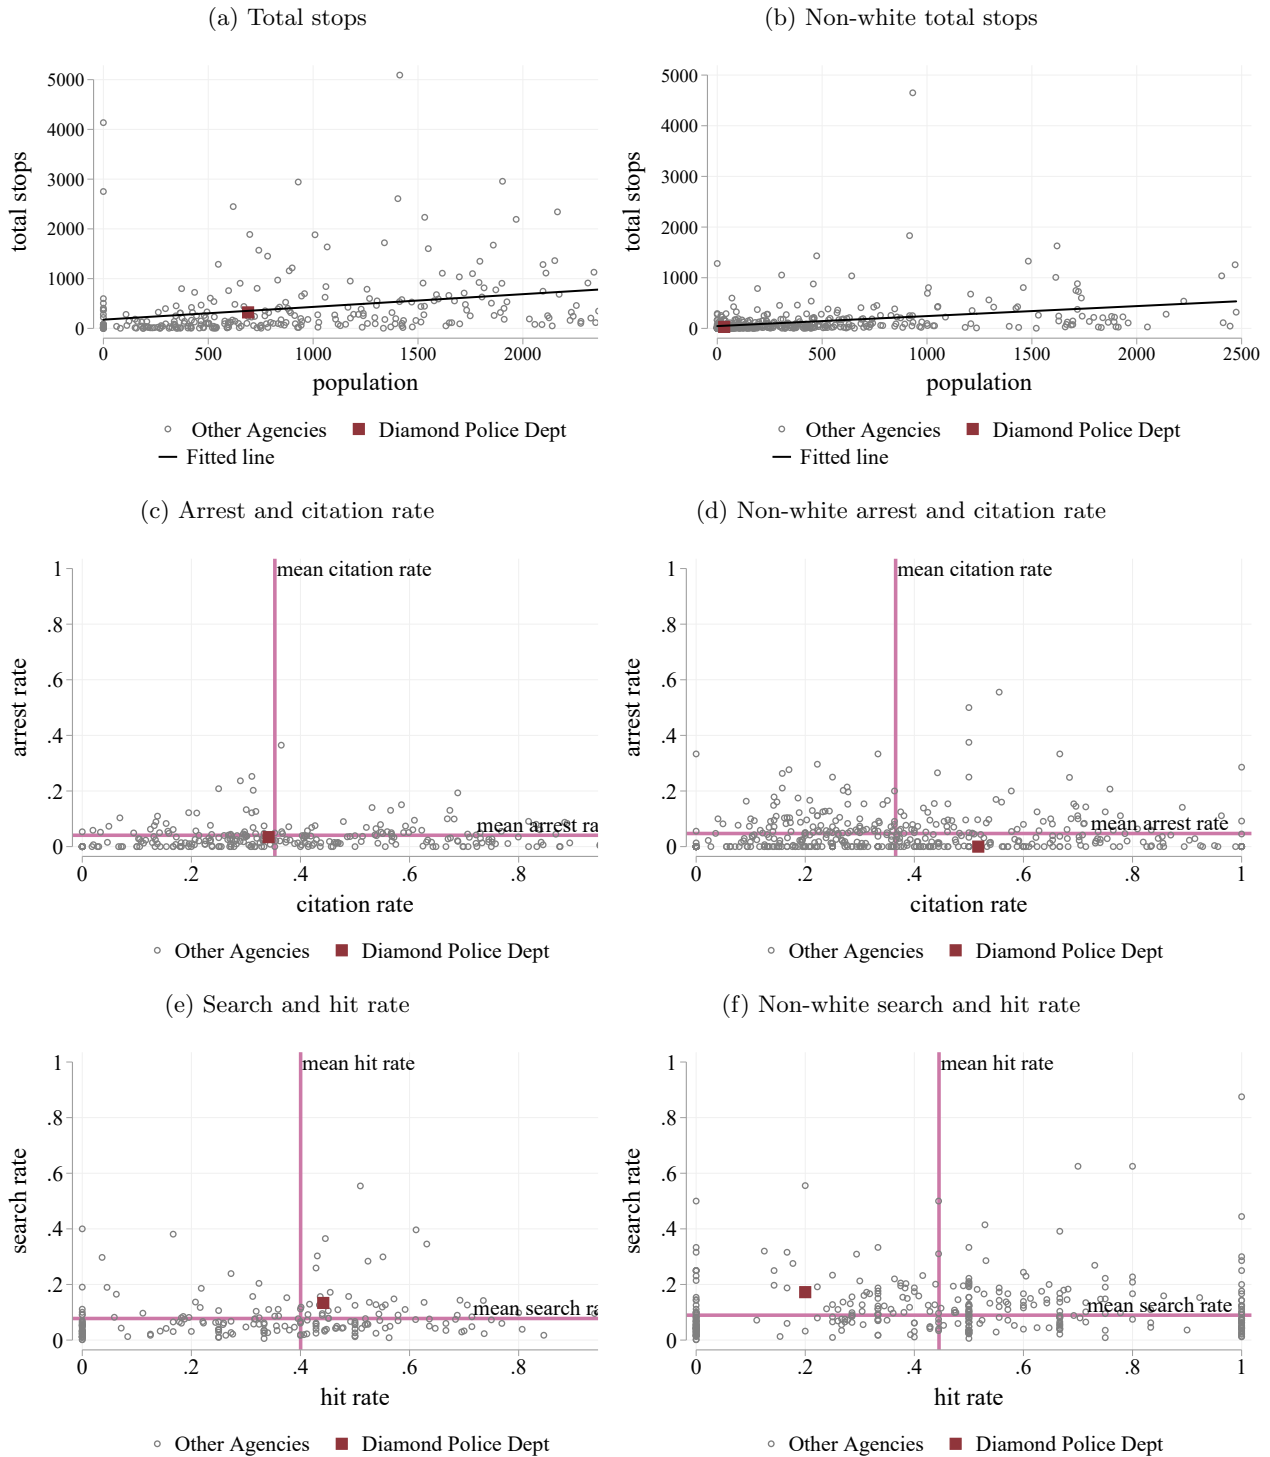

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Diamond Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Diamond Police Dept

<b>2016</b>	1.03	.97	.54	0	0	1.55
<b>2017</b>	1.03	4.04	.04	1.73	.19	.86
<b>2018</b>	1.02	3.93	.35	0	.24	.81
<b>2019</b>	1.04	1.95	.09	0	0	1.57
<b>2020</b>	1.03	7.07	.2	0	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Dixon Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	36	30	3	3	0	0	0
Contraband	90	80	7	3	0	0	0
Arrests	25	23	2	0	0	0	0
Citations	263	250	10	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	27.81	27.53	433.33	.	0	12.5	0
Stop rate, residents	21.03	20.95	300	.	0	0	0
Search rate	7.5	6.52	23.08	50	.	0	.
Contraband hit rate	250	266.67	233.33	100	.	.	.
Arrest rate	5.21	5	15.38	0	.	0	.
Citation rate	54.79	54.35	76.92	50	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

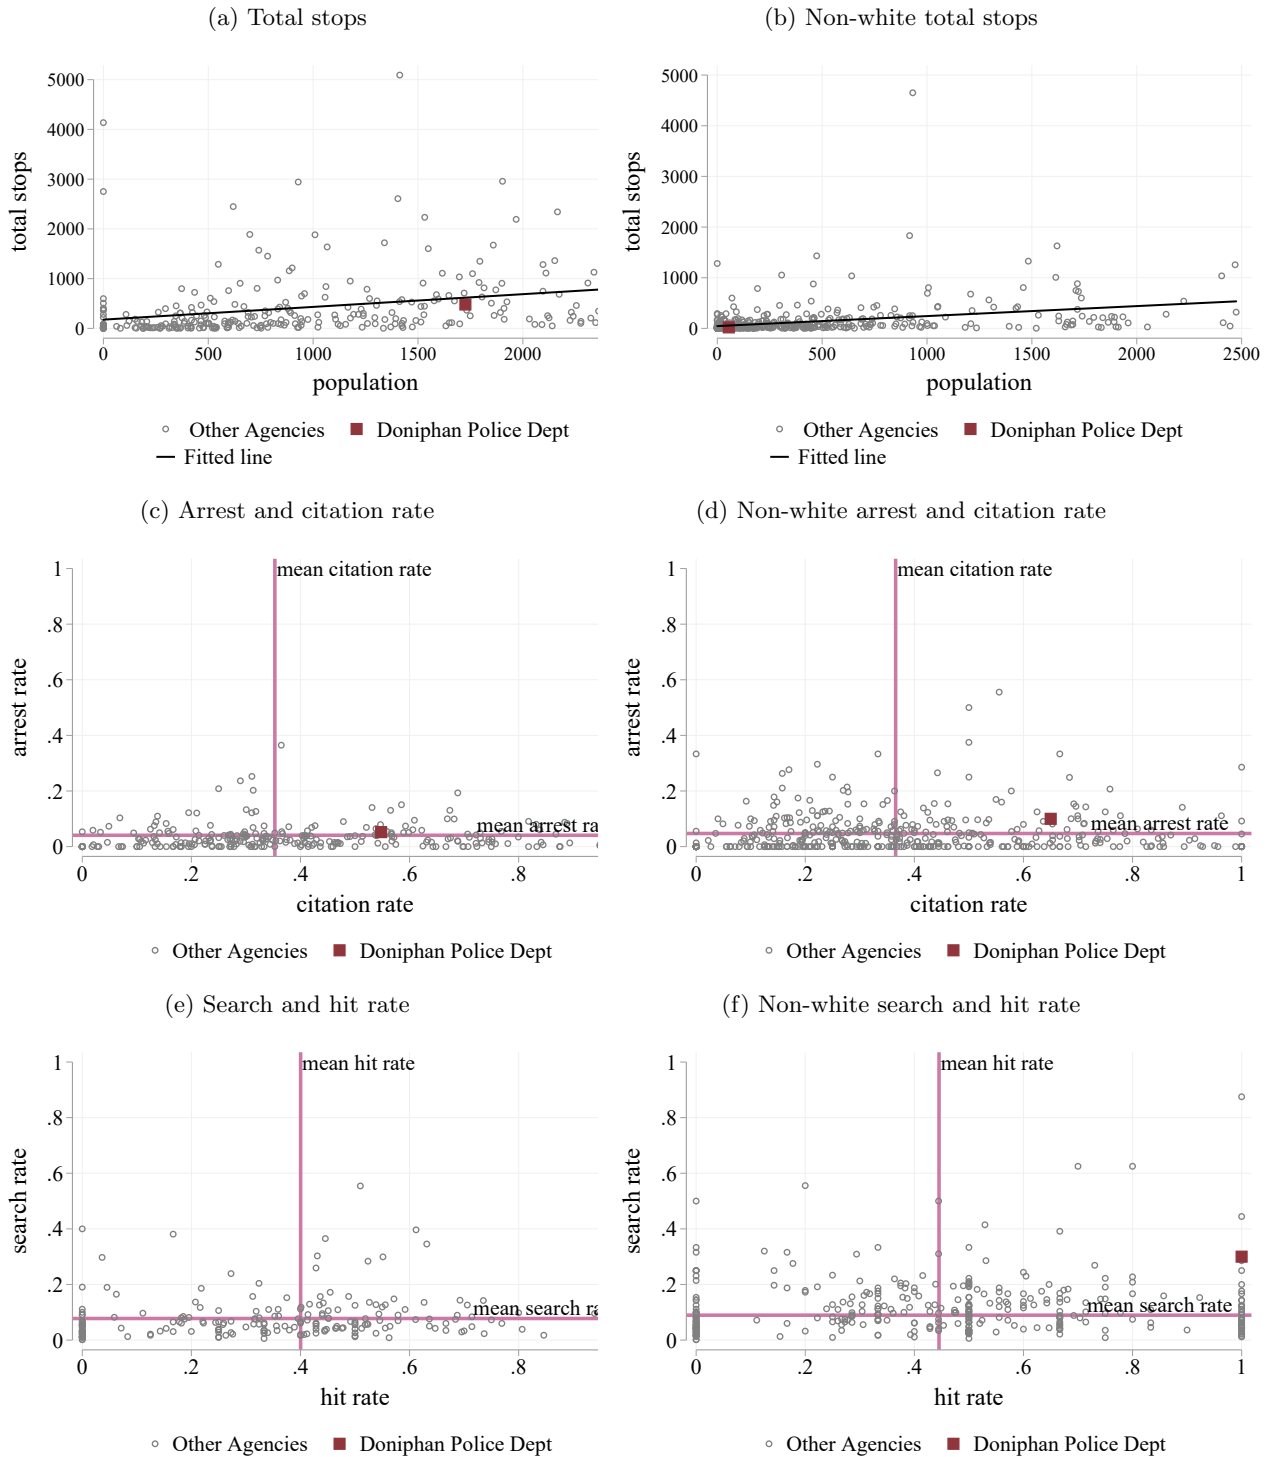

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Doniphan Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Doniphan Police Dept

Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Doolittle Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.139 Douglas County Sheriff's Dept

Table 1: Rates by Race for Douglas County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10738	10564	30	73	22	6	77
2019 population %	100	98.38	.28	.68	.2	.06	.72
<b>Totals</b>	.	.	.	.	.	.	.
All stops	177	175	0	2	0	0	0
Resident stops	139	137	0	2	0	0	0
Searches	19	19	0	0	0	0	0
Contraband	10	10	0	0	0	0	0
Arrests	7	7	0	0	0	0	0
Citations	11	11	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.65	1.66	0	2.74	0	0	0
Stop rate, residents	1.29	1.3	0	2.74	0	0	0
Search rate	10.73	10.86	.	0	.	.	.
Contraband hit rate	52.63	52.63	.	.	.	.	.
Arrest rate	3.95	4	.	0	.	.	.
Citation rate	6.21	6.29	.	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

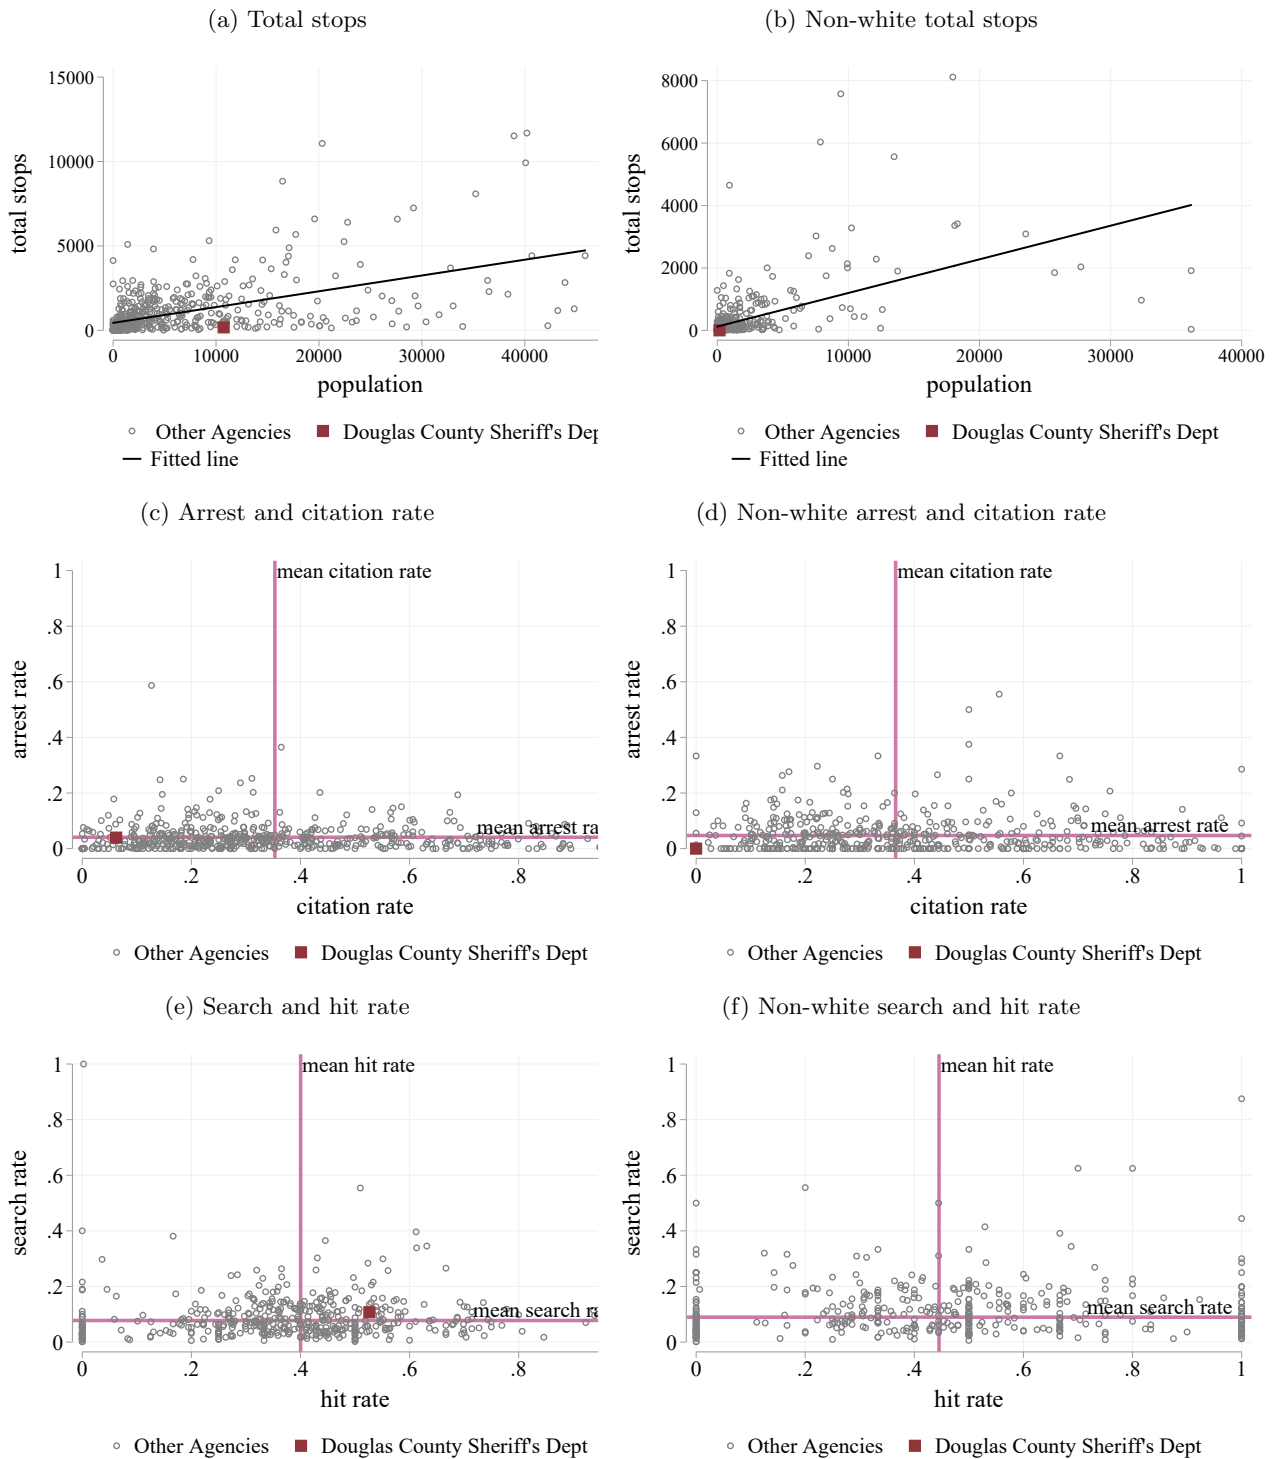

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Douglas County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Douglas County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

Table 1: Rates by Race for Duenweg Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1103	986	4	97	6	6	4
2019 population %	100	89.39	.36	8.79	.54	.54	.36
<b>Totals</b>	.	.	.	.	.	.	.
All stops	270	238	12	14	2	3	1
Resident stops	28	23	3	2	0	0	0
Searches	18	16	2	0	0	0	0
Contraband	9	7	2	0	0	0	0
Arrests	14	14	0	0	0	0	0
Citations	9	6	3	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	24.48	24.14	300	14.43	33.33	50	25
Stop rate, residents	2.54	2.33	75	2.06	0	0	0
Search rate	6.67	6.72	16.67	0	0	0	0
Contraband hit rate	50	43.75	100	.	.	.	.
Arrest rate	5.19	5.88	0	0	0	0	0
Citation rate	3.33	2.52	25	0	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

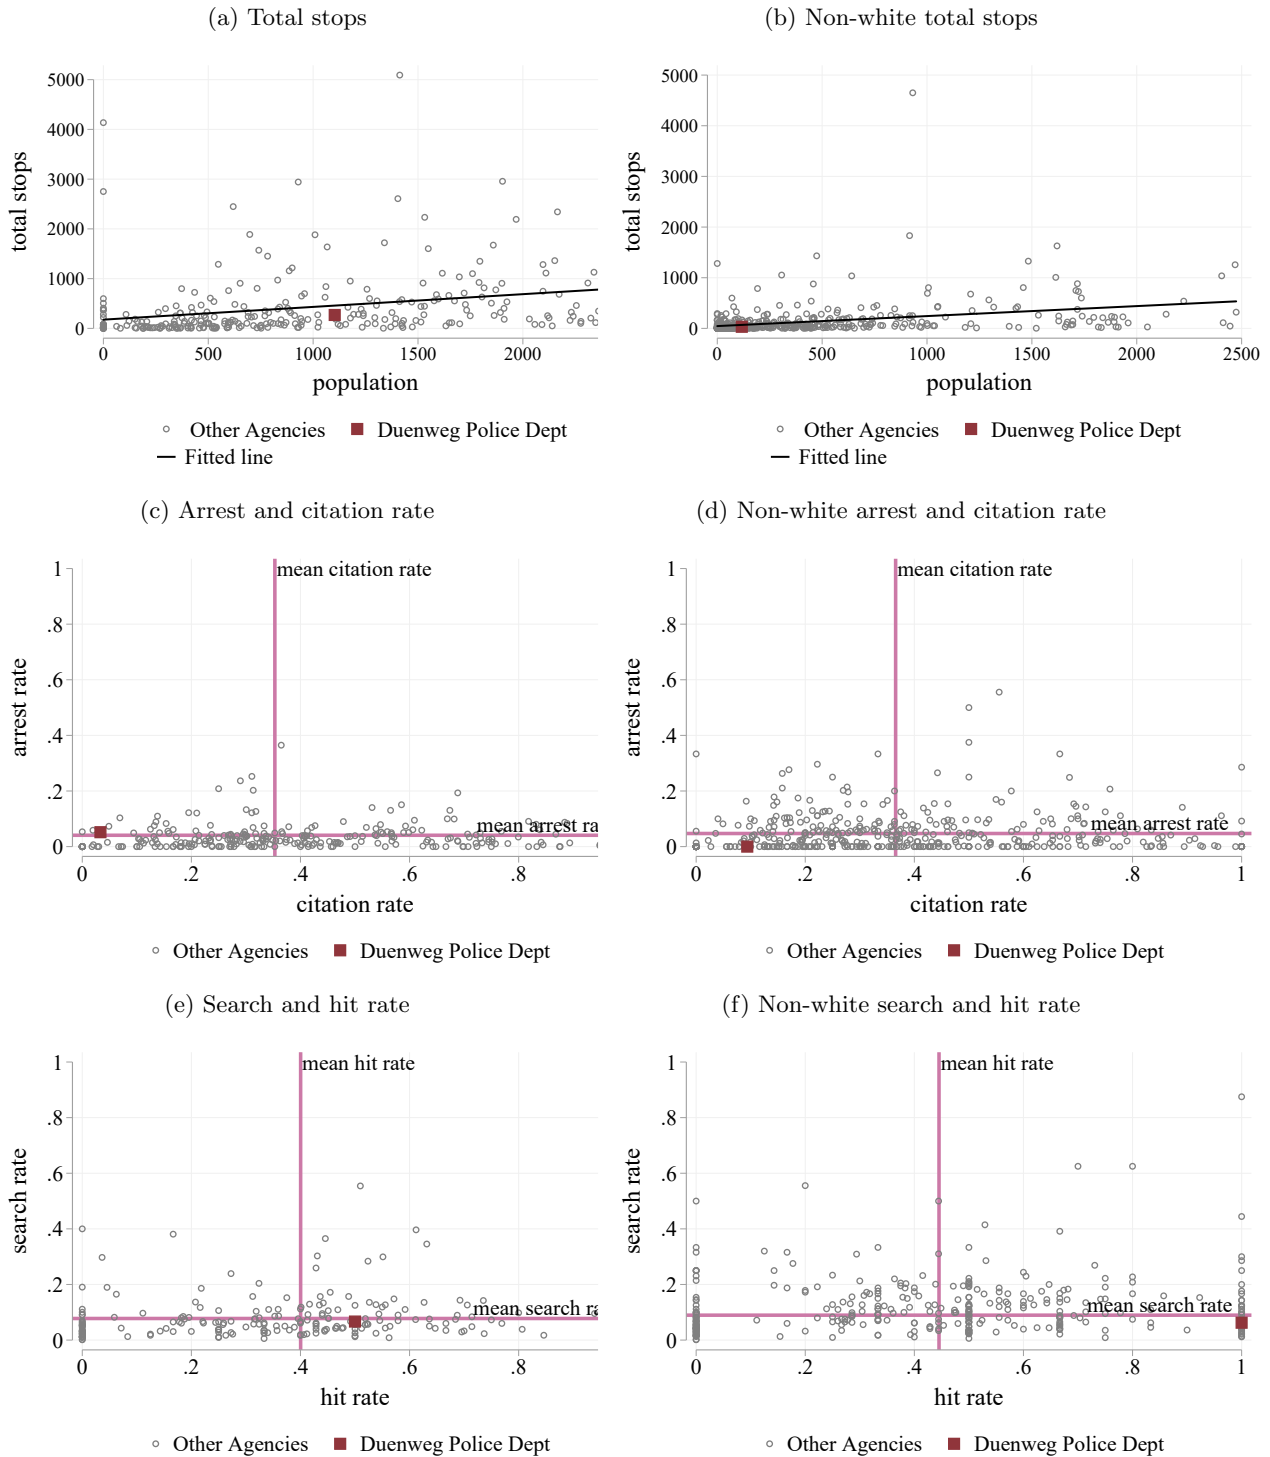

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Duenweg Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Duenweg Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1103	986	4	97	6	6	4
2019 population %	100	89.39	.36	8.79	.54	.54	.36
<b>Stops</b>	.	.	.	.	.	.	.
All stops	270	238	12	14	2	3	1
Resident stops	28	23	3	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.986	12.256	.59	1.362	2.043	1.021
Resident stops	.	.919	29.545	.812	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

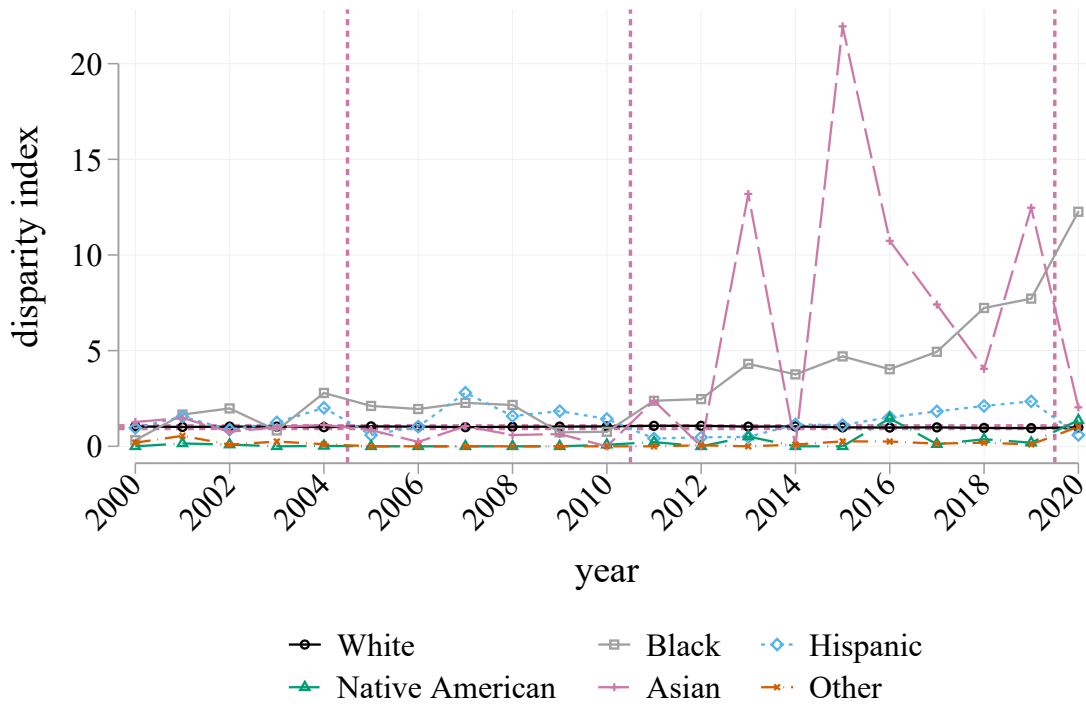

Table 3: Disparity Index from 2000 to 2020 for Duenweg Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.04	.32	.96	0	1.27	.19

<b>2009</b>	1.03	.73	1.84	0	.64	0
<b>2010</b>	1.04	.76	1.43	.08	0	0
<b>2011</b>	1.07	2.38	.41	.22	2.38	0
<b>2012</b>	1.07	2.47	.47	0	0	.05
<b>2013</b>	1.03	4.31	.49	.51	13.19	0
<b>2014</b>	1.04	3.76	1.14	0	0	.09
<b>2015</b>	.99	4.7	1.11	0	21.95	.26
<b>2016</b>	.98	4.03	1.52	1.46	10.74	.25
<b>2017</b>	.99	4.94	1.83	.11	7.41	.14
<b>2018</b>	.96	7.23	2.11	.37	4.05	.19
<b>2019</b>	.95	7.72	2.35	.19	12.47	.1
<b>2020</b>	.99	12.26	.59	1.36	2.04	1.02

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Duenweg Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Duquesne Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1616	1403	18	74	18	54	76
2019 population %	100	86.82	1.11	4.58	1.11	3.34	4.7
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1109	962	88	42	2	10	5
Resident stops	118	98	15	4	0	1	0
Searches	63	50	10	3	0	0	0
Contraband	33	24	7	2	0	0	0
Arrests	52	44	6	2	0	0	0
Citations	611	526	52	24	1	6	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	68.63	68.57	488.89	56.76	11.11	18.52	6.58
Stop rate, residents	7.3	6.99	83.33	5.41	0	1.85	0
Search rate	5.68	5.2	11.36	7.14	0	0	0
Contraband hit rate	52.38	48	70	66.67	.	.	.
Arrest rate	4.69	4.57	6.82	4.76	0	0	0
Citation rate	55.09	54.68	59.09	57.14	50	60	40

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

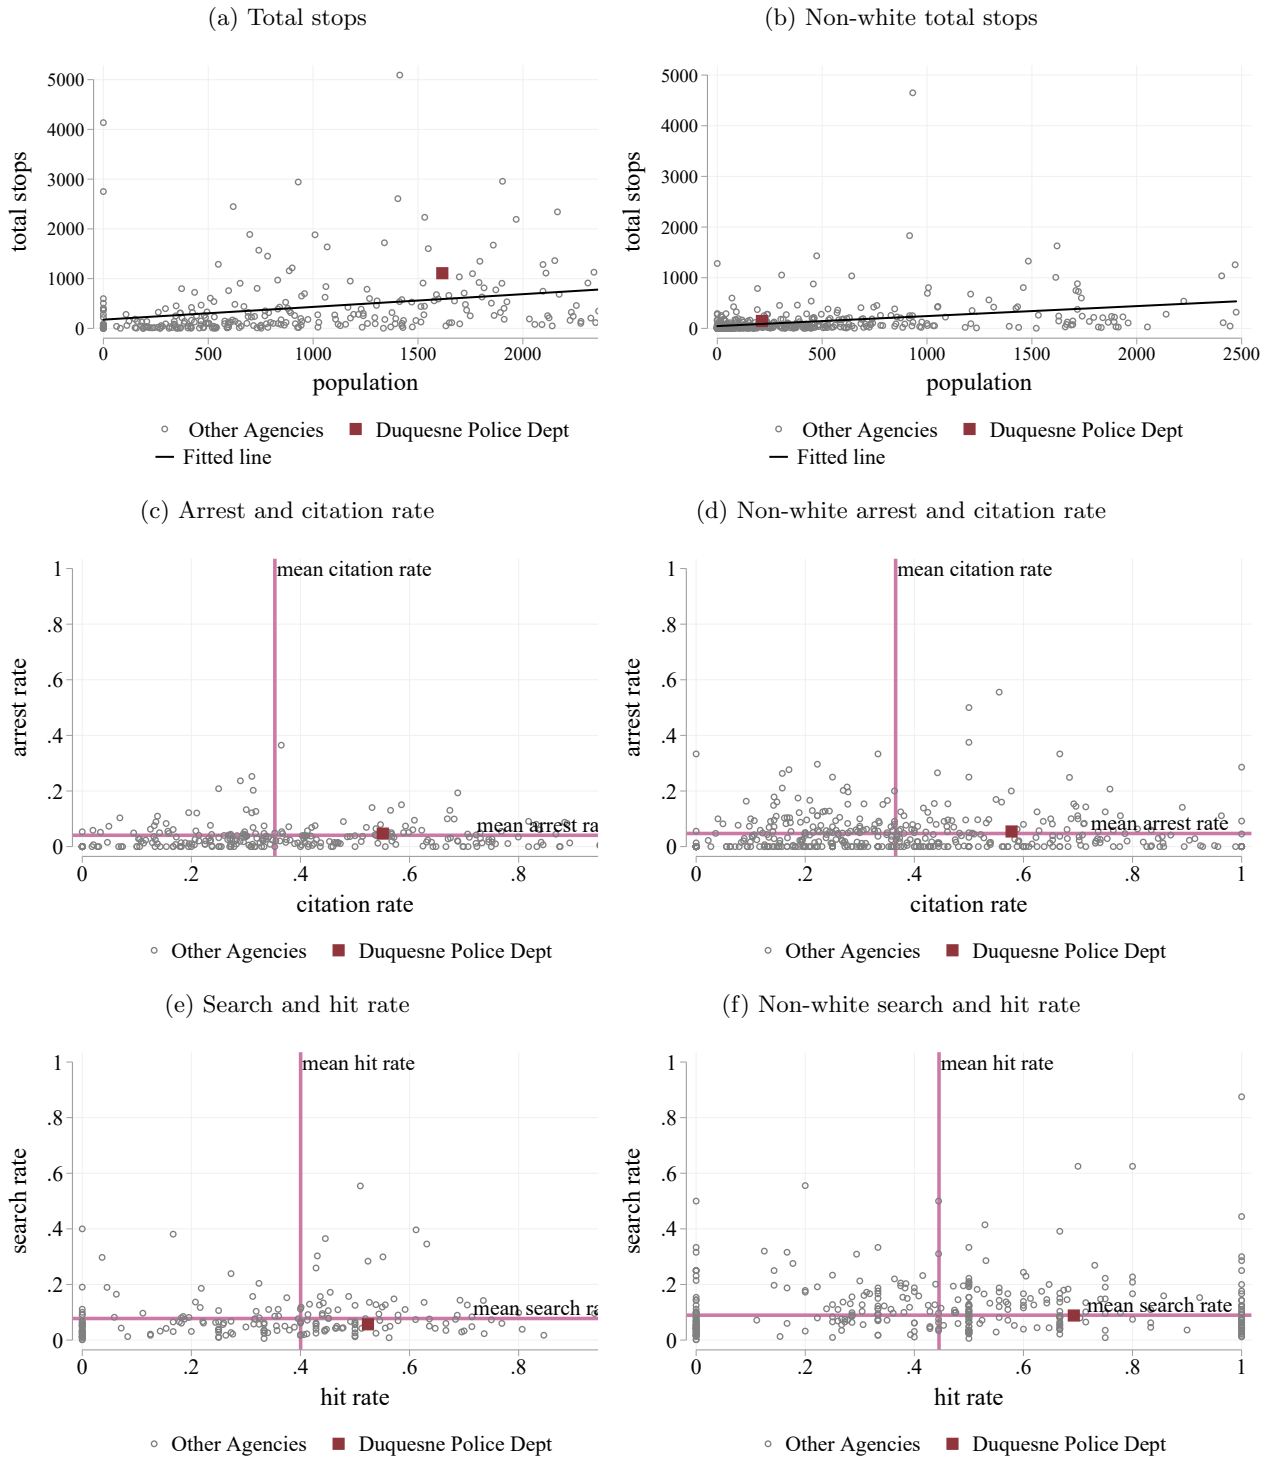

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Duquesne Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Duquesne Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1616	1403	18	74	18	54	76
2019 population %	100	86.82	1.11	4.58	1.11	3.34	4.7
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1109	962	88	42	2	10	5
Resident stops	118	98	15	4	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.999	7.124	.827	.162	.27	.096
Resident stops	.	.957	11.412	.74	0	.254	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

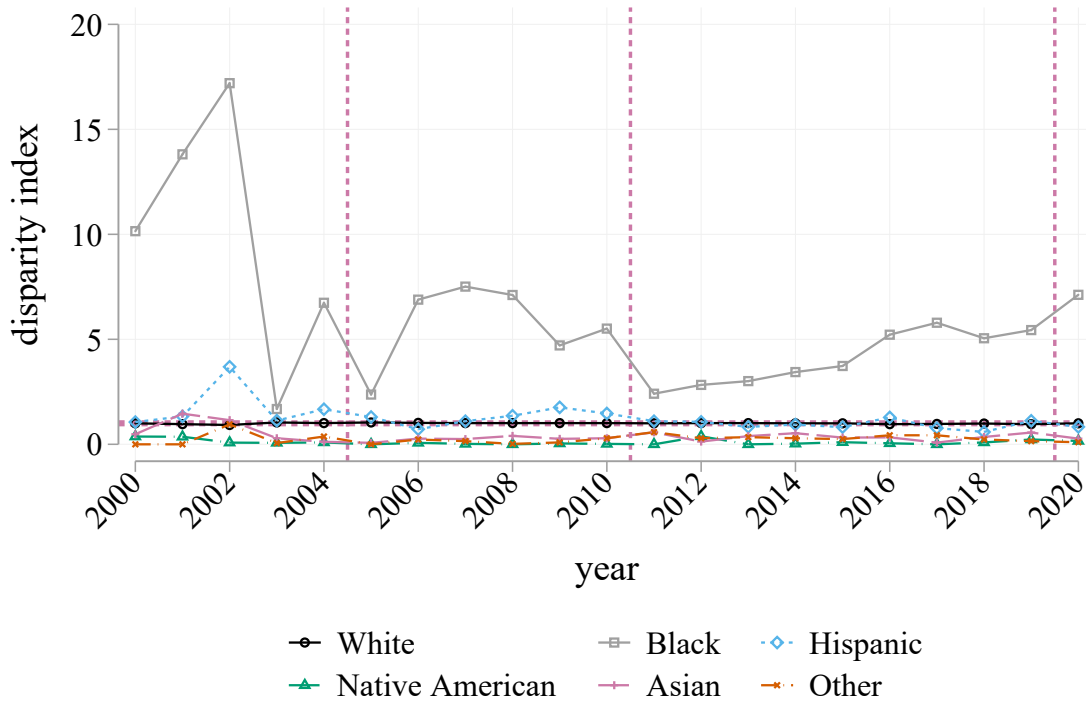

Table 3: Disparity Index from 2000 to 2020 for Duquesne Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1	10.15	1.06	.37	.48	0

<b>2010</b>	1.01	5.51	1.47	.02	.29	.29
<b>2011</b>	1	2.41	1.1	0	.57	.58
<b>2012</b>	1.01	2.83	1.07	.38	.13	.29
<b>2013</b>	1.01	3.01	.83	0	.39	.34
<b>2014</b>	1	3.44	.94	.03	.53	.29
<b>2015</b>	1	3.73	.82	.1	.32	.25
<b>2016</b>	.96	5.22	1.28	.05	.33	.43
<b>2017</b>	.97	5.79	.77	0	.08	.43
<b>2018</b>	.99	5.05	.59	.09	.35	.23
<b>2019</b>	.96	5.44	1.12	.23	.56	.15
<b>2020</b>	1	7.12	.83	.16	.27	.1

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Duquesne Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.145 Edgar Springs Police Dept

Table 1: Rates by Race for Edgar Springs Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	122	118	0	4	0	0	0
2019 population %	100	96.72	0	3.28	0	0	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	145	131	9	1	0	1	3
Resident stops	30	30	0	0	0	0	0
Searches	11	9	2	0	0	0	0
Contraband	7	5	2	0	0	0	0
Arrests	4	4	0	0	0	0	0
Citations	145	132	8	1	0	1	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	118.85	111.02	.	25	.	.	.
Stop rate, residents	24.59	25.42	.	0	.	.	.
Search rate	7.59	6.87	22.22	0	.	0	0
Contraband hit rate	63.64	55.56	100	.	.	.	.
Arrest rate	2.76	3.05	0	0	.	0	0
Citation rate	100	100.76	88.89	100	.	100	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

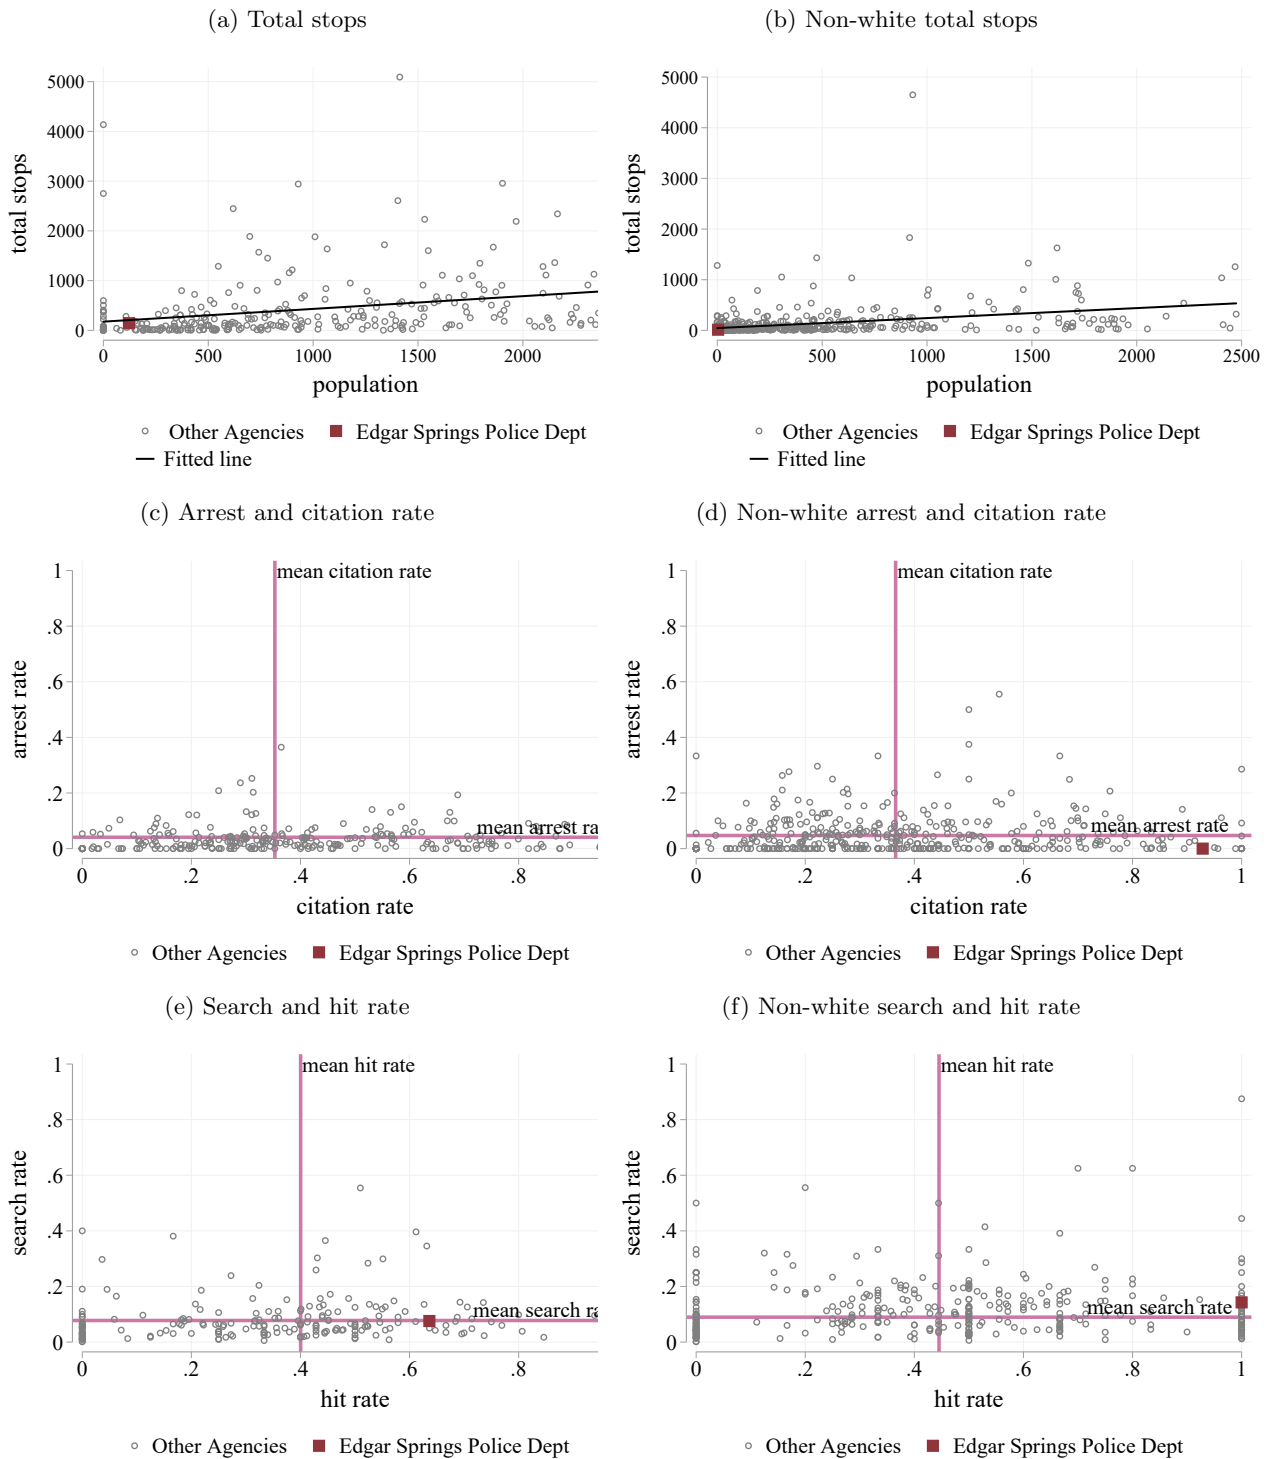

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Edgar Springs Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Edgar Springs Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	122	118	0	4	0	0	0
2019 population %	100	96.72	0	3.28	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	145	131	9	1	0	1	3
Resident stops	30	30	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.934	.	.21	.	.	.
Resident stops	.	1.034	.	0	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2015</b>	.97	.	.	.	.	0
<b>2016</b>	.98	.	.	.	.	.13
<b>2017</b>	.99	.	.	.	.	.5
<b>2018</b>	.99	.	.	.	.	.12
<b>2019</b>	.94	.	.	.	.	0
<b>2020</b>	.93	.	.21	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Edgar Springs Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

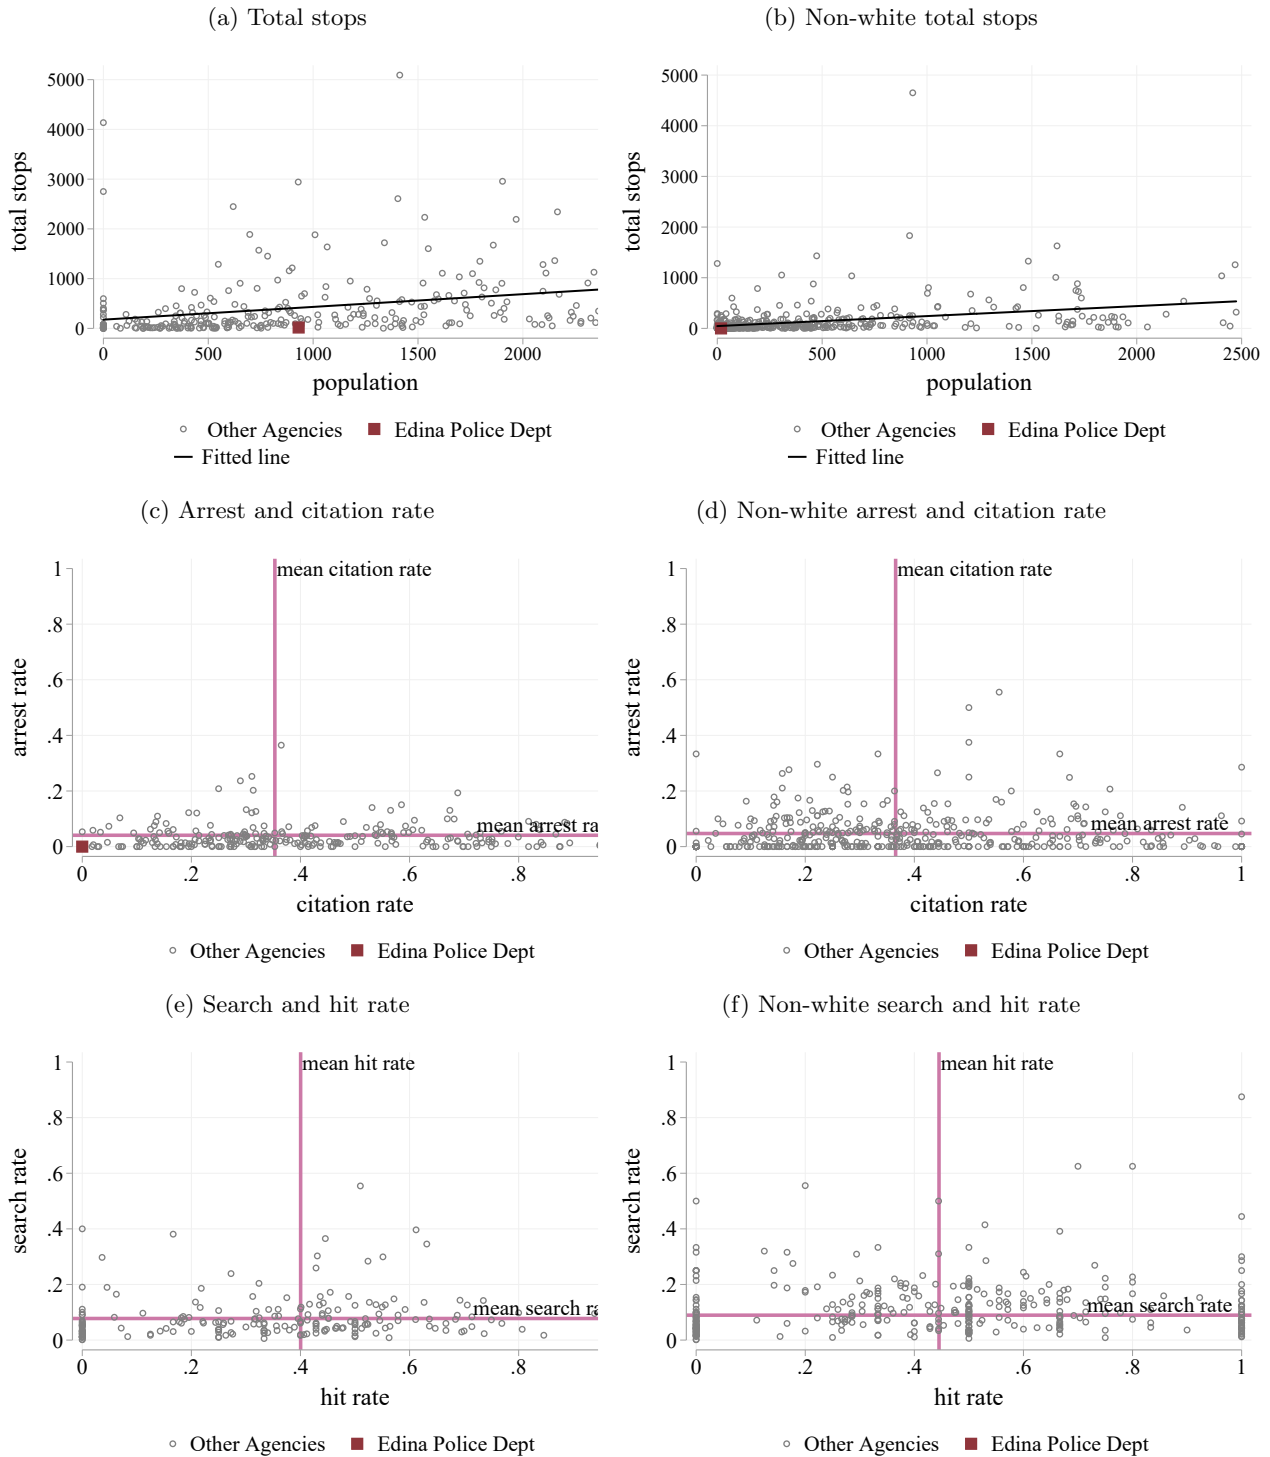

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Edmundson Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Edmundson Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

Resident stops	44	19	17	6	0	0	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.452	2.474	.59	.539	.581	.298
Resident stops	.	.71	1.483	2.015	0	0	.468

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	8.84	9.33	140	0	0	.	0
Search rate	11.67	11.71	13.33	0	.	0	0
Contraband hit rate	35.94	35.48	50	.	.	.	.
Arrest rate	3.74	3.87	0	0	.	0	0
Citation rate	11.12	11.24	10	0	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

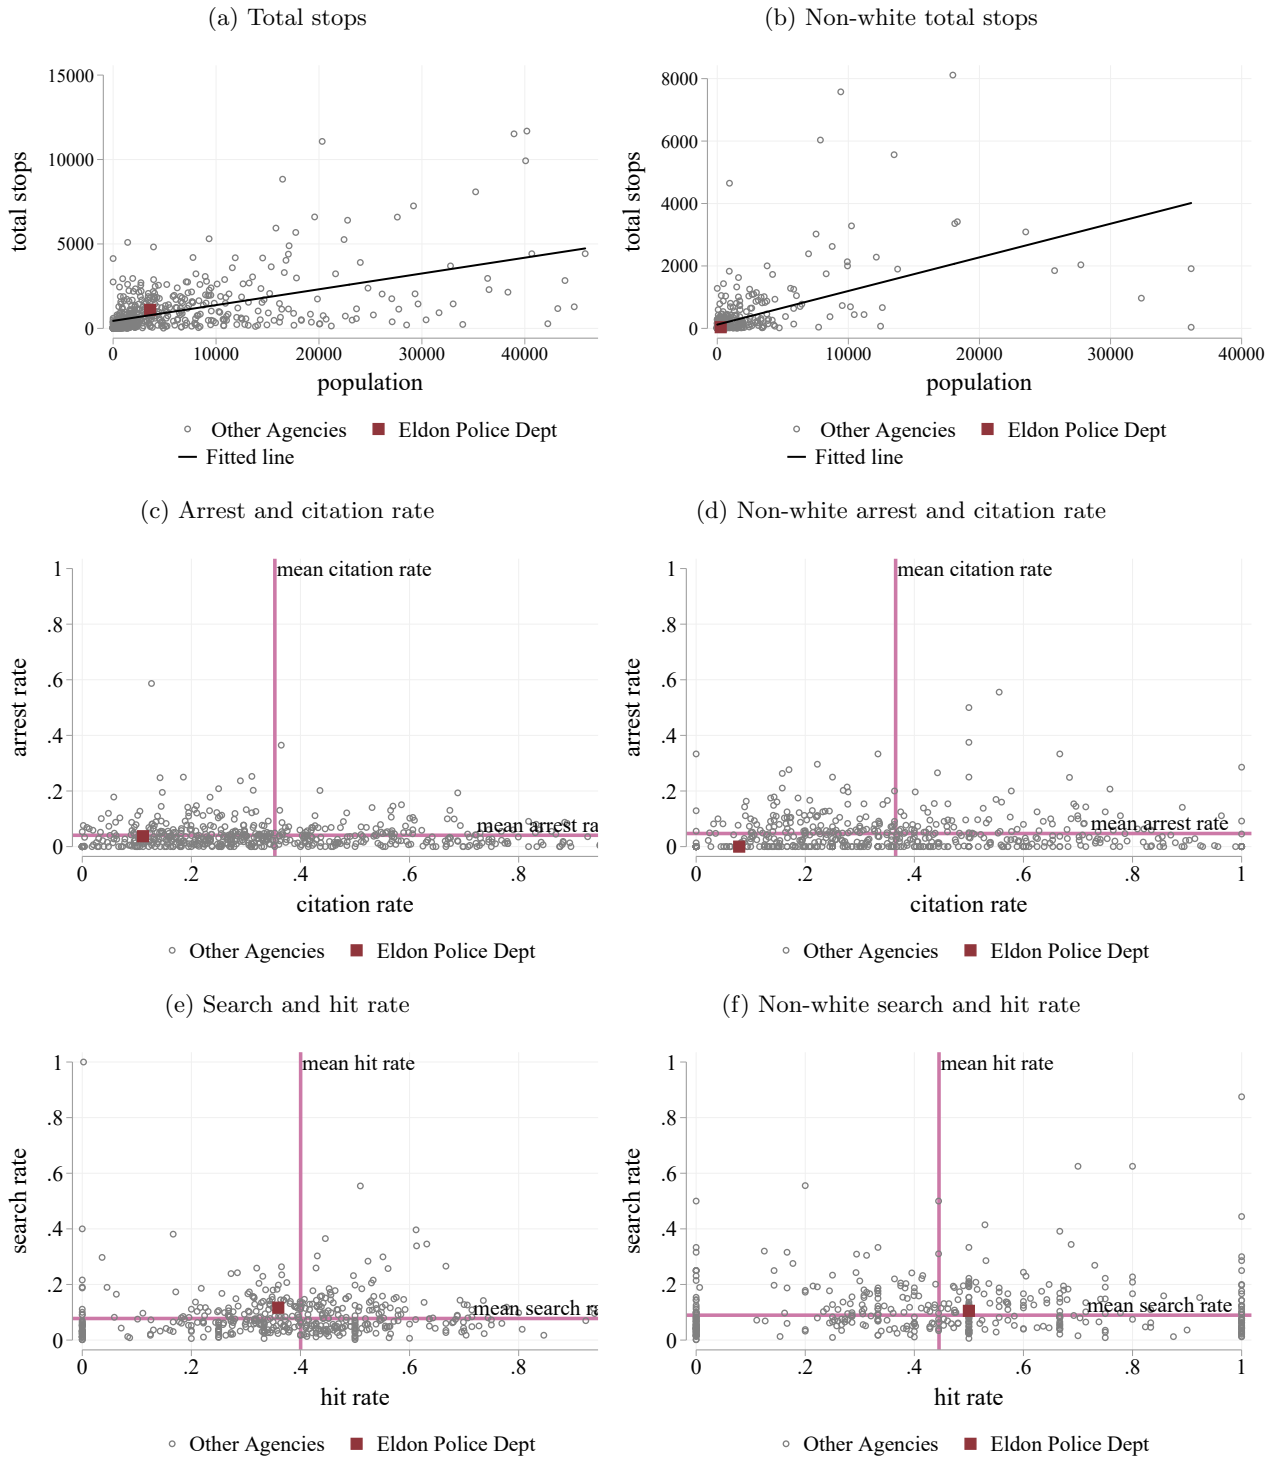

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Eldon Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Eldon Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3596	3332	5	40	209	0	20
2019 population %	100	92.66	.14	1.11	5.81	0	.56
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1097	1059	30	3	0	2	3
Resident stops	318	311	7	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.042	19.668	.246	0	.	.492
Resident stops	.	1.055	15.831	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

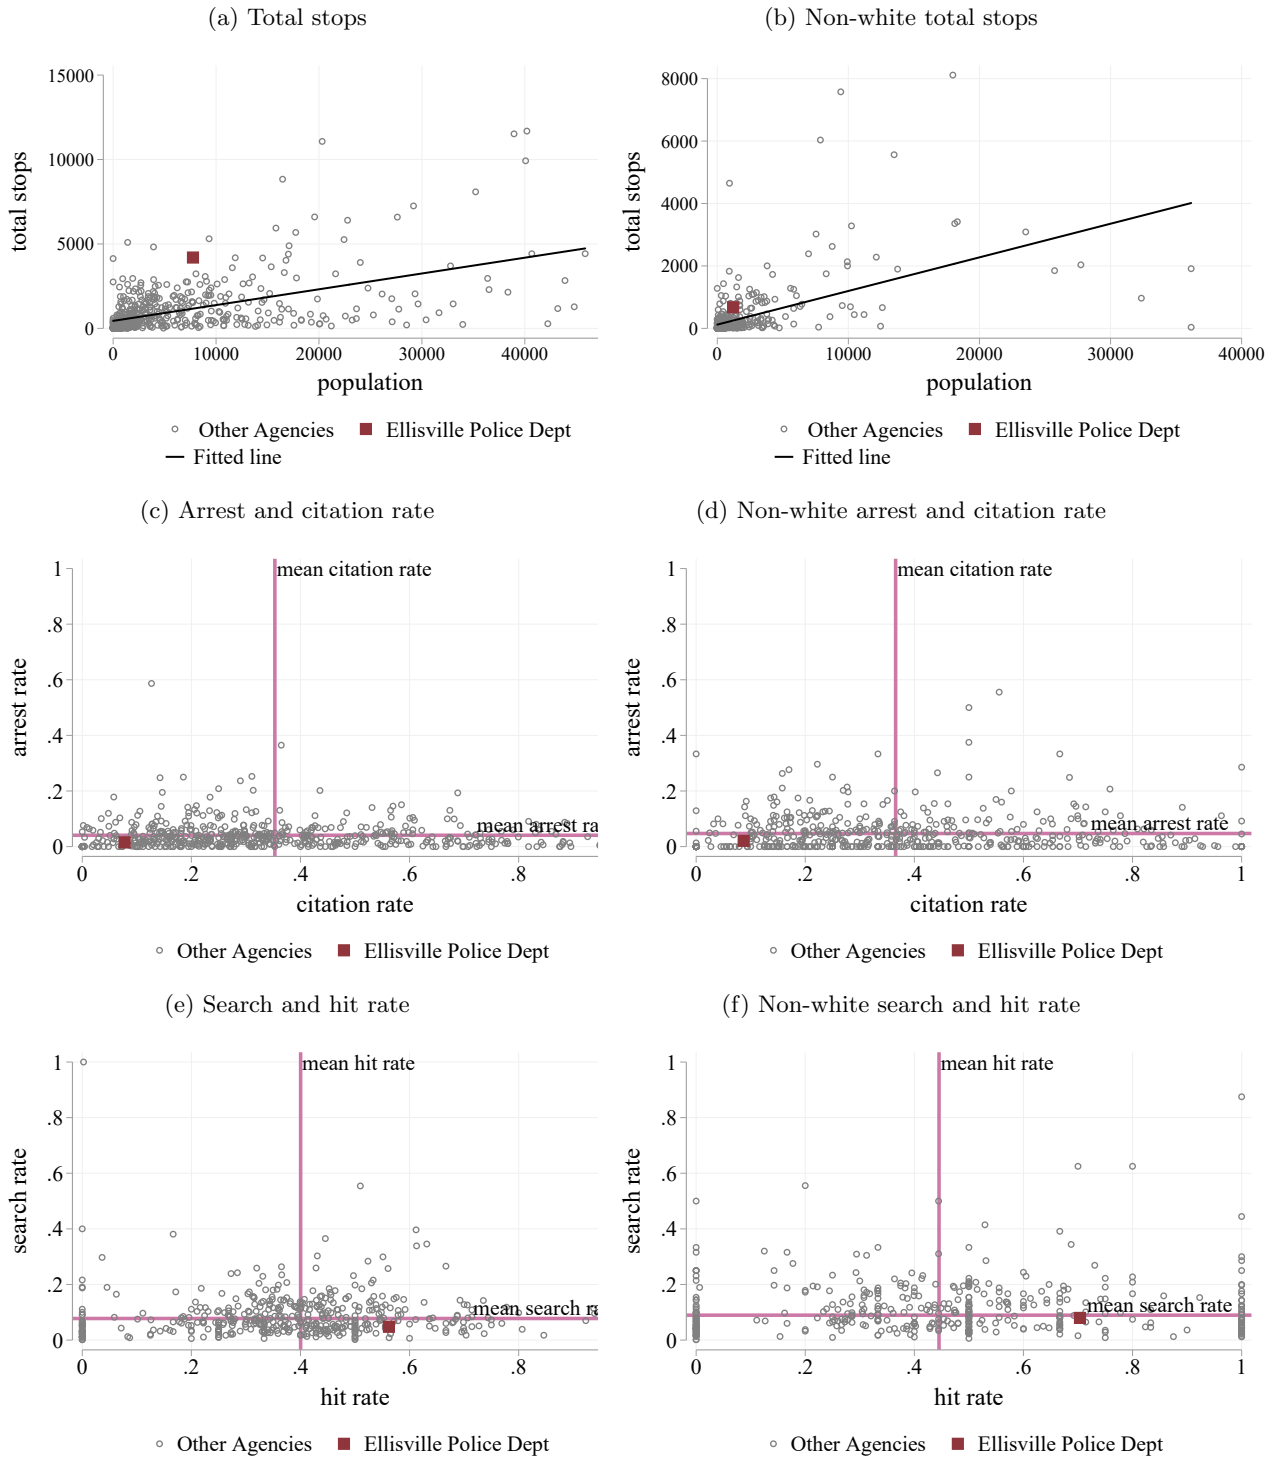

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ellsinore Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ellsinore Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	373	358	0	4	2	0	9

<b>Stops</b>	.	.	.	.	.	.	.
All stops	799	730	46	3	3	11	6
Resident stops	39	38	1	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.952	.	.35	.7	.	.311
Resident stops	.	1.015	.	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

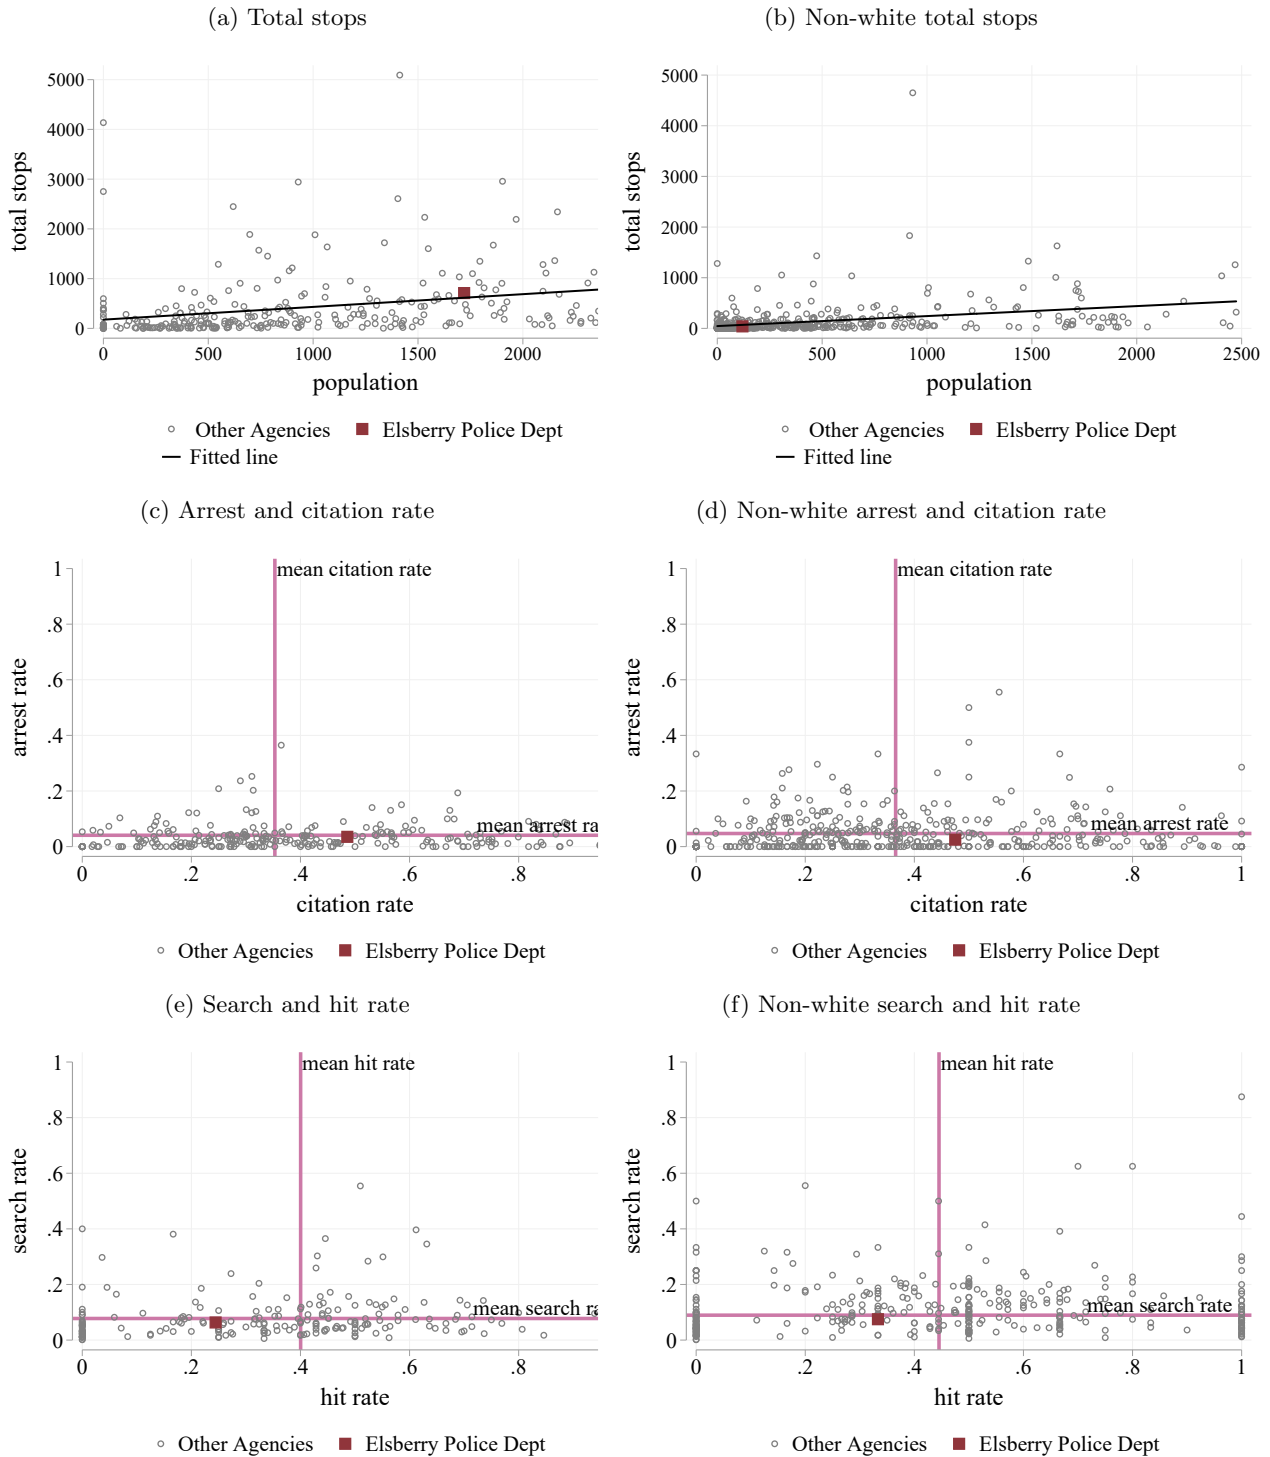

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Emma Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Emma Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	189	184	0	0	0	0	5
2019 population %	100	97.35	0	0	0	0	2.65
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1	1	0	0	0	0	0
Resident stops	0	0	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.027	.	.	.	.	0
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

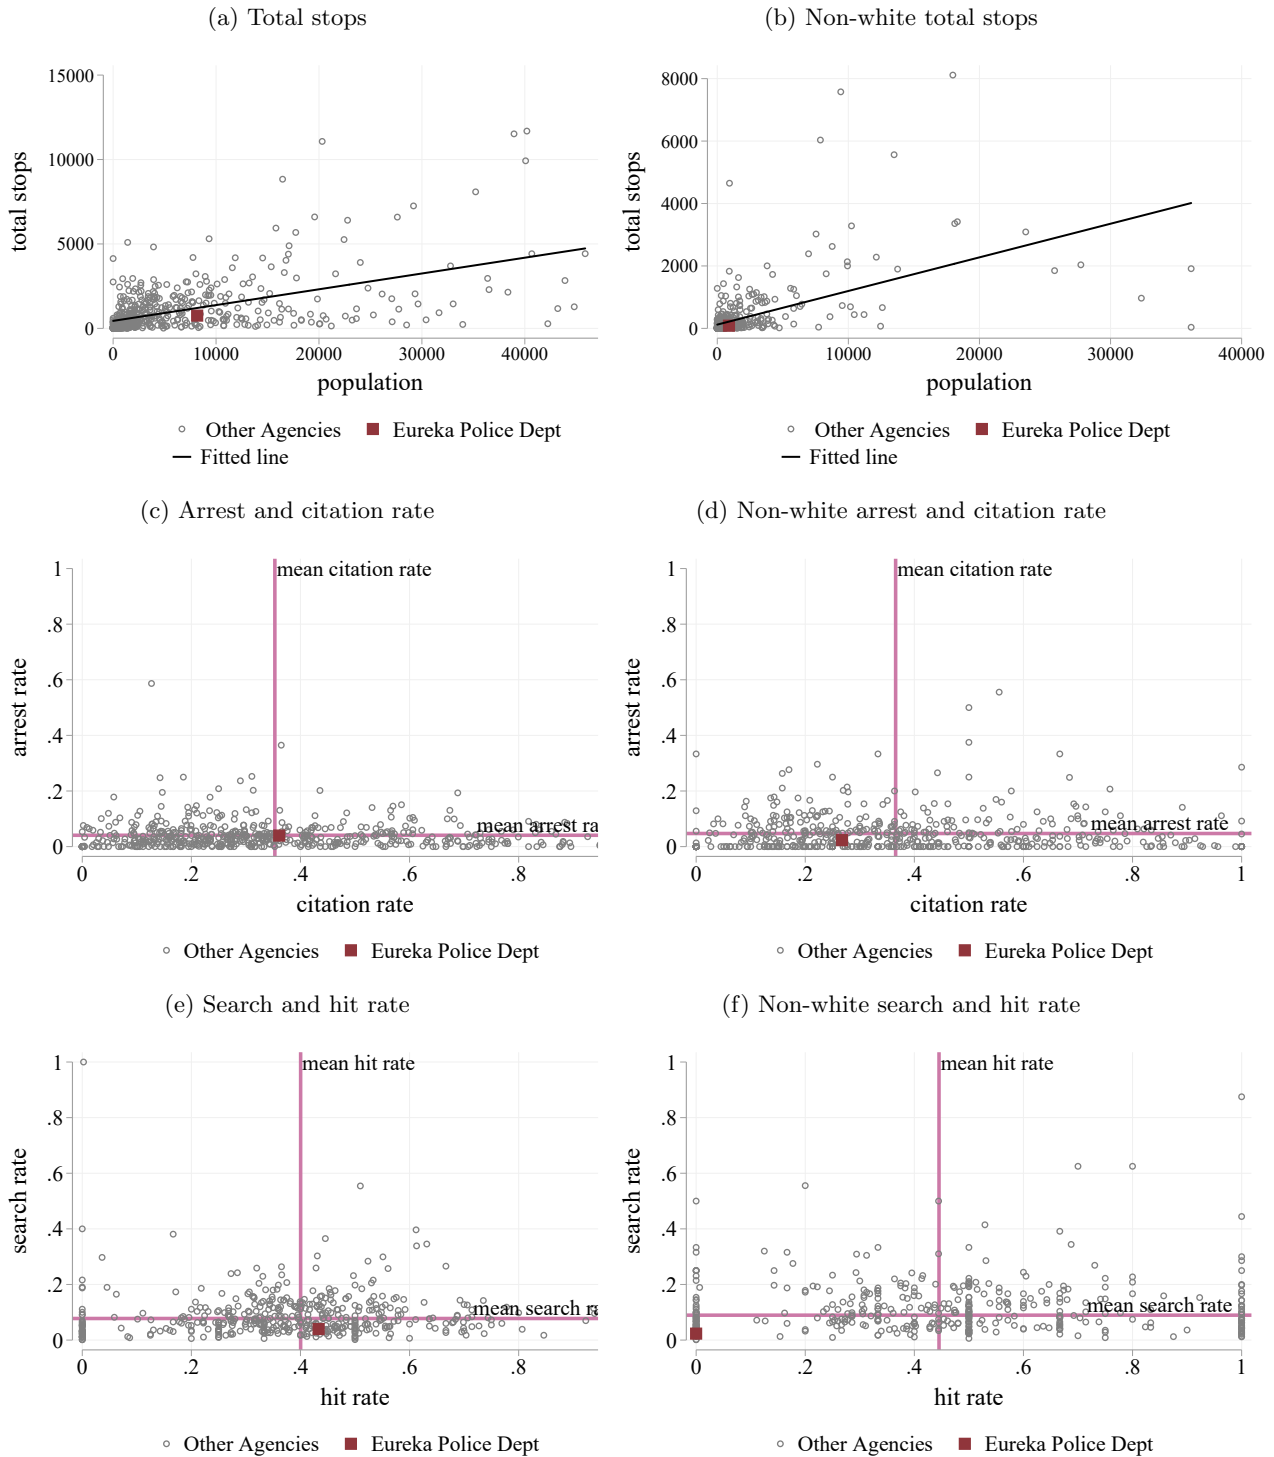

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Excelsior Springs Police Dept. provides service to Excelsior Springs, a tourist-driven community.

Figure 1: Comparison to other agencies by population for Excelsior Springs Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Excelsior Springs Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	9076	8145	425	234	6	75	263
2019 population %	100	89.74	4.68	2.58	.07	.83	2.9
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2788	2537	164	69	4	13	1
Resident stops	1360	1261	69	26	0	3	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.014	1.256	.96	2.17	.564	.012
Resident stops	.	1.033	1.083	.742	0	.267	.025

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

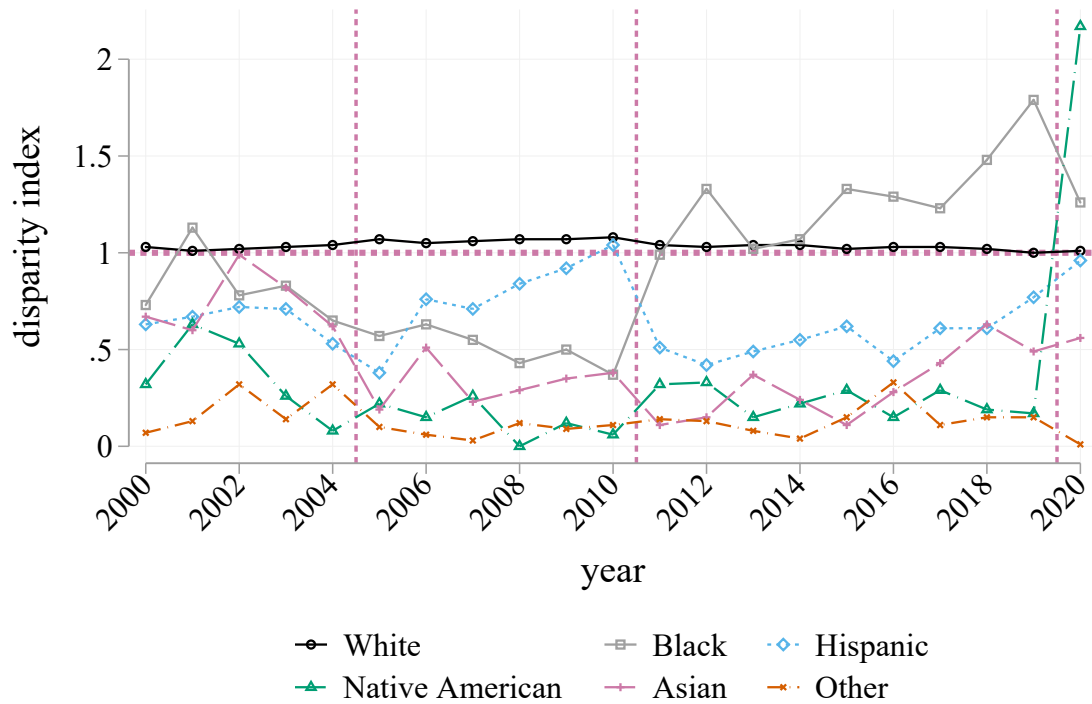

Table 3: Disparity Index from 2000 to 2020 for Excelsior Springs Police Dept

<b>2020</b>	1.01	1.26	.96	2.17	.56	.01

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Excelsior Springs Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

2019 population	1057	1037	0	13	0	4	6
2019 population %	100	98.11	0	1.23	0	.38	.57
<b>Stops</b>	.	.	.	.	.	.	.
All stops	626	599	11	10	3	1	2
Resident stops	282	280	0	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.975	.	1.299	.	.422	.563
Resident stops	.	1.012	.	.577	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

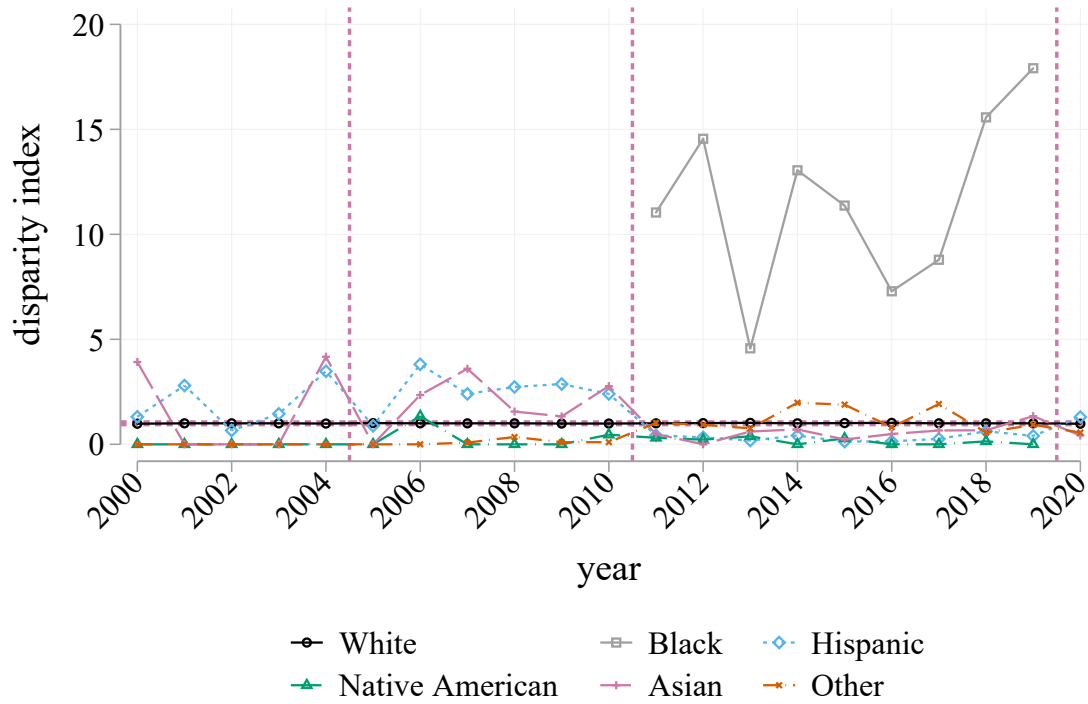

Table 3: Disparity Index from 2000 to 2020 for Fair Grove Police Dept

<b>2016</b>	1.02	7.29	.14	0	.49	.81
<b>2017</b>	1	8.79	.26	0	.66	1.92
<b>2018</b>	1	15.57	.62	.14	.67	.56
<b>2019</b>	1	17.91	.4	0	1.34	.93
<b>2020</b>	.98	.	1.3	.	.42	.56

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Fair Grove Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	8.09	8.18	.	0	.	.	0
Stop rate, residents	.58	.61	.	0	.	.	0
Search rate	0	0	0	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	.
Citation rate	64.29	66.67	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

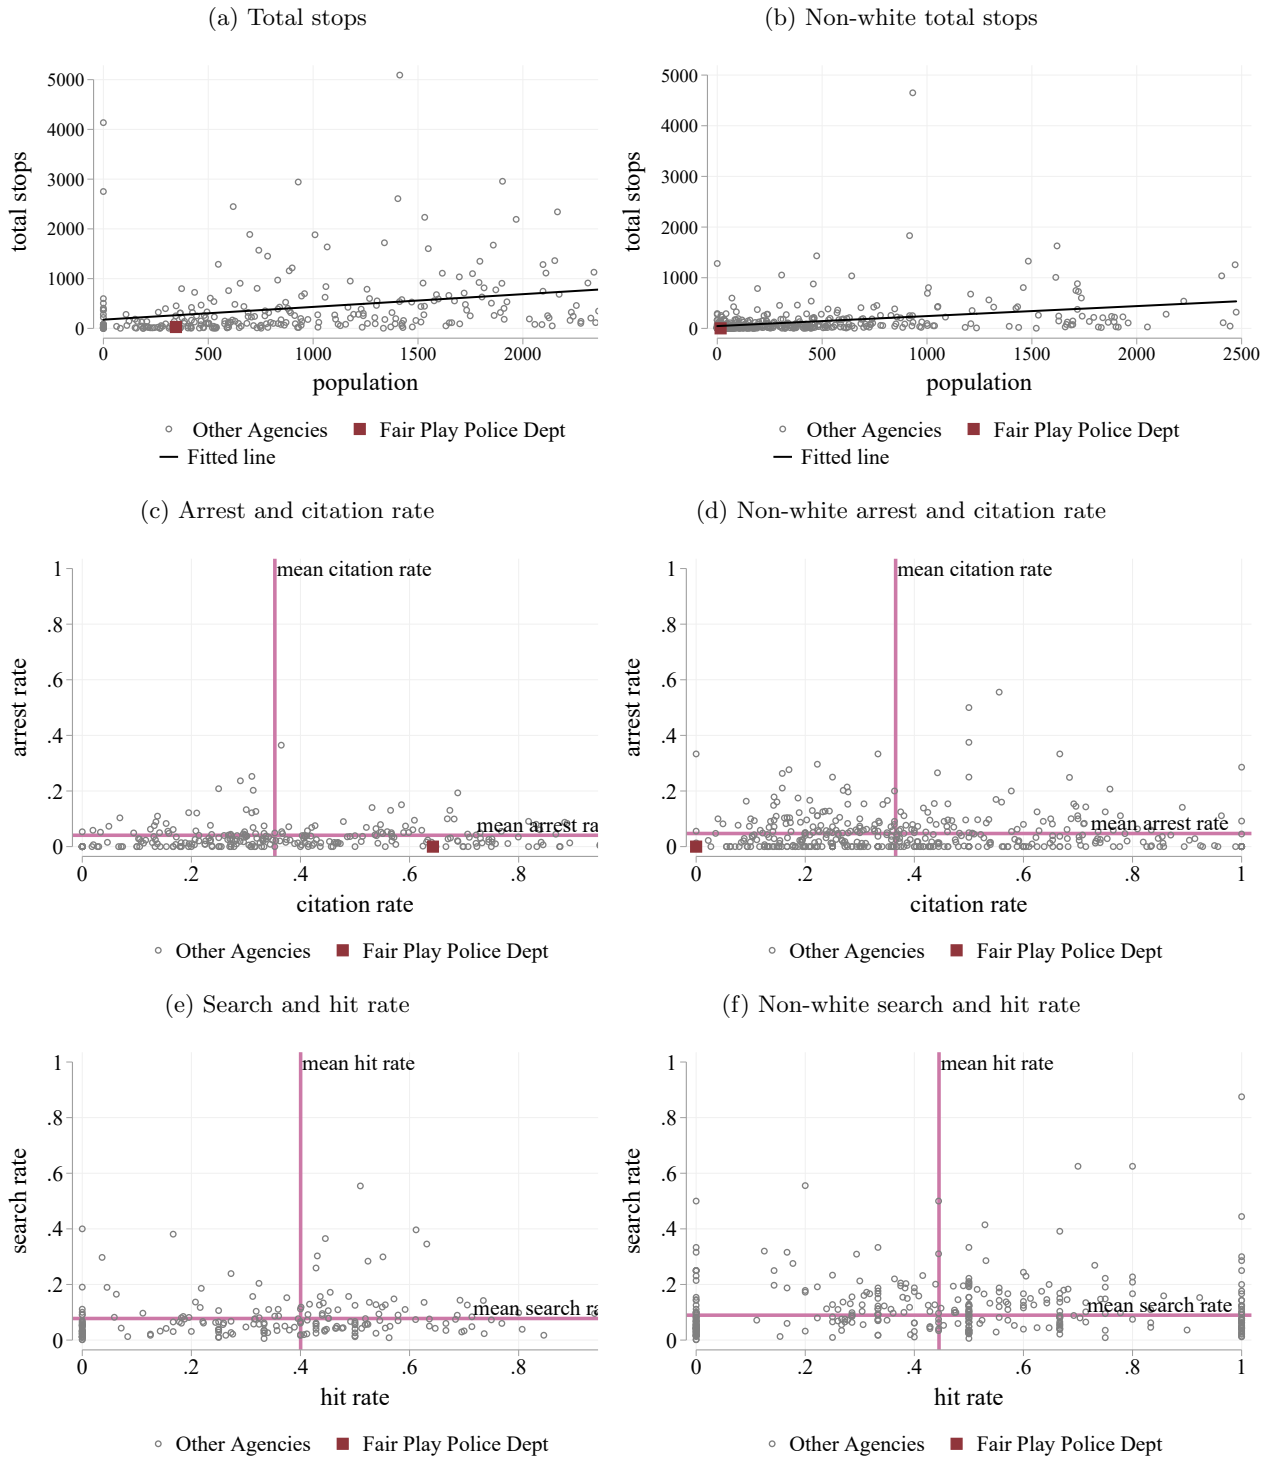

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Fair Play Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Fairview Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	1	1	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	1	1	0	0	0	0	0
Citations	71	61	8	1	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	30.64	27.8	80	33.33	0	.	.
Stop rate, residents	4.04	3.97	6.67	0	0	.	.
Search rate	1.1	1.3	0	0	.	.	0
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	1.1	1.3	0	0	.	.	0
Citation rate	78.02	79.22	66.67	100	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

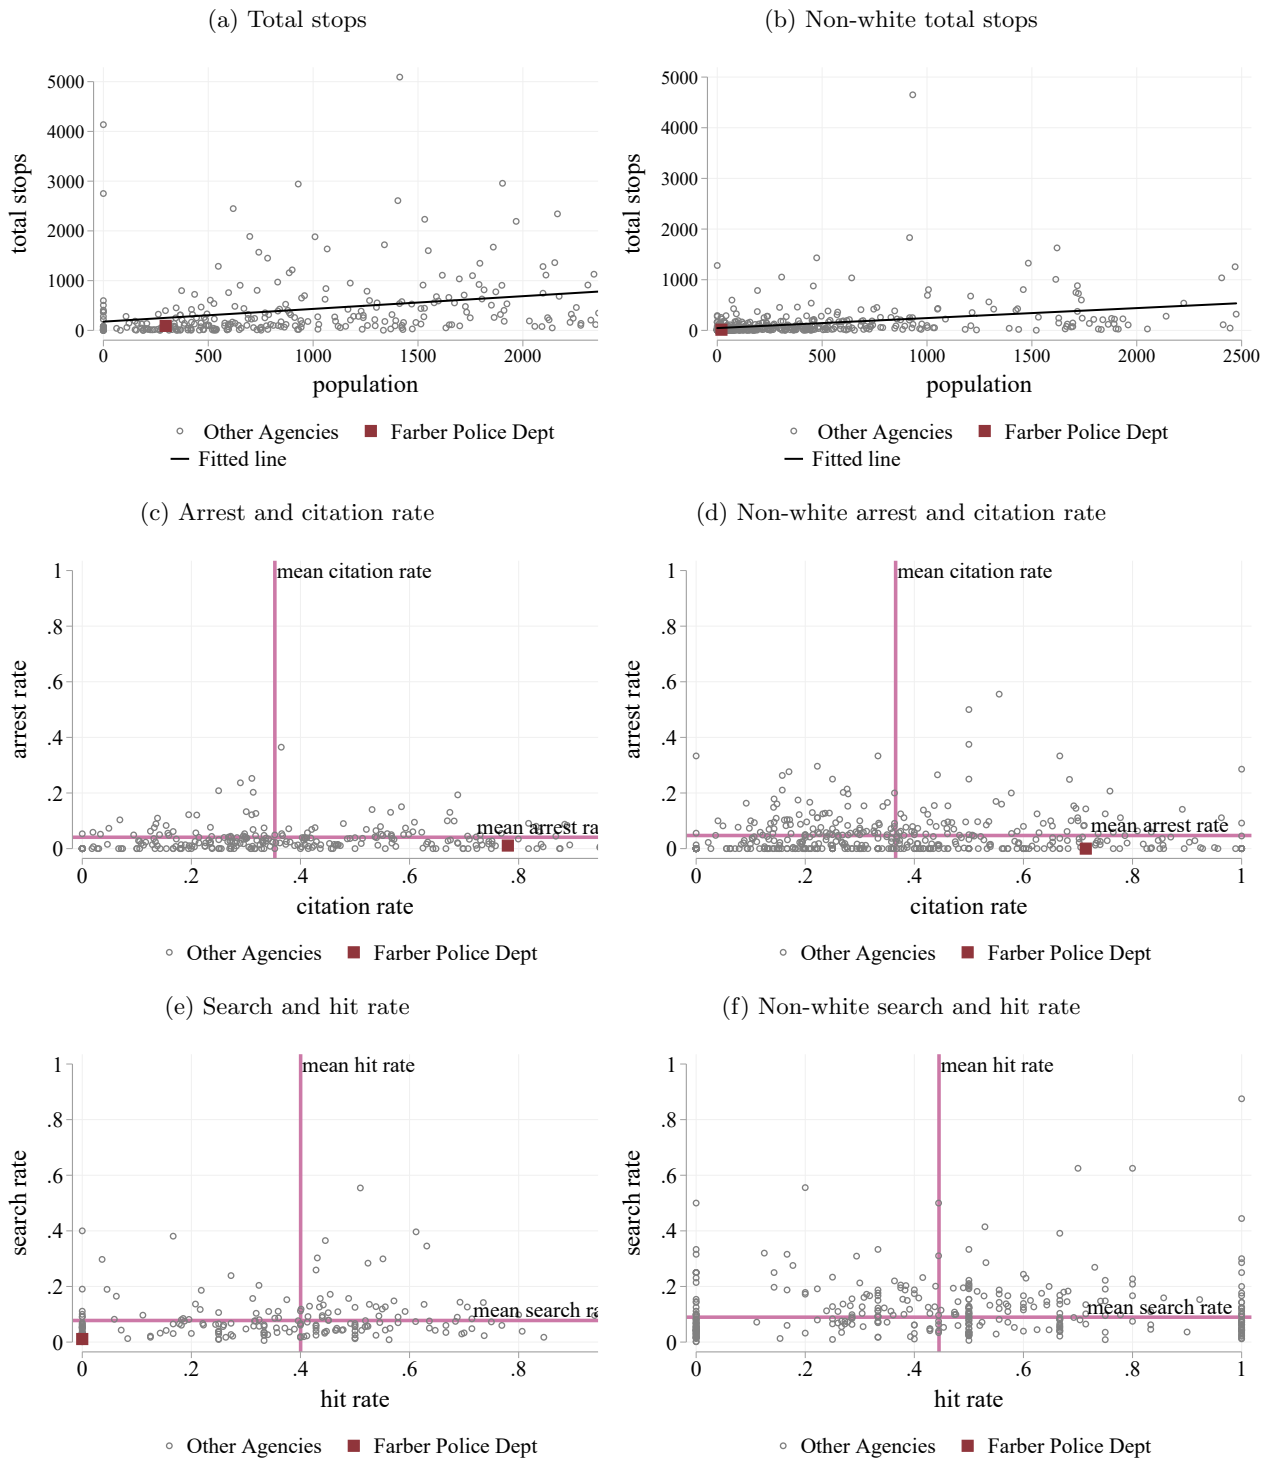

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Farber Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Farber Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other

<b>2017</b>	1.09	.33	.24	0	.57	.21
<b>2018</b>	1.08	.36	.37	0	.36	.46
<b>2019</b>	1.09	.31	.45	.06	.45	.16
<b>2020</b>	1.07	.53	.65	.56	.26	.24

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Farmington Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	1	1	0	0	0	0	0
Arrests	49	37	12	0	0	0	0
Citations	60	43	14	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	8.91	7.62	13.99	26.47	3.45	42.86	3.45
Stop rate, residents	3.31	2.35	6.85	14.71	3.45	28.57	3.45
Search rate	8.21	8.9	8.51	0	0	0	0
Contraband hit rate	5.88	7.69	0	.	.	.	.
Arrest rate	23.67	25.34	25.53	0	0	0	0
Citation rate	28.99	29.45	29.79	33.33	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

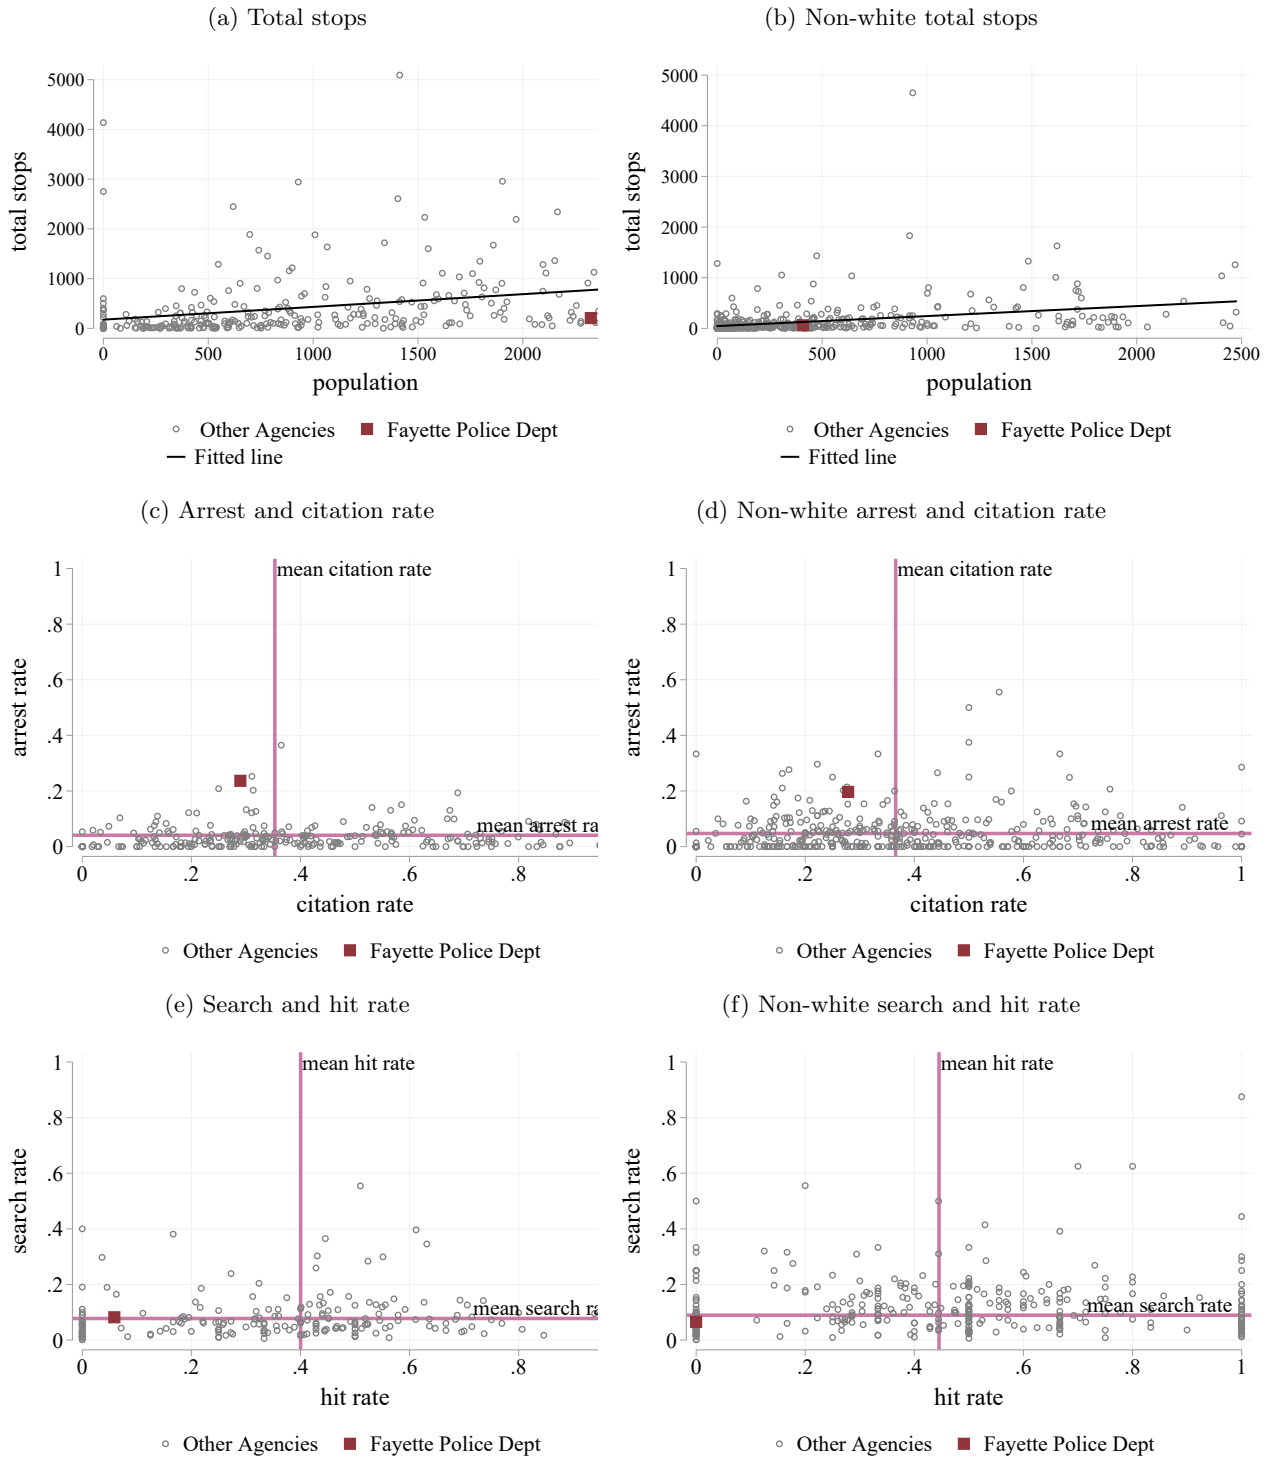

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Fayette Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Fayette Police Dept

<b>2018</b>	.27	1.42	.3	.13	.7	.44
<b>2019</b>	.24	1.44	.39	.52	.16	.51
<b>2020</b>	.24	1.39	.49	0	0	.39

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Ferguson Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	0	0	0	0	0	0	0
Citations	127	98	21	6	0	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	21.31	22.9	36.21	17.65	.	0	2.2
Stop rate, residents	1.68	1.87	1.72	2.94	.	0	0
Search rate	0	0	0	0	.	.	0
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	.	0
Citation rate	100	100	100	100	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

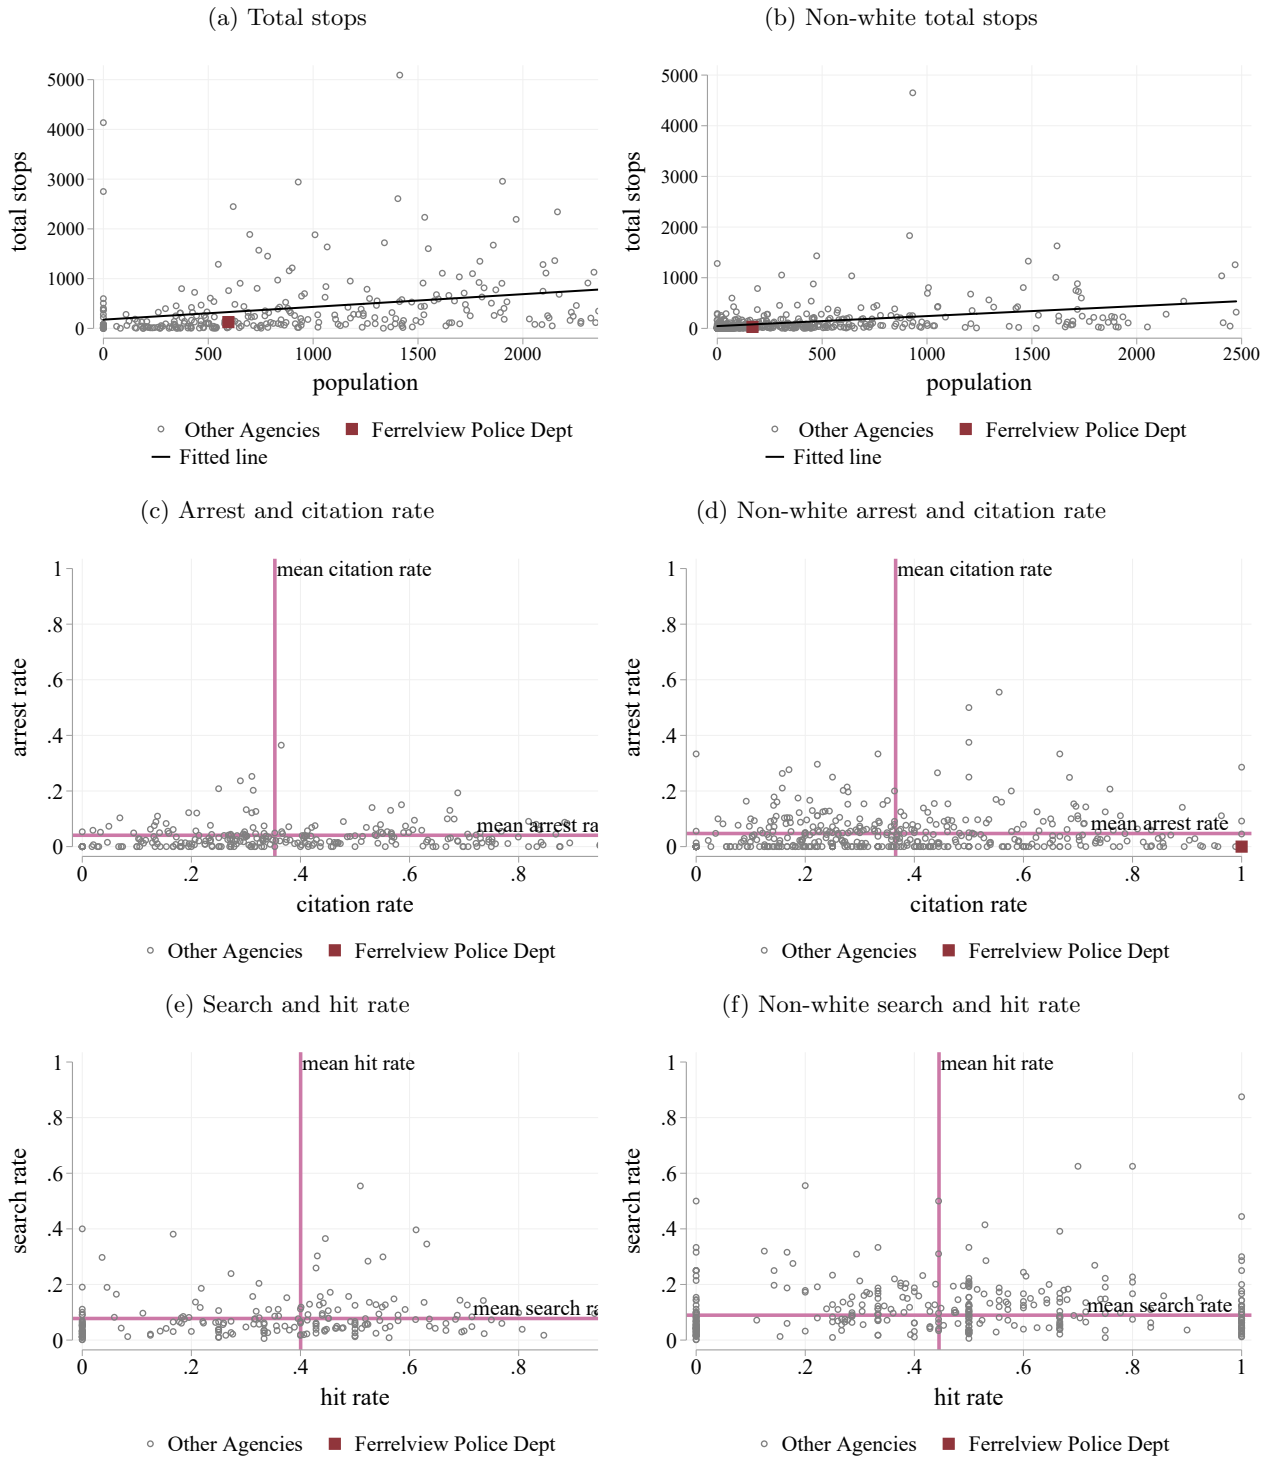

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ferrelview Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Festus Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	13	11	1	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	65.08	61.9	.	.	.	.	.
Stop rate, residents	4.76	4.76	.	.	.	.	.
Search rate	0	0	0	0	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	31.71	28.21	100	100	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

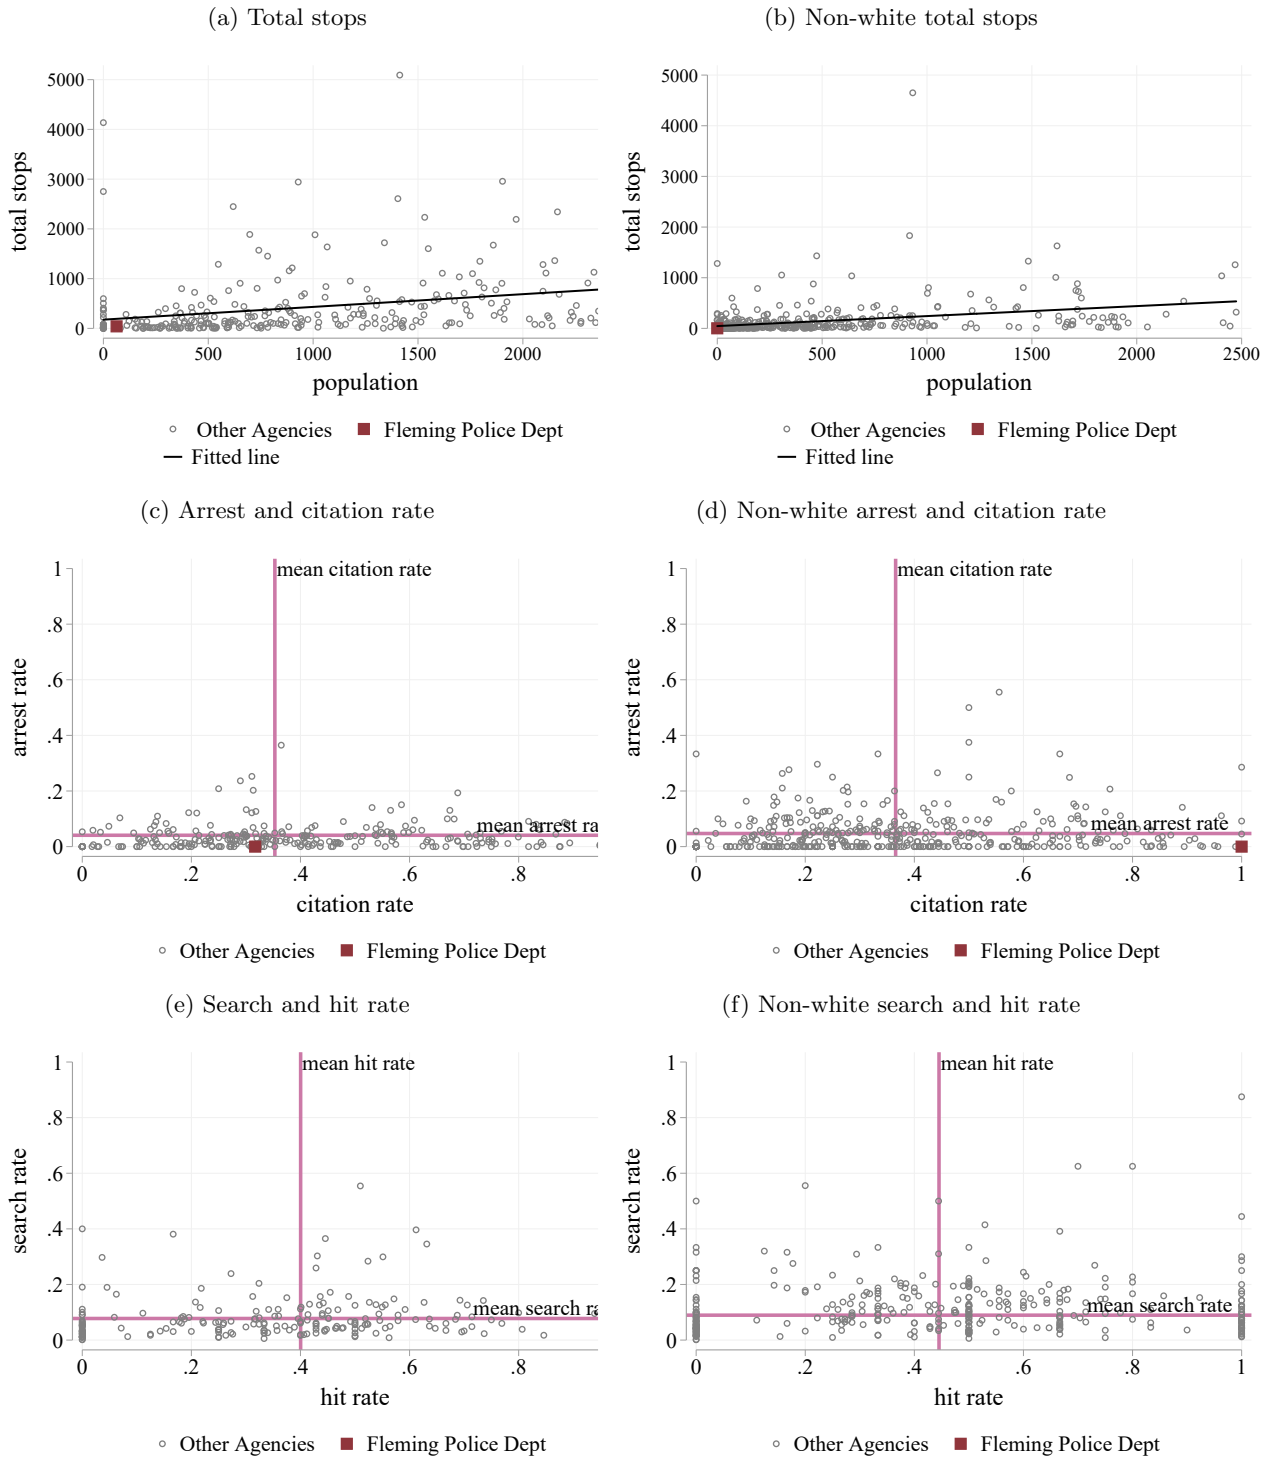

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Fleming Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Fleming Police Dept

The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Resident stops	0	0	0	0	0	0	0
Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	270	260	8	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	260.19	255.66	.	100	.	.	.
Stop rate, residents	0	0	.	0	.	.	.
Search rate	0	0	0	0	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	96.09	95.94	100	100	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

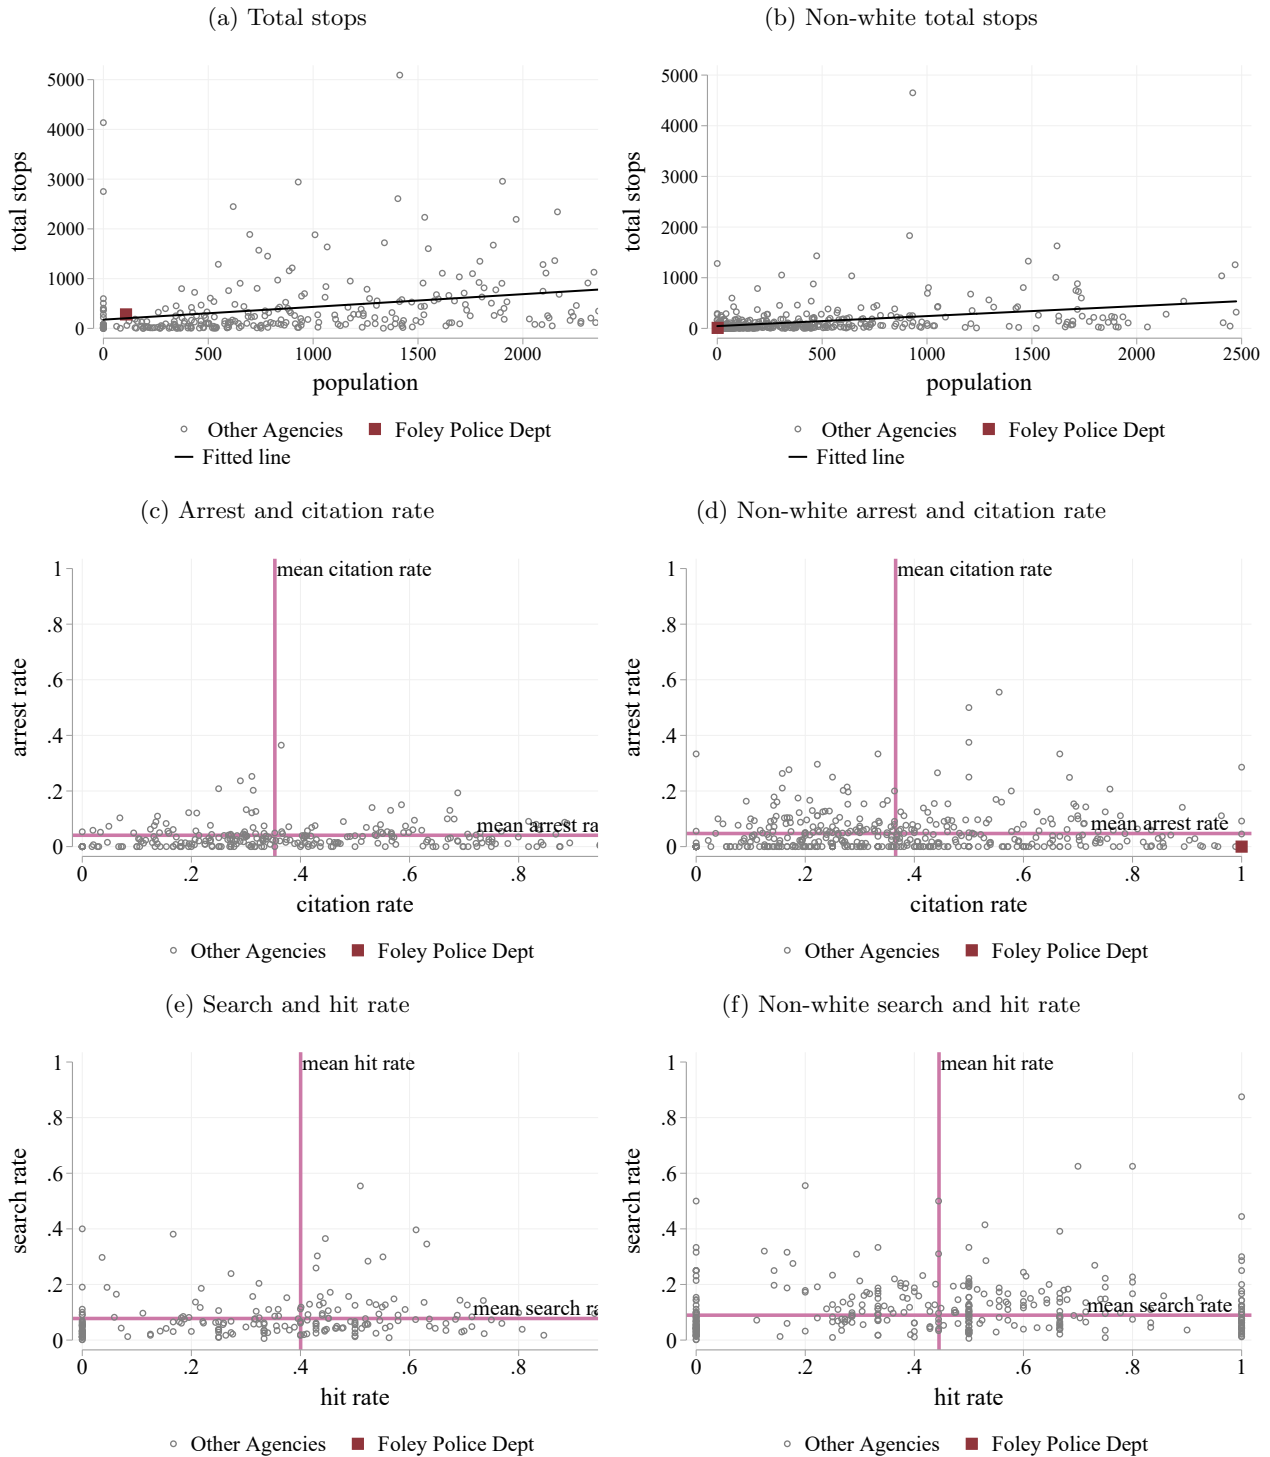

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Foley Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Foley Police Dept

Table 1: Rates by Race for Foristell Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	619	601	0	11	0	5	2
2019 population %	100	97.09	0	1.78	0	.81	.32
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2448	2193	178	42	8	13	14
Resident stops	55	55	0	0	0	0	0
Searches	135	107	23	5	0	0	0
Contraband	70	54	14	2	0	0	0
Arrests	37	27	7	3	0	0	0
Citations	1131	1007	88	19	4	7	6
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	395.48	364.89	.	381.82	.	260	700
Stop rate, residents	8.89	9.15	.	0	.	0	0
Search rate	5.51	4.88	12.92	11.9	0	0	0
Contraband hit rate	51.85	50.47	60.87	40	.	.	.
Arrest rate	1.51	1.23	3.93	7.14	0	0	0
Citation rate	46.2	45.92	49.44	45.24	50	53.85	42.86

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

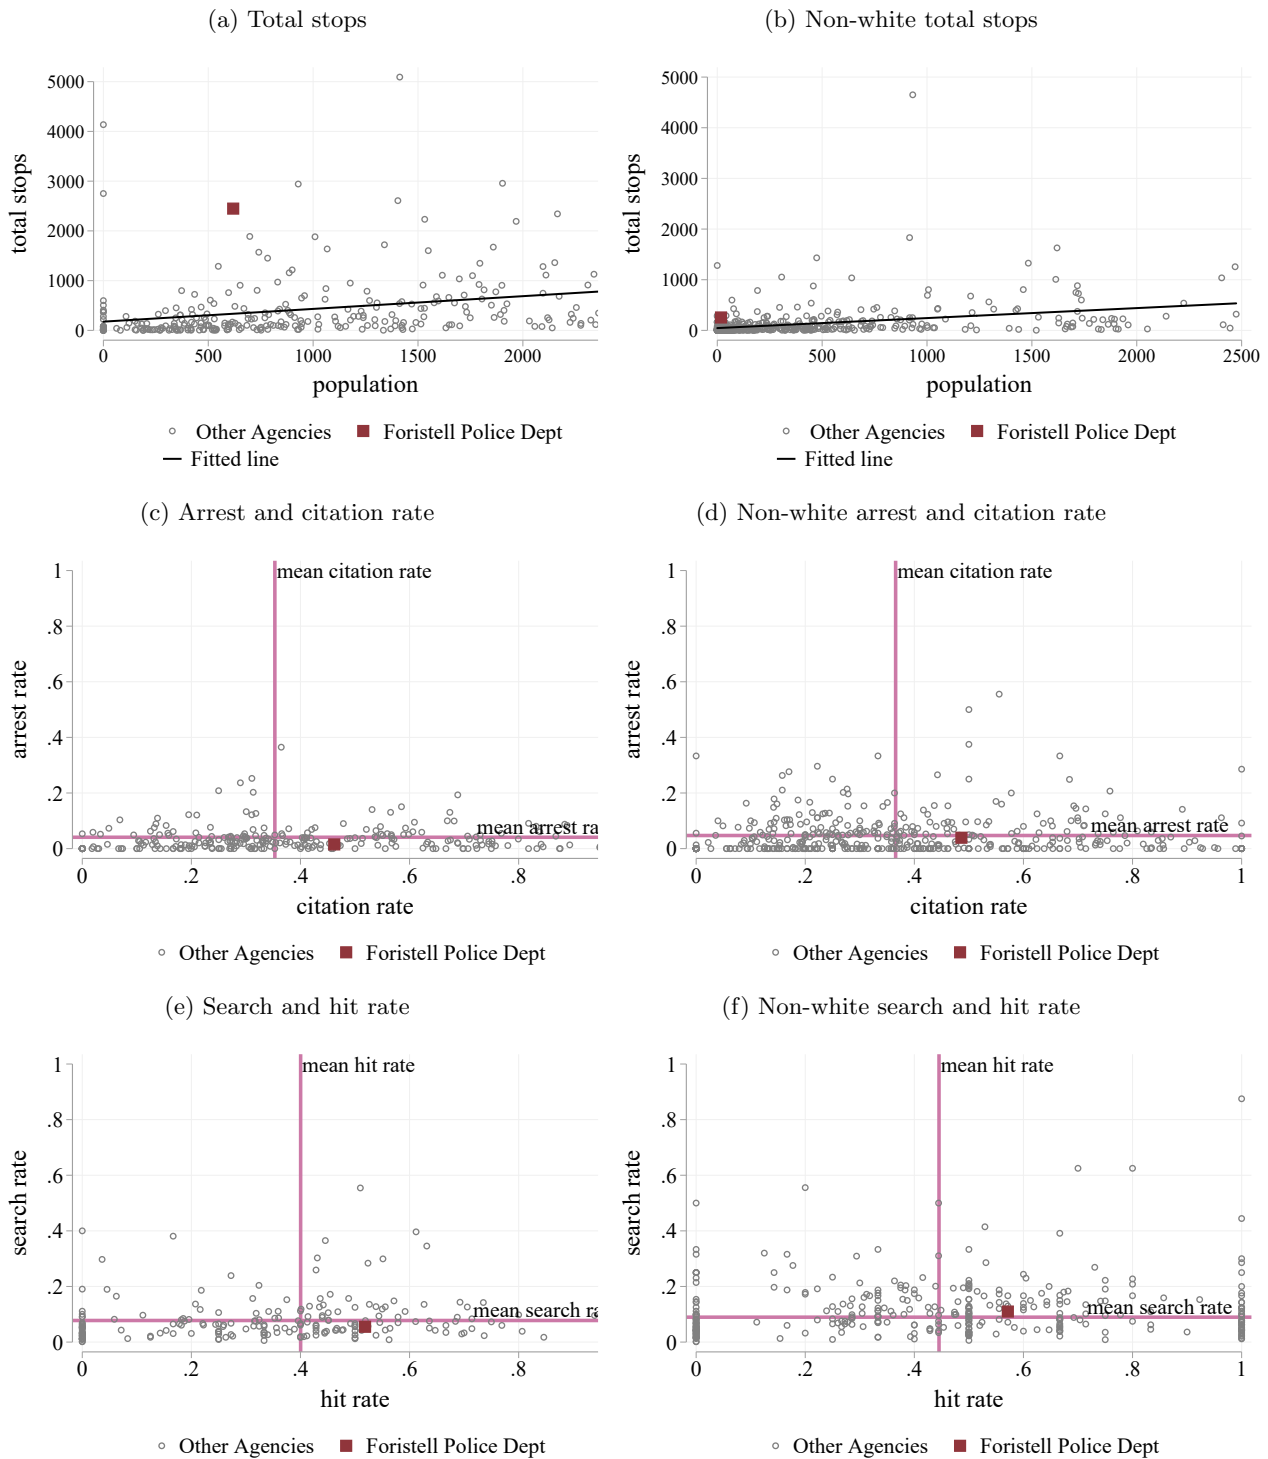

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Foristell Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Foristell Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	619	601	0	11	0	5	2
2019 population %	100	97.09	0	1.78	0	.81	.32
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2448	2193	178	42	8	13	14
Resident stops	55	55	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.923	.	.965	.	.657	1.77
Resident stops	.	1.03	.	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Foristell Police Dept

## 1.172 Frankford Police Dept

Table 1: Rates by Race for Frankford Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	313	302	7	0	0	2	2
2019 population %	100	96.49	2.24	0	0	.64	.64
<b>Totals</b>	.	.	.	.	.	.	.
All stops	3	2	1	0	0	0	0
Resident stops	0	0	0	0	0	0	0
Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	0	0	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.96	.66	14.29	.	.	0	0
Stop rate, residents	0	0	0	.	.	0	0
Search rate	0	0	0	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	.
Citation rate	0	0	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

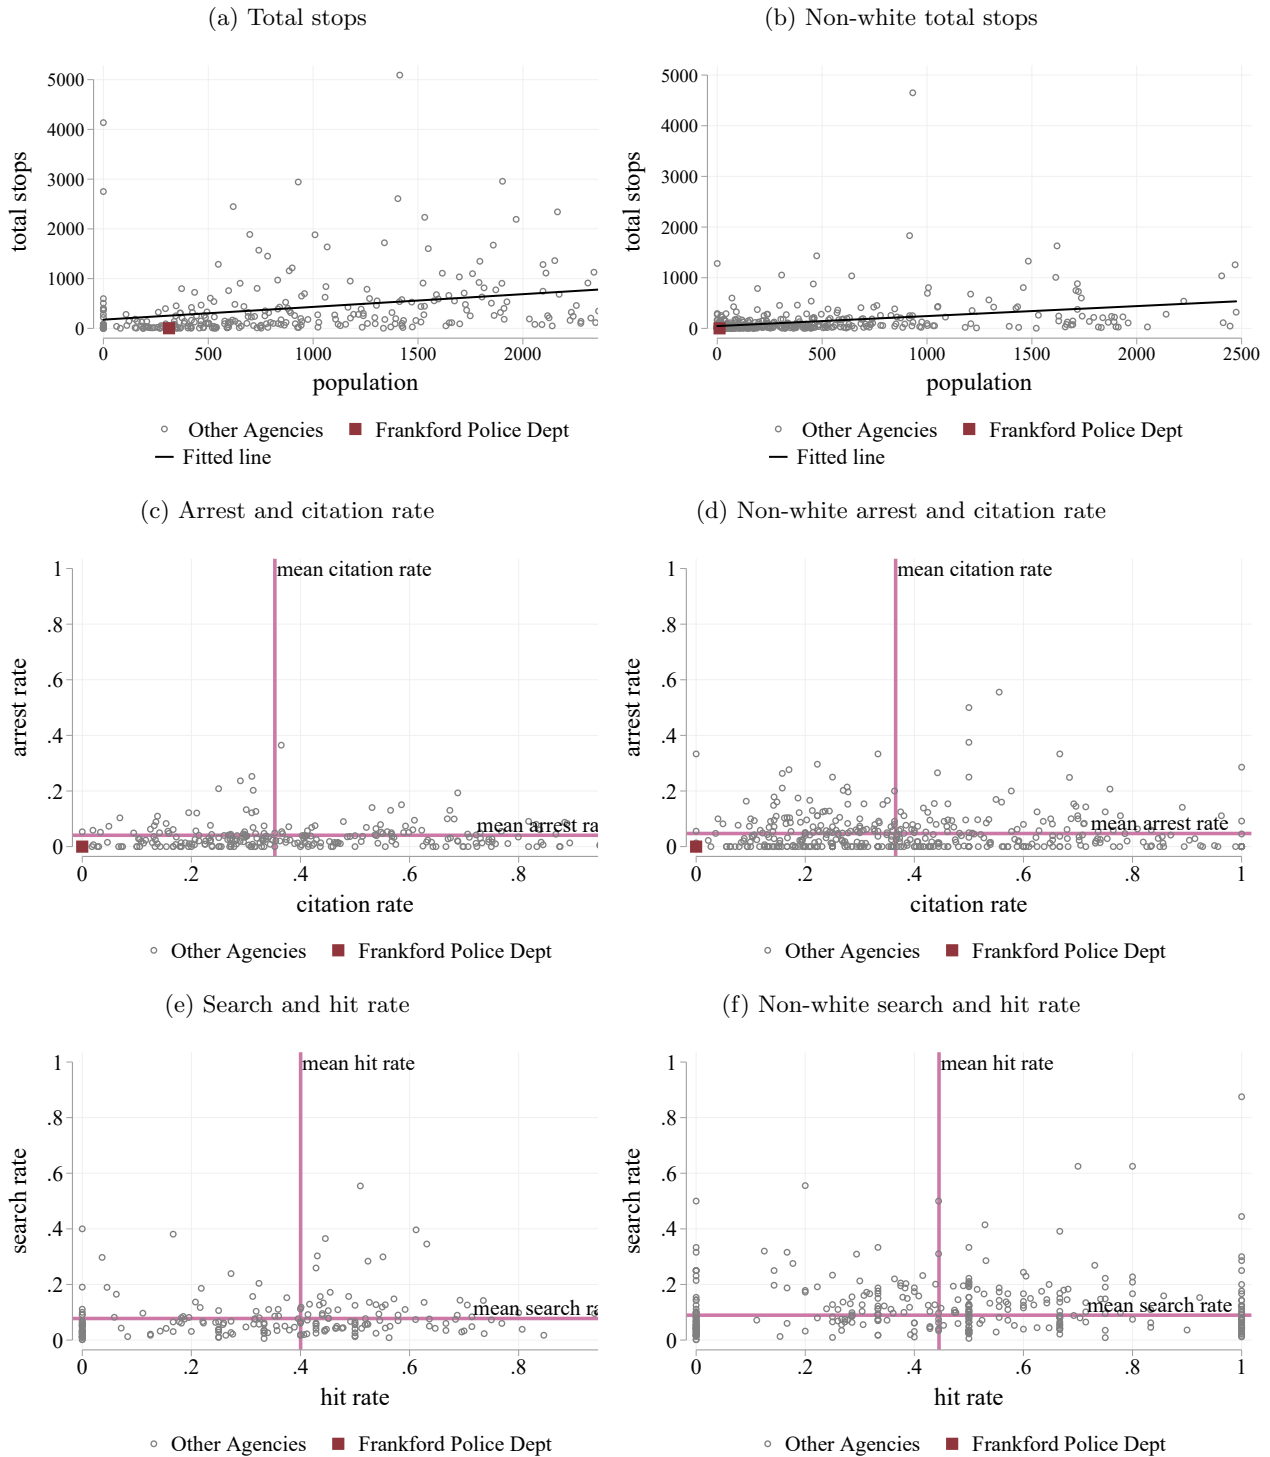

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Frankford Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Frankford Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	313	302	7	0	0	2	2
2019 population %	100	96.49	2.24	0	0	.64	.64
<b>Stops</b>	.	.	.	.	.	.	.
All stops	3	2	1	0	0	0	0
Resident stops	0	0	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.691	14.905	.	.	0	0
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.174 Fredericktown Police Dept

Table 1: Rates by Race for Fredericktown Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3289	2984	23	171	0	41	86
2019 population %	100	90.73	.7	5.2	0	1.25	2.61
<b>Totals</b>	.	.	.	.	.	.	.
All stops	450	427	15	4	1	2	1
Resident stops	221	214	5	2	0	0	0
Searches	70	69	1	0	0	0	0
Contraband	22	22	0	0	0	0	0
Arrests	32	31	1	0	0	0	0
Citations	230	220	8	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	13.68	14.31	65.22	2.34	.	4.88	1.16
Stop rate, residents	6.72	7.17	21.74	1.17	.	0	0
Search rate	15.56	16.16	6.67	0	0	0	0
Contraband hit rate	31.43	31.88	0	.	.	.	.
Arrest rate	7.11	7.26	6.67	0	0	0	0
Citation rate	51.11	51.52	53.33	50	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

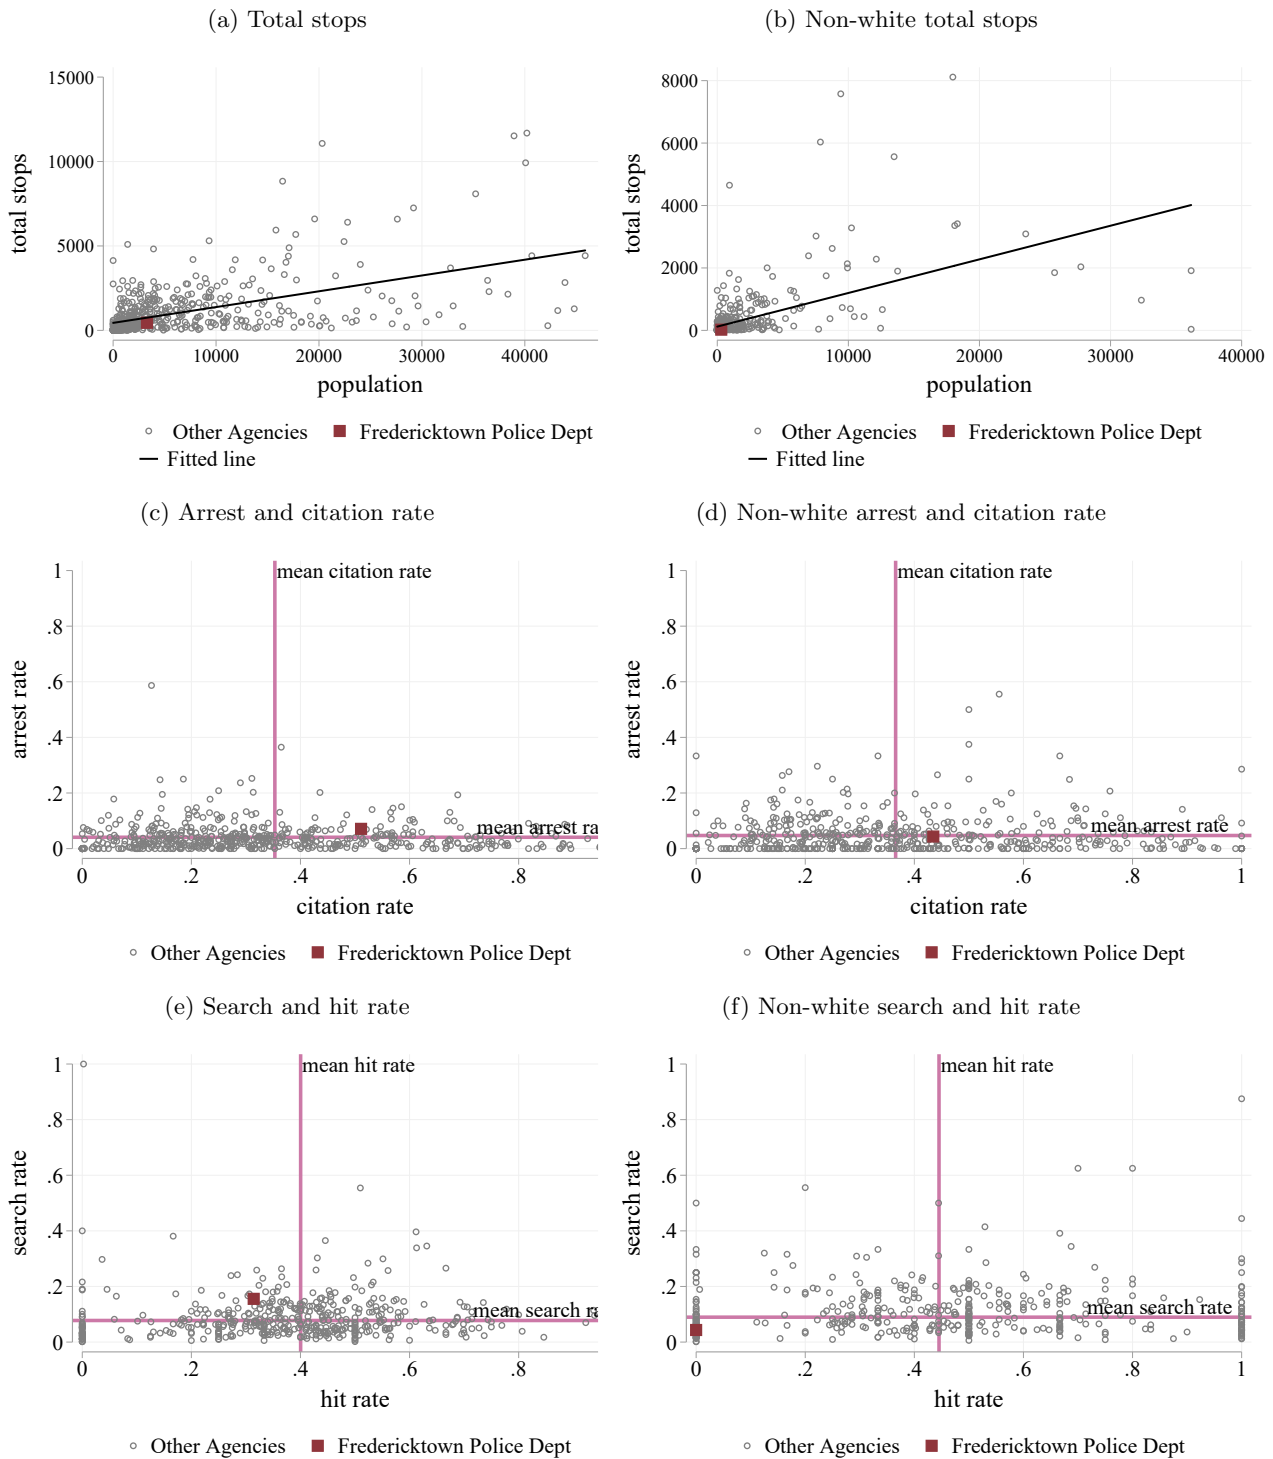

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Fredericktown Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Fredericktown Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3289	2984	23	171	0	41	86
2019 population %	100	90.73	.7	5.2	0	1.25	2.61
<b>Stops</b>	.	.	.	.	.	.	.
All stops	450	427	15	4	1	2	1
Resident stops	221	214	5	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.046	4.767	.171	.	.357	.085
Resident stops	.	1.067	3.235	.174	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.176 Fulton Police Dept

Table 1: Rates by Race for Fulton Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10910	9193	1222	251	61	85	180
2019 population %	100	84.26	11.2	2.3	.56	.78	1.65
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1486	1111	331	19	2	7	16
Resident stops	633	474	147	7	1	2	2
Searches	17864	17817	45	1	0	0	1
Contraband	42	22	20	0	0	0	0
Arrests	86	50	36	0	0	0	0
Citations	270	194	68	4	0	1	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	13.62	12.09	27.09	7.57	3.28	8.24	8.89
Stop rate, residents	5.8	5.16	12.03	2.79	1.64	2.35	1.11
Search rate	1202.15	1603.69	13.6	5.26	0	0	6.25
Contraband hit rate	.24	.12	44.44	0	.	.	0
Arrest rate	5.79	4.5	10.88	0	0	0	0
Citation rate	18.17	17.46	20.54	21.05	0	14.29	18.75

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

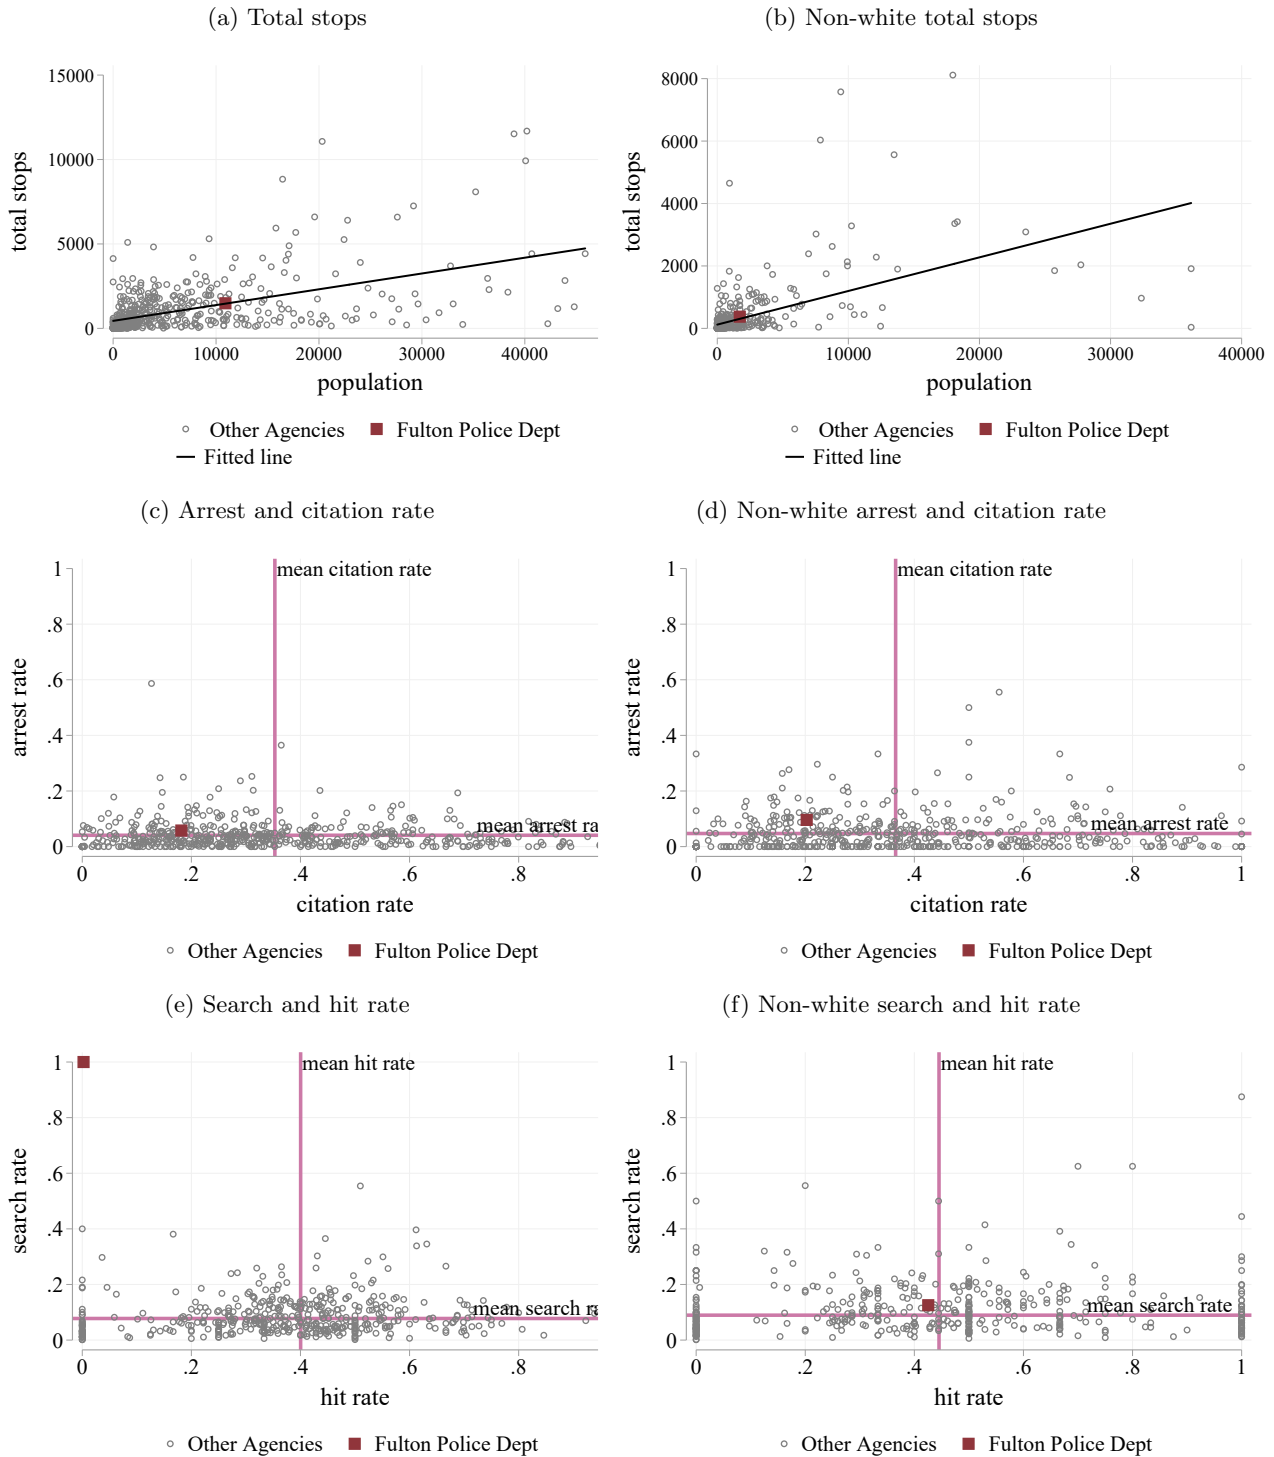

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Fulton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Fulton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10910	9193	1222	251	61	85	180
2019 population %	100	84.26	11.2	2.3	.56	.78	1.65
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1486	1111	331	19	2	7	16
Resident stops	633	474	147	7	1	2	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.887	1.989	.556	.241	.605	.653
Resident stops	.	.889	2.073	.481	.283	.406	.192

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

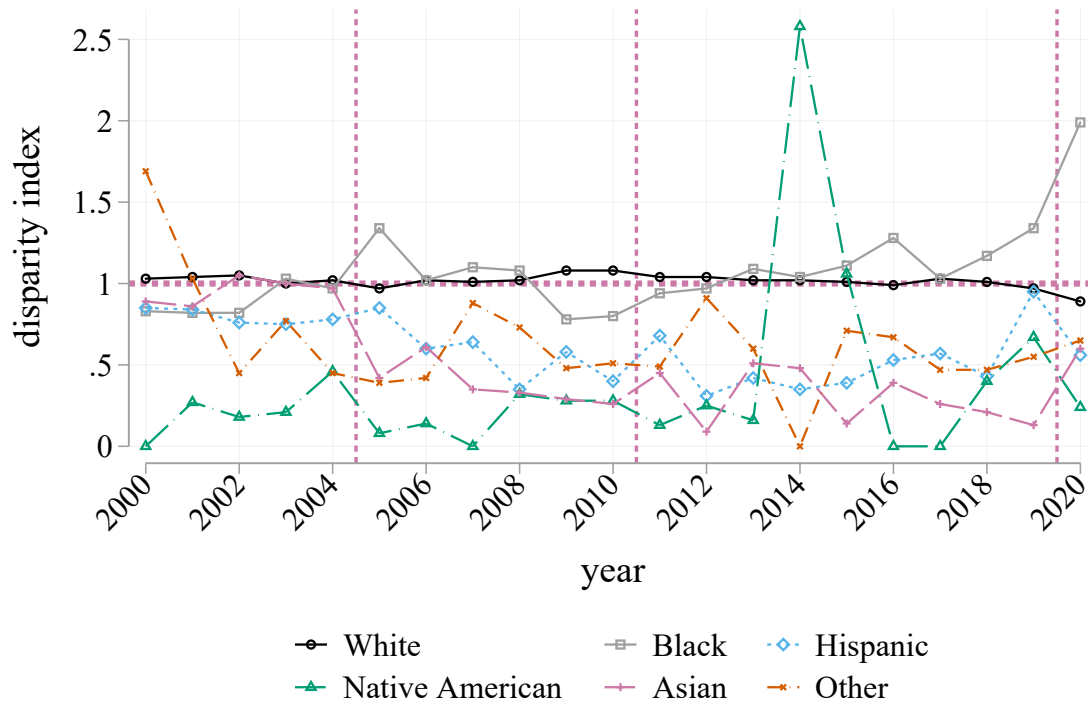

Table 3: Disparity Index from 2000 to 2020 for Fulton Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.03	.83	.85	0	.89	1.69

<b>2010</b>	1.08	.8	.4	.28	.26	.51
<b>2011</b>	1.04	.94	.68	.13	.45	.49
<b>2012</b>	1.04	.97	.31	.25	.09	.91
<b>2013</b>	1.02	1.09	.42	.16	.51	.6
<b>2014</b>	1.02	1.04	.35	2.58	.48	0
<b>2015</b>	1.01	1.11	.39	1.06	.14	.71
<b>2016</b>	.99	1.28	.53	0	.39	.67
<b>2017</b>	1.03	1.03	.57	0	.26	.47
<b>2018</b>	1.01	1.17	.43	.4	.21	.47
<b>2019</b>	.97	1.34	.95	.67	.13	.55
<b>2020</b>	.89	1.99	.56	.24	.6	.65

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Fulton Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.178 Gallatin Police Dept

Table 1: Rates by Race for Gallatin Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1296	1262	0	25	4	3	4
2019 population %	100	97.38	0	1.93	.31	.23	.31
<b>Totals</b>	.	.	.	.	.	.	.
All stops	93	86	2	5	0	0	0
Resident stops	70	63	2	5	0	0	0
Searches	12	12	0	0	0	0	0
Contraband	5	5	0	0	0	0	0
Arrests	5	5	0	0	0	0	0
Citations	52	52	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.18	6.81	.	20	0	0	0
Stop rate, residents	5.4	4.99	.	20	0	0	0
Search rate	12.9	13.95	0	0	.	.	.
Contraband hit rate	41.67	41.67	.	.	.	.	.
Arrest rate	5.38	5.81	0	0	.	.	.
Citation rate	55.91	60.47	0	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

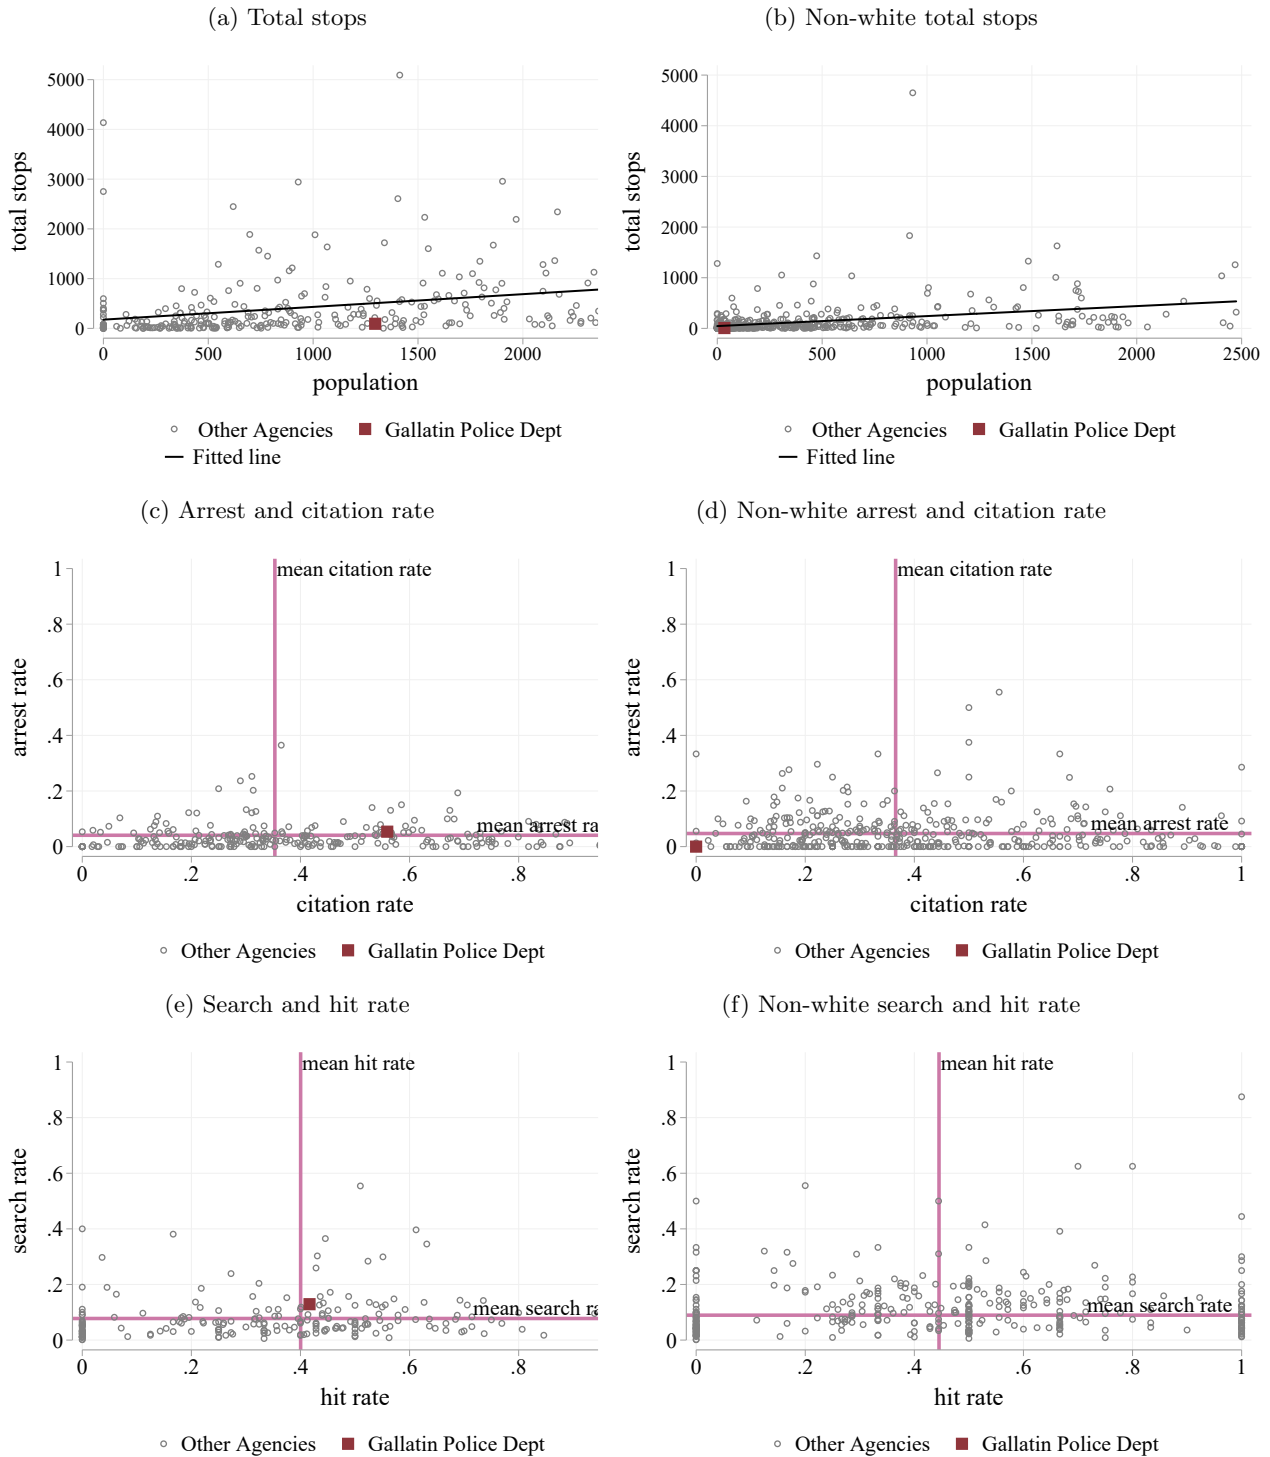

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Gallatin Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Gallatin Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1296	1262	0	25	4	3	4
2019 population %	100	97.38	0	1.93	.31	.23	.31
<b>Stops</b>	.	.	.	.	.	.	.
All stops	93	86	2	5	0	0	0
Resident stops	70	63	2	5	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.95	.	2.787	0	0	0
Resident stops	.	.924	.	3.703	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Gallatin Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.01	.	0	0	.	0

<b>2018</b>	.97	27.88	5.81	0	0	0
<b>2019</b>	.98	42.47	0	0	0	0
<b>2020</b>	.95	.	2.79	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Gallatin Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.180 Gasconade Police Dept

Table 1: Rates by Race for Gasconade Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	234	234	0	0	0	0	0
2019 population %	100	100	0	0	0	0	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	11	11	0	0	0	0	0
Resident stops	1	1	0	0	0	0	0
Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	11	11	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.7	4.7	.	.	.	.	.
Stop rate, residents	.43	.43	.	.	.	.	.
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	100	100	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

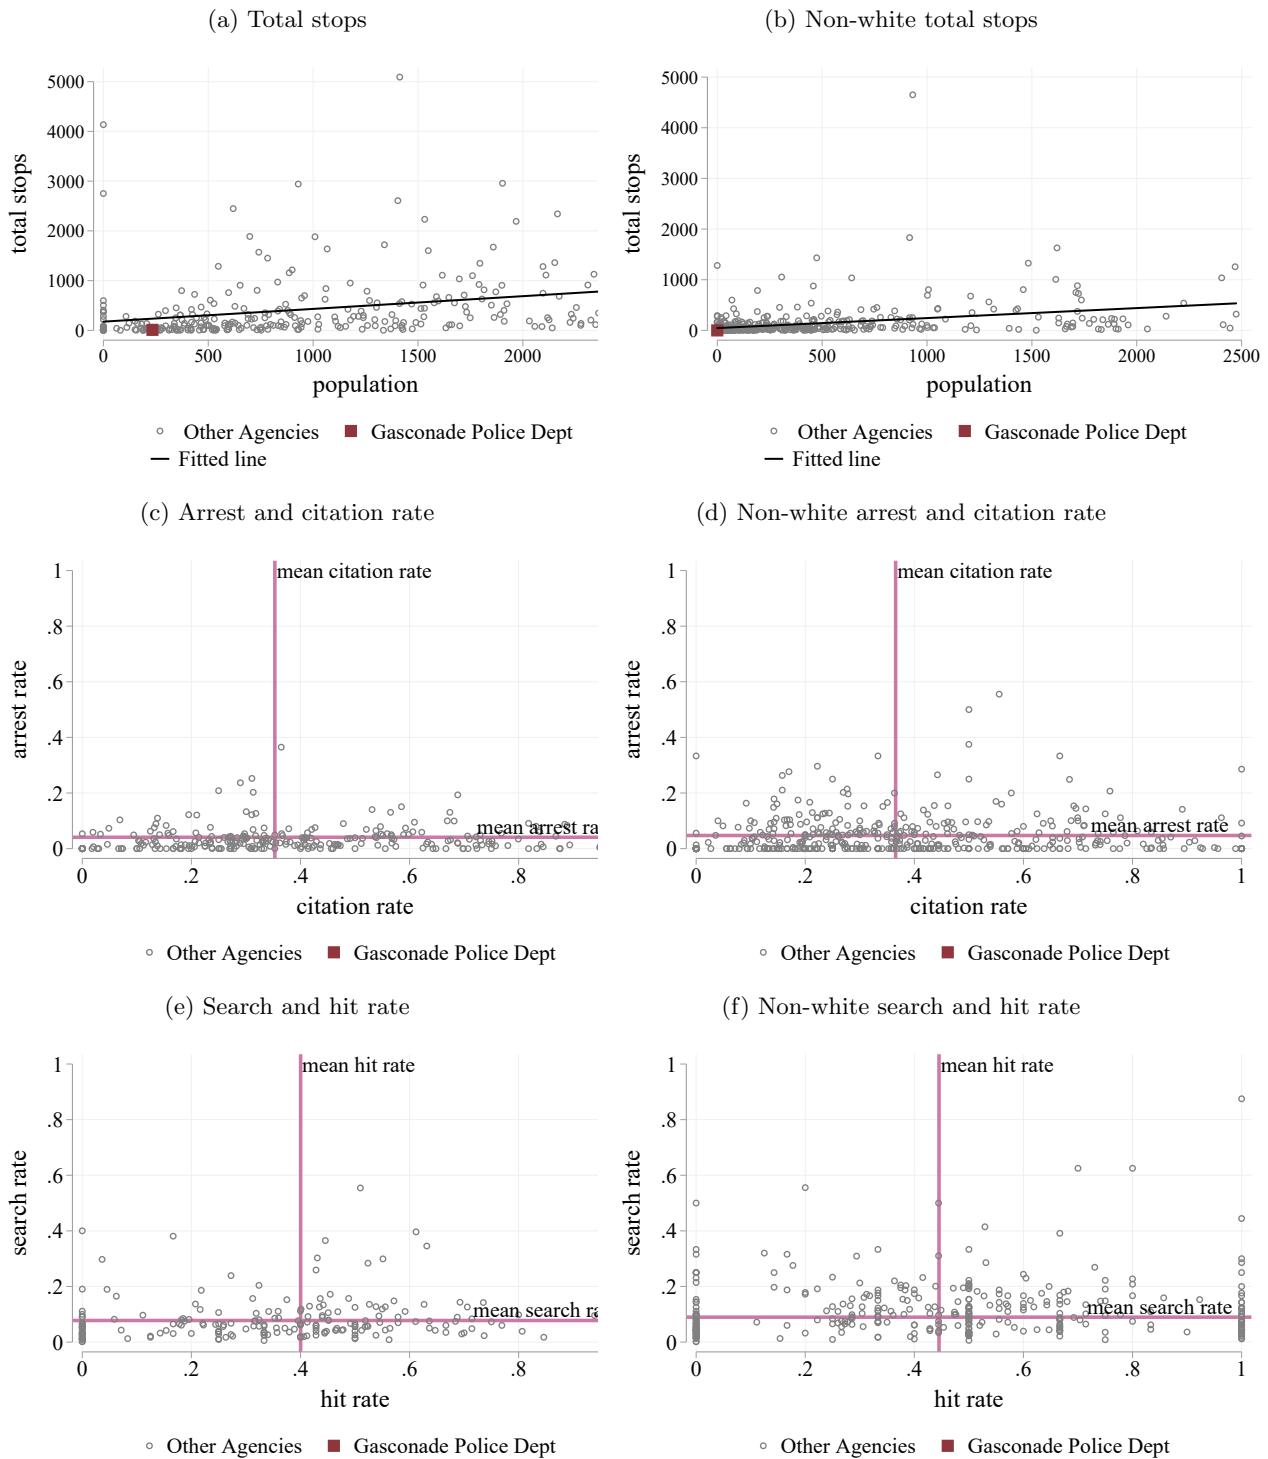

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Gasconade Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Gasconade Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	234	234	0	0	0	0	0
2019 population %	100	100	0	0	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	11	11	0	0	0	0	0
Resident stops	1	1	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1	.	.	.	.	.
Resident stops	.	1	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

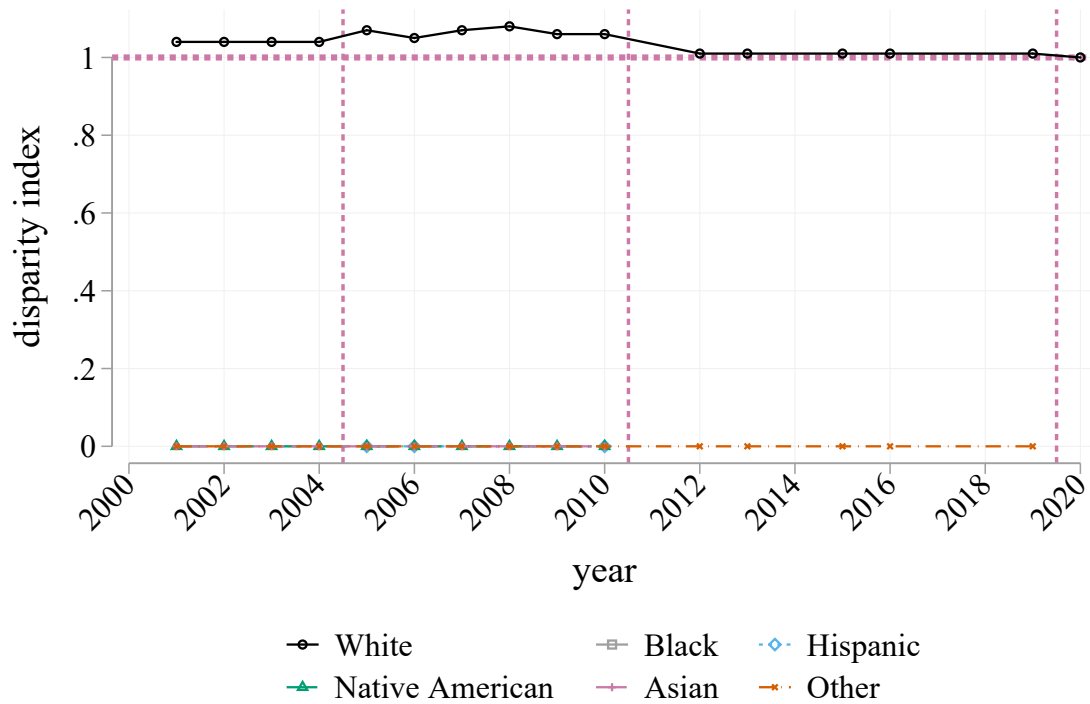

Table 3: Disparity Index from 2000 to 2020 for Gasconade Police Dept

	White	Black	Hispanic	Native American	Asian	Other

<b>2016</b>	1.01	.	.	.	.	0
<b>2017</b>	.	.	.	.	.	.
<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	1.01	.	.	.	.	0
<b>2020</b>	1	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Gasconade Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate	14.48	15.19	100	5.88	.	.	2.17
Stop rate, residents	6.45	6.92	0	0	.	.	0
Search rate	8.03	8.21	0	0	.	.	0
Contraband hit rate	18.18	18.18	.	.	.	.	.
Arrest rate	8.03	8.21	0	0	.	.	0
Citation rate	83.21	82.84	100	100	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

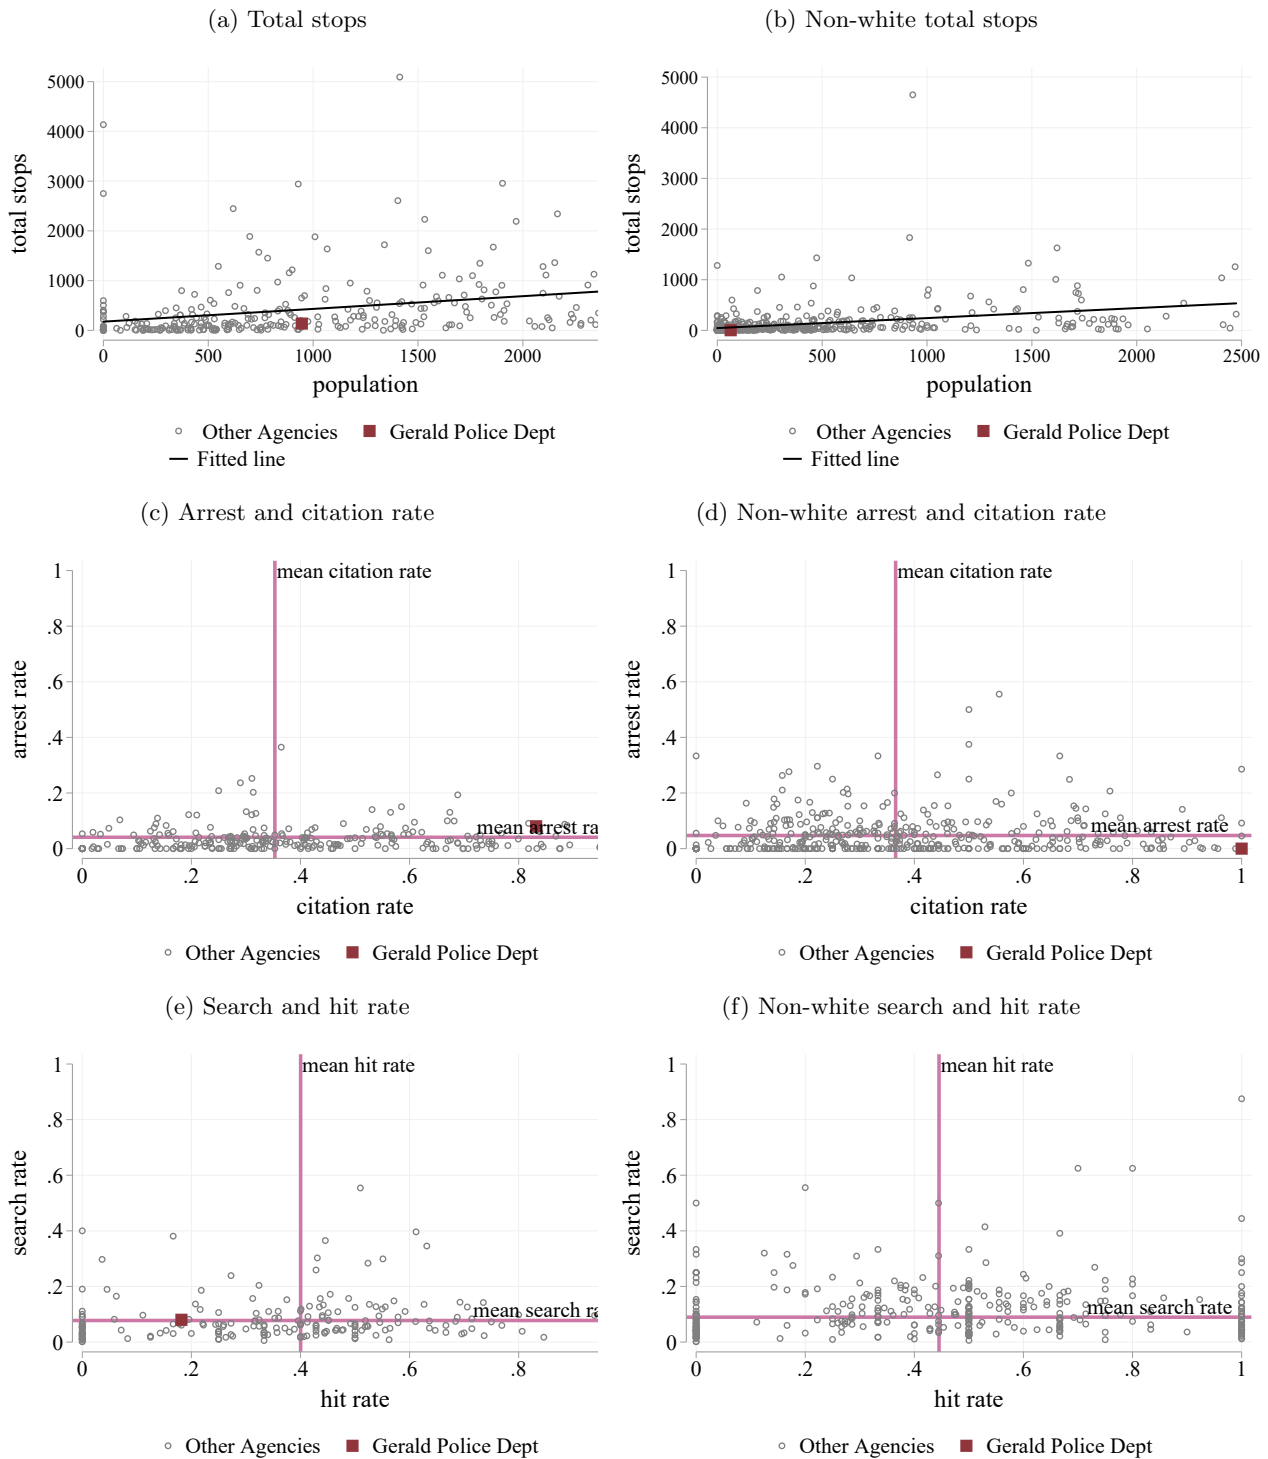

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Gerald Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Gerald Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	946	882	1	17	0	0	46
2019 population %	100	93.23	.11	1.8	0	0	4.86
<b>Stops</b>	.	.	.	.	.	.	.
All stops	137	134	1	1	0	0	1
Resident stops	61	61	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.049	6.905	.406	.	.	.15
Resident stops	.	1.073	0	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Gerald Police Dept

<b>2018</b>	.97	9.65	3.26	0	0	1.29
<b>2019</b>	.97	13.67	1.09	0	.39	1.56
<b>2020</b>	1.05	6.91	.41	.	.	.15

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Gerald Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Gladstone Dept of Public Safety. provides service to the city of Gladstone, which is adjacent to Kansas City.

Figure 1: Comparison to other agencies by population for Gladstone Dept of Public Safety

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Gladstone Dept of Public Safety

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	22435	18215	1370	1440	130	189	1628
2019 population %	100	81.19	6.11	6.42	.58	.84	7.26
<b>Stops</b>	.	.	.	.	.	.	.
All stops	5261	3533	972	115	10	105	526
Resident stops	1487	1155	241	33	3	23	32
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.827	3.026	.341	.328	2.369	1.378
Resident stops	.	.957	2.654	.346	.348	1.836	.297

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

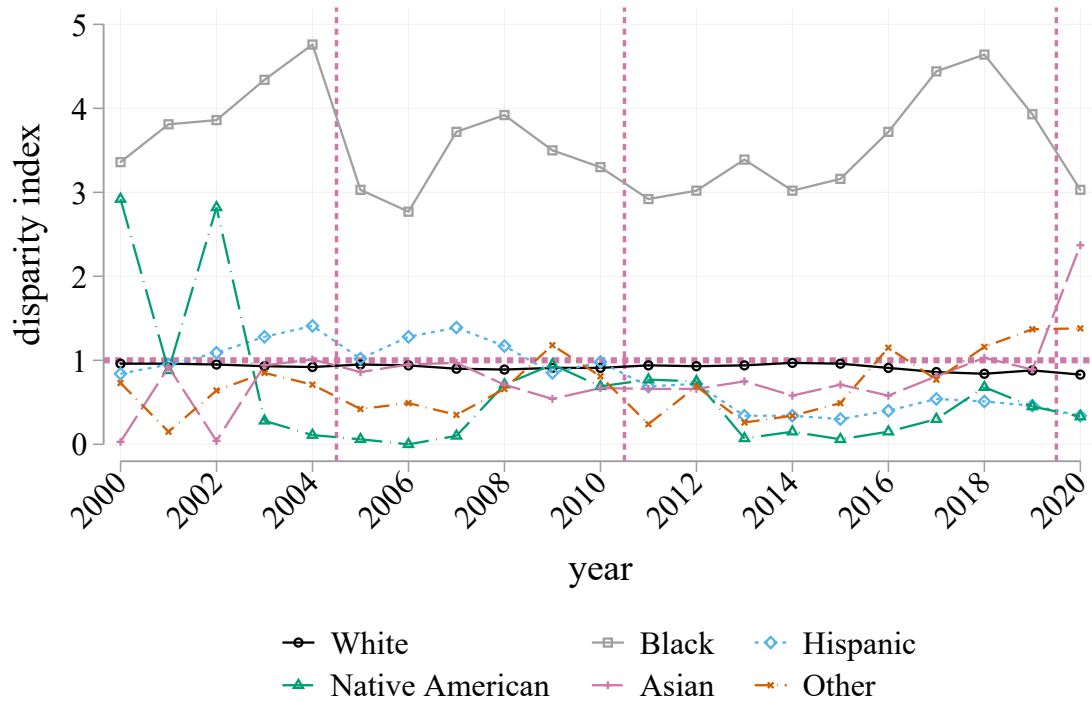

Table 3: Disparity Index from 2000 to 2020 for Gladstone Dept of Public Safety

<b>2020</b>	.83	3.03	.34	.33	2.37	1.38

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Gladstone Dept of Public Safety

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Glendale Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4376	4141	55	72	0	108	0
2019 population %	100	94.63	1.26	1.65	0	2.47	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	841	696	112	14	1	15	3
Resident stops	100	99	0	0	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.875	10.596	1.012	.	.723	.
Resident stops	.	1.046	0	0	.	.405	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Glendale Police Dept

Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Grain Valley Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10368	9368	137	389	83	20	602
2019 population %	100	90.35	1.32	3.75	.8	.19	5.81
<b>Stops</b>	.	.	.	.	.	.	.
All stops	951	855	64	18	1	6	7
Resident stops	442	400	24	10	1	3	4
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.995	5.093	.504	.131	3.271	.127
Resident stops	.	1.002	4.109	.603	.283	3.519	.156

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Grandview Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	19578	9338	7484	1667	40	390	1251
2019 population %	100	47.7	38.23	8.51	.2	1.99	6.39
<b>Stops</b>	.	.	.	.	.	.	.
All stops	6600	3317	2827	400	0	32	24
Resident stops	1607	540	908	146	0	6	7
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.054	1.121	.712	0	.243	.057
Resident stops	.	.705	1.478	1.067	0	.187	.068

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.191 Greene County Sheriff's Dept

Table 1: Rates by Race for Greene County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	235714	209982	7463	7368	1262	4860	7261
2019 population %	100	89.08	3.17	3.13	.54	2.06	3.08
<b>Totals</b>	.	.	.	.	.	.	.
All stops	15413	13563	1266	339	7	108	130
Resident stops	13338	11775	1099	254	5	98	107
Searches	930	802	94	21	0	5	8
Contraband	365	306	46	9	0	1	3
Arrests	601	505	68	17	0	7	4
Citations	1514	1323	114	44	0	7	26
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.54	6.46	16.96	4.6	.55	2.22	1.79
Stop rate, residents	5.66	5.61	14.73	3.45	.4	2.02	1.47
Search rate	6.03	5.91	7.42	6.19	0	4.63	6.15
Contraband hit rate	39.25	38.15	48.94	42.86	.	20	37.5
Arrest rate	3.9	3.72	5.37	5.01	0	6.48	3.08
Citation rate	9.82	9.75	9	12.98	0	6.48	20

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

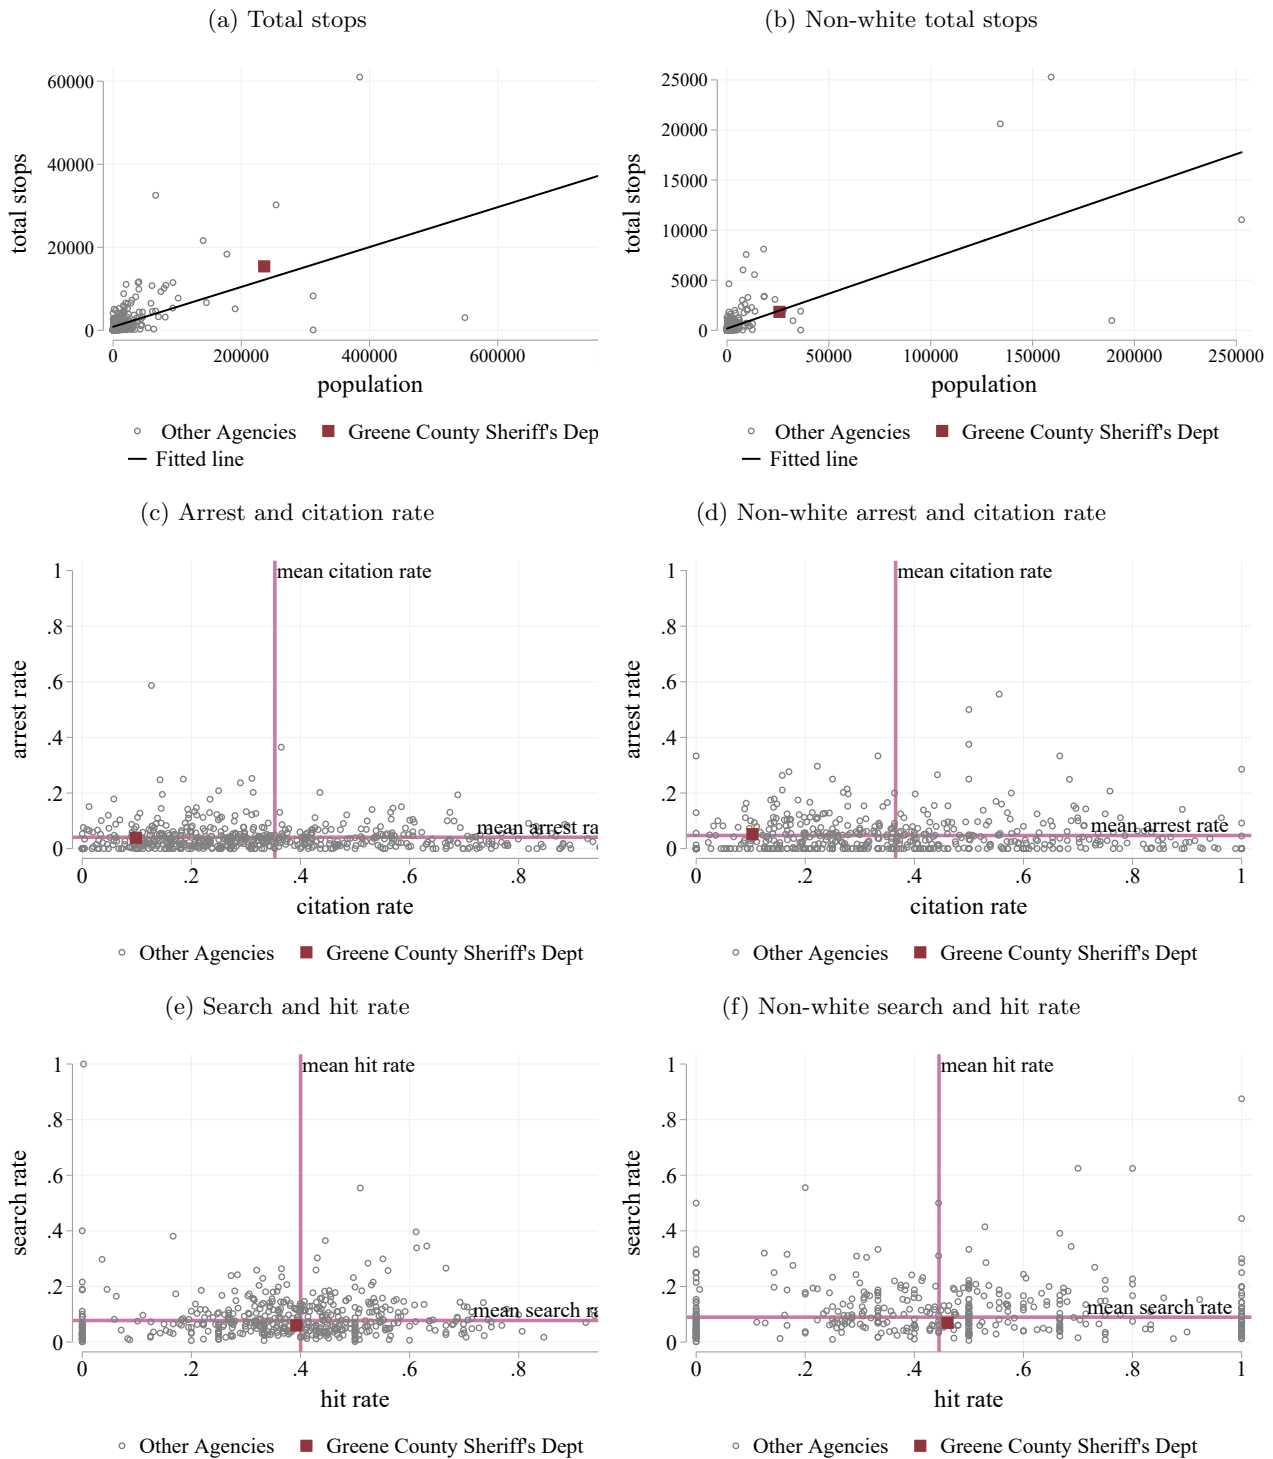

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Greene County Sheriff's Dept. covers several major highways (13, 65, 125, 160, 60, 266, 413 and 360) and Interstate 44 and includes a variety of tourist attractions.

Figure 1: Comparison to other agencies by population for Greene County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Greene County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>							
2019 population	235714	209982	7463	7368	1262	4860	7261

Arrest rate	2.35	2.02	0	0	100	.	0
Citation rate	34.9	33.87	100	50	100	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

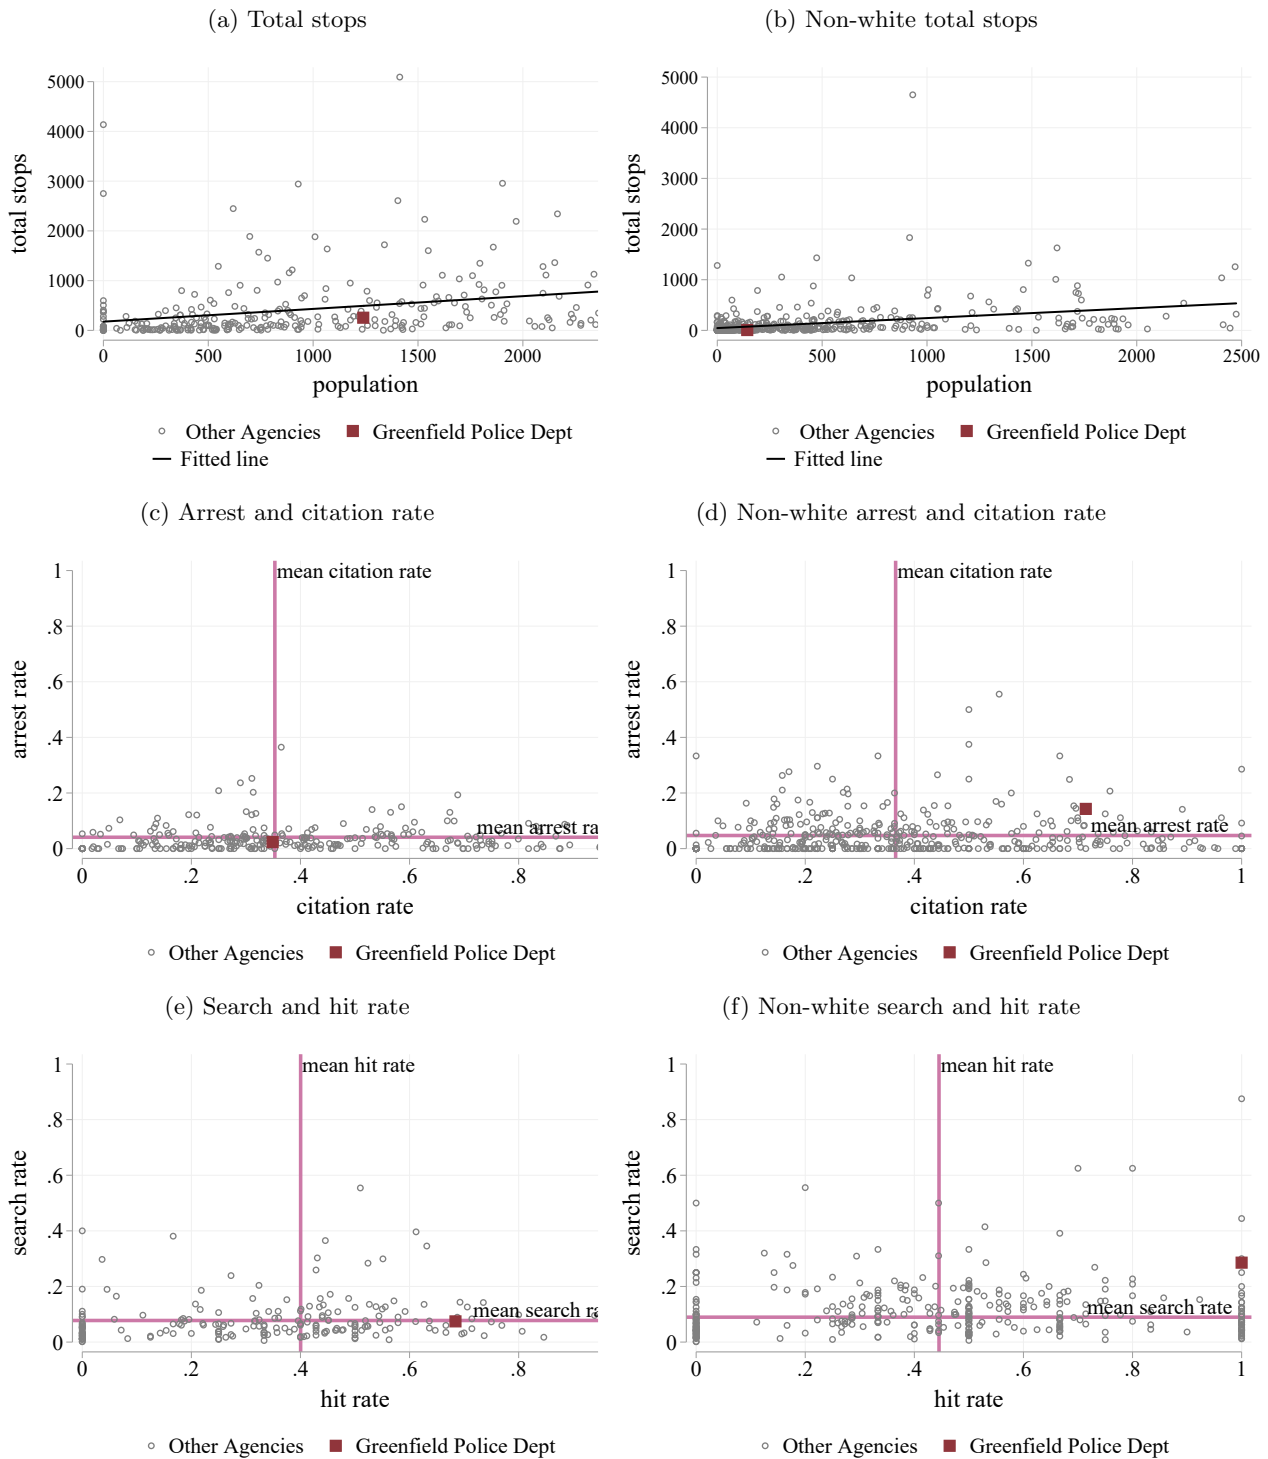

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Greenfield Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Greenfield Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1239	1096	9	72	25	0	54
2019 population %	100	88.46	.73	5.81	2.02	0	4.36
<b>Stops</b>	.	.	.	.	.	.	.
All stops	255	248	1	4	1	0	1
Resident stops	77	75	0	1	0	0	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.099	.54	.27	.194	.	.09
Resident stops	.	1.101	0	.223	0	.	.298

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	2.17	2.31	3.57	0	0	0	0
Search rate	13.12	13.91	0	0	0	0	0
Contraband hit rate	38.1	38.1	.	.	.	.	.
Arrest rate	0	0	0	0	0	0	0
Citation rate	12.19	12.91	0	0	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

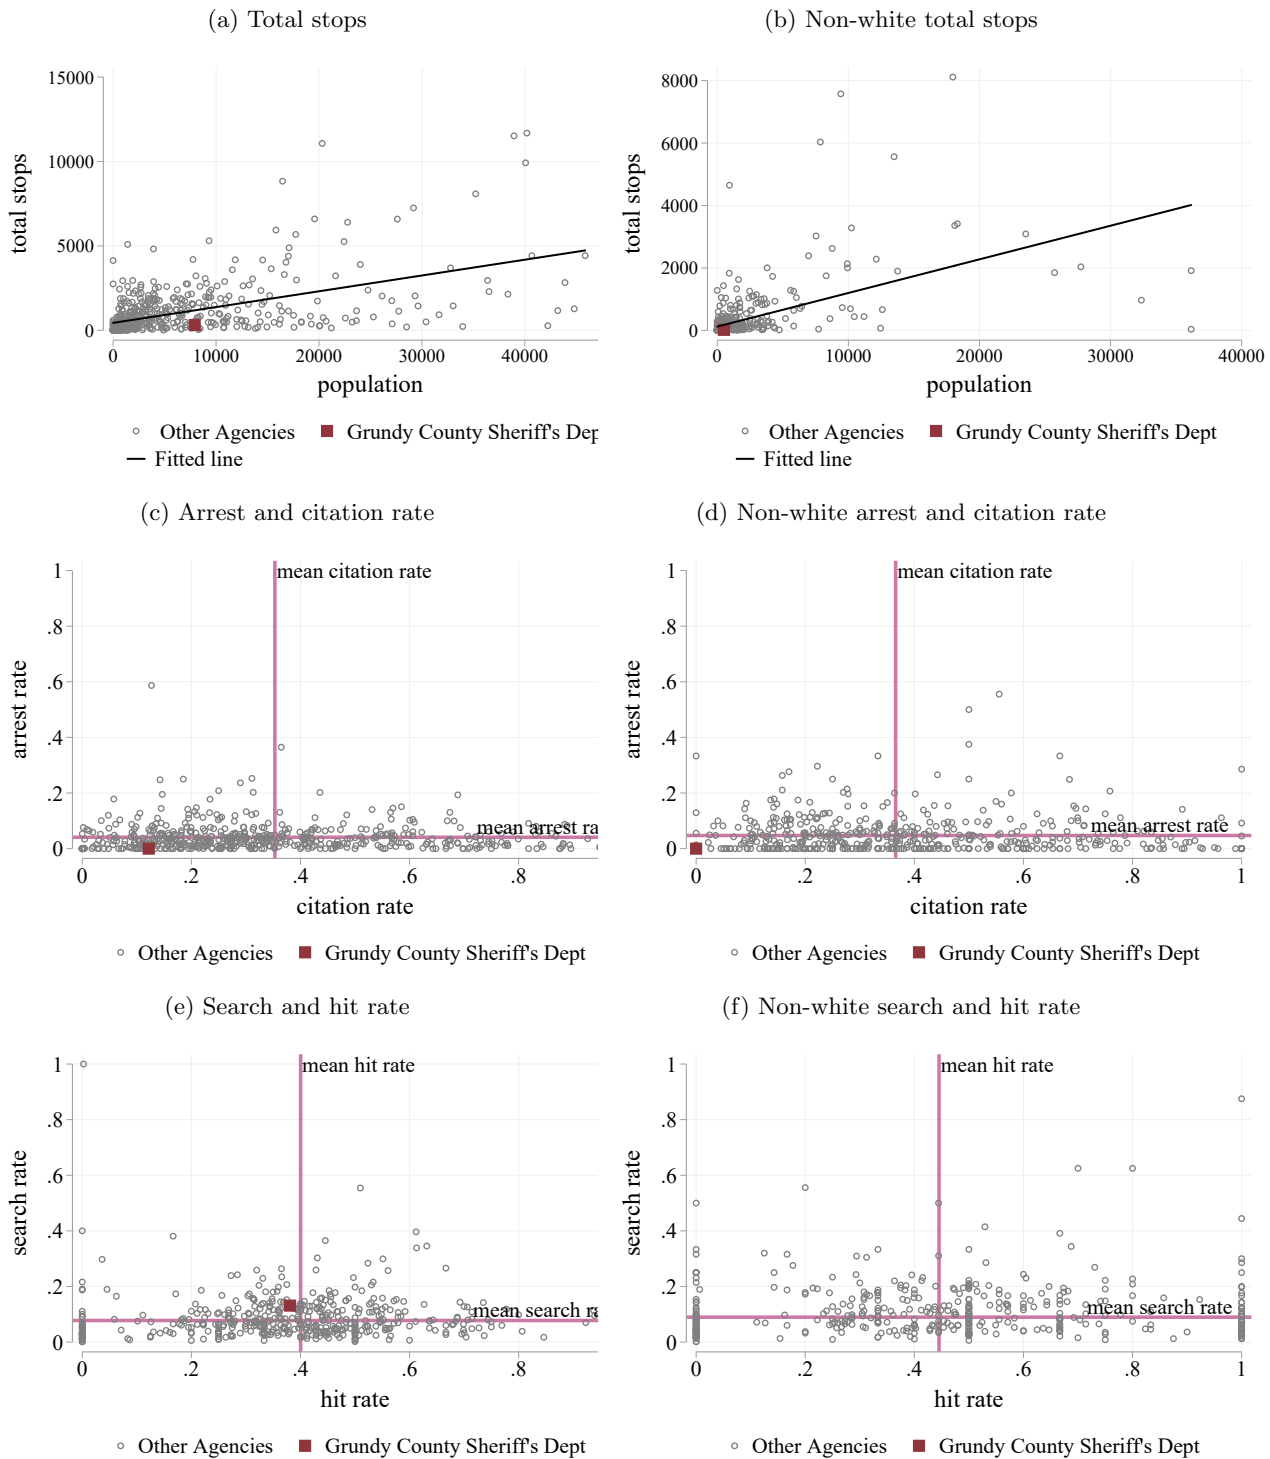

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Grundy County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Grundy County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7928	7414	28	226	55	64	175
2019 population %	100	93.52	.35	2.85	.69	.81	2.21
<b>Stops</b>	.	.	.	.	.	.	.
All stops	320	302	5	10	1	1	1
Resident stops	172	171	1	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.009	4.424	1.096	.45	.387	.142
Resident stops	.	1.063	1.646	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	36	39.53	20	0	.	.	.
Arrest rate	2.42	2.18	6.67	9.09	0	0	.
Citation rate	33.04	33.45	40	9.09	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

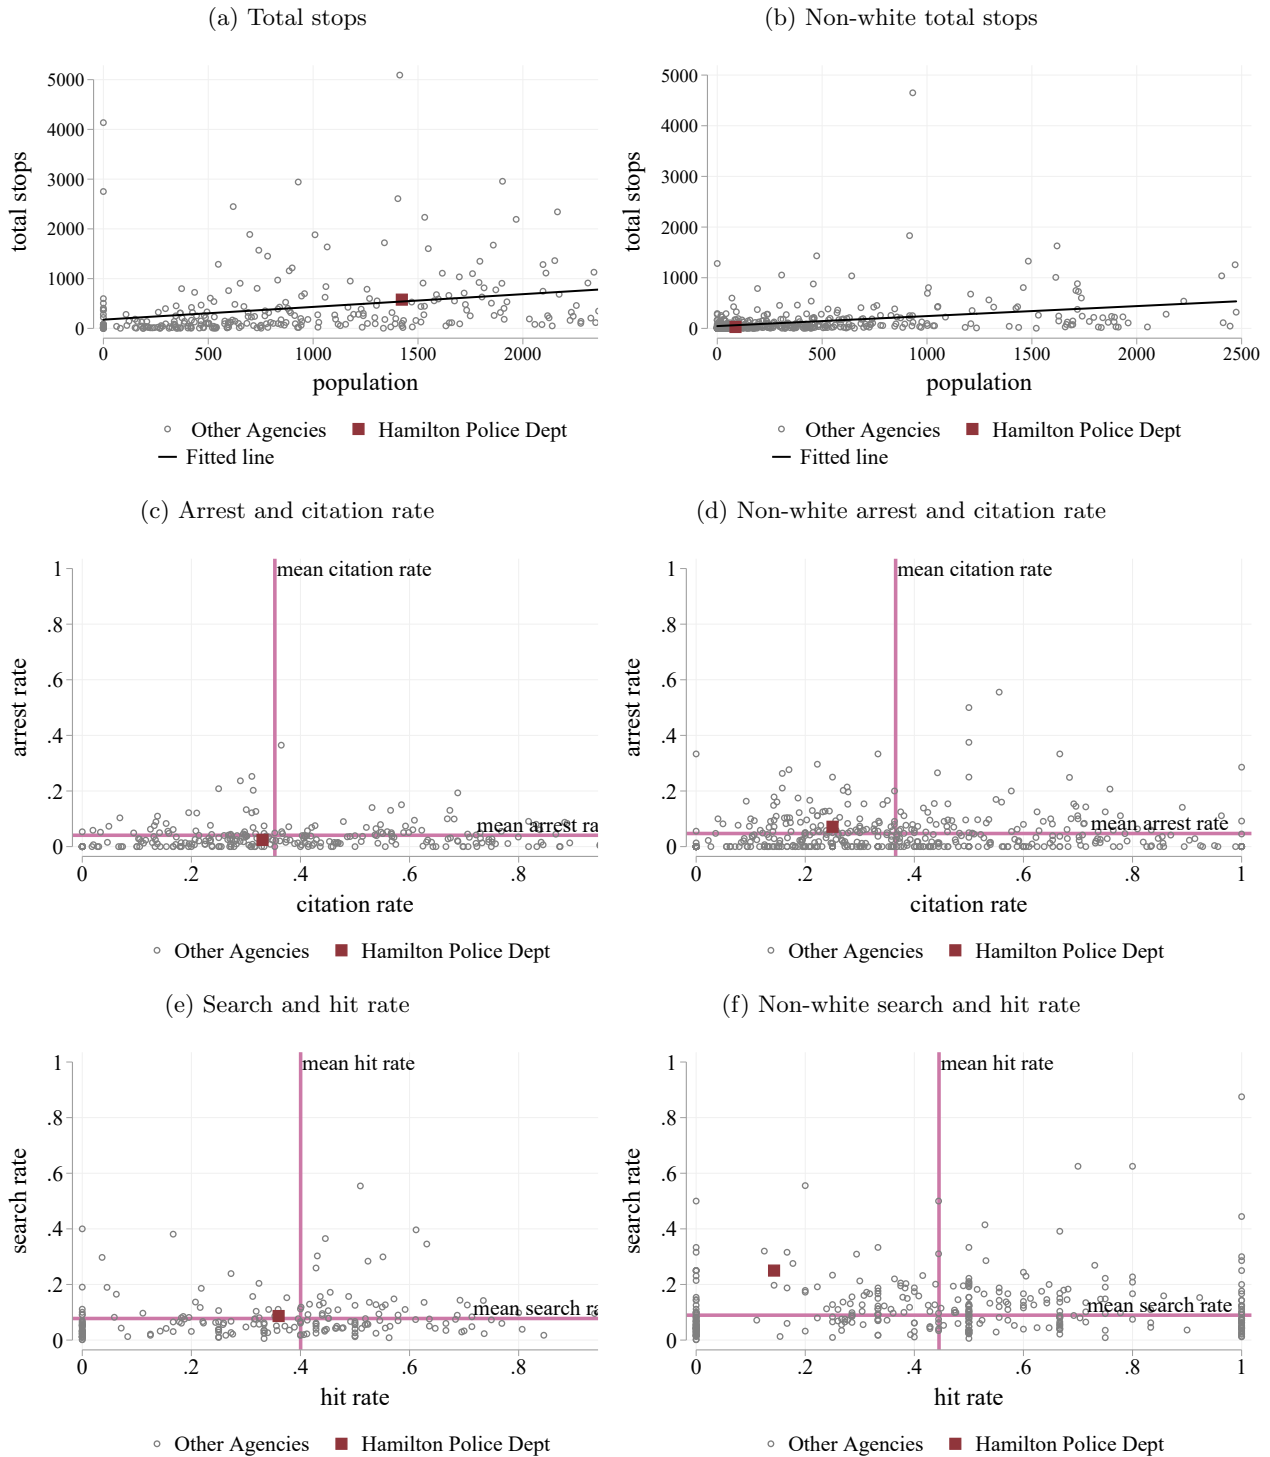

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hamilton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hamilton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1423	1336	13	16	0	21	37
2019 population %	100	93.89	.91	1.12	0	1.48	2.6
<b>Stops</b>	.	.	.	.	.	.	.
All stops	578	550	15	11	1	1	0
Resident stops	148	144	2	2	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.014	2.841	1.693	.	.117	0
Resident stops	.	1.036	1.479	1.202	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	.87	.93	.	0	0	.	0
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	50	50	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

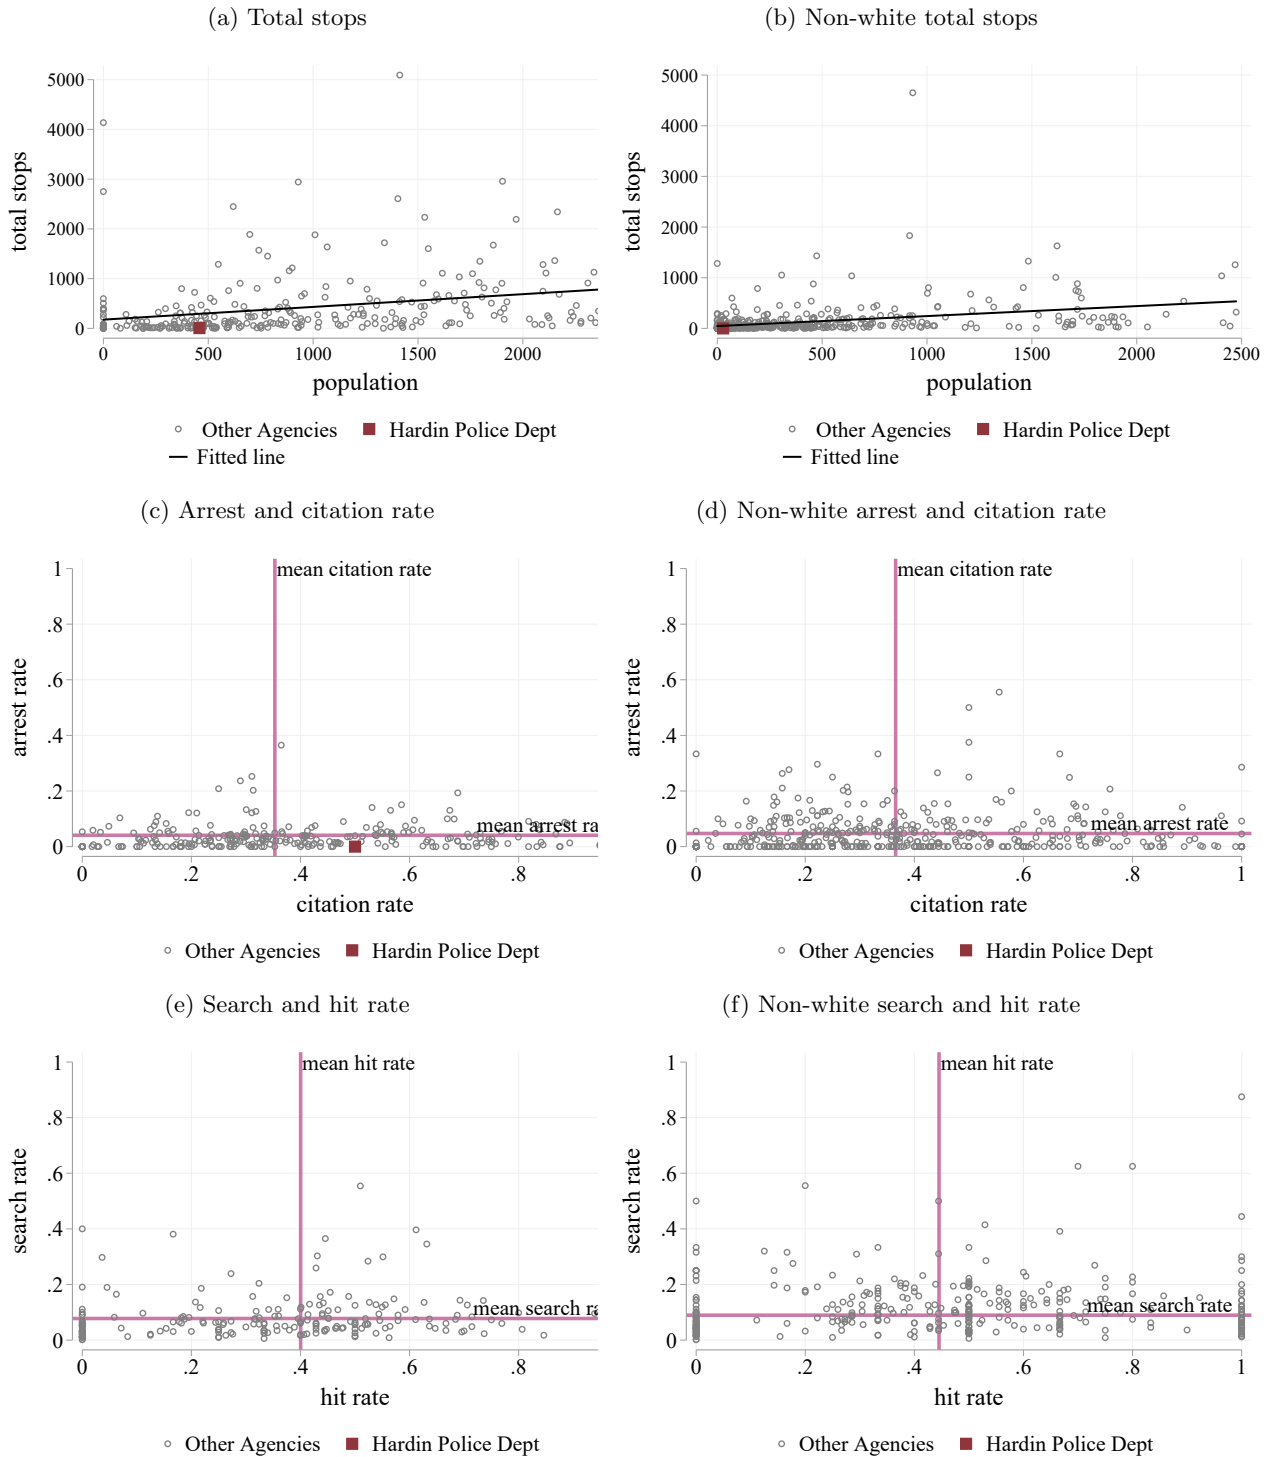

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hardin Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hardin Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	458	430	0	16	4	0	8
2019 population %	100	93.89	0	3.49	.87	0	1.75
<b>Stops</b>	.	.	.	.	.	.	.
All stops	6	6	0	0	0	0	0
Resident stops	4	4	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.065	.	0	0	.	0
Resident stops	.	1.065	.	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2019</b>	1.01	.	2.02	0	0	0
<b>2020</b>	1.07	.	0	0	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Hardin Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Harrisonville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7733	7133	150	160	42	13	235
2019 population %	100	92.24	1.94	2.07	.54	.17	3.04
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1523	1336	103	50	9	16	9
Resident stops	479	451	15	8	1	3	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.951	3.487	1.587	1.088	6.249	.194
Resident stops	.	1.021	1.614	.807	.384	3.726	.069

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2002</b>	1	2.4	.99	.2	.53	.23
<b>2003</b>	1	2.19	1.52	.08	.31	.1
<b>2004</b>	1.04	0	0	0	0	0
<b>2005</b>	1.02	.86	.98	.19	.5	.18
<b>2006</b>	1.03	.91	.69	.07	.63	.1
<b>2007</b>	1.02	.85	.82	.06	.47	.29
<b>2008</b>	1.02	.99	.76	.11	.53	.23
<b>2009</b>	1.03	.75	.59	.06	.73	.12
<b>2010</b>	.98	.7	1.13	2.06	2.34	1.58
<b>2011</b>	1.02	1.6	.49	.08	.56	.42
<b>2012</b>	1.01	2.02	.57	.96	0	.25
<b>2013</b>	1.01	2.13	.7	.19	.59	.3
<b>2014</b>	1.02	1.95	.44	.05	.43	.28
<b>2015</b>	1	2.82	.67	.06	.46	.31
<b>2016</b>	.99	3.13	1.17	0	.56	.41
<b>2017</b>	.99	3.21	.8	0	.56	.55
<b>2018</b>	.96	4.25	1.27	.11	1.25	1
<b>2019</b>	.95	4.74	1.39	0	.85	1.12
<b>2020</b>	.95	3.49	1.59	1.09	6.25	.19

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Harrisonville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.201 Hartville Police Dept

Table 1: Rates by Race for Hartville Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	465	443	12	8	0	0	2
2019 population %	100	95.27	2.58	1.72	0	0	.43
<b>Totals</b>	.	.	.	.	.	.	.
All stops	149	149	0	0	0	0	0
Resident stops	17	17	0	0	0	0	0
Searches	1	1	0	0	0	0	0
Contraband	1	1	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	49	49	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	32.04	33.63	0	0	.	.	0
Stop rate, residents	3.66	3.84	0	0	.	.	0
Search rate	.67	.67	.	.	.	.	.
Contraband hit rate	100	100	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	32.89	32.89	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

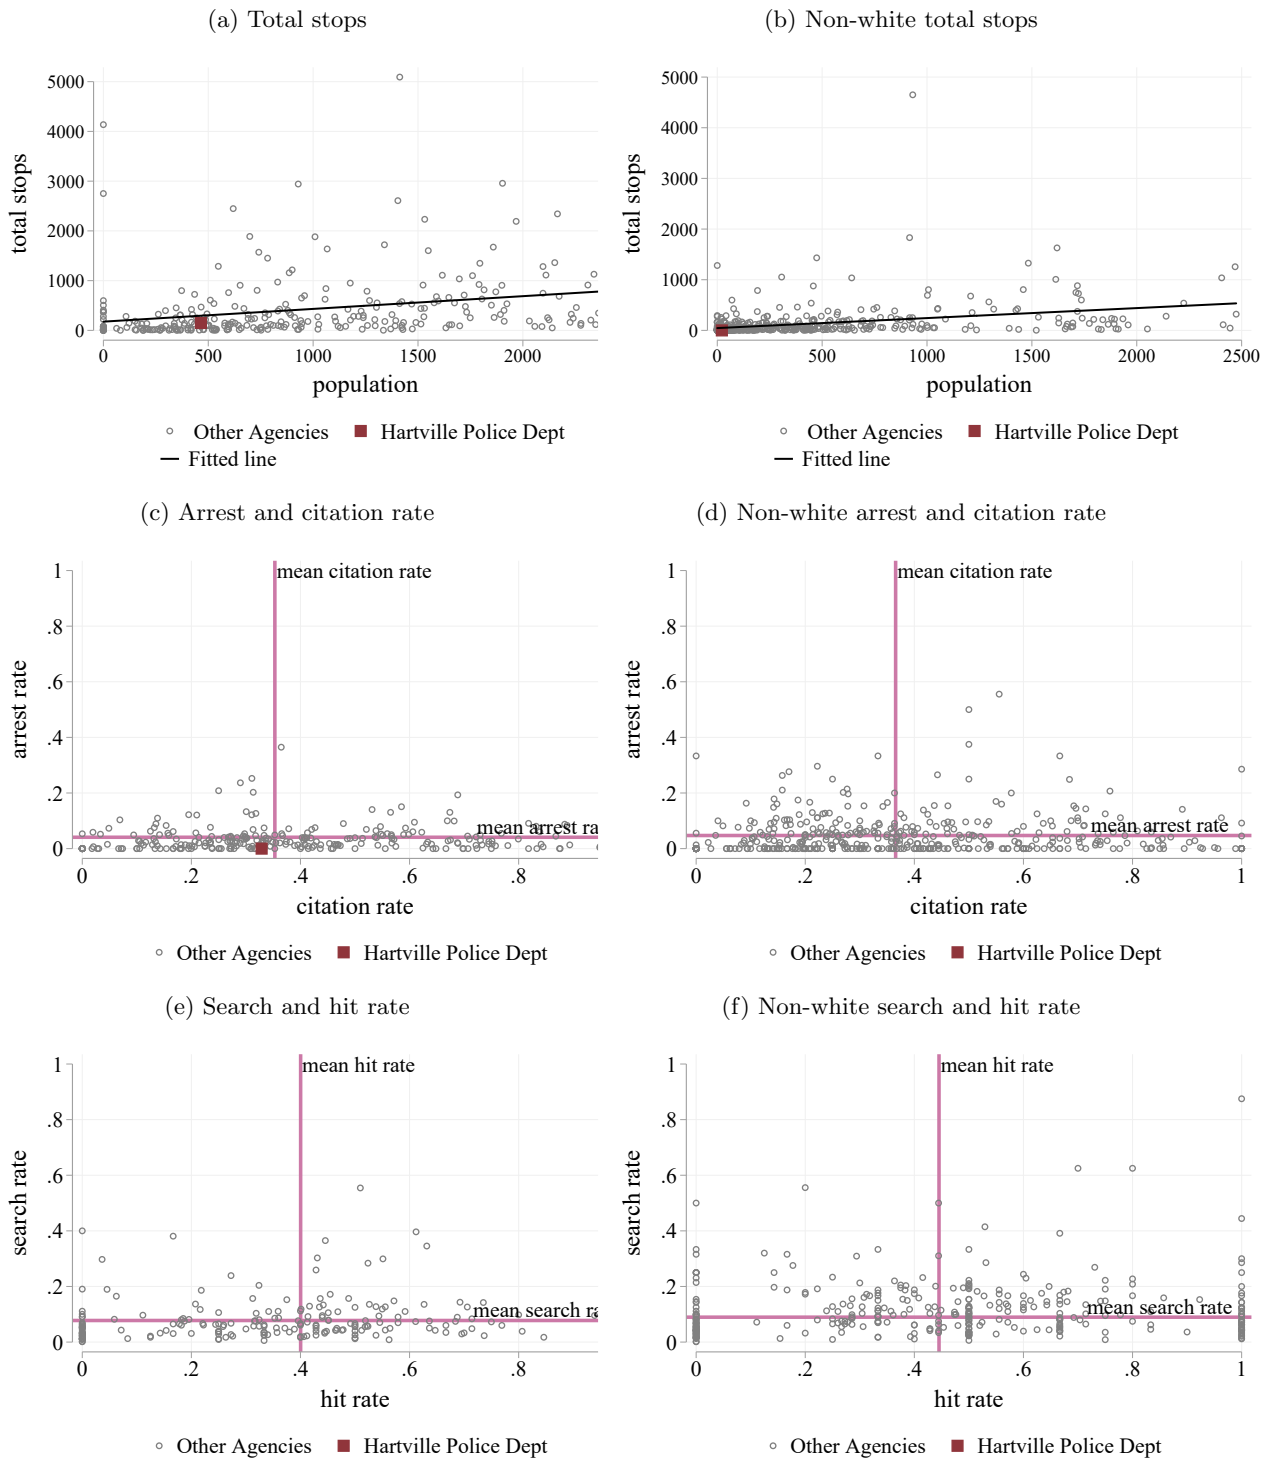

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hartville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hartville Police Dept

All stops	.	1.016	10.447	2.239	.	0	1.492
Resident stops	.	1.11	0	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Hawk Point Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Hawk Point Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	41.42	30.86	64.18	0	.	.	0
Stop rate, residents	18.76	11.05	34.55	0	.	.	0
Search rate	13.68	16.39	10.62	.	66.67	100	.
Contraband hit rate	20.75	18.33	18.6	.	100	100	.
Arrest rate	13.29	11.2	14.81	.	33.33	100	.
Citation rate	30.06	25.41	34.57	.	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

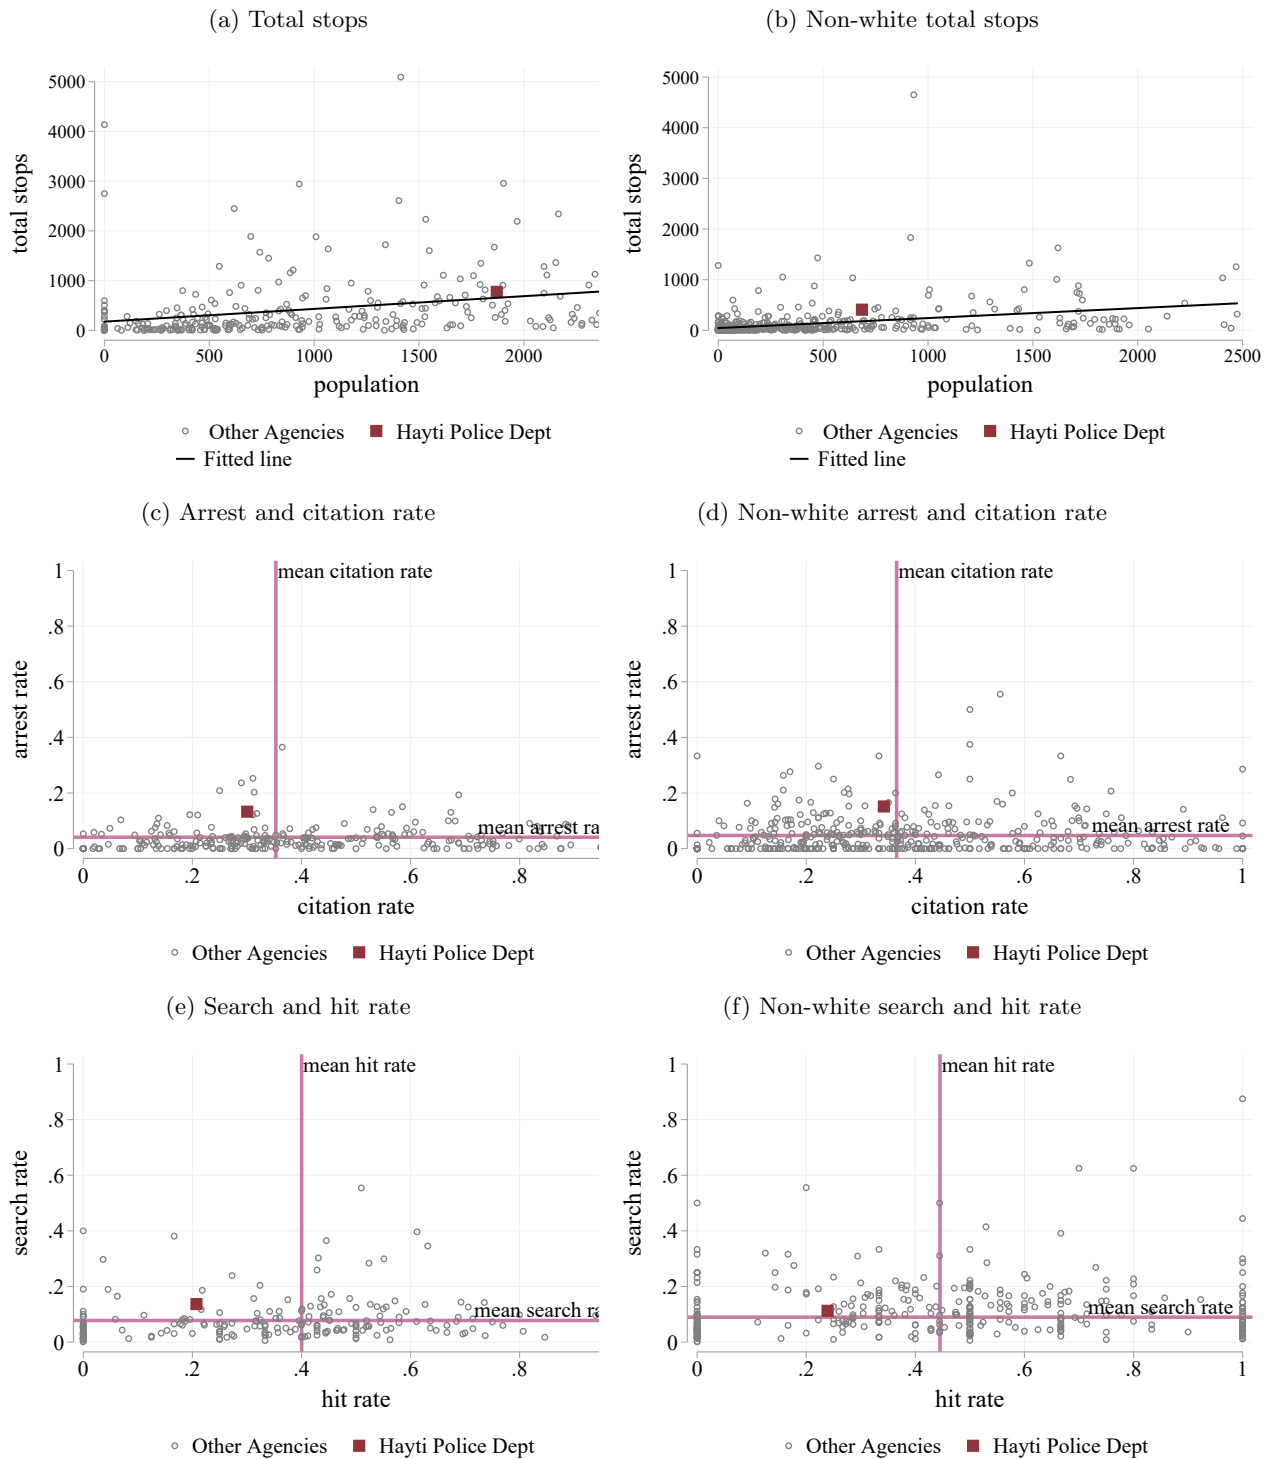

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hayti Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	.59	1.76	.24	.	.18	.55

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Hazelwood Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.205 Henrietta Police Dept

Table 1: Rates by Race for Henrietta Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	275	250	7	6	6	0	6
2019 population %	100	90.91	2.55	2.18	2.18	0	2.18
<b>Totals</b>	.	.	.	.	.	.	.
All stops	55	49	5	1	0	0	0
Resident stops	9	9	0	0	0	0	0
Searches	4	4	0	0	0	0	0
Contraband	3	3	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	24	22	2	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20	19.6	71.43	16.67	0	.	0
Stop rate, residents	3.27	3.6	0	0	0	.	0
Search rate	7.27	8.16	0	0	.	.	.
Contraband hit rate	75	75	.	.	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	43.64	44.9	40	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

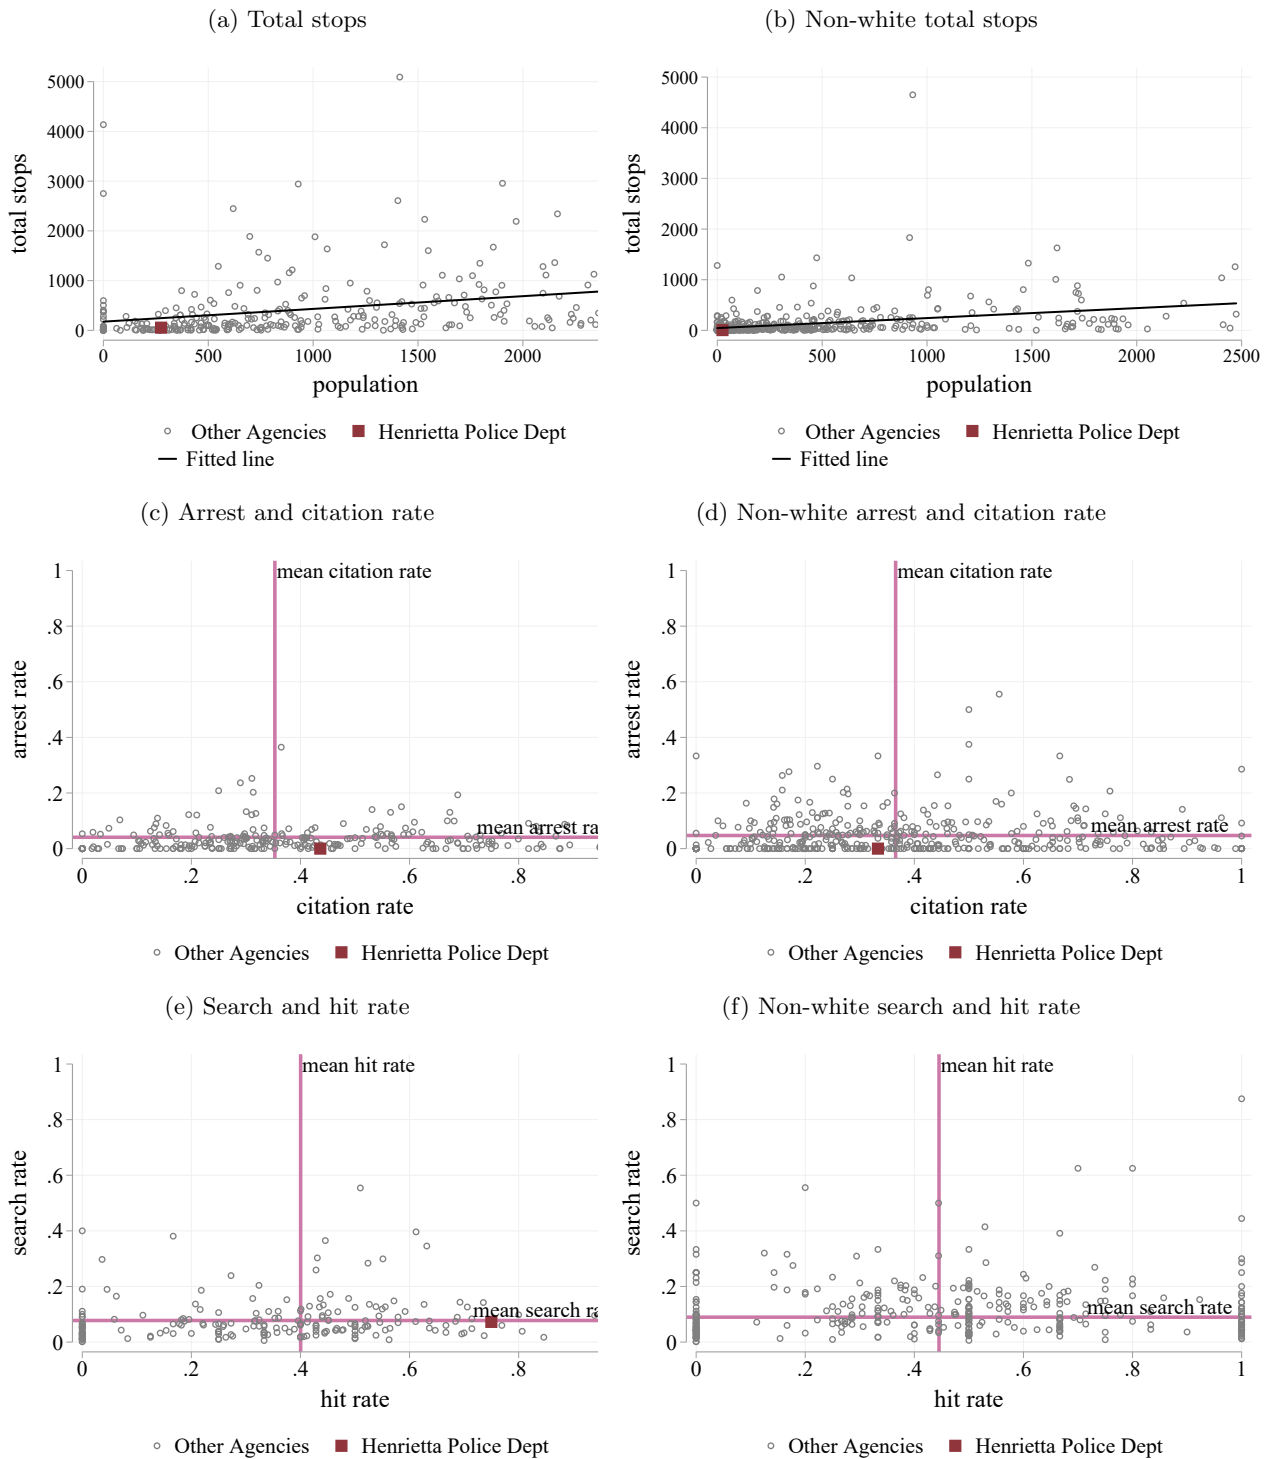

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Henrietta Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Henrietta Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.

<b>2020</b>	1	2.15	1.12	0	.74	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Henry County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3035	3028	0	0	0	0	7
2019 population %	100	99.77	0	0	0	0	.23
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1534	1408	107	10	0	7	2
Resident stops	173	166	5	1	0	1	0
Searches	116	100	13	3	0	0	0
Contraband	37	30	6	1	0	0	0
Arrests	98	84	12	2	0	0	0
Citations	683	635	41	5	0	1	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	50.54	46.5	.	.	.	.	28.57
Stop rate, residents	5.7	5.48	.	.	.	.	0
Search rate	7.56	7.1	12.15	30	.	0	0
Contraband hit rate	31.9	30	46.15	33.33	.	.	.
Arrest rate	6.39	5.97	11.21	20	.	0	0
Citation rate	44.52	45.1	38.32	50	.	14.29	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

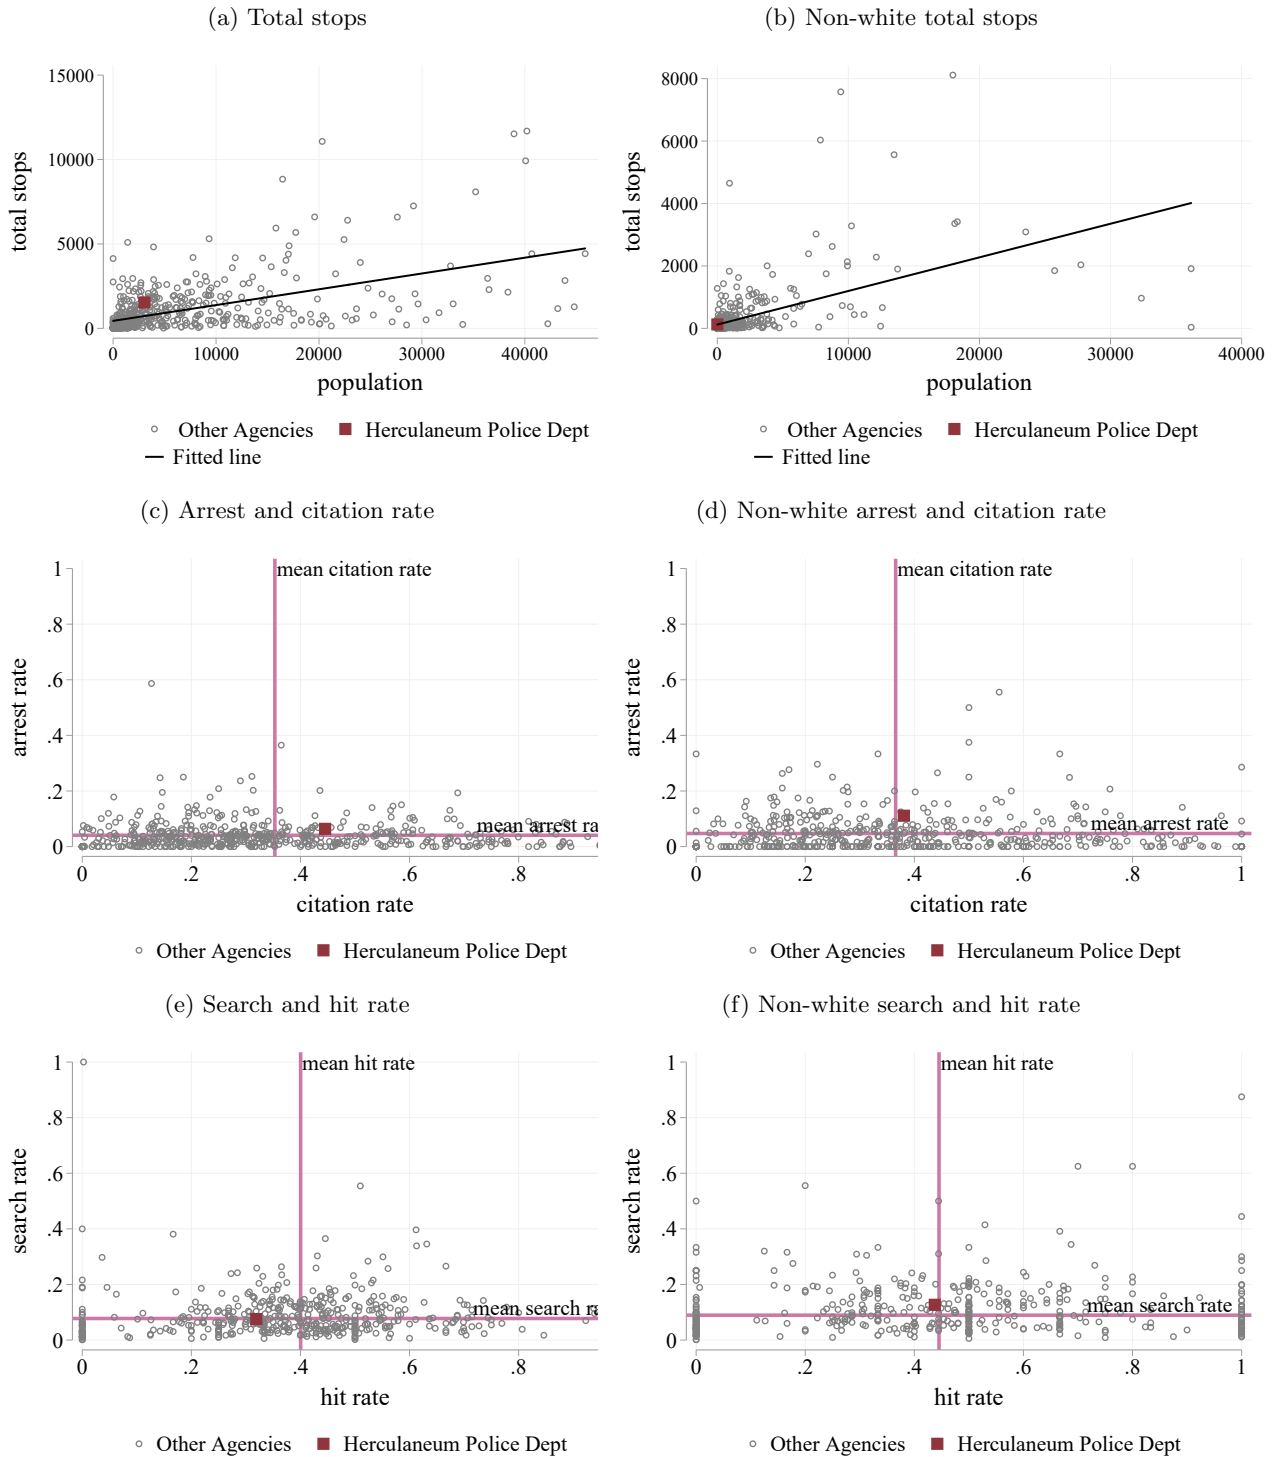

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Herculaneum Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Herculaneum Police Dept

<b>2020</b>	1.02	.59	.38	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Hermann Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8007	7659	3	111	80	25	162
2019 population %	100	95.65	.04	1.39	1	.31	2.02
<b>Totals</b>	.	.	.	.	.	.	.
All stops	585	572	6	4	1	1	1
Resident stops	212	210	1	1	0	0	0
Searches	49	48	0	1	0	0	0
Contraband	16	15	0	1	0	0	0
Arrests	3	3	0	0	0	0	0
Citations	106	103	1	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.31	7.47	200	3.6	1.25	4	.62
Stop rate, residents	2.65	2.74	33.33	.9	0	0	0
Search rate	8.38	8.39	0	25	0	0	0
Contraband hit rate	32.65	31.25	.	100	.	.	.
Arrest rate	.51	.52	0	0	0	0	0
Citation rate	18.12	18.01	16.67	50	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

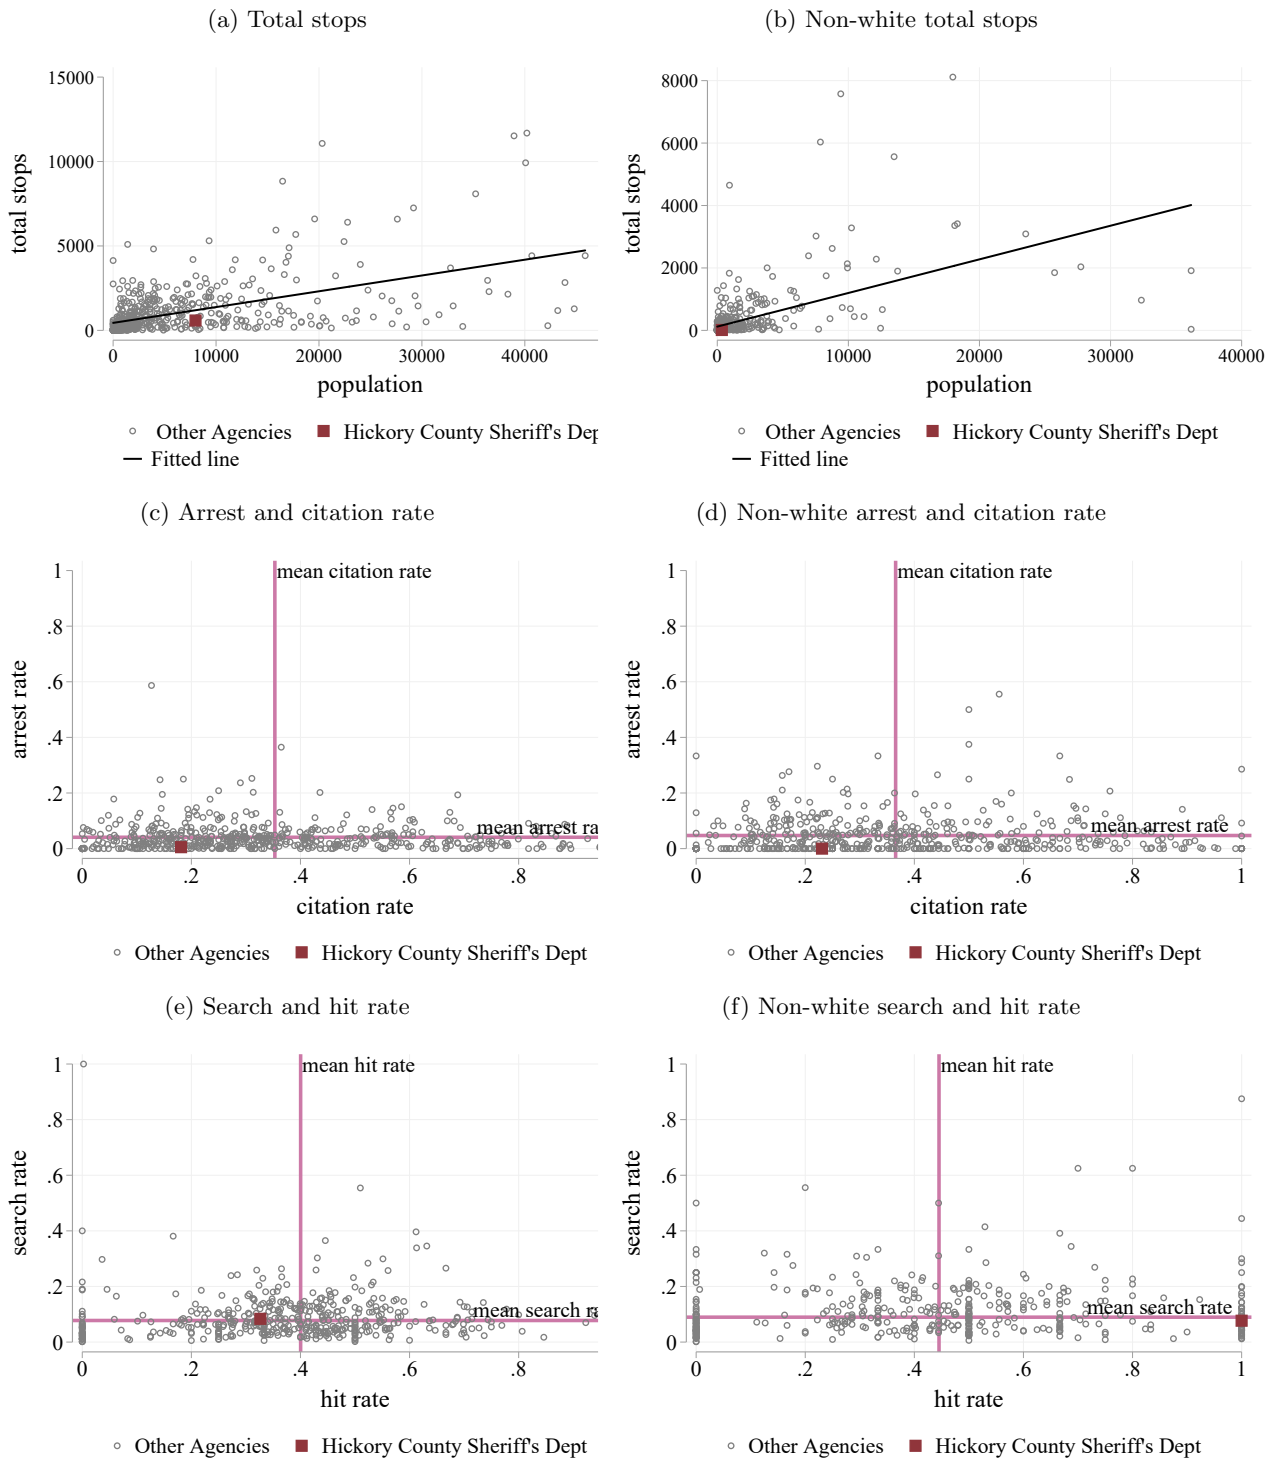

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hickory County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hickory County Sheriff's Dept

<b>2019</b>	.97	1.58	.91	.4	.5	.74
<b>2020</b>	1.04	1.71	.26	.27	.	.03

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Higginsville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	0	0	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	9.27	8.61	.	.	.	.	.
Stop rate, residents	.66	.66	.	.	.	.	.
Search rate	0	0	0	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	.
Citation rate	0	0	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

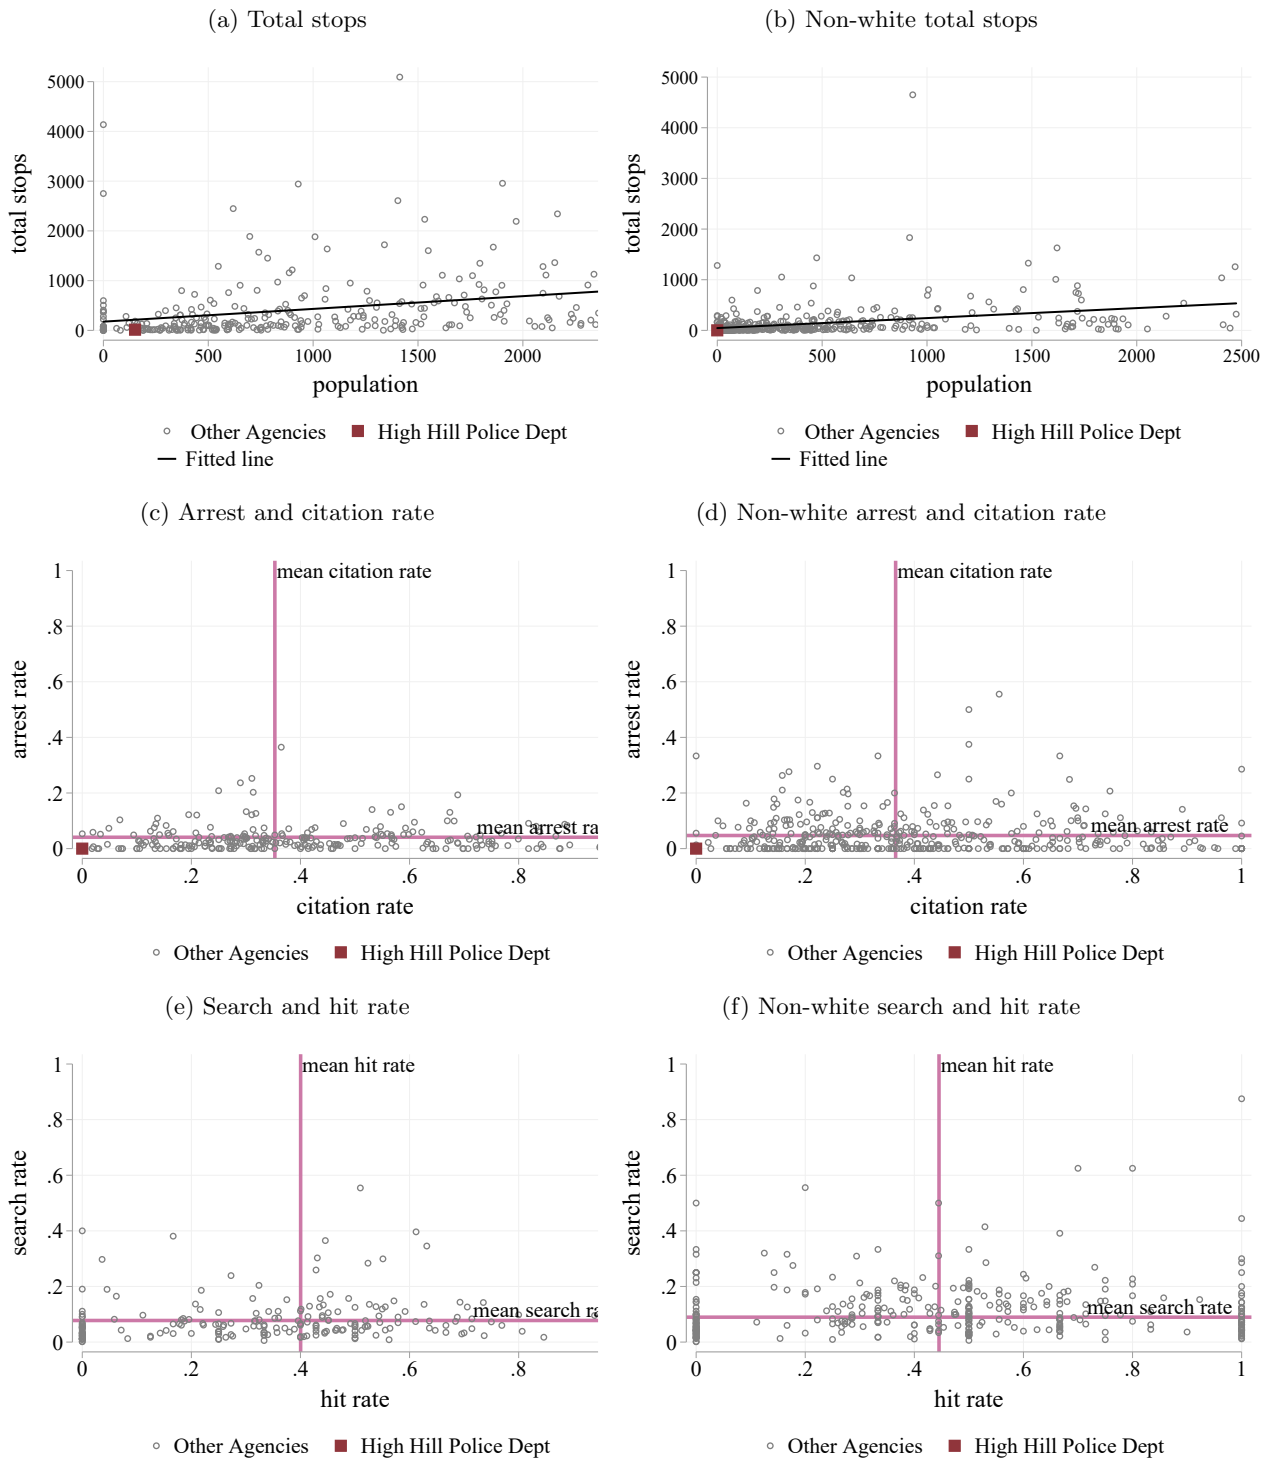

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for High Hill Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2438	2241	87	48	7	30	41
2019 population %	100	91.92	3.57	1.97	.29	1.23	1.68
<b>Totals</b>	.	.	.	.	.	.	.
All stops	492	411	9	1	0	3	68
Resident stops	24	20	0	0	0	1	3
Searches	21	21	0	0	0	0	0
Contraband	10	10	0	0	0	0	0
Arrests	39	37	1	0	0	0	1
Citations	269	260	8	0	0	1	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.18	18.34	10.34	2.08	0	10	165.85
Stop rate, residents	.98	.89	0	0	0	3.33	7.32
Search rate	4.27	5.11	0	0	.	0	0
Contraband hit rate	47.62	47.62	.	.	.	.	.
Arrest rate	7.93	9	11.11	0	.	0	1.47
Citation rate	54.67	63.26	88.89	0	.	33.33	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

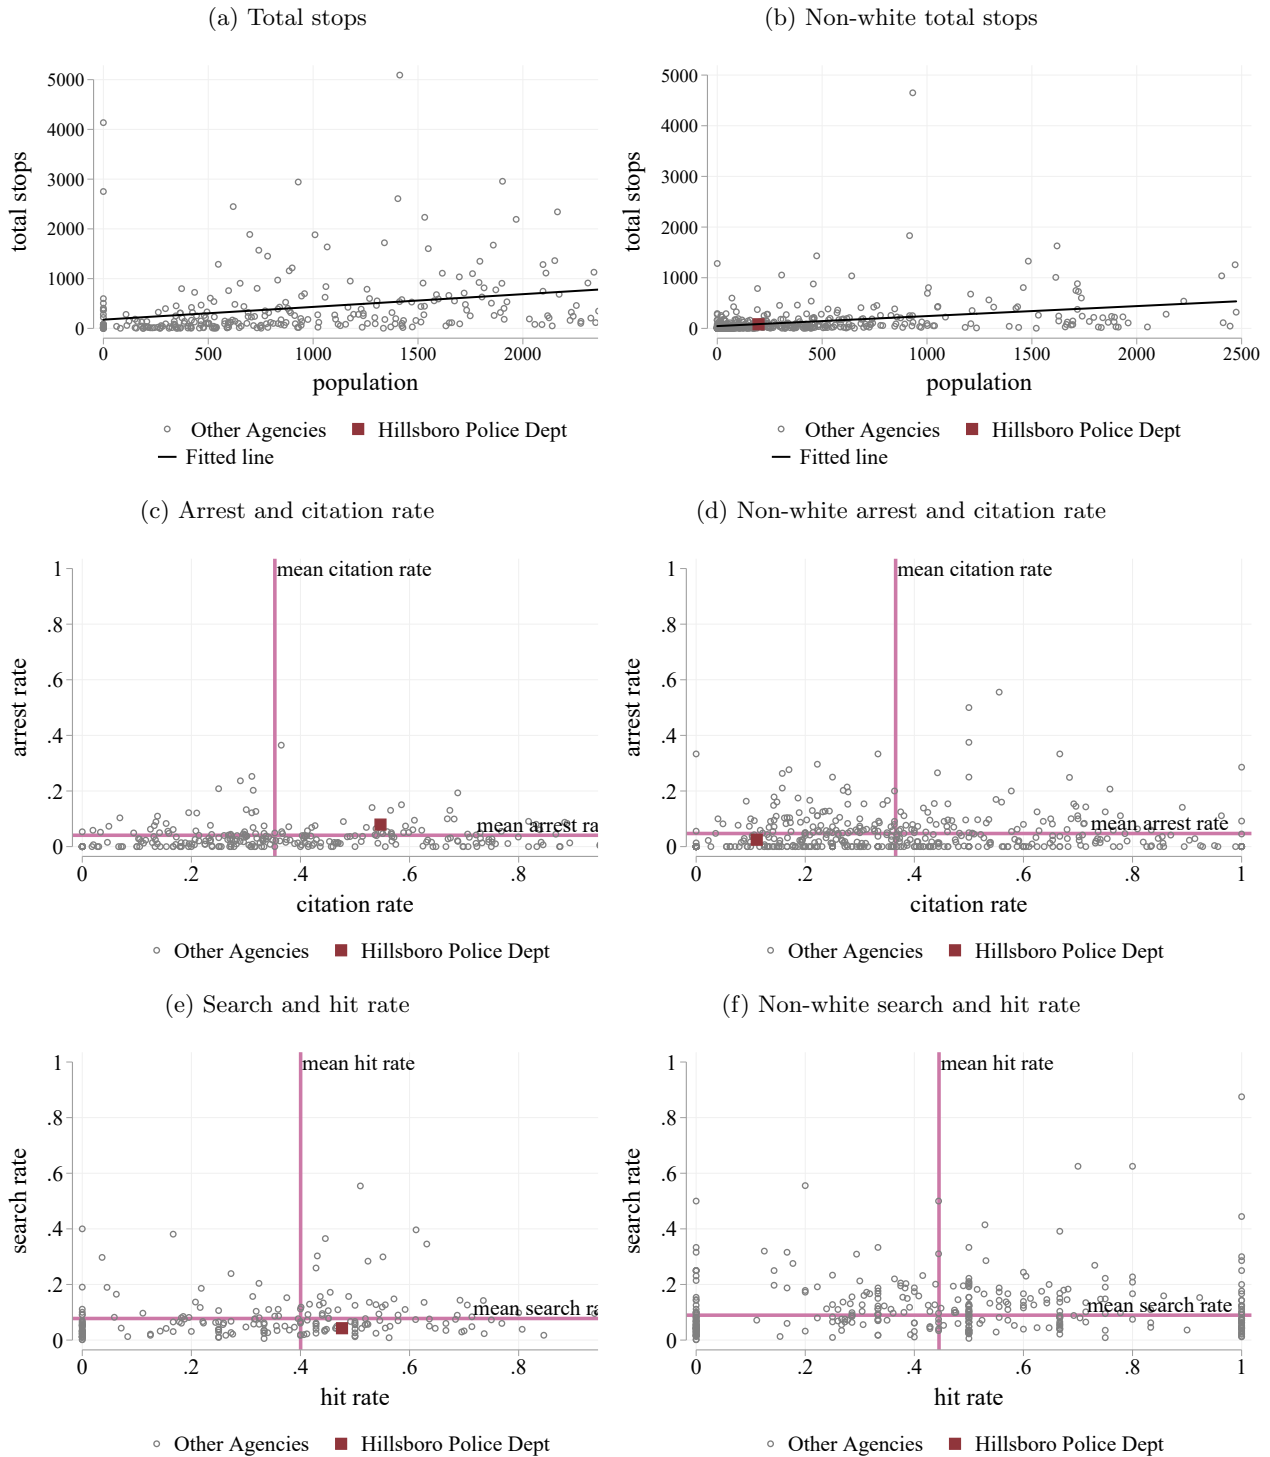

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Hillsboro Police Dept. provides service to Hillsboro, the county seat for Jefferson County, which includes the courthouse, jail, county government, and a junior college. County and regional events are held at the fairgrounds in the summer.

Figure 1: Comparison to other agencies by population for Hillsboro Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hillsboro Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

## 1.215 Holcomb Police Dept

Table 1: Rates by Race for Holcomb Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	444	416	0	10	0	18	0
2019 population %	100	93.69	0	2.25	0	4.05	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	252	198	45	9	0	0	0
Resident stops	5	5	0	0	0	0	0
Searches	92	65	26	1	0	0	0
Contraband	41	29	12	0	0	0	0
Arrests	23	17	6	0	0	0	0
Citations	250	198	45	7	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	56.76	47.6	.	90	.	0	.
Stop rate, residents	1.13	1.2	.	0	.	0	.
Search rate	36.51	32.83	57.78	11.11	.	.	.
Contraband hit rate	44.57	44.62	46.15	0	.	.	.
Arrest rate	9.13	8.59	13.33	0	.	.	.
Citation rate	99.21	100	100	77.78	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

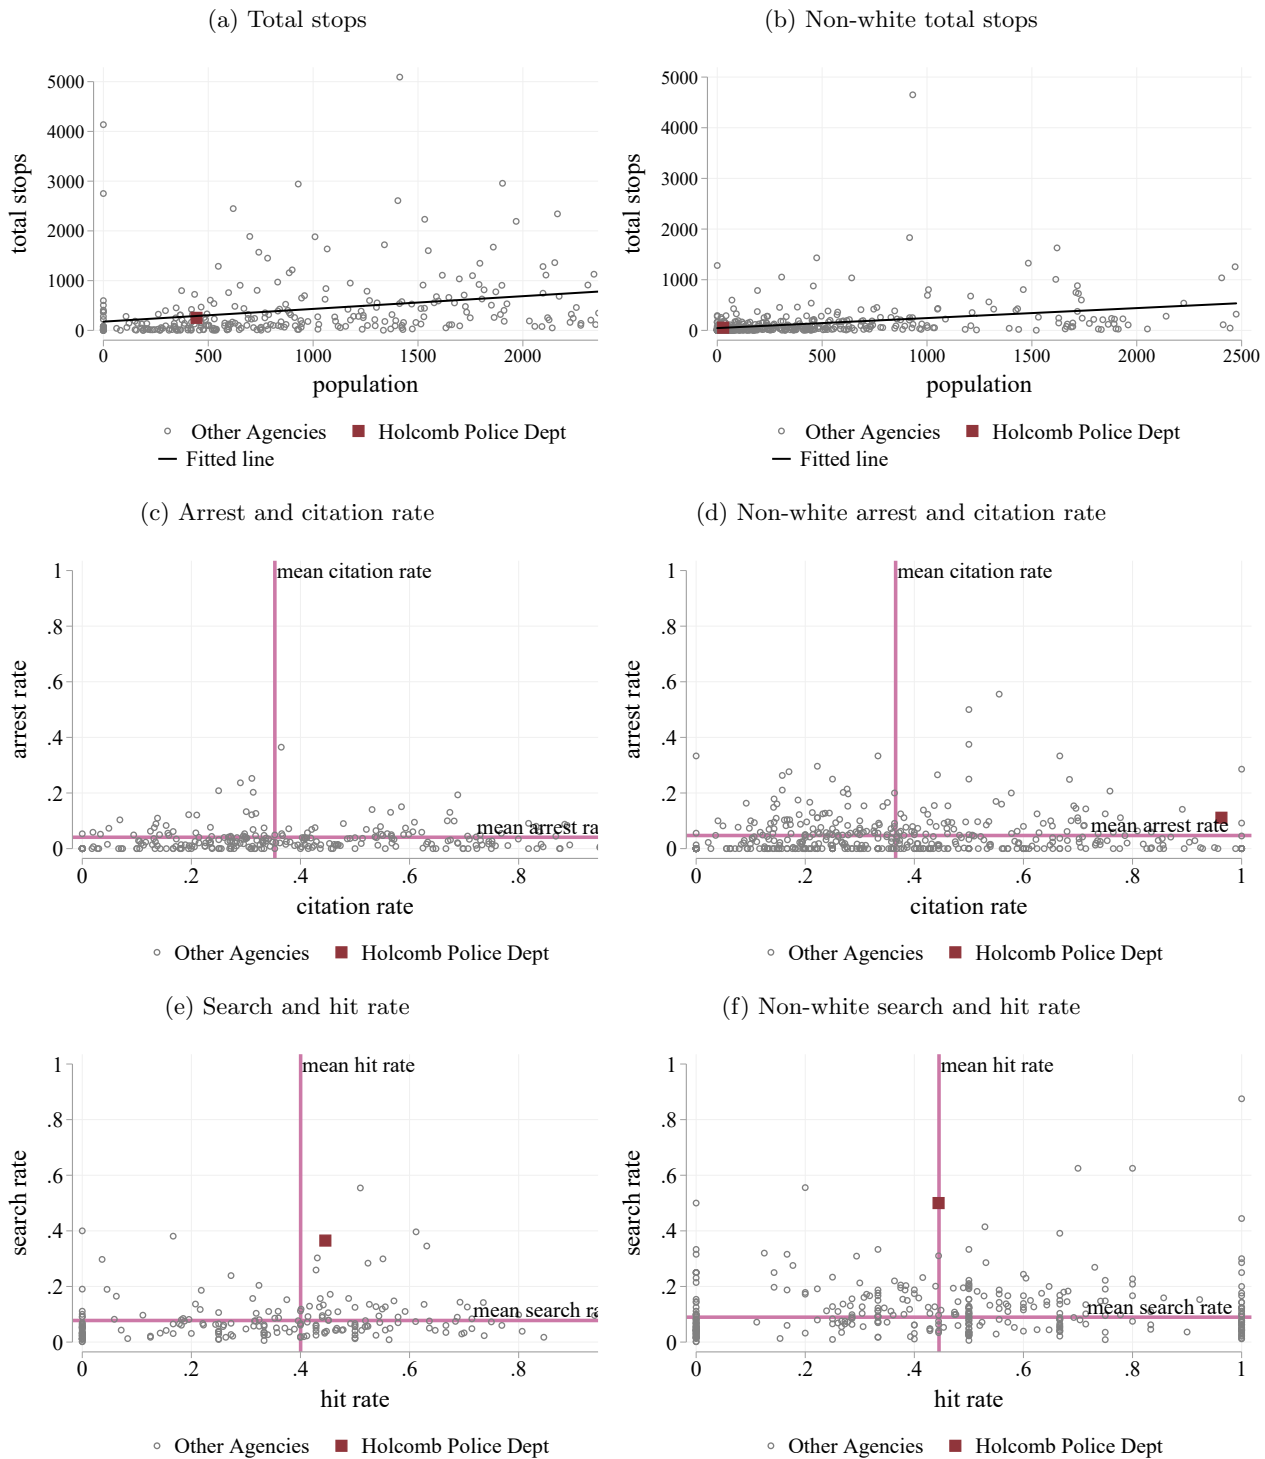

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Holcomb Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Holcomb Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	444	416	0	10	0	18	0
2019 population %	100	93.69	0	2.25	0	4.05	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	252	198	45	9	0	0	0
Resident stops	5	5	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.839	.	1.586	.	0	.
Resident stops	.	1.067	.	0	.	0	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

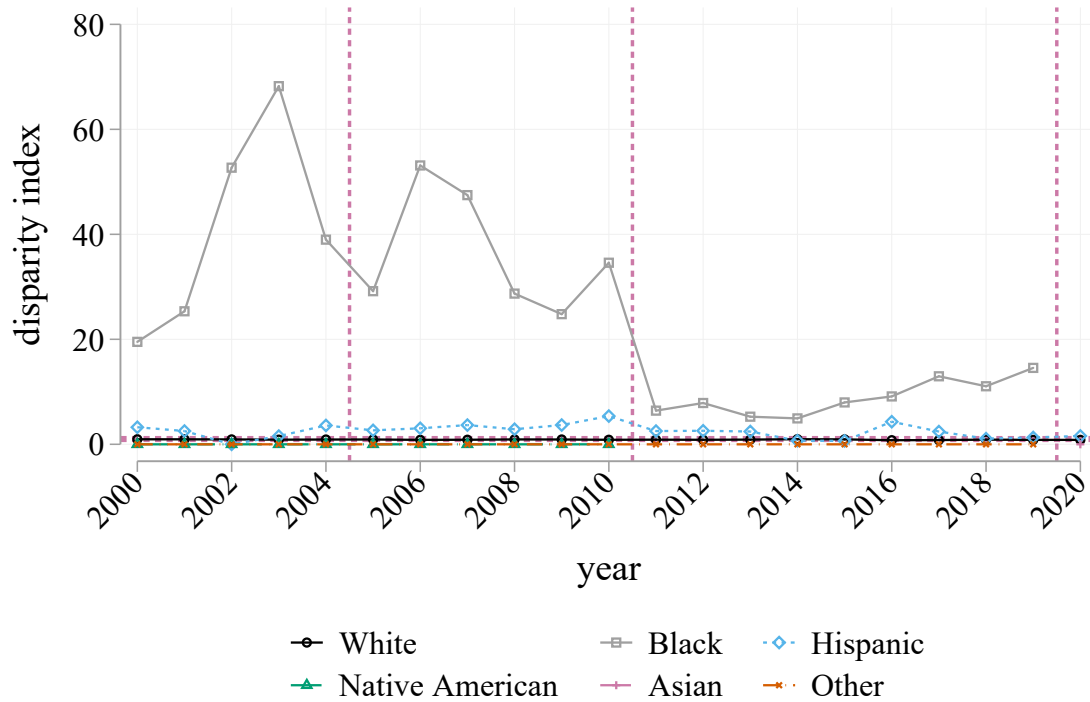

Table 3: Disparity Index from 2000 to 2020 for Holcomb Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.96	19.52	3.25	0	.	0
<b>2001</b>	.95	25.34	2.53	0	.	0
<b>2002</b>	.93	52.7	0	0	.	0
<b>2003</b>	.88	68.23	1.57	0	.	0
<b>2004</b>	.91	38.99	3.59	0	.	0
<b>2005</b>	.92	29.17	2.66	0	.	0
